

CHAPTER 116

POLLUTION CONTROL AGENCY

116.01	Policy.	116.21	Nutrients in cleaning agents and water conditioners, control; statement of policy.
116.02	Pollution control agency, creation.	116.22	Definitions.
116.03	Director.	116.23	Prohibition.
116.04	Executive secretary.	116.24	Regulations.
116.05	Cooperation.	116.25	Seizure.
116.06	Definitions.	116.26	Restoration.
116.07	Powers and duties.	116.27	Additional prohibition.
116.075	Hearings and records public.	116.28	Lists required.
116.081	Prohibitions.	116.29	Forfeiture.
116.091	Systems and facilities.	116.32	Order to refrain.
116.10	Policy; long-range plan; purpose.	116.33	Proof of offense.
116.101	Hazardous waste control and spill contingency plan.	116.34	Time limited for proceedings.
116.11	Emergency powers.	116.35	Trial of offenses.
116.16	Minnesota state water pollution control fund.	116.36	Definitions.
116.17	Minnesota state water pollution control bonds.	116.37	PCB; prohibited use.
116.18	Water pollution control funds; appropriations and bonds.	116.39	Ozone layer preservation.
		116.41	Waste and waste facilities classification; training and certification.

116.01 POLICY.

To meet the variety and complexity of problems relating to water, air and land pollution in the areas of the state affected thereby, and to achieve a reasonable degree of purity of water, air and land resources of the state consistent with the maximum enjoyment and use thereof in furtherance of the welfare of the people of the state, it is in the public interest that there be established a pollution control agency.

History: 1967 c 882 s 1; 1969 c 1046 s 1

116.02 POLLUTION CONTROL AGENCY, CREATION.

Subdivision 1. A pollution control agency, designated as the Minnesota pollution control agency, is hereby created. The agency shall consist of nine members appointed by the governor, by and with the advice and consent of the senate. One of such members shall be a person knowledgeable in the field of agriculture.

Subd. 2. The membership terms, compensation, removal of members, and filling of vacancies on the agency shall be as provided in section 15.0575.

Subd. 3. The membership of the pollution control agency shall be broadly representative of the skills and experience necessary to effectuate the policy of sections 116.01 to 116.08, except that no member appointed shall be an officer or employee of the state or federal government. Only two members at one time may be officials or employees of a municipality or any governmental subdivision, but neither may be a member *ex-officio* or otherwise on the management board of a municipal sanitary sewage disposal system.

Subd. 4. The agency shall elect a chairman and such other officers as it deems necessary.

Subd. 5. The pollution control agency is the successor of the water pollution control commission, and all powers and duties now vested in or imposed upon said commission by chapter 115, or any act amendatory thereof or supplementary thereto, are hereby transferred to, imposed upon, and vested in the Minnesota pollution control agency, except as to those matters pending before the commission in which hearings have been held and evidence has been adduced. The water pollution commission shall complete its action in such pending matters not later than six months from May 26, 1967. The water pollution

control commission, as heretofore constituted, is hereby abolished, (a) effective upon completion of its action in the pending cases, as hereinbefore provided for; or (b) six months from May 26, 1967, whichever is the earlier.

History: 1967 c 882 s 2; 1969 c 1038 s 1,2; 1973 c 35 s 27; 1976 c 134 s 25-27; 1980 c 509 s 26

116.03 DIRECTOR.

Subdivision 1. (a) The office of director of the pollution control agency is created and is under the supervision and control of the director, who is appointed by the governor under the provisions of section 15.06.

(b) The director may appoint a deputy director and an assistant director who shall be in the unclassified service.

Subd. 2. The director shall organize the agency and employ such assistants and other officers, employees and agents as he may deem necessary to discharge the functions of his office, define the duties of such officers, employees and agents, and delegate to them any of his powers, duties, and responsibilities, subject to his control and under such conditions as he may prescribe. The director may also contract with persons, firms, corporations, the federal government and any agency or instrumentality thereof, the water research center of the university of Minnesota or any other instrumentality of such university, for doing any of the work of his office, and none of the provisions of chapter 16, relating to bids, shall apply to such contracts. All personnel employed and all contracts entered into pursuant to this subdivision shall be subject to the approval of the pollution control agency. Agreements to exercise delegated powers shall be by written order filed with the secretary of state. An employee of the state commissioner of health engaged in environmental sanitation work may transfer to the pollution control agency with the approval of the director. Under such a transfer the employee shall be assigned to a position of similar responsibility and pay without loss of seniority, vacation, sick leave, or other benefits under the state civil service act.

Subd. 3. The director of the pollution control agency is the state agent to apply for, receive, and disburse federal funds made available to the state by federal law or rules and regulations promulgated thereunder for any purpose related to the powers and duties of the pollution control agency or the director. He shall comply with any and all requirements of such federal law or such rules and regulations promulgated thereunder to enable him to apply for, receive, and disburse such funds. All such moneys received by the director shall be deposited in the state treasury and are hereby annually appropriated to him for the purposes for which they are received. None of such moneys in the state treasury shall cancel and they shall be available for expenditure in accordance with the requirements of federal law.

No application for federal funds under this subdivision shall be submitted to federal authorities for approval unless the proposed budget for the expenditure of federal funds is approved by the governor and reported to the legislative committees designated in section 16.165 and, when the legislature is not in session, reported to the standing committee on finance of the senate and the standing committee on appropriations of the house of representatives.

Subd. 4. Before entering upon the duties of his office the director of the pollution control agency shall take and subscribe an oath and give his bond to the state of Minnesota, to be approved by the governor and filed with the secretary of state, in the sum of \$25,000, conditioned for the faithful performance of his duties.

Subd. 5. The salary of the director of the pollution control agency shall be prescribed by the governor, unless otherwise fixed by law.

Subd. 6. The term of the first director of the pollution control agency shall expire with the term of the governor expiring in January, 1971. Thereafter, the term of the director shall be in conformity with the provisions of this section.

History: 1967 c 882 s 3; 1974 c 406 s 9; 1974 c 483 s 2; 1977 c 305 s 19,45

116.04 EXECUTIVE SECRETARY.

The director of the pollution control agency is the executive secretary and chief executive officer of the Minnesota pollution control agency and is responsible for performing the executive duties of such agency prescribed by law.

History: 1967 c 882 s 4

116.05 COOPERATION.

Subdivision 1. All state departments and agencies are hereby directed to cooperate with the pollution control agency and its director and assist them in the performance of their duties, and are authorized to enter into necessary agreements with the agency, and the pollution control agency is authorized to cooperate and to enter into necessary agreements with other departments and agencies of the state, with municipalities, with other states, with the federal government and its agencies and instrumentalities, in the public interest and in order to control pollution under this chapter and chapter 115.

Subd. 2. Upon the request of the pollution control agency the governor may, by order, require any department or agency of the state to furnish such assistance to the agency or its director in the performance of its duties or in the exercise of his powers imposed by law, as the governor may, in his order, designate or specify; and with the consent of the department or agency concerned, the governor may direct all or part of the cost or expense for the amount of such assistance to be paid from the pollution control agency fund or appropriation in such amount as he may deem just and proper.

Subd. 3. The pollution control agency through its director may designate air quality control regions which shall as far as practical follow regional boundaries designated by state statutes or executive order, and consider other jurisdictional boundaries, urban-industrial concentrations and other factors including atmospheric conditions and necessary procedures to provide adequate implementation of air quality standards. Within a designated air quality control region the pollution control agency may by contract delegate its administrative powers to local governmental authorities to be exercised by such authorities within the region and within their own jurisdictional boundaries.

Local governmental authorities which are delegated administrative powers shall have legal authority to conduct such activities, and, in conducting such activities, may enter into contracts, employ personnel, expend funds, acquire property and adopt ordinances for such purposes. Such ordinances may include provisions establishing permit or license requirements and fees therefor.

With the approval of the pollution control agency, local governmental authorities with jurisdiction wholly or in part within a designated region may enter into an agreement as provided by chapter 471 to exercise jointly all or some of the powers delegated by agreement with the pollution control agency. The term "local governmental authorities" as used herein includes every city, county, town or other political subdivision and any agency of the state of Minnesota, or subdivision thereof, having less than statewide jurisdiction.

History: 1967 c 882 s 5; 1969 c 1046 s 2; Ex1971 c 14 s 1; 1973 c 123 art 5 s 7; 1973 c 374 s 19

116.06 DEFINITIONS.

Subdivision 1. The definitions given in this section shall obtain for the purposes of sections 116.01 to 116.08 except as otherwise expressly provided or indicated by the context.

