Subd. 2. The agency shall review new or revised packages or containers except when such changes involve only color, size, shape or printing. The agency shall review innovations including, but not limited to, changes in constituent materials or combinations thereof and changes in closures. When the agency determines that any new or revised package or container would constitute a solid waste disposal problem or be inconsistent with state environmental policies, the manufacturer of the product may withdraw it from further consideration until such time as the manufacturer may resubmit such product to the agency, or, the agency may, by order made after notice and hearing as provided in chapter 15, and following an additional period not to exceed 30 days during which the environmental quality board may review the proposed action, prohibit the sale of the package or container in the state. Any such prohibition shall continue in effect until revoked by the agency or until the last legislative day of the next following legislative session, whichever occurs first, unless extended by law. This subdivision shall not apply to any package or container sold at retail in this state prior to September 7, 1979.
