238.01 DECLARATION OF LEGISLATIVE FINDINGS AND INTENT. Upon investigation of the public interest associated with cable communications, the legislature of the state of Minnesota has determined that while cable communications serve in part as an extension of interstate broadcasting, that their operations also involve public rights-of-way, municipal franchising, and vital business and community service, which are of state concern; that while said operations must be subject to state oversight, they also must be protected from undue restraint and regulation so as to assure development of cable systems with optimum technology and maximum penetration in this state as rapidly as economically and technically feasible; that the municipalities and the state would benefit from valuable educational and public services through cable communications systems; that the cable communications industry must provide the opportunity for minority participation and benefit which its diversity promises; that the public and the business community would benefit if served by cable channels sufficient to meet the needs of producers and distributors of program and other communication content services; that the cable communications industry is in a period of rapid growth and corporate consolidation and should proceed in accord with regional and statewide service objectives; that these objectives should encourage area-wide service where consistent with the public interest and discourage concentration of control and ownership when not in the public interest; and that many municipalities lack the necessary resources and expertise to plan for and secure these benefits and to protect subscribers and other parties to the public interest in franchise negotiations.

There is, therefore, a need for a state agency to develop a state cable communications policy; to promote the rapid development of the cable communications industry responsive to community and public interest and consonant with policies, regulations and statutes of the federal government; to assure that cable communications companies provide adequate, economical and efficient service to their subscribers, the municipalities within which they are franchised and other parties to the public interest; to encourage the endeavors of public and private institutions, municipalities, associations and organizations in developing programming for public interest; and to provide minorities with the fullest opportunity to make effective use of the medium.

It is the intent of the legislature in the provisions of Laws 1973, Chapter 568 to vest authority in a board to oversee development of the cable communications industry in Minnesota in accordance with the statewide service plan; to review the suitability to practices for franchising cable communications companies to protect the public interest; to set standards for cable communications systems and franchise practices; to assure channel availability for municipal services, educational television, program diversity, local expression and other program and communications content services; to assure that municipal franchising results in communication across metropolitan areas and in neighborhood communities in larger municipalities; to provide consultant services to community organizations and municipalities in franchise negotiations; and, to stimulate the development of diverse instructional, educational, community interest and public affairs programming with full access thereto by cable communications companies, educational broadcasters and public and private institutions operating closed circuit television systems and instructional television fixed services.

Subd. 9. Notwithstanding the provisions of subdivision 6, the board may issue an interim certificate of confirmation after its acceptance of an application in such form and containing such information and supporting documentation as the board may require, such certificate to be valid for not more than five years, to an operating company having a franchise approved by the board to erect a community antenna and establish cable television service for any municipality having a population not greater than 15,000 according to the 1970 federal census; provided that the system shall be constructed and ready for operation by July 1, 1975, in full compliance with all applicable regulations of the federal communications commission and with any special terms or conditions set by the Minnesota board to apply in any individual situation, not subject to chapter 15, to include stipulations regarding minimum channel capacity; extent of two-way capability; means for interconnection; and availability of facilities for public access cablecasting and for local program origination.

Any municipality which is aggrieved by the failure of its franchisee to perform according to the municipal ordinance may appeal to the board for assistance in gaining franchisee compliance with the municipal ordinance by a petition in writing, setting forth all the material facts in the case.

The board at its discretion shall hold a hearing upon such appeals, requiring due notice to be given to all interested parties.

If the board approves the action of the municipality it shall issue notice to it to that effect, but if the board disapproves of its action it shall issue a decision in writing advising the municipality of the reasons for its decision and ordering the municipality to conform with such decision. If the board approves the action of the cable communications company it shall issue notice to it to that effect, but if the board disapproves of its action it shall issue a decision in writing advising the cable communications company of the reasons for its decision and ordering the cable communications company to conform with the decision.

Upon request, or upon its own initiative, the board may investigate the renewal or assignment of such franchise or the conduct of the business being done thereunder,

and may, after hearing, modify, suspend, revoke or cancel such license for cause.