Subd. 2. "Air contaminant" or "air contamination" means the presence in the outdoor atmosphere of any dust, fume, mist, smoke, vapor, gas, or other gaseous, fluid, or particulate substance differing in composition from or exceeding in concentration the natural components of the atmosphere.

Subd. 3. "Air pollution" means the presence in the outdoor atmosphere of any air contaminant or combination thereof in such quantity, of such nature and duration, and under such conditions as would be injurious to human health or welfare, to animal or plant life, or to property, or to interfere unreasonably with the enjoyment of life or property.

Subd. 4. "Emission" means a release or discharge into the outdoor atmosphere of any air contaminant or combination thereof.

Subd. 5. "Emission facility" means any structure, work, equipment, machinery, device, apparatus, or other means whereby an emission is caused to occur.

Subd. 6. "Air contaminant treatment facility" or "treatment facility" means any structure, work, equipment, machinery, device, apparatus, or other means for treatment of an air contaminant or combination thereof to prevent, abate, or control air pollution.

Subd. 7. "Potential air contaminant storage facility" or "storage facility" means any structure, work, equipment, device, apparatus, tank, container, or other means for the storage or confinement, either stationary or in transit, of any substance which, if released or discharged into the outdoor atmosphere, might cause air contamination or air pollution.

Subd. 8. "Person" means any human being, any municipality or other governmental or political subdivision or other public agency, any public or private corporation, any partnership, firm, association, or other organization, any receiver, trustee, assignee, agent, or other legal representative of any of the foregoing, or any other legal entity, but does not include the pollution control agency.

Subd. 9. "Land pollution" means the presence in or on the land of any waste in such quantity, of such nature and duration, and under such condition as would affect injuriously any waters of the state, create air contaminants or cause air pollution.

Subd. 9a. "Waste" has the meaning given it in section 115A.03.

Subd. 9b. "Waste management" has the meaning given it in section 115A.03.

Subd. 9c. "Collection" of waste has the meaning given it in section 115A.03.

Subd. 9d. "Processing" of waste has the meaning given it in section 115A.03.

Subd. 9e. "Disposal" of waste has the meaning given it in section 115A.03.

Subd. 9f. "Intrinsic hazard" of a waste has the meaning given it in section 115A.03.

Subd. 9g. "Intrinsic suitability" of a land area or site has the meaning given it in section 115A.03.

Subd. 9h. "Sewage sludge" has the meaning given it in section 115A.03.

Subd. 10. "Solid waste" means garbage, refuse, sludge from a water supply treatment plant or air contaminant treatment facility, and other discarded waste

materials and sludges, in solid, semi-solid, liquid, or contained gaseous form, resulting from industrial, commercial, mining, and agricultural operations, and from community activities, but does not include hazardous waste; animal waste used as fertilizer; earthen fill, boulders, rock; sewage sludge; solid or dissolved material in domestic sewage or other common pollutants in water resources, such as silt, dissolved or suspended solids in industrial waste water effluents or discharges which are point sources subject to permits under section 402 of the federal water pollution control act, as amended, dissolved materials in irrigation return flows; or source, special nuclear, or by-product material as defined by The Atomic Energy Act of 1954, as amended.

Subd. 11. "Noise" means any sound not occurring in the natural environment, including, but not limited to, sounds emanating from aircraft and highways, and industrial, commercial, and residential sources.

Subd. 12. "Noise pollution" means the presence in the outdoor atmosphere of any noise or combination of noises in such quantity, at such levels, of such nature and duration or under such conditions as could potentially be injurious to human health or welfare, to animal or plant life, or to property, or could interfere unreasonably with the enjoyment of life or property.

Subd. 13. "Hazardous waste" means any refuse or discarded material or combinations of refuse or discarded materials in solid, semi-solid, liquid, or gaseous form which cannot be handled by routine waste management techniques because they pose a substantial present or potential hazard to human health or other living organisms because of their chemical, biological, or physical properties. Categories of hazardous waste materials include, but are not limited to: explosives, flammables, oxidizers, poisons, irritants, and corrosives. Hazardous waste does not include sewage sludge and source, special nuclear, or by-product material as defined by the Atomic Energy Act of 1954, as amended.

Subd. 14. "Deputy director" means the deputy director of the Minnesota pollution control agency.

Subd. 15. "Assistant director" means the assistant director of the Minnesota pollution control agency.

History: 1967 c 882 s 6; 1969 c 1046 s 3,4; 1971 c 727 s 1,2; 1973 c 35 s 29; 1974 c 346 s 1; 1974 c 483 s 3,4; 1980 c 564 art 11 s 1-4

116.07 POWERS AND DUTIES.

Subdivision 1. **Generally.** In addition to any powers or duties otherwise prescribed by law and without limiting the same, the pollution control agency shall have the powers and duties hereinafter specified.

Subd. 2. **Adoption of standards.** The pollution control agency shall improve air quality by promoting, in the most practicable way possible, the use of energy sources and waste disposal methods which produce or emit the least air contaminants consistent with the agency's overall goal of reducing all forms of pollution. The agency shall also adopt standards of air quality, including maximum allowable standards of emission of air contaminants from motor vehicles, recognizing that due to variable factors, no single standard of purity of air is applicable to all areas of the state. In adopting standards the pollution control agency shall give due recognition to the fact that the quantity or characteristics of air contaminants or the duration of their presence in the atmosphere, which may cause air pollution in one area of the state, may cause less or not cause any air pollution in another area of the state, and it shall take into consideration in this connection such factors, including others which it may deem proper, as existing physical conditions, zoning classifications, topography, prevailing wind directions and velocities, and the fact that a standard of air quality which may be proper as to an essentially residential area of the state, may not be proper as to a highly

developed industrial area of the state. Such standards of air quality shall be premised upon scientific knowledge of causes as well as effects based on technically substantiated criteria and commonly accepted practices. No local government unit shall set standards of air quality which are more stringent than those set by the pollution control agency.

The pollution control agency shall promote solid waste disposal control by encouraging the updating of collection systems, elimination of open dumps, and improvements in incinerator practices. The agency shall also adopt standards for the control of the collection, transportation, storage, processing, and disposal of solid waste and the disposal of sewage sludge for the prevention and abatement of water, air and land pollution, recognizing that due to variable factors, no single standard of control is applicable to all areas of the state. In adopting standards, the pollution control agency shall give due recognition to the fact that elements of control which may be reasonable and proper in densely populated areas of the state may be unreasonable and improper in sparsely populated or remote areas of the state, and it shall take into consideration in this connection such factors, including others which it may deem proper, as existing physical conditions, topography, soils and geology, climate, transportation, and land use. Such standards of control shall be premised on technical criteria and commonly accepted practices.

The pollution control agency shall also adopt standards describing the maximum levels of noise in terms of sound pressure level which may occur in the outdoor atmosphere, recognizing that due to variable factors no single standard of sound pressure is applicable to all areas of the state. Such standards shall give due consideration to such factors as the intensity of noises, the types of noises, the frequency with which noises recur, the time period for which noises continue, the times of day during which noises occur, and such other factors as could affect the extent to which noises may be injurious to human health or welfare, animal or plant life, or property, or could interfere unreasonably with the enjoyment of life or property. In adopting standards, the pollution control agency shall give due recognition to the fact that the quantity or characteristics of noise or the duration of its presence in the outdoor atmosphere, which may cause noise pollution in one area of the state, may cause less or not cause any noise pollution in another area of the state, and it shall take into consideration in this connection such factors, including others which it may deem proper, as existing physical conditions, zoning classifications, topography, meteorological conditions and the fact that a standard which may be proper in an essentially residential area of the state, may not be proper as to a highly developed industrial area of the state. Such noise standards shall be premised upon scientific knowledge as well as effects based on technically substantiated criteria and commonly accepted practices. No local governing unit shall set standards describing the maximum levels of sound pressure which are more stringent than those set by the pollution control agency.

The pollution control agency shall adopt standards for the identification of hazardous waste and for the management, identification, labeling, classification, storage, collection, transportation, processing, and disposal of hazardous waste, recognizing that due to variable factors, a single standard of hazardous waste control may not be applicable to all areas of the state. In adopting standards, the pollution control agency shall recognize that elements of control which may be reasonable and proper in densely populated areas of the state may be unreasonable and improper in sparsely populated or remote areas of the state. The agency shall consider existing physical conditions, topography, soils, and geology, climate, transportation and land use. Standards of hazardous waste control shall be premised on technical knowledge, and commonly accepted practices. No local government unit shall set standards of hazardous waste control which are in conflict or inconsistent with those set by the pollution control agency.

