35.02 LIVESTOCK SANITARY BOARD. The state livestock sanitary board shall consist of five members appointed by the governor each for the term of five years and until his successor qualifies. Three shall be persons engaged in the production of livestock in the state; and the other two practicing veterinarians and graduates of a regularly organized and recognized veterinary college. The dean of the college of veterinary medicine of the University of Minnesota may serve as consultant to the board without vote. Appointments to fill unexpired terms shall be made from the classes to which the retiring members belong. The board shall elect a president and a vice-president from among this number; also a veterinarian and graduate of a regularly organized and recognized veterinary college, not a member, to be its secretary and executive officer for a term of one year and until his successor qualifies. It may also employ, and dismiss at pleasure, an attorney and such other assistants as may be necessary in the performance of its duties. The duties of the secretary shall be prescribed by the board. The compensation of the employees other than the secretary shall be fixed, and their duties prescribed by the board. No member of the board shall receive any compensation for services as such, or as an employee thereof, but the expenses of each, necessarily incurred in the discharge of his duties, shall be paid by the state.

[*R L s 2155; 1913 c 160 s 1; 1925 c 426 art 16 s 1; 1951 c 713 s 5; 1959 c 23 s 1*] (53-43, 5395)

35.03 POWERS, DUTIES, AND REPORTS. The board shall protect the health of the domestic animals of the state, and carry out the provisions of this chapter; employing such means and making such rules and regulations as it may deem expedient to that end. It shall hold quarterly meetings at the seat of government on the first Friday after the second Tuesday in January, April, July and October. Officers shall be elected at the April meeting. On or before October 1 in each even numbered year the board shall report its proceedings and recommendations to the governor biennially, which report shall be published by the state.

[*R L s 2156; 1955 c 847 s 3*] (5396)

35.04 DUTY OF LOCAL BOARDS OF HEALTH. All local boards of health shall assist the board in the prevention, suppression, control, and eradication of contagious and infectious dangerous diseases among domestic animals when directed so to do by the secretary or any member thereof. Two or more local boards may be required in emergencies to cooperate in rendering such assistance. When the rules of any local board conflict with those of the state board, the latter shall prevail.

[*R. L. s. 2157*] (5397)

35.05 AUTHORITY OF STATE AND LOCAL BOARDS. The state board and the local boards, within their respective jurisdictions, may quarantine or kill any domestic animal infected with, or which has been exposed to, any contagious and infectious dangerous disease; but, before killing an animal solely on the ground that it has been exposed, a local board shall procure the authority of the state board. These boards may regulate or prohibit the arrival in, and departure from, the state of animals so infected or exposed, and, in case of violation of any such regulation or prohibition, may detain any animal at its owner's cost. The state board may regulate or prohibit the bringing of domestic animals into the state which, in its opinion, for any reason, may injure the health of live stock therein. All rules and regulations adopted by the board or by any local board under authority of this chapter shall be recorded in the minutes, and one week's published notice thereof shall be given.

[*R. L. s. 2158*] (5398)

35.06 REPORTING DISEASE; COMPELLING TESTIMONY. Every person who knows, or has reason to suspect, that a contagious or infectious disease exists in any domestic animal shall immediately notify the local board of health. Within 24 hours after such board shall receive notice or have knowledge that any such animal is infected with, or has been exposed to, such disease, it shall give written notice thereof to the state board. The board, or any member or authorized agent thereof, may examine, under oath, all persons believed to have knowledge of the existence or threatening of disease among domestic animals and, for this purpose, may take depositions and compel witnesses to attend and testify.

[R. L. s. 2159] (5399)

35.063 QUARANTINE MAINTAINED. The state live stock sanitary board is hereby authorized and empowered to establish and maintain, at the owner's expense, a quarantine of any or all domestic animals or poultry, or both, imported into the state when, in its judgment, such quarantine is necessary to protect the health of the domestic animals or poultry of the state. The quarantine shall be established by the adoption of a resolution declaring the quarantine and specifying the terms, conditions, scope, and application thereof, and the publication of such resolution, as provided for the publication of rules and regulations promulgated by such board.