If the municipality fails to suspend, revoke, cancel or declare forfeited a license or to perform any other disciplinary act when lawfully ordered so to do by the board upon appeal or otherwise, within such reasonable time as it may prescribe, the board may itself revoke such license or perform such act with the same force and effect as if performed by the municipality.

238.17 PROVISION OF SERVICE TO EXTENSION AREAS. Subdivision 1. **Conditions for extensions.** Notwithstanding the provisions of section 238.09 or any other law to the contrary, a cable communications system may extend service outside the boundaries of a core service unit if: (1) the extension area is not within the seven county metropolitan area, as defined in section 473.121, subdivision 4; (2) the board first approves, in accordance with procedures set forth in the board's rules, the inclusion of the extension area in the same cable service territory which contains the core service unit; and (3) the cable communications system obtains and files with the board an extension permit issued by the municipality or municipalities which have jurisdiction over the extension area.

Subd. 2. **Exemption.** Notwithstanding any law to the contrary, a cable communications system with less than 50 subscribers in a municipality shall be exempt from obtaining a permit from that municipality, unless the municipality chooses to require a permit.

Subd. 3. **Municipal permit.** Any extension permit awarded pursuant to this section shall be issued at a regular or special meeting of the governing body affording reasonable notice and reasonable opportunity to be heard. Such extension permits shall include:

(a) A schedule of the rates to be charged to the subscribers and the procedure to be used to change subscriber rates;

(b) A stipulation that the parties to the extension permit agree, to the extent applicable, to abide by those terms of the franchise of the core service unit which pertain to system-wide channel capacity, access channels, equipment for production and reproduction or playback of programming, two way communications capability, standards for system installation, maintenance and operation, indemnification of the franchisor, liability insurance, abandonment of service, removal of equipment and termination or cancellation of the franchise; and

(c) A statement to the effect that the expiration date of the extension permit shall be coincident with that of the franchise of the core service unit, provided that a change in the expiration date of the core service unit franchise, by way of either re-

newal or amendment of the franchise, shall automatically apply to the extension permit unless the municipality with jurisdiction over the extension area elects otherwise.

Subd. 4. Joint exercise of powers. Nothing in this section shall be construed to prevent a municipality having jurisdiction over an extension area from becoming a party to the franchise of the core service unit under an agreement for the joint exercise of powers executed pursuant to section 471.59.

Subd. 5. Excess extension permits. Nothing in this section shall be construed to prevent a municipality having jurisdiction over an extension area from prescribing extension permit requirements which are in excess of those required by this section, unless such requirements are inconsistent with this chapter or with any rule of the board.

Subd. 6. Waiver or modification. The board shall liberally construe this section and may, upon petition by either of the parties to an extension permit, waive or modify requirements to abide by the terms of the franchise of the core service unit if the terms are found to be unique to the core service unit and either inapplicable or inoperable in the extension area.

Subd. 7. Transitional provisions. Notwithstanding the provisions of section 238.08 or any other law to the contrary, any cable communications system which, pursuant to the terms of an existing franchise, was lawfully engaged in actual operations and which was providing extension of service to an area or areas outside of its franchise boundaries on April 6, 1978, may continue to provide service within the boundaries of the municipality or municipalities into which service was previously extended, but not to any new subscribers in any other municipality. Any such system shall have until April 30, 1979 to obtain approval of revised cable service territory boundaries which include the extension area being served, and until March 31, 1980 to obtain an extension permit or extension permits from the municipality or municipalities having jurisdiction in the extension area. If the franchise of the core service unit is being exercised pursuant to section 238.09, subdivisions 3, 4, 5, or 9, the franchisee may continue to provide service in the extension area without further proceedings until such time as the certificate of confirmation currently in effect is required to be renewed. The franchisee shall, thereafter, be required to have established a cable service territory approved by the board which includes all areas to be served by the cable communications system and to have obtained an extension permit from each municipality in the cable service territory, except where two or more municipalities agree upon the joint exercise of powers pursuant to section 471.59. Nothing in this subdivision shall be construed to prevent a municipality from requiring an extension permit prior to the time required by this subdivision.