Subd. 2a. **Exemptions from standards.** No standards adopted by any state agency for limiting levels of noise in terms of sound pressure which may occur in the outdoor atmosphere shall apply to skeet, trap or shooting sports clubs. Nothing herein shall prohibit a local unit of government from regulating the location and operation of skeet, trap or shooting sports clubs.

Subd. 3. **Administrative rules.** Pursuant and subject to the provisions of chapter 15, and the provisions hereof, the pollution control agency may adopt, amend, and rescind rules governing its own administration and procedure and its staff and employees.

Subd. 4. **Rules and standards.** Pursuant and subject to the provisions of chapter 15, and the provisions hereof, the pollution control agency may adopt, amend and rescind rules and standards having the force of law relating to any purpose within the provisions of Laws 1969, Chapter 1046, for the prevention, abatement, or control of air pollution. Any such rule or standard may be of general application throughout the state, or may be limited as to times, places, circumstances, or conditions in order to make due allowance for variations therein. Without limitation, rules or standards may relate to sources or emissions of air contamination or air pollution, to the quality or composition of such emissions, or to the quality of or composition of the ambient air or outdoor atmosphere or to any other matter relevant to the prevention, abatement, or control of air pollution.

Pursuant and subject to the provisions of chapter 15, and the provisions hereof, the pollution control agency may adopt, amend, and rescind rules and standards having the force of law relating to any purpose within the provisions of Laws 1969, Chapter 1046, for the collection, transportation, storage, processing, and disposal of solid waste and the prevention, abatement, or control of water, air, and land pollution which may be related thereto, and the deposit in or on land of any other material that may tend to cause pollution. The agency shall adopt such rules and standards for the disposal of sewage sludge, addressing the intrinsic suitability of land, the volume and rate of application of sewage sludge of various degrees of intrinsic hazard, design of disposal facilities, and operation of disposal facilities and disposal sites. The agency shall promulgate temporary rules for sewage sludge disposal pursuant to section 15.0412, subdivision 5. Any such rule or standard may be of general application throughout the state or may be limited as to times, places, circumstances, or conditions in order to make due allowance for variations therein. Without limitation, rules or standards may relate to collection, transportation, processing, disposal, equipment, location, procedures, methods, systems or techniques or to any other matter relevant to the prevention, abatement or control of water, air, and land pollution which may be advised through the control of collection, transportation, processing, and disposal of solid waste and the disposal of sewage sludge, and the deposit in or on land of any other material that may tend to cause pollution.

Pursuant and subject to the provisions of chapter 15, and the provisions hereof, the pollution control agency may adopt, amend and rescind rules and standards having the force of law relating to any purpose within the provisions of Laws 1971, Chapter 727, for the prevention, abatement, or control of noise pollution. Any such rule or standard may be of general application throughout the state, or may be limited as to times, places, circumstances or conditions in order to make due allowances for variations therein. Without limitation, rules or standards may relate to sources or emissions of noise or noise pollution, to the quality or composition of noises in the natural environment, or to any other matter relevant to the prevention, abatement, or control of noise pollution.

As to any matters subject to this chapter, local units of government may set emission regulations with respect to stationary sources which are more stringent than those set by the pollution control agency.

Pursuant to chapter 15, the pollution control agency may adopt, amend, and rescind rules and standards having the force of law relating to any purpose within the provisions of this chapter for the management, identification, labeling, classification, storage, collection, treatment, transportation, processing, and disposal of hazardous waste and location of hazardous waste facilities. A rule or standard may be of general application throughout the state or may be limited as to time, places, circumstances, or conditions. The public utilities commission, in cooperation with the pollution control agency, shall set standards for the transportation of hazardous waste in accordance with chapter 221. In implementing its hazardous waste rules, the pollution control agency shall give high priority to providing planning and technical assistance to hazardous waste generators. The agency shall assist generators in investigating the availability and feasibility of both interim and long term hazardous waste management methods. The methods shall include waste reduction, waste separation, waste processing, resource recovery, and temporary storage.

The pollution control agency shall give highest priority in the consideration of permits to authorize disposal of diseased shade trees by open burning at designated sites to evidence concerning economic costs of transportation and disposal of diseased shade trees by alternative methods.

Subd. 4a. Permits. The pollution control agency may issue, continue in effect or deny permits, under such conditions as it may prescribe for the prevention of pollution, for the emission of air contaminants, or for the installation or operation of any emission facility, air contaminant treatment facility, treatment facility, potential air contaminant storage facility, or storage facility, or any part thereof, or for the sources or emissions of noise pollution.

The pollution control agency may also issue, continue in effect or deny permits, under such conditions as it may prescribe for the prevention of pollution, for the storage, collection, transportation, processing, or disposal of waste, or for the installation or operation of any system or facility, or any part thereof, related to the storage, collection, transportation, processing, or disposal of waste.

The pollution control agency may revoke or modify any permit issued under this subdivision and section 116.081 whenever it is necessary, in the opinion of the agency, to prevent or abate pollution.

Subd. 4b. Permits; hazardous waste facilities. The agency shall provide to the waste management board established in section 115A.04, copies of each preliminary and final permit application for a hazardous waste facility immediately upon its submittal to the agency. The agency shall request recommendations on each permit application from the board and shall consult with the board on the agency's intended disposition of the recommendations. Except as otherwise provided in sections 115A.18 to 115A.30, the agency shall commence any environmental review required under chapter 116D within 120 days of its acceptance of a completed preliminary permit application. The agency shall respond to a preliminary permit application for a hazardous waste facility within 120 days following a decision not to prepare environmental documents or following the acceptance of a negative declaration notice or an environmental impact statement. Except as otherwise provided in sections 115A.18 to 115A.30, within 60 days following the submission of a final permit application for a hazardous waste facility, unless a time extension is agreed to by the applicant, the agency shall issue or deny all permits needed for the construction of the proposed facility.

Subd. 4c. Permits; temporary hazardous waste storage facilities. A generator of hazardous waste within the state or an entity composed of or under contract to such generators may apply to the agency for permits for a temporary storage facility for hazardous waste generated within the state. The application

shall demonstrate: (a) that no permitted commercial waste facility is reasonably available to accept the waste, and (b) that the proposed storage facility will be used for storing the hazardous waste generated exclusively by the applicant. The agency shall give highest priority to and shall expedite consideration of such applications. Within 60 days of receipt of a completed application, the agency shall either deny a permit or give notice of its intent to issue a permit. The agency shall publish the notice in the state register and shall notify directly the board and the affected county and city or town. If no hearing is requested on the permit within 30 days following the notice of intent, the agency shall issue the permit. If a hearing is requested, the hearing shall be ordered by the director of the agency and shall be conducted by the state office of administrative hearings in a manner determined by the hearing examiner to be consistent with the expeditious completion of the proceedings as required by this subdivision. The examiner shall give highest priority to and shall expedite the proceedings. The hearing shall be conducted within 45 days of the request, the examiner's report shall be submitted to the agency within 15 days of the hearing, and the agency shall make a final decision on the permit within 30 days of the report. The permit shall be issued for a period not to exceed one year but shall be renewable for four successive one year periods if at the time of each annual renewal the agency determines that there continues to be no permitted commercial waste facility reasonably available to accept the waste and that the facility has been operated in a way that does not cause pollution, impairment or destruction of the environment. Notwithstanding any law or requirement to the contrary, the permit shall be the only permit or approval required. Upon submission of an application for temporary storage facilities and until the permit is issued, the applicant shall store its hazardous wastes in the manner set forth in the application. A temporary storage permit issued or contract entered into for the purposes of a storage permit issued pursuant to this subdivision shall not affect the individual generator's ownership of and responsibility for the waste or the responsibility of the individual generator for removal and final processing or disposal in a permitted hazardous waste facility. The agency shall not be required to promulgate rules pursuant to chapter 15 governing its activity under this subdivision.

Subd. 5. Variances. The pollution control agency may after public hearing grant variances from the requirements of regulations or standards upon such procedure and conditions as it may by regulation prescribe in order to avoid undue hardship and promote the effective and reasonable application and enforcement of laws, regulations, and standards for prevention, abatement and control of water, air, noise, and land pollution, provided that no public hearing shall be required for variances from feed lot regulations and standards relating to family farm and family farm corporation buildings used for the raising of livestock, poultry and other animals in which the animals and waste are confined. Notice of said public hearing shall be given as provided in section 15.0412, subdivision 4.