[1933 c 33 s 1] (5460-17)

35.065 MAY NOT BREAK QUARANTINE. Upon the establishment of the quarantine, it shall be unlawful for the owner or the person having the custody or control of the animals or poultry subject to the quarantine to remove them, or any of them, from the premises where they first come to rest within the state after the interstate shipment or transportation is completed, until released by authority of the state live stock sanitary board.

[1933 c 33 s 2] (5460-18)

35.067 DEFINITION. The word "person," as used in sections 35.063 and 35.065, means any person, firm, or corporation.

[1933 c 33 s 4] (5460-20)

35.069 PENALTY. Any person removing any animal or any poultry while subject to quarantine, as provided in sections 35.063 and 35.065, in violation of the provisions thereof, shall be guilty of a misdemeanor.

[1933 c 33 s 3] (5460-19)

35.07 CONDEMNED ANIMALS TO BE PAID FOR. When the state board shall have duly ordered the vaccination of any domestic animals because the premises whereon such animals are kept are infected with the virus of anthrax, and as a result of such treatment any or all of such animals shall die from vaccination anthrax, as demonstrated by state laboratory findings, the board shall pay to the owner the cash value of such diseased animals, the same to be determined by three competent, disinterested men, one appointed by the state, one by the owner, and a third by the first two.

Such appraisal shall in no case exceed \$60 for a cow, \$125 for a horse, \$5 for a sheep, and \$10 for a hog, except in the case of pure-bred cattle, horses, sheep, or swine, where the pedigree shall be proved by certificates of registration from the herd books where registered, and in that case the maximum appraisal shall not exceed \$150 for a cow, \$150 for a horse, \$25 for a sheep, and \$25 for a hog.

The appraisements made under this section shall be in writing, signed by the appraisers, and certified by the board to the state auditor, who shall draw a warrant on the state treasurer for the amount thereof.

[1921 c. 181 s. 1] (5401)

35.08 KILLING OF DISEASED ANIMALS. When the board shall decide upon the killing of an animal affected with the disease of tuberculosis, paratuberculosis, glanders, or Bangs disease, it shall notify the owner or keeper thereof of such decision and when, in the judgment of the board, such animal may be ordered transported for immediate slaughter by the board, through its executive officer, to any abattoir where the meat inspection division of the United States department of agriculture maintains inspection, or where the animal disease eradication division of the United States department of agriculture or the board may establish field post-mortem inspection, the owner shall receive the value of the net salvage of the carcass.

Before the animal is removed from the premises of the owner the representative or authorized agent of the board shall agree, in writing, with the owner as to the

value of such animal; in the absence of such agreement, there shall be appointed three competent, disinterested men, one appointed by the board, one by the owner, and a third by the first two, to appraise such animal at its full replacement cost-value taking into consideration the purpose and use of such animal.

Such appraisal shall in no case exceed \$125 for a horse, except in the case of purebred horses, where the pedigree shall be proved by certificates of registration from the herd books where registered, and in which case the maximum appraisal shall not exceed \$225.

The appraisement made under this section shall be in writing, signed by the appraisers, and certified by the board to the state auditor, who shall draw a warrant on the state treasurer for the amount due the owner.

35.09 INSPECTION BEFORE KILLING; OWNER'S INDEMNITY. Subdivision 1. Notwithstanding any provision of this chapter to the contrary, neither cattle affected with tuberculosis, paratuberculosis, or Bangs disease, nor glandered horses shall be killed as such until they have been inspected by a veterinarian appointed by the board, and are pronounced by him to be so diseased.

