CHAPTER 156A. WATER WELL CONTRACTORS

Sec.
156A.031 Plastic casings.

156A.031 Plastic casings.

Subdivision 1. The use of plastic casings in water wells is expressly permitted within the state of Minnesota. Any plastic casing used for water wells must meet the current standard specifications of the American Society for Testing and Materials (ASTM) for thermoplastic water well casing pipe and couplings. All plastic water well casing shall be capable of withstanding pressures equal to or greater than 200 pounds per square inch (p.s.i.).

The state commissioner of health may supplement the provisions of this section with rules relating to the installation of plastic water well casing, providing, however, that such rules shall not delay the use of plastic water well casing meeting the requirements of this section.

Prior to January 31, 1981, the state commissioner of health shall adopt rules of statewide application pursuant to chapter 15 concerning the installation and use of plastic water well casing pipes and couplings in the state.

Subd. 2. Until the commissioner implements the rules of statewide application required under subdivision 1, the permission for the use of plastic casings as granted by this section applies to all counties except the counties of St. Louis, Lake, Cook, Carlton, Pine, Kanabec, Chisago, Anoka, Washington, Ramsey, Hennepin, McLeod, Carver, Sibley, Scott, Dakota, Redwood, Brown, Nicollet, LeSueur, Rice, Goodhue, Wabasha, Watonwan, Blue Earth, Waseca, Steele, Dodge, Olmsted, Winona, Faribault, Freeborn, Mower, Fillmore, Koochiching, Wright and Houston.

CHAPTER 160. ROADS, GENERAL PROVISIONS

Sec.
160.20 Drainage.
160.27 Particular uses of right of way; misdemeanors.

160.20 Drainage.

[For text of subs 1 and 2, see M.S.1978]

Subd. 3. **Installation of drain tile along or across highway right-of-way.** (a) When the course of natural drainage of any land runs to a highway, the owner of the land who has been granted a permit as provided in this subdivision may install drain tile along or across the highway right-of-way along the general course of the natural drainageway, provided further that there will be no diversion of drainage waters away from the natural receiving drainageway immediately downstream from the highway. Any installation shall be made in accordance with specifications set forth in the permit and any

MINNESOTA STATUTES 1979 SUPPLEMENT

160.20 ROADS, GENERAL PROVISIONS

rules that apply to the installations. When any installation is made pursuant to this subdivision the highway shall be left in as good condition in every respect as it was before the installation was made.

(b) Any road authority may accept applications for permits for installation of drain tile along or across the right-of-way of a highway under its jurisdiction. The road authority may adopt reasonable rules for the installations and may require a bond before granting any permit. Permits for installation along a highway right-of-way shall insure that the length of the installation is restricted to the minimum necessary to achieve the desired agricultural benefits. No permit shall allow any open trenches to be left on the right-of-way after installation of drain tile is completed. A road authority that grants a permit for drain tile installation shall not be responsible for any damage to that installation resulting from the action of the authority or any other permittee utilizing the right-of-way.

(c) Any person who installs drain tile along or across a highway right-of-way without obtaining a permit as provided in this subdivision is guilty of a misdemeanor.

(d) The commissioner shall take no action pursuant to this subdivision which will result in the loss of any federal aid for highway construction in this state.

(e) For the purpose of this subdivision "highway" means any highway as defined in this chapter which is located outside the corporate limits of any home rule charter or statutory city.

[1979 c 294 s 1]

160.27 Particular uses of right of way; misdemeanors.

[For text of subd 1, see M.S.1978]

Subd. 2. **Benches and shelters for persons waiting for street cars and buses.** Benches and shelters for the convenience and comfort of persons waiting for street cars or buses may be placed and maintained within the limits of any street or highway, including streets and highways within cities, when a license, permit or franchise therefor is first obtained from the road authority. The owners may place advertising on the benches and shelters if authorized by the license, permit or franchise, provided that advertising on shelters shall be limited to one-third of the vertical surface of the shelter. The benches shall not be placed or maintained on the portion of the highway or street prepared and maintained for vehicle traffic.

The council of any city may, by public negotiation or bid, grant franchises for the construction, operation or maintenance of bus shelters and benches on streets and highways within the city. The franchises shall be granted subject to terms and conditions as the city may prescribe, including the payment of compensation to the city. This provision does not preclude the requirement for obtaining permits from the appropriate road authority having jurisdiction for construction within the limits of any trunk highway, county highway, or county state-aid highway.

On streets and highways outside of cities, the road authority may, by public negotiation or bid, grant franchises for the construction, operation or maintenance of bus shelters and benches on streets and highways within the road authority's jurisdiction. The franchises shall be granted subject to terms and conditions as the road authority may prescribe, including the payment of compensation to the road authority.