No local government unit authorized by contract with the pollution control agency pursuant to section 116.05 to exercise administrative powers under this chapter shall grant variances from any law, ordinance, regulation, or standard for prevention, abatement, or control of water, air, noise and land pollution, adopted pursuant to said administrative powers and under the provisions of this chapter, except after notice and public hearing in accordance with Laws 1973, Chapter 733.

Subd. 6. Pollution control agency; exercise of powers. In exercising all its powers the pollution control agency shall give due consideration to the establishment, maintenance, operation and expansion of business, commerce, trade, industry, traffic, and other economic factors and other material matters affecting

the feasibility and practicability of any proposed action, including, but not limited to, the burden on a municipality of any tax which may result therefrom, and shall take or provide for such action as may be reasonable, feasible, and practical under the circumstances.

Subd. 7. Counties; processing of applications for animal lot permits. Any Minnesota county board may, by resolution, with approval of the pollution control agency, assume responsibility for processing applications for such permits as may be required by the pollution control agency under this section for livestock feedlots, poultry lots or other animal lots. The responsibility for such permit application processing, if assumed by a county, may be delegated by the county board to any appropriate county officer or employee.

For the purposes of this subdivision, the term "processing" shall include:

(a) The distribution to applicants of forms provided by the pollution control agency;

(b) The receipt and examination of completed application forms, and the certification, in writing, to the pollution control agency either that the animal lot facility for which a permit is sought by an applicant will comply with applicable regulations and standards, or, if such facility will not comply, the respects in which a variance would be required for the issuance of a permit; and

(c) Rendering to applicants, upon request, such assistance as may be necessary for the proper completion of an application.

For the purposes of this subdivision, the term "processing" may include, at the option of the county board:

(d) Issuing, denying, modifying, imposing conditions upon, or revoking permits pursuant to the provisions of this section or regulations promulgated hereunder, subject to review, suspension, and reversal by the pollution control agency. The pollution control agency shall after written notification have 15 days to review, suspend, modify, or reverse the issuance of the permit. After this period, the action of the county board shall be final, subject to appeal to the district court as provided in section 115.05.

The pollution control agency, by January 1, 1974, and in the manner provided by chapter 15, shall adopt rules governing the issuance and denial of permits for livestock feedlots, poultry lots or other animal lots pursuant to this section. These rules shall apply both to permits issued by counties and to permits issued by the pollution control agency directly.

The pollution control agency shall exercise supervising authority with respect to the processing of animal lot permit applications by a county.

Subd. 8. Public information. The agency may publish, broadcast, or distribute information pertaining to agency activities, laws, rules, standards, and regulations.

Subd. 9. Orders; investigations. The agency shall have the following powers and duties for the enforcement of any provision of this chapter, relating to waste:

(a) to adopt, issue, reissue, modify, deny, revoke, enter into or enforce reasonable orders, schedules of compliance and stipulation agreements;

(b) to require the owner or operator of any system or facility related to the storage, collection, transportation, processing, or disposal of waste to establish and maintain records; to make reports; to install, use, and maintain monitoring equipment or methods; and to make tests, in accordance with methods, at locations, at intervals, and in a manner as the agency shall prescribe; and to provide other information as the agency may reasonably require;

(c) to conduct investigations, issue notices, public and otherwise, and order hearings as it may deem necessary or advisable for the discharge of its duties

under this chapter, including but not limited to the issuance of permits; and to authorize any member, employee, or agent appointed by it to conduct the investigations and issue the notices.

History: 1967 c 882 s 7; 1969 c 1046 s 5-7; 1971 c 727 s 3-5; 1971 c 904 s 1; 1973 c 412 s 13; 1973 c 573 s 1; 1973 c 733 s 1; 1974 c 346 s 2-4; 1974 c 483 s 5-7; 1976 c 76 s 4; 1977 c 90 s 10; 1979 c 304 s 1; 1980 c 564 art 11 s 5-10; 1980 c 614 s 123; 1980 c 615 s 60

116.075 HEARINGS AND RECORDS PUBLIC.

Subdivision 1. All hearings conducted by the pollution control agency pursuant to chapters 115 and 116 shall be open to the public, and the transcripts thereof are public records. All final records, studies, reports, orders, and other documents prepared in final form by order of, or for the consideration of, the agency, are public records. Any documents designated as public records by this section may be inspected by members of the public at all reasonable hours and places under such rules and regulations as the agency shall promulgate.

Subd. 2. Any records or other information obtained by the pollution control agency or furnished to the agency by the owner or operator of one or more air contaminant or water or land pollution sources which are certified by said owner or operator, and said certification, as it applies to water pollution sources, is approved in writing by the director, to relate to (a) sales figures, (b) processes or methods of production unique to the owner or operator, or (c) information which would tend to affect adversely the competitive position of said owner or operator, shall be only for the confidential use of the agency in discharging its statutory obligations, unless otherwise specifically authorized by said owner or operator. Provided, however that all such information may be used by the agency in compiling or publishing analyses or summaries relating to the general condition of the state's water, air and land resources so long as such analyses or summaries do not identify any owner or operator who has so certified. Notwithstanding the foregoing, the agency may disclose any information, whether or not otherwise considered confidential which it is obligated to disclose in order to comply with federal law and regulations, to the extent and for the purpose of such federally required disclosure.

History: 1971 c 887 s 1; 1973 c 374 s 20

116.08 [Repealed, 1973 c 374 s 22]

116.081 PROHIBITIONS.

Subdivision 1. **Obtain permit.** It shall be unlawful for any person to construct, install or operate an emission facility, air contaminant treatment facility, treatment facility, potential air contaminant storage facility, storage facility, or system or facility related to the collection, transportation, storage, processing, or disposal of waste, or any part thereof unless otherwise exempted by any agency rule now in force or hereinafter adopted, until plans therefor shall have been submitted to the agency, and a written permit therefor shall have been granted by the agency. The requirements of this section shall not be applied to motor vehicles.

Subd. 2. **Permits now issued.** Any permit authorized by section 116.07, subdivision 4a issued prior to June 8, 1971, and any regulation which required said prior permit, shall be valid and remain enforceable subject, however, to the right of the agency to modify or revoke said permit or amend said regulation in the same manner as other permits and regulations.

Subd. 3. **Permission for alteration.** It shall be unlawful for any person to make any change in, addition to or extension of any existing system or facility specified in subdivision 1, or part thereof, that would materially alter the

method or the effect of treating or disposing of any air contaminant or solid waste, or to operate said system or facility, or part thereof, so changed, added to, or extended until plans therefor shall have been submitted to the agency, and a written permit therefor shall have been granted by the agency.

116.09 [Repealed, 1969 c 1046 s 12]

116.091 SYSTEMS AND FACILITIES.

Subdivision 1. **Information.** Any person operating any emission system or facility specified in section 116.081, subdivision 1, when requested by the pollution control agency, shall furnish to it any information which he may have which is relevant to pollution or the regulations or provisions of this chapter.

Subd. 2. **Examination of records.** The agency or any employee or agent thereof, when authorized by it, may examine any books, papers, records or memoranda pertaining to the operation of any system or facility specified in subdivision 1.

Subd. 3. **Access to premises.** Whenever the agency deems it necessary for the purposes of this chapter, the agency or any member, employee, or agent thereof, when authorized by it, may enter upon any property, public or private, for the purpose of obtaining information or conducting surveys or investigations.

History: 1971 c 904 s 3

116.10 POLICY; LONG-RANGE PLAN; PURPOSE.

Consistent with the policy announced herein and the purposes of Laws 1963, Chapter 874, the pollution control agency shall, before November 15 of each even numbered year, prepare a long-range plan and program for the effectuation of said policy, and shall make a report also of progress on abatement and control of air and land pollution during each biennium to the legislature with recommendations for action in furtherance of the air and land pollution and solid waste programs.

History: 1969 c 1046 s 10

116.101 HAZARDOUS WASTE CONTROL AND SPILL CONTINGENCY PLAN.

The pollution control agency shall study and investigate the problems of hazardous waste control and shall develop a statewide hazardous waste spill contingency plan detailing the location of hazardous waste facilities and storage sites throughout the state and the needs relative to the interstate transportation of hazardous waste.

The statewide hazardous waste spill contingency plan shall be incorporated into the statewide hazardous waste management plans of the waste management board established by section 115A.04. The pollution control agency shall develop an informational reporting system of hazardous waste quantities generated, processed, and disposed of in the state.