For each animal slaughtered because of tuberculosis, paratuberculosis, glanders, or Bangs disease, the value of the net salvage of the carcass shall be deducted from the appraised value of the living animal; two-thirds of the remainder shall be paid to the owner by the state, except that in all cases where the animal disease eradication division of the United States department of agriculture compensates the owner for such animal, in whole or in part, then the amount of the compensation so received from the federal government shall be deducted from the amount of indemnity payable by the state; provided, that in no case shall any payment be more than \$37.50 for grade females or more than \$75 for any registered purebred animal, and that no payment shall be made unless the owner has complied with all lawful rules and regulations of the board; and, provided, further, that two-thirds of the appraised value of any horse slaughtered, as provided herein, shall be paid to the owner thereof by the state after disposal of the carcass of the horse, as directed by the board.

Subd. 2. The owner of any such animal shall be entitled to indemnity therefor, as herein provided, except in the following cases:

- (1) Indemnity shall not be paid for steers or grade bulls;
- (2) Animals which have not been kept for one year, or since their birth, in good faith, in the state;
- (3) Animals brought into the state, or from one county into another within the state, contrary to any provision of law or rules and regulations of the board;
- (4) Animals diseased at the time of arrival in this state;
- (5) Animals belonging to the United States;
- (6) Animals belonging to institutions maintained by state, county, or municipality;
- (7) Animals which the owner or claimant knew to be diseased or had notice thereof at the time they came into his possession, or when the owner shall have been guilty of negligence by wilfully exposing his animal or animals to Bangs disease, or if the animals have been injected with Bangs disease vaccine, bacterin, or other preparations made from or through the agency of Brucella Micro-organisms unless done in compliance with the rules and regulations of the state board;
- (8) When the owner has received indemnity as a result of a former inspection or tests and has hereafter introduced into his herd any animals which theretofore had not passed the tuberculin or Bangs disease test;
- (9) Where the owner, agent, or person in possession of the animal has not complied with the rules and regulations of the board with respect to animals condemned;
- (10) When the condemned animals are not destroyed within 15 days after date of appraisal, or when the owner refuses to sign the appraisal or report of the members of the appraisal board, except that in extraordinary circumstances and in meritorious cases and at the discretion of the secretary and executive officer of the board the time limit of 15 days may be extended an additional 15 days; pro-

vided, that the owner receives permission to do so from the secretary and executive officer within 15 days of the date of appraisal;

(11) No indemnity or compensation shall be paid for the destruction of any live stock affected with tuberculosis, paratuberculosis, glanders, or Bangs disease unless the entire herd of which the affected live stock is a part, or from which the affected live stock has originated, shall be examined and tested under the supervision of the board, in order to determine if they are free from such disease;

(12) No indemnity or compensation shall be paid for the destruction of any live stock affected with tuberculosis, paratuberculosis, glanders, or Bangs disease unless the owner has carried out the instructions and regulations of the board relating to the cleaning, disinfection and rendering the stables and premises in a sanitary condition within 15 days from the time of removal of these animals from the premises, except when, because of inclement weather or other extenuating circumstances, the time may be extended by the executive officer of the board;

(13) No indemnity or compensation shall be paid for the destruction of any live stock affected with tuberculosis, paratuberculosis, or Bangs disease, if the owner has fed milk or milk products derived from creameries and which have not been pasteurized, as required by state laws and regulations;

(14) If, at any time, the annual appropriation for payment of indemnities becomes exhausted as a result of condemnation and slaughter of animals, the state board shall discontinue making further official tests or to authorize such tests, with the exception that, if an owner signs a waiver, on blanks to be furnished by the board, for payment of indemnity for any animals that may be condemned as the result of a test and inspection, and releasing the state from any obligation to pay indemnity from any future appropriation;

(15) When the owner is a nonresident and neither he nor his duly authorized agent or agents are engaged in breeding live stock in this state.

Subd. 3. When it is determined by the board that it is necessary to eradicate any dangerous, infectious, communicable disease among domestic animals in the state, the presence of which constitutes an emergency so declared by resolution of the board or by the United States department of agriculture, the board may take such steps as it deems reasonable and necessary to suppress and eradicate such disease. If the emergency is declared by the United States department of agriculture, the board may cooperate with the animal disease eradication division of the United States department of agriculture in the suppression and eradication of such disease.

