4.07 GOVERNOR AS STATE AGENCY FOR FEDERAL FUNDS. Subdivision

1. Whenever the United States of America, pursuant to federal law or any rule or regulation promulgated thereunder, makes available to the state of Minnesota or any department, agency, governmental subdivision, or other instrumentality thereof funds for any purpose and no state agency has been otherwise designated by law to apply for, receive, and accept such federal funds, the governor is hereby designated as the state agency for such purpose.

Subd. 2. The governor may designate a state agency or agencies to act for him in applying for, receiving, and accepting federal funds under the provisions of subdivision 1. Such designation of a state department or agency shall be filed in the office of the secretary of state.

Subd. 3. The governor or any state department or agency designated by him shall comply with any and all requirements of federal law and any rules and regulations promulgated thereunder to enable the application for, the receipt of, and the acceptance of such federal funds. The expenditure of any such funds received shall be governed by the laws of the state except insofar as federal requirements may otherwise provide. All such moneys received by the governor or any state department or agency designated by him for such purpose shall be deposited in the state treasury and are hereby appropriated annually in order to enable the governor or the state department or agency designated by him for such purpose to carry out the purposes for which the funds are received. None of such federal moneys so deposited in the state treasury shall cancel and they shall be available for expenditure in accordance with the requirements of federal law.

[1965 c 901 s 87]

4.075 ADMINISTRATION OF HIGHWAY SAFETY PROGRAM; ACCEPTANCE AND DISBURSEMENT OF FEDERAL FUNDS. Subdivision 1. The governor of this state shall be responsible for the administration of the state's highway safety program and, consistent with state law, may contract and cooperate with, and act as agent for state and federal agencies, political subdivisions, and public and private organizations in order to effectuate the purposes of the National Highway Safety Act of 1966 and any amendments or regulations thereto to the end that available federal moneys and other benefits for such purposes may be obtained. The governor may designate an appropriate agency of this state through which this state's safety program may be administered.

Subd. 2. The governor shall provide for the receipt, allocation, and disbursement of federal moneys received pursuant to this act in accordance with state and federal laws and regulations.

Subd. 3. Counties, cities, towns, municipalities, and other political subdivisions are authorized to administer local highway safety programs which have been approved by the governor as part of the state highway safety program and to receive such funds as may be available for such purposes, subject to applicable federal laws and regulations and the approval of the governor.

[1967 c 443 s 1-3]

4.077 ST. PAUL LANDMARK AUTHORITY. Subdivision 1. (1) The old federal courts building in the city of St. Paul, described in the registry of historic sites in section 138.57, and called in this section the "courts building", is an outstanding example of federal architecture of its period and a significant symbol of constitutional government which spans much of this state's history. Its acquisition, preservation, and appropriate use is a concern of the state and an important aspect of state policy declared in the Historic Sites Act of 1965.

(2) The legislature is informed that feasible renovation and remodeling of the structure of this historic site would make it suitable to meet existing and foreseeable need of the state for school, classroom, and other educational use, or for use in the protection of public health, and such practical adaptation of the courts building should not be incompatible, but rather in keeping with, continued observance of the building as an historic monument.

(3) National policy expressed in enactments of the congress (including, but not necessarily limited to, the Surplus Property Act of 1944 and Federal Property and Administrative Services Act of 1949) make this historic site, now held by and subject to the control of the administrator of the general service administration, available to this state, its political subdivisions or instrumentalities upon compliance with the conditions of the statutes and regulations promulgated thereunder for educational use or use in the protection of the public health, or as an historic monument for the benefit of the public.

Subd. 2. (1) To implement state and national policy a public corporation sole is hereby created in the persons of the governors of the state of Minnesota, that is, in the person of the incumbent governor and in the person of each of his successors in turn, named "the governor's office for a Minnesota landmark", but referred to herein as "the corporation".

(2) The purpose of the corporation is the acquisition, preservation, and appropriate use for the public benefit of the courts building, a public purpose, and in pursuance of this purpose it has the powers and duties herein enumerated.

(3) The corporation is empowered to take title to the courts building by a donative grant as an instrumentality of the state, with such restrictions and conditions compatible with appropriate use of the courts building as may be imposed by federal authority, but it shall first determine, after consideration of all relevant factors, including but not limited to potential income from all sources, that ownership and appropriate use will be feasible and probably self-supporting.