History: 1974 c 346 s 5; 1980 c 564 art 11 s 12

116.11 EMERGENCY POWERS.

In the event that there is imminent and substantial danger to the health and welfare of the people of the state, or of any part thereof, as a result of the pollution of air, land or water; upon such finding, the agency may by emergency order direct the immediate discontinuance or abatement of such pollution without notice and without a hearing or at the request of the agency, the attorney general of the state may bring an action in the name of the state in the appropri-

ate district court for a temporary restraining order to immediately abate or prevent such pollution. Such agency order or temporary restraining order shall remain effective until notice, hearing and determination are effected pursuant to other provisions of law, or, in the interim, as otherwise ordered. Such agency order shall be appealable to the appropriate district court and the provisions of chapter 15 shall govern the procedure and scope of review on such appeal.

116.15 [Repealed, 1973 c 423 s 10]

116.16 MINNESOTA STATE WATER POLLUTION CONTROL FUND.

Subdivision 1. **Purpose.** A Minnesota state water pollution control fund is created as a separate bookkeeping account in the general books of account of the state, to record receipts of the proceeds of state bonds and other money appropriated to the fund and disbursements of money appropriated or loaned from the fund to agencies and subdivisions of the state for the acquisition and betterment of public land, buildings, and improvements of a capital nature needed for the prevention, control, and abatement of water pollution in accordance with the long range state policy, plan, and program established in sections 115.41 to 115.63, and in accordance with standards adopted pursuant to law by the Minnesota pollution control agency. It is determined that state financial assistance for the construction of water pollution prevention and abatement facilities for municipal disposal systems is a public purpose and a proper function of state government, in that the state is trustee of the waters of the state and such financial assistance is necessary to protect the purity of state waters, and to protect the public health of the citizens of the state, which is endangered whenever pollution enters state waters at one point and flows to other points in the state.

Subd. 2. **Definitions.** In this section and section 116.17:

(1) Agency means the Minnesota pollution control agency created by this chapter;

(2) Municipality means any county, city, and town, the metropolitan waste control commission established in chapter 473 and the metropolitan council when acting under the provisions of that chapter or an Indian tribe or an authorized Indian tribal organization, and any other governmental subdivision of the state responsible by law for the prevention, control, and abatement of water pollution in any area of the state;

(3) Pollution control fund means the Minnesota state water pollution control fund created by subdivision 1;

(4) Bond account means the Minnesota state water pollution control bond account created in the state bond fund by section 116.17, subdivision 4;

(5) Terms defined in section 115.01 have the meanings therein given them;

(6) The eligible cost of any municipal project, except as otherwise provided in clause (7), includes (a) preliminary planning to determine the economic, engineering, and environmental feasibility of the project; (b) engineering, architectural, legal, fiscal, economic, sociological, project administrative costs of the agency and the municipality, and other investigations and studies; (c) surveys, designs, plans, working drawings, specifications, procedures, and other actions necessary to the planning, design, and construction of the project; (d) erection, building, acquisition, alteration, remodeling, improvement, and extension of disposal systems; (e) inspection and supervision of construction; and (f) all other expenses of the kinds enumerated in section 475.65.

(7) For state grant purposes hereunder, the eligible cost for grant applicants shall be the eligible cost as determined by the United States environmental

protection agency under the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1314, et seq.

Subd. 3. Receipts. The commissioner of finance and treasurer shall deposit in the fund as received (a) all proceeds of Minnesota water pollution control bonds, except accrued interest and premiums received upon the sale thereof, (b) all other money appropriated by law for purposes stated in subdivision 1, and (c) all money granted to the state for such purposes by the federal government or any agency thereof. All such receipts are annually appropriated for the permanent construction and improvement purposes of the fund, and shall be and remain available for expenditure in accordance with this section and federal law until the purposes for which such appropriations were made have been accomplished or abandoned.

Subd. 4. Disbursements. Disbursements from the fund shall be made by the state treasurer upon order of the commissioner of finance at the times and in the amounts requested by the agency in accordance with the federal laws and regulations and the state appropriation acts governing such disbursements; except that no appropriation or loan of state funds for any project shall be disbursed to any municipality until and unless the agency has by resolution determined the total estimated cost of the project, and ascertained that financing of the project is assured by:

(1) A grant to the municipality by an agency of the federal government within the amount of funds then appropriated to that agency and allocated by it to projects within the state; or

(2) A grant of funds appropriated by state law; or

(3) A loan authorized by state law; or

(4) The appropriation of proceeds of bonds or other funds of the municipality to a fund for the construction of the project; or

(5) Any or all of the means referred to in paragraphs (1) to (4); and

(6) An irrevocable undertaking, by resolution of the governing body of the municipality, to use all funds so made available exclusively for the construction of the project, and to pay any additional amount by which the cost of the project exceeds the estimate, by the appropriation to the construction fund of additional municipal funds or the proceeds of additional bonds to be issued by the municipality; and

(7) Conformity of the project and of the loan or grant application with the state water pollution control plan as certified to the federal government and with all other conditions under federal laws and regulations for a grant of federal funds of the nature and in the amount involved.

Subd. 5. Rules. The agency shall promulgate rules for the administration of grants and loans authorized to be made from the fund, which rules, however, shall not be applicable to the issuance of bonds by the commissioner of finance as provided in section 116.17. The rules shall contain as a minimum:

(1) Procedures for application by municipalities;

(2) Conditions for the administration of the grant or loan;

(3) Criteria for eligibility for grants or loans, including those specified in subdivision 6; and

(4) Such other matters as the agency and the director find necessary to the proper administration of the grant program.

Subd. 6. Priorities. The rules of the agency shall provide that a high priority shall be given to applications from municipalities which because of limited tax base, excessive bonded indebtedness, or critical conditions of water pollution requiring agency action pursuant to law, would face extreme financial hardship without the assistance provided through the state water pollution control fund,

and to applications from sanitary districts or for systems to be constructed to serve more than one municipality. The rules shall contain criteria relating to:

- (1) The extent and nature of pollution,
- (2) Per capita costs of the proposed projects,
- (3) Financial capability of the municipality,
- (4) The technological feasibility of the project, and
- (5) The adequacy of provision made to assure proper and efficient operation and maintenance of the project after the construction is completed.

No municipality shall be eligible to use state grants financed through the Minnesota state water pollution control fund for any additional construction of a wastewater treatment facility after meeting state water quality standards. For purposes of this subdivision, "wastewater treatment facility" means any plant, disposal field, lagoon, or other works not specifically mentioned herein, installed for the purpose of collecting, pumping, treating, stabilizing or disposing of sewage.

Subd. 7. Determination of priorities by director. Notwithstanding any other provision in subdivision 6 to the contrary, the director may, as necessary to establish priorities for applications submitted for federal disposal system construction grant assistance under the Federal Water Pollution Control Act, as amended, and regulations and guidelines of the United States environmental protection agency promulgated pursuant thereto, establish such criteria for determining priorities upon a basis other than that provided herein to the extent required to comply with said federal act, guidelines and regulations, or resulting therefrom.

Subd. 8. Loans. Each loan made to a municipality from the proceeds of state bonds, when authorized by law, shall be evidenced by resolutions adopted by the agency and by the governing body of the municipality, obligating the municipality to repay the loan to the state treasurer, for credit to the water pollution control bond account in the state bond fund, in annual installments including both principal and interest, each in an amount sufficient to pay the principal amount within such period as may be provided by the agency in accordance with the law authorizing the loan, with interest on the declining balance thereof at a rate not less than the average annual interest rate on state bonds of the issue from the proceeds of which the loan was made, and obligating the municipality to provide money for such repayment from user charges, taxes, special assessments, or other funds available to it. For the purpose of repaying such loans the municipality by resolution of its governing body may undertake to fix rates and charges for disposal system service and enter into contracts for the payment by others of costs of construction, maintenance, and use of the project in accordance with section 444.075, and may pledge the revenues derived therefrom, and the agency may condition any such loans upon the establishment of rates and charges or the execution of contracts sufficient to produce the revenues pledged.

Subd. 9. Applications. Applications by municipalities for grants or loans from the fund shall be made to the director of the agency on forms requiring information prescribed by rules of the agency. The director shall certify to the agency those applications which appear to meet the criteria set forth in sections 116.16 to 116.18 and the rules promulgated hereunder, and the agency shall award grants or loans on the basis of the criteria and priorities established in its rules and in sections 116.16 to 116.18.

Subd. 10. Costs. To the extent the agency administers or engages in activities necessary for administering any aspects of the federal water pollution control act as amended, 33 U.S.C. 1251 et seq., the agency may assess the costs of such administrative activities, not to exceed two percent of the federal grant, against the federal construction grant funds allotted to the state.