When such an emergency has been declared, the board may appraise and destroy animals affected with, or which have been exposed to such disease, and appraise and destroy property in order to remove the infection and complete the cleaning and disinfection of the premises, and do any act and incur any other expense reasonably necessary to suppress such disease. The board may accept, on behalf of the state, the rules adopted by the animal disease eradication division of the United States department of agriculture pertaining to such disease, authorized under an act of Congress, or such portion thereof deemed necessary, suitable, or applicable, and to cooperate with the animal disease eradication division of the United States department of agriculture, in the enforcement of the rules and regulations so accepted; or it may follow such procedure only as to quarantine or inspection or condemnation or appraisal or destruction or burial of animals, disinfection, and other acts deemed by it reasonably necessary in the suppression of such disease as may be agreed upon and adopted by the board and representatives or authorized agents of the animal disease eradication division of the United States department of agriculture, provided when such procedures have been followed under an emergency declared by the United States department of agriculture, the total expense shall be shared equally between the state and federal governments.

The appraisals of animals affected with, or exposed to, such disease, or contact animals, or property destroyed in order to remove the infection and complete the cleaning and disinfection of the premises where such animals are found, shall be made by an appraisal board consisting of a representative of the board, a representative of the animal disease eradication division of the United States department of agriculture, and the owner of the animals, or his authorized representative. Such appraisals shall be in writing, and shall be signed by the ap-

praisers, and shall be made at the true market value of all animals and property appraised.

Upon destruction of the animals or property, or both, and burial or other disposition of the carcasses of such animals in accordance with the law and regulations of the board and the animal disease eradication division of the United States department of agriculture, and the completion of the cleaning and disinfection of the premises, the state board shall certify the appraisal to the state auditor, who shall draw a warrant on the state treasurer for the proper amount thereof, payable to the owner. If the appraisal is made in respect to animals or other property or both destroyed under an emergency declared by the United States department of agriculture, the state auditor shall draw a warrant on the state treasurer for one-half of the amount thereof payable to the owner, and the remaining one-half of the appraisal to be paid by the federal government under the cooperative arrangement; provided that if said disease is of such nature that the carcasses of the diseased or exposed animals, or any part thereof, may be salvaged for human food or other purposes, the net amount of such salvage paid to the owner shall be deducted from the appraisal, and the remainder shall be paid to the owner by the state or by the state and federal government in the manner heretofore provided.

35.10 INDEMNITY SUBJECT TO LIEN OR MORTGAGE ON ANIMALS.

When any animal is condemned and killed by the state, or any subdivision thereof, pursuant to law, and indemnity is provided therefor, and such animal is subject to a mortgage or other lien and written notice of such lien is given by the lienholder to the board or officer whose duty it is to order payment of such indemnity, before such indemnity is ordered paid, then such lien shall attach to the indemnity to the same extent it attached to the animal and the indemnity shall be payable to the owner and the lienholder.

If the owner and lienholder shall execute and deliver to the board or officer, on blanks to be furnished by the board or officer, a written agreement providing for the distribution and payment of such indemnity, payment thereof shall be made as specified and directed in the agreement, a copy of which agreement shall be transmitted by the board or officer to the officer by whom payment is to be made; otherwise the indemnity shall be placed in the custody of the district court of the county in which the animal was condemned, in the manner provided by section 544.14 for the deposit of moneys claimed adversely by two or more persons, and the state, or subdivision thereof, shall be relieved from further liability on account thereof.

[*1927 c. 274*] (5403-3)

35.11 EXPENSES OF AUTOPSIES AND APPRAISALS. The expense of autopsies and appraisals shall be defrayed by the state, except that, in cases of protest where the animal is found infected, the charges of the expert appointed by the owner shall be paid by him. The compensation of experts and appraisers shall be fixed by the state board, which board shall approve, before payment all claims made under this chapter. No employee of the board shall receive any fee for acting as an expert or appraiser.