(4) "Appropriate use" as a purpose of the corporation created by Laws 1971, Chapter 605, means that the corporation will own, control, manage, and use the courts building if the courts building is transferred to it—

(a) to provide space therein by lease or other arrangement to tax supported and other non-profit educational institutions for school, classroom, or other educational use, or use in protection of public health; or

(b) as an historic monument; and

(c) whether or not used as in (a) or (b), for such other use, private and public, as may be compatible with the conditions and restrictions of the grant, permissible under controlling law and regulation governing the use under the grant, and in accord with the purpose of the corporation.

Subd. 3. Associates of the corporation are:

(a) Members of the executive council of the Minnesota historical society,

(b) Members of the capitol area architectural and planning commission,

(c) The mayor and members of the council of the city of St. Paul, and

(d) Members of a Minnesota nonprofit corporation that shows by its application on behalf of its members who desire to be associates that in pursuit of a purpose expressed in its articles it is engaged in an effort to save the courts building for the public benefit,

who request the corporation to be named an associate. An associate is not a member of the corporation.

Subd. 4. The corporation has a board of advisors consisting of a number, not more than nine, of advisors limited by the corporation bylaws. The corporation may delegate by a bylaw to the board of advisors specified duties and authority in the management of the corporation property and affairs within the area of the authority of the corporation. The term of an advisor is four years except that the first appointments shall be so limited as to result in a staggered ending of

terms with about one half terminating each two years. An advisor receives no compensation but is reimbursed for actual expenses necessarily incurred in the business of the corporation as its bylaws may provide.

Subd. 5. In addition to the powers elsewhere given to the corporation it has the following general powers:

(a) to have succession until dissolved by law;
 (b) to sue and be sued in its corporate name;
 (c) to adopt, alter, and use a corporate seal which shall be judicially noticed;
 (d) to accept, hold, and administer gifts and bequests of money, securities, or other personal property of whatsoever character, absolutely or on trust, for the purposes for which the corporation is created. Unless otherwise restricted by the terms of the gift or bequest, the corporation is authorized to sell, exchange, or otherwise dispose of and to invest or reinvest in such investments as it may determine from time to time the moneys, securities, or other property given or bequeathed to it. The principal of such corporate funds and the income therefrom, and all other revenues received by it from any source whatsoever shall be placed in such depositories as the board of directors shall determine and shall be subject to expenditure for corporate purposes.

(e) to enter into contracts generally and to execute all instruments necessary or appropriate to carry out its corporate purposes;

(f) to appoint and prescribe the duties of officers, agents, and employees as may be necessary to carry out its work and to compensate them;

(g) to purchase all supplies and materials necessary for carrying out of its purposes;

(h) to accept from the United States or the state of Minnesota, or any of their agencies, moneys or other assistance whether by gift, loan, or otherwise, to carry out its corporate purposes, and to enter into such contracts with the United States or the state of Minnesota, or any of the agencies of either, or with any of the political subdivisions of the state, as it may deem proper and consistent with the purposes of this act;

(i) to adopt such bylaws, rules and regulations as it deems necessary for the administration of its functions and the accomplishment of its purpose, including among other matter the establishment of a business office and the regulations, the use of the courts building, and the administration of corporation funds;

(j) to contract and make cooperative agreements with federal, state, and municipal departments and agencies and private corporations, associations, and individuals for the use of the corporation property, including but not limited to rental agreements and concessions;

(k) to convey its property, real and personal, should the accomplishment of its purpose prove to be not feasible or compliance with the terms and conditions of the grant of the courts building appear to be impractical;

(l) to operate and maintain and furnish, restore, and as needed or suitable from time to time, renovate and remodel the courts building; and to accomplish its purpose and in execution of its powers, to borrow money and issue its debentures payable from income either unsecured or secured by pledge of revenues to be derived from the operation of its property or from other sources, or both, and to agree, if in consonance with national policy, that income derived from property conveyed to it by federal authority in excess of costs of repair, rehabilitation, restoration, and maintenance will be used by it only for park or recreational purposes, and to fulfill such agreement; and in its corporate discretion to use any such excess income which has not been so committed for park or recreation purposes, or for educational purposes by supporting educational institutions or activity, or for both of such purposes, and generally to do any and all lawful acts necessary or appropriate to carry out the purposes for which it is created.

Provided, however, that the state of Minnesota is not and shall not be held liable on any contract of the corporation for the payment of money or otherwise except as the legislature may expressly assume or accept responsibility, but this limitation does not prevent or limit the authority of a state department or agency to contract with the corporation for the rental of space, or for any other purpose, if the contract is within the general authority of the department or agency and there are funds available to it.