History: *Ex1971 c 20 s 1; 1973 c 123 art 5 s 7; 1973 c 423 s 1-6; 1973 c 492 s 14; 1976 c 2 s 53; 1976 c 76 s 5; 1977 c 418 s 1; 1980 c 397 s 1; 1980 c 509 s 27*

116.17 MINNESOTA STATE WATER POLLUTION CONTROL BONDS.

Subdivision 1. Purpose and appropriation. For the purpose of providing money to be appropriated or loaned to municipalities from the Minnesota state water pollution control fund for the acquisition and betterment of public land, buildings, and improvements of a capital nature needed for the prevention, control, and abatement of water pollution in accordance with the provisions of section 116.16, when such appropriations or loans are authorized by law and funds therefor are requested by the agency, the commissioner of finance shall sell and issue bonds of the state of Minnesota for the prompt and full payment of which, with interest thereon, the full faith, credit, and taxing powers of the state are irrevocably pledged. Bonds shall be issued pursuant to this section only as authorized by a law specifying the purpose thereof and the maximum amount of the proceeds authorized to be expended for this purpose. Any act authorizing the issuance of bonds for this purpose, together with this section, constitutes complete authority for such issue, and such bonds shall not be subject to restrictions or limitations contained in any other law.

Subd. 2. Issuance of bonds. Upon request by resolution of the agency and upon authorization as provided in subdivision 1 the commissioner of finance shall sell and issue Minnesota state water pollution control bonds in the aggregate amount requested, upon sealed bids and upon such notice, at such price, in such form and denominations, bearing interest at such rate or rates, maturing in such amounts and on such dates, without option of prepayment or subject to prepayment upon such notice and at such times and prices, payable at such bank or banks within or outside the state, with such provisions for registration, conversion, and exchange and for the issuance of notes in anticipation of the sale or delivery of definitive bonds, and in accordance with such further regulations, as the commissioner of finance shall determine, subject to the approval of the attorney general, but not subject to the provisions of sections 15.0411 to 15.0422. The bonds shall be executed by the commissioner of finance and attested by the state treasurer under their official seals. The signatures of the officers on the bonds and any appurtenant interest coupons and their seals may be printed, lithographed, engraved, or stamped thereon, except that each bond shall be authenticated by the manual signature on its face of one of the officers or of an officer of a bank designated by them as authenticating agent. The commissioner of finance shall ascertain and certify to the purchasers of the bonds the performance and existence of all acts, conditions, and things necessary to make them valid and binding general obligations of the state of Minnesota, subject to the approval of the attorney general.

Subd. 3. Expenses. All expenses incidental to the sale, printing, execution, and delivery of bonds pursuant to this section, including but not limited to actual and necessary travel and subsistence expenses of state officers and employees for such purposes, and any expenses of litigation relating to the validity of the bonds, shall be paid from the pollution control fund, and the amounts necessary therefor are appropriated from that fund; provided that if any amount is specifically appropriated for this purpose in an act authorizing the issuance of bonds pursuant to this section, such expenses shall be limited to the amount so appropriated.

Subd. 4. State water pollution control bond account in the state bond fund. The commissioner of finance shall maintain in the state bond fund a separate bookkeeping account which shall be designated as the state water pollution control bond account, to record receipts and disbursements of money transferred to the fund to pay Minnesota state water pollution control bonds and income from

the investment of such money, which income shall be credited to the account in each fiscal year in an amount equal to the approximate average return that year on all funds invested by the state treasurer, as determined by the treasurer, times the average balance in the account that year.

Subd. 5. Appropriations to bond account. The premium and accrued interest received on each issue of Minnesota state water pollution control bonds, and all loan payments received under the provisions of section 116.16, subdivision 5, shall be credited to the bond account. All income from the investment of the Minnesota state water pollution control fund, shall be credited to the bond account identified in Minnesota Statutes 1971, Section 116.16. In order to reduce the amount of taxes otherwise required to be levied, there shall also be credited to the bond account therein from the general fund in the state treasury, on November 1 in each year, a sum of money sufficient in amount, when added to the balance then on hand therein, to pay all Minnesota water pollution control bonds and interest thereon due and to become due to and including July 1 in the second ensuing year. All money so credited and all income from the investment thereof is annually appropriated to the bond account for the payment of such bonds and interest thereon, and shall be available in the bond account prior to the levy of the tax in any year required by the Constitution, Article XI, Section 7. The commissioner of finance and treasurer are directed to make the appropriate entries in the accounts of the respective funds.

Subd. 6. Tax levy. On or before December 1 in each year the state auditor shall levy on all taxable property within the state whatever tax may be necessary to produce an amount sufficient, with all money then and theretofore credited to the bond account, to pay the entire amount of principal and interest then and theretofore due and principal and interest to become due on or before July 1 in the second year thereafter on Minnesota water pollution control bonds. This tax shall be levied upon all real property used for the purposes of a homestead, as well as other taxable property, notwithstanding the provisions of section 273.13, subdivisions 6 and 7, and shall be subject to no limitation of rate or amount until all such bonds and interest thereon are fully paid. The proceeds of this tax are appropriated and shall be credited to the state bond fund, and the principal of and interest on the bonds are payable from such proceeds, and the whole thereof, or so much as may be necessary, is appropriated for such payments. If at any time there is insufficient money from the proceeds of such taxes to pay the principal and interest when due on Minnesota water pollution control bonds, such principal and interest shall be paid out of the general fund in the state treasury, and the amount necessary therefor is hereby appropriated.

History: *Ex1971 c 20 s 2; 1973 c 423 s 7; 1973 c 492 s 14; 1976 c 2 s 172*

116.18 WATER POLLUTION CONTROL FUNDS; APPROPRIATIONS AND BONDS.

Subdivision 1. Appropriation from the fund. The sum of \$155,000,000, or so much thereof as may be necessary, is appropriated from the Minnesota state water pollution control fund in the state treasury to the pollution control agency, for the period commencing on July 23, 1971 and ending June 30, 1981, to be granted and disbursed to municipalities and agencies of the state in aid of the construction of projects conforming to section 116.16, in accordance with the rules, priorities, and criteria therein described. Except as otherwise provided in this subdivision and in subdivision 2, these state funds shall be expended at 15 per centum of the eligible cost of construction and shall be expended only for projects tendered a grant of federal funds under section 201(g), section 202, section 203 or section 206(f) of the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1314 et seq., at 75 per centum of the eligible cost for construction of the treatment works; provided, that not less than ten percent of

such cost shall be paid by the municipality or agency constructing the project. In the event that a municipality is tendered such federal and state grants in a percentage cumulatively exceeding 90 per centum of the eligible cost of construction, the state pollution control agency shall reduce the grant to such municipality under this chapter to the extent necessary to assure that not less than ten percent of such cost shall be paid by said municipality. It is the purpose of this appropriation that a grant of state funds for each project approved in each of the fiscal years ending June 30, 1971 through 1981, shall be made in an amount not less than that required in federal law and regulations as a condition for the grant of federal funds for the project and for all other water pollution control projects for which federal grants are allocated in the same year, in the maximum amount permissible under such law and regulations.

Notwithstanding any other provision, the agency may, in its discretion, and after consideration of the amount of state funds required to match federal funds, make a grant of state funds not exceeding 15 per centum to a municipality that would qualify for a grant of federal funds but desires to initiate construction of a project without a federal grant. The agency may limit the scope and eligible cost of the project.

If a municipality is tendered a grant of federal funds under section 201, paragraph (g), section 202, section 203 or section 206, paragraph (f) of the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1314 et seq., at 85 percent of the eligible cost for construction of treatment works utilizing innovative or alternative wastewater treatment processes and techniques, state funds shall be expended at nine percent of the eligible cost of construction; provided, that not less than six percent of the eligible cost of construction shall be paid by the municipality or agency constructing the project. In the event that a municipality is tendered federal and state grants in a percentage cumulatively exceeding 94 percent of the eligible cost of construction, the state pollution control agency shall reduce the grant to the municipality under this chapter to the extent necessary to assure that the municipality receives no more than 94 percent of the eligible cost of construction.

Subd. 2. Additional purposes of appropriation. If the pollution control agency, acting in accordance with section 116.16, subdivision 4 and rules promulgated by the agency establishing criteria for financial hardship cases, determines that the prevention, control, and abatement of water pollution and the public health of the state requires the construction of a project by a municipality or agency that is unable to provide 10 percent of the eligible cost thereof, the funds appropriated in subdivision 1 may be expended to reduce or eliminate its contribution to the eligible cost.