[*R. L. s. 2162*] (5404)

35.12 EXPENSES OF KILLING, BURIAL, AND QUARANTINE; LIEN. The expense of killing and burial or destruction of a diseased animal, when the killing was ordered by any board, shall be borne by the town or incorporated place where the animal was kept. The expense of quarantine, when the animal is taken from the possession of its owner, shall be defrayed, four-fifths by the state, and one-fifth by the town or place. When such quarantined animal is left upon the premises of its owner or keeper, he shall bear the expense. When an animal is quarantined while being shipped into the state, the expense shall be borne by the owner or keeper. When the owner or keeper of any animal becomes liable for any expense incurred by any board under this chapter, the board shall have a lien on the animal therefor, and may also maintain an action for the amount.

[*R. L. s. 2163*] (5405)

35.13 ENTRY TO PREMISES FORBIDDEN. During the prevalence among domestic animals of any of the diseases referred to in this chapter, any owner or keeper of such animals may post upon the premises a notice forbidding all persons

to enter any building or enclosure thereon in which animals are kept; and thereafter no person shall so enter, except a member or agent of the state board or of a local board of health.

[R. L. s. 2164] (5406)

35.131 HOG CHOLERA; DEFINITIONS. Subdivision 1. The terms used in sections 35.131 to 35.137 shall have the meanings given them in this section.

Subd. 2. "Hog cholera" means the contagious, infectious, and communicable disease of swine commonly known as hog cholera.

[1965 c 189 s 2]

35.133 APPRAISAL AND INDEMNIFICATION FOR SWINE. The board shall appraise any swine destroyed or ordered destroyed pursuant to sections 35.131 to 35.137 and shall indemnify the owner of such swine in an amount not to exceed \$50 for registered stock and \$40 for grade stock.

[1965 c 189 s 3]

35.134 INSTITUTION OF INDEMNIFICATION FOR HOG CHOLERA. It is hereby recognized and declared that indemnification for destruction of swine infected with or exposed to hog cholera is an expression of the public policy of this state but employed only in the final stages of eradication of the disease, or as a means of preventing or minimizing its recurrence. The board shall not therefore institute an initial program of indemnification pursuant to sections 35.131 to 35.137 until the state has been approved as meeting the requirements specified in phase III of the national hog cholera program.

[1965 c 189 s 4]

35.135 COOPERATION WITH UNITED STATES IN HOG CHOLERA PROGRAM. The board may cooperate with the United States, or any department, agency, or officer thereof, in the control and eradication of hog cholera, including the sharing in payment of indemnities for swine destroyed. No indemnities shall be payable hereunder, nor shall an initial program of indemnification be instituted, unless moneys are available from the United States to pay part of the cost of such indemnities.

[1965 c 189 s 5]

Any person duly commissioned by the governor, or the live stock commission, or any other proper authority of another state to act as a live stock detective, may exercise his powers as such in this state, consistently with the laws thereof, upon paying a fee of \$5 and filing with the secretary of state:

(1) His commission or a certified copy thereof;

(2) A bond to the state in the penal sum of \$2,000, approved by the secretary, and conditioned for the payment of all damages resulting to any person from any wrongful seizure of property within the state, or other unlawful act done therein by him or by any of his deputies; and

(3) A stipulation that service upon such secretary of any summons, order, notice, or process in a civil action upon such bond shall be a sufficient service upon him or his deputies.

Thereupon the secretary of state shall issue certificates to him, and to not exceeding three deputies appointed by him, and for whose acts he shall be responsible, authorizing the holder to perform the duties herein referred to while such commission is in force; and each may seize and hold any animal which he may know, or have reason to believe, has strayed or been stolen from the state whence the commission issued.

[R. L. s. 2167; 1933 c. 303] (5408)