4.08 [Repealed, 1973 c 757 s 5]

4.10 STATEWIDE PLANNING; PURPOSES. In order that the state benefit from an integrated program for the development and effective employment of its resources, and in order to promote the health, safety, and general welfare of its citizens, it is in the public interest that a planning agency be created in the executive branch of the state government to engage in a program of comprehensive statewide planning. The agency shall act as a directing, advisory, consulting, and coordinating agency to harmonize activities at all levels of government, to render planning assistance to all governmental units, and to stimulate public interest and participation in the development of the state.

[1965 c 685 s 1]

Subd. 3. The state planning officer shall organize the agency and employ such officers, employees, and agents as he shall deem necessary to discharge the functions of his office, and define their duties. Such officers, employees, and agents are in the classified service of the state civil service.

Subd. 4. To the greatest extent practicable the state planning officer shall limit the permanent staff engaged in the programs authorized by sections 4.10 to 4.17 and shall contract for basic research, employ consultants, and use the existing facilities of state departments and agencies. It is desirable that he utilize the facilities of the university of Minnesota to provide (a) continuing geographic projection and detailed studies of the state's population, economy, and land use; (b) a central repository for the research data necessary for such functions; and (c) educational activities essential to the implementation of state planning.

Subd. 5. The governor may direct any state department or other agency of the state government to furnish the state planning agency with such personnel, equipment, and services as are necessary to enable it to carry out its powers and duties, prescribe the terms thereof, including reimbursement of costs thereof. Any moneys paid to a state department or other agency of the state government pursuant to this subdivision are hereby annually appropriated to such department or agency for the same purposes for which its funds were expended in furnishing personnel, equipment, and services to the state planning agency.

Subd. 6. Subject to his control and under such conditions as he may prescribe, the state planning officer may delegate any of his powers, duties, and responsibilities, as conferred by sections 4.10 to 4.17, to the director of planning or to any other state officer or department.

Subd. 7. Within the organization of the state planning agency an office of local and urban affairs is hereby created under the supervision of a local affairs coordinator, who is in the classified service of the state civil service, and who shall be appointed by the state planning officer.

Subd. 8. Within the organization of the state planning agency, the position of state demographer shall be appointed by and serve under the supervision and control of the director of planning. The state demographer shall be professionally competent in the field of demography and shall possess demonstrated ability, based upon experience and past performance.

Subd. 4. The office of local and urban affairs shall: (1) undertake studies to obtain information and data on urban and rural needs, assistance programs, and activities. It shall provide technical assistance and advice in the solution of such problems. The duties of the office shall include, but are not limited to, the assembly, the correlation, and dissemination of physical, social, and economic development data to inform local governmental units and interested persons and organizations of the availability and status of federal, state, and local programs and other resources for the solution of urban and rural problems;

Such special districts or regions shall submit copies of approved applications for such purpose. Unless the requirements of this clause are complied with no state department or agency may provide assistance or funds for any project submitted to the federal government through a special district or region. Where there is a metropolitan planning agency or regional council created by law, the state planning officer may delegate to such council or agency the responsibilities of this clause;

(4) shall have only advisory responsibility or jurisdiction in any area of the state within the jurisdiction of a metropolitan planning agency or regional council created by law.

Subd. 6. The director of planning shall:

(1) Employ personnel with qualifications as are needed to perform the duties prescribed in this section. To the greatest extent practicable, the director of planning shall limit the permanent demographic staff and shall contract for basic research, employ consultants, and use the existing facilities of state departments, other agencies, and the state educational institutions, and

The policies shall require that whenever feasible and practicable, after due consideration having been given to the functions, uses and services for which such buildings or offices are required, that such buildings, facilities and offices, shall be located in areas of the state not included in a standard metropolitan statistical area to the end that a more equitable balance between urban areas and rural areas in the location of state facilities be finally accomplished. The policies shall provide that in determining the location of any such building, facility or office, first priority shall be given to locating it where the service need dictates. Second priority shall be given to locating the building, facility or office outside of a standard metropolitan statistical area, to avoid over-urbanization. Subd. 7. The interdepartmental task force shall report to the governor and to the legislature from time to time and make recommendations concerning local urban mass transit development and the need for state financial assistance in connection therewith.

Subd. 8. The interdepartmental task force may apply for, receive, and accept federal moneys and other moneys which may be made available to the state for mass transit and other purposes. It may contract with local transportation and mass transit agencies and organizations for the planning, development, and provide a supervisory function in connection with the money so received. All moneys received pursuant to this subdivision shall be deposited in the state treasury and are hereby appropriated for the purposes for which the moneys have been tendered.