Subd. 3. [Repealed, 1973 c 423 s 10]

Subd. 4. Bond authorization. For the purpose of providing money appropriated in subdivision 1 for expenditure from the Minnesota state water pollution control fund through grants to municipalities and agencies of the state for the acquisition and betterment of public land, buildings, and improvements of a capital nature needed for the prevention, control, and abatement of water pollution, the commissioner of finance is authorized upon request of the pollution control agency to sell and issue Minnesota state water pollution control bonds in the amount of \$144,000,000, in the manner and upon the conditions prescribed in section 116.17 and in the Constitution, Article XI, Sections 4 to 7. The proceeds of such bonds, except as provided in section 116.17, subdivision 5, are appropriated and shall be credited to the Minnesota state water pollution control fund. The amount of bonds issued pursuant to this authorization shall not exceed at any time the amount needed to produce a balance in the water pollution control fund equal to the aggregate amount of grants then approved and not previously disbursed, plus the amount of grants to be approved in the current and the following fiscal year, as estimated by the pollution control agency.

Subd. 5. **Federal and other funds.** All federal and other funds made available for any purpose of the water pollution control fund are also appropriated to that fund.

Subd. 6. **Continuance of appropriations.** None of the appropriations made in this section shall lapse until the purpose for which it is made has been accomplished or abandoned. The amount of each grant approved for disbursement from the water pollution control fund shall be and remain appropriated for that purpose until the grant is fully disbursed or part or all thereof is revoked by the pollution control agency.

History: *Ex1971 c 20 s 3; 1973 c 423 s 8,9; 1973 c 492 s 14; 1973 c 771 s 1,2; 1975 c 354 s 1,2; 1976 c 2 s 172; 1977 c 418 s 2,3; 1979 c 285 s 1,2*

116.21 NUTRIENTS IN CLEANING AGENTS AND WATER CONDITIONERS, CONTROL; STATEMENT OF POLICY.

The legislature seeks to encourage the Minnesota pollution control agency through the passage of sections 116.21 to 116.35, to set standards limiting the amount of nutrients in various cleaning agents and water conditioning agents. The legislature realizes that the nutrients contained in many of these products serve a valuable purpose in increasing their overall effectiveness, but we are also aware that they overstimulate the growth of aquatic life and eventually lead to an acceleration of the natural eutrophication process of our state's waters. Limitations imposed under sections 116.21 to 116.35 should, however, be made taking the following factors into consideration:

- (1) The availability of safe, nonpolluting, and effective substitutes.
- (2) The difference in the mineral content of water in various parts of the state.
- (3) The differing needs of industrial, commercial and household users of cleaning agents and chemical water conditioners.

History: *1971 c 896 s 1*

116.22 DEFINITIONS.

Subdivision 1. For purposes of sections 116.21 to 116.35, the terms defined in this section shall have the meanings given them.

Subd. 2. "Cleaning agent" means a laundry detergent, dishwashing compound, household cleaner, metal cleaner, degreasing compound, commercial cleaner, industrial cleaner, phosphate compound or other substance intended to be used for cleaning purposes.

Subd. 3. "Nutrient" means a substance or combination of substances which, if added to waters in sufficient quantities, provides nourishment that promotes growth of aquatic vegetation in densities which:

- (a) interfere with use of the waters by man or by any animal, fish or plant useful to man, or
- (b) contribute to degradation or alteration of the quality of the waters to an extent detrimental to their use by man or by any animal, fish or plant that is useful to man.

Subd. 4. "Chemical water conditioner" means a water softening chemical, antiscaling chemical, corrosion inhibitor or other substance intended to be used to treat water.

History: *1971 c 896 s 2*

116.23 PROHIBITION.

No person shall manufacture for use or sale in Minnesota or import into Minnesota for resale any cleaning agent or chemical water conditioner which contains a prescribed nutrient in a concentration that is greater than the prescribed maximum permissible concentration of that nutrient in that cleaning agent or chemical water conditioner.

History: 1971 c 896 s 3

116.24 REGULATIONS.

The pollution control agency may make regulations:

(a) prescribing for the purpose of section 116.23 nutrients and the maximum permissible concentration if any, of a prescribed nutrient in any cleaning agent or chemical water conditioner;

(b) respecting the manner in which the concentration of any prescribed nutrient in a cleaning agent or chemical water conditioner shall be determined; and

(c) requiring persons who manufacture in Minnesota any cleaning agent or chemical water conditioner to maintain books and records necessary for the proper enforcement of sections 116.21 to 116.35 and regulations thereunder, and to submit samples of cleaning agents or water conditioners to the pollution control agency.

History: 1971 c 896 s 4

116.25 SEIZURE.

Subdivision 1. The pollution control agency may seize a cleaning agent or chemical water conditioner which it reasonably believes was manufactured or imported in violation of section 116.23.

Subd. 2. A cleaning agent or chemical water conditioner seized under sections 116.21 to 116.35, may be kept or stored in the building or place where it was seized or may be removed to any other proper place by or at the direction of the pollution control agency.

Subd. 3. Except with the authority of the pollution control agency, no person shall remove, alter or interfere with a cleaning agent or chemical water conditioner seized under sections 116.21 to 116.35, but the pollution control agency shall, at the request of a person from whom it was seized, furnish a sample thereof to the person for analysis.

History: 1971 c 896 s 5

116.26 RESTORATION.

Subdivision 1. When a cleaning agent or chemical water conditioner has been seized under sections 116.21 to 116.35, any person may within two months after the date of seizure, upon prior notice in accordance with subdivision 2 to the pollution control agency by certified mail, apply to the district court within whose jurisdiction the seizure was made for an order of restoration under subdivision 3.

Subd. 2. Notice under subdivision 1 shall be mailed at least 15 days prior to the day on which the application is to be made to the district court and shall specify:

(a) the district court to which the application is to be made;

(b) the place where and the time when the application is to be heard;

(c) the cleaning agent or chemical water conditioner in regard to which the application is to be made; and

(d) the evidence upon which the applicant relies to establish that he is entitled to possession of the cleaning agent or chemical water conditioner.

Subd. 3. Subject to section 116.27 when upon hearing, the district court is satisfied (a) that the applicant is otherwise entitled to possession of the items seized, and (b) that the items seized are not and will not be required as evidence in proceedings under sections 116.21 to 116.35, he shall order that the items seized be restored forthwith to the applicant. Where the court is satisfied that the applicant is otherwise entitled to possession but is not satisfied as to the necessity for retention as evidence, he shall order restoration to the applicant (a) four months after the date of seizure if no proceedings under section 116.23 have been commenced before that time, or (b) upon the final conclusion of any such proceedings.

Subd. 4. When no application has been made under subdivision 1 within two months from the date of seizure, or when upon application no order of restoration is made, the items seized shall be delivered to the pollution control agency, which may dispose of them as it sees fit.

History: 1971 c 896 s 6; 1978 c 674 s 60

116.27 ADDITIONAL PROHIBITION.

Subdivision 1. No manufacturer, wholesaler, or retailer shall sell, possess with intent to sell, or display for sale, a household laundry or dishwashing compound, including household detergents and presoaks, unless a verified or certified test result is filed with the pollution control agency stating the percentage content of phosphorous by weight contained in the product.

Subd. 2. Tests shall be conducted pursuant to the methods and procedures adopted by the federal water quality administration.

History: 1971 c 896 s 7

116.28 LISTS REQUIRED.

Subdivision 1. No household laundry or dishwashing compound, including household detergents and presoaks, shall be sold or displayed for sale unless the product name is on a list prominently displayed near the product display stating the phosphorous content by percentage of weight to weight of the package contents. The products shall be listed in descending order and in letters and figures not less than one half inch high and proportionately wide. No list shall be required if the pollution control agency adopts and has in effect standards for maximum allowable phosphorus content of household laundry and dishwashing compounds.

Subd. 2. The pollution control agency shall supply any person upon request with a current listing of household laundry and dishwashing compounds and their phosphorus contents received pursuant to sections 116.21 to 116.35. This list shall be updated periodically.

History: 1971 c 896 s 8; 1974 c 275 s 1,2

116.29 FORFEITURE.

Subdivision 1. When a person is convicted of an offense under section 116.28 any cleaning agent or chemical water conditioner seized in accordance with sections 116.21 to 116.35 is forfeited to the pollution control agency and shall be disposed of as it directs.

Subd. 2. When a cleaning agent or chemical water conditioner is seized under sections 116.21 to 116.35, the owner or the person in whose possession it was at the time of seizure consents in writing to its destruction, it is forfeited to the pollution control agency and shall be disposed of as it directs.

History: 1971 c 896 s 9

116.30 [Repealed, 1973 c 374 s 22]

116.31 [Repealed, 1973 c 374 s 22]

116.32 ORDER TO REFRAIN.

If a person is convicted of an offense under sections 116.21 to 116.35, the court may, in addition to any punishment it may impose, order that person to refrain from any further violations of the provision of sections 116.21 to 116.35, or regulations for the violation of which he has been convicted, or to cease to carry on any activity specified in the order the carrying on of which, in the opinion of the court, will or is likely to result in any further violation thereof.

History: 1971 c 896 s 12

116.33 PROOF OF OFFENSE.

In a prosecution for an offense under sections 116.21 to 116.35, it is sufficient proof of the offense to establish that it was committed by an employee or agent of the accused whether or not the employee agent is identified or has been prosecuted for the offense, unless the accused establishes that the offense was committed without his knowledge or consent and that he exercised all due diligence to prevent its commission.

History: 1971 c 896 s 13

116.34 TIME LIMITED FOR PROCEEDINGS.

Proceedings in respect of an offense under sections 116.21 to 116.35, may be instituted at any time within two years after the time when the subject matter of the proceedings arose.

History: 1971 c 896 s 14

116.35 TRIAL OF OFFENSES.

Any complaint or information in respect of an offense under sections 116.21 to 116.35, may be heard, tried or determined by a court if the accused is resident or carrying on business within the territorial jurisdiction of that court although the matter of the complaint or information did not arise in that territorial jurisdiction.

History: 1971 c 896 s 15

116.36 DEFINITIONS.

Subdivision 1. For the purposes of sections 116.36 and 116.37 the following terms shall have the meanings given;

Subd. 2. "Agency" means the Minnesota pollution control agency.

Subd. 3. "Director" means the director of the pollution control agency.

Subd. 4. "PCB" means the class of organic compounds known as polychlorinated biphenyls and includes any of several compounds produced by replacing one or more hydrogen atoms on the biphenyl molecule with chlorine. PCB does not include chlorinated biphenyl compounds that have functional groups attached other than chlorine.

Subd. 5. "Person" has the meaning specified in section 115.01, subdivision 10.

History: 1976 c 344 s 1; 1977 c 347 s 16

116.37 PCB; PROHIBITED USE.

Subdivision 1. **Certificate of exemption.** Beginning January 1, 1978, no person shall use, possess, sell, purchase or manufacture PCB or any product containing PCB unless the use, possession, sale, purchase or manufacture of PCB or products containing PCB is exempted by the agency. If the agency finds after there is opportunity for a public hearing on an application presented by any person, that no substitutes or feasible alternatives are reasonably available for PCB or a product containing PCB or class of products containing PCB, it shall grant a certificate of exemption which shall clearly set out the permitted use, possession, sale or purchase of PCB or a PCB product containing PCB. If the agency grants a certificate of exemption, it shall be valid for all subsequent uses of PCB or products containing PCB if the subsequent uses are consistent with the terms and conditions of the certificate of exemption. In granting certificates of exemption the agency shall at all times consider the public health and safety threatened by the use of PCB. In the consideration of certificates of exemption for the use or replacement of existing electrical transformers and capacitors the agency shall review, but not be limited to, considerations of the safety of proven alternatives, replacement costs and rules controlling the final disposal of PCB.

Subd. 2. **Exclusion.** In no event shall the certificate of exemption requirement or the labeling requirement of this section apply to any individual person who purchases or otherwise acquires a product containing PCB intended for consumer use in the home, provided that the use has previously been exempted by the agency and that the use is consistent with the terms and conditions of the certificate of exemption. Wastepaper, pulp, or other wood fiber materials purchased for use within this state in the manufacture of recycled paper products are exempt from the requirements of this section.

Subd. 3. **Labels required.** Beginning July 1, 1977, no person in this state shall add PCB in the manufacture of any new item, product or material, nor shall any person in this state sell any new item, product or material to which PCB has been added unless the PCB or products containing PCB are conspicuously labeled to disclose the presence of PCB and the concentrations of PCB.

Subd. 4. **Rules.** The agency shall promulgate rules by January 1, 1977, governing the granting of certificates of exemption and the requirements of labels specified in subdivision 3. The rules governing the requirement of labels specified in subdivision 3 may require other information relating to the public health and environmental effects of PCB and shall apply to persons holding certificates of exemption.

Subd. 5. **Penalties.** Violations of sections 116.36, 116.37 and 116D.045 shall be subject to the provisions of section 115.071.

History: 1976 c 344 s 2

116.39 OZONE LAYER PRESERVATION.

Subdivision 1. Except as provided by subdivision 3, after July 1, 1979 no person shall sell or offer for sale in this state any pressurized container which contains as a propellant trichloromonofluoromethane, difluorodichloromethane, dichlorotetrafluoroethane, or any other saturated chlorofluorocarbon compound or other similar inert fluorocarbon compound that does not contain reactive carbon hydrogen bonds.

Subd. 2. Commencing October 31, 1977, no person shall sell or offer for sale at wholesale in this state a pressurized container using chlorofluorocarbon propellants unless the container has prominently displayed on the front panel this statement: "Warning: Contains a chlorofluorocarbon that may harm the public health and environment by reducing ozone in the upper atmosphere."

Subd. 3. Nothing in this section prohibits the sale or use of refrigeration equipment containing chlorofluorocarbon compounds, or the sale of chlorofluorocarbon compounds for use in such equipment. This section shall not apply to the sale of chlorofluorocarbon compounds for the following essential medical uses:

- (a) metered-dose steroid human drugs for nasal inhalation;
- (b) metered-dose steroid human drugs for oral inhalation;
- (c) metered-dose adrenergic bronchodilator human drugs for oral inhalation;
- (d) contraceptive vaginal foams for human use; or
- (e) cytology fixatives; nor

for other medical uses by or under the supervision of a licensed physician, dentist or veterinarian, or a hospital, nursing home or other health care institution licensed by the department of health. This section shall also not apply to the sale of chlorofluorocarbon compounds for use in the cleaning, maintenance, testing and repair of electronic equipment.

Subd. 4. A violation of this section is a misdemeanor.

History: 1977 c 373 s 1

116.41 WASTE AND WASTE FACILITIES CLASSIFICATION; TRAINING AND CERTIFICATION.

Subdivision 1. Land disposal facility classification. By January 1, 1982, the pollution control agency shall classify, respectively, facilities for the disposal of solid waste, facilities for the disposal of sewage sludge, and facilities for the disposal of hazardous waste according to the degree of hazard to public health or the environment involved in their operation. The classification of disposal facilities for waste shall be based upon the degree of intrinsic hazard and the volume and rate of application of the waste accepted by a facility, the intrinsic suitability of the location of the facility, the design and operating character of the facility, and other factors deemed relevant by the agency.

Subd. 1a. Hazardous waste classification. By January 1, 1982, the agency shall prescribe by rule criteria for excluding types and categories of hazardous wastes from disposal, criteria for accepting types and categories of wastes as suitable for disposal, and minimum pretreatment standards required as a condition of acceptance for disposal. The criteria and standards shall be based upon the degree of intrinsic hazard of the waste; the availability of conventional processing technologies for reducing, separating, reusing, recycling, and treating the waste; the feasibility and cost of applying the processing technologies in relation to the benefits to be achieved by such application; the class of facility; and other factors deemed relevant by the agency.

Subd. 2. Training and certification programs. The agency shall develop standards of competence for persons operating and inspecting various classes of disposal facilities. The agency shall conduct training programs for persons operating facilities for the disposal of waste and for inspectors of such facilities, and may charge such fees as are necessary to cover the actual costs of the training programs.

The agency shall require operators and inspectors of such facilities to obtain from the agency a certificate of competence. The agency shall conduct examinations to test the competence of applicants for certification, and shall require that certificates be renewed at reasonable intervals. The agency may charge such fees as are necessary to cover the actual costs of receiving and processing applications, conducting examinations, and issuing and renewing certificates.

Subd. 3. **Regulation and enforcement assistance.** The agency shall establish a program to provide technical and financial assistance for regulation and enforcement to counties which have certified operators and inspectors conforming to the requirements of the agency, chapters 400 and 473, and sections 115A.01 to 115A.72.

Subd. 4. **Rules.** The agency shall adopt, amend, and rescind rules as may be necessary to carry out the provisions of this section in accordance with chapter 15.

History: 1973 c 646 s 1; 1980 c 564 art 11 s 13
