31.103 FAIR PACKAGING AND LABELING PROVISIONS.

Subdivision 1. All labels of consumer commodities shall conform with the requirements for the declaration of net quantity of contents of section 4 of the fair packaging and labeling act (15 U.S.C. 1451 et seq.) and federal regulations in effect on April 1, 1975 promulgated pursuant thereto, except to the extent that the commissioner shall exercise his authority to amend such regulations in accordance with the administrative procedure act. Consumer commodities exempted from the requirements of section 4 of the fair packaging and labeling act shall also be exempt from this subdivision.

Subd. 2. The label of any package of a consumer commodity which bears a representation as to the number of servings of such commodity contained in such package shall bear a statement of the net quantity (in terms of weight, measure, or numerical count) of each such serving.

Subd. 3. No person shall distribute or cause to be distributed in commerce any packaged consumer commodity if any qualifying words or phrases appear in conjunction with the separate statement of net quantity of contents required by subdivision 1, but nothing in this section shall prohibit supplemental statements, at other places on the package, describing in nondeceptive terms the net quantity of contents; provided, that such supplemental statements of net quantity of contents shall not include any term qualifying a unit of weight, measure, or count that tends to exaggerate the amount of the commodity contained in the package.

Subd. 4. Whenever the commissioner determines that regulations containing prohibitions or requirements other than those prescribed by subdivision 1, are necessary to prevent the deception of consumers or to facilitate value comparisons as to any consumer commodity, the commissioner shall promulgate, with respect to that commodity, regulations effective to:

(a) Establish and define standards for the characterization of the size of a package enclosing any consumer commodity, which may be used to supplement the label statement of net quantity of contents of packages containing such commodity, but this paragraph shall not be construed as authorizing any limitation on the size, shape, weight, dimensions, or number of packages which may be used to enclose any commodity;

(b) Regulate the placement upon any package containing any commodity, or upon any label affixed to such commodity, of any printed matter stating or representing by implication that such commodity is offered for retail sale at a price lower than the ordinary and customary retail sale price or that a retail sale price advantage is accorded to purchasers thereof by reason of the size of that package or the quantity of its contents;

(c) Require that the label on each package of a consumer commodity bear the common or usual name of such consumer commodity, if any, and, in case such consumer commodity consists of two or more ingredients, the common or usual name of each such ingredient listed in order of decreasing predominance, but nothing in this clause shall be deemed to require that any trade secret be divulged; or

(d) Prevent the nonfunctional slack-fill of packages containing consumer commodities.

For the purposes of clause (d), a package shall be deemed to be nonfunctionally slack-filled if it is filled to substantially less than its capacity for reasons other than protection of the contents of such package or the requirements of machines used for enclosing the contents in such package.

31.121 FOOD ADULTERATION.

A food shall be deemed to be adulterated:

(a) If it bears or contains any poisonous or deleterious substance which may render it injurious to health; but in case the substance is not an added substance such food shall not be considered adulterated under this clause if the quantity of such substance in such food does not ordinarily render it injurious to health; or

(b) If it bears or contains any added poisonous or added deleterious substance, other than one which is a pesticide chemical in or on a raw agricultural commodity; a food additive; or a color additive, which is unsafe within the meaning of section 31.122; or

(c) If it is a raw agricultural commodity and it bears or contains a pesticide chemical which is unsafe within the meaning of section 31.122; or

(d) If it is or it bears or contains any food additive which is unsafe within the meaning of section 31.122; provided that where a pesticide chemical has been used in or on a raw agricultural commodity in conformity with an exemption granted or tolerance prescribed under section 31.122, and such raw agricultural commodity has been subjected to processing such as canning, cooking, freezing, dehydrating, or milling, the residue of such pesticide chemical remaining in or on such processed food shall, notwithstanding the provisions of section 31.122 and this clause, not be deemed unsafe if such residue in or on the raw agricultural commodity has been removed to the extent possible in good manufacturing practice, and the concentration of such residue in the processed food when ready to eat is not greater than the tolerance prescribed for the raw agricultural commodity; or

(e) If it consists in whole or in part of a diseased, contaminated, filthy, putrid, or decomposed substance, or if it is otherwise unfit for food; or

(f) If it has been produced, prepared, packed, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered diseased, unwholesome, or injurious to health; or

(g) If it is in whole or in part the product of a diseased animal or of an animal which has died otherwise than by slaughter, or of an animal that has been fed upon the uncooked offal from a slaughterhouse; or

(h) If its container is composed in whole or in part of any poisonous or deleterious substance which may render the contents injurious to health; or

(j) If any valuable constituent has been in whole or in part omitted or abstracted therefrom; or

(k) If any substance has been substituted wholly or in part therefor; or

(l) If damage or inferiority has been concealed in any manner; or

(m) If any substance has been added thereto or mixed or packed therewith so as to increase its bulk or weight, or reduce its quality or strength or make it appear better or of greater value than it is; or

(n) If it is confectionery, and (1) has partially or completely imbedded therein any nonnutritive object; provided, that this clause shall not apply in the case of any nonnutritive object if in the judgment of the commissioner, as provided by regulations, such object is of practical functional value to the confectionery product and would not render the product injurious or hazardous to health; (2) bears or contains any alcohol, other than alcohol not in excess of one half of one percent by volume derived solely from the use of flavoring extracts; or (3) bears or contains any nonnutritive substance; provided, that this clause shall not apply

to a safe nonnutritive substance which is in or on confectionery by reason of its use for some practical functional purpose in the manufacture, packaging, or storing of such confectionery if the use of the substance does not promote deception of the consumer or otherwise result in adulteration or misbranding in violation of any provision of the Minnesota food law; and provided further, that the commissioner may, for the purpose of avoiding or resolving uncertainty as to the application of this clause, issue regulations allowing or prohibiting the use of particular nonnutritive substances; or

(o) If it is or bears or contains any color additive which is unsafe within the meaning of section 31.122; or

(p) If it is oleomargarine or margarine or butter and any of the raw material used therein consisted in whole or in part of any filthy, putrid, or decomposed substance, or such oleomargarine or margarine or butter is otherwise unfit for food.

While such regulations relating to such substance are in effect, a food shall not, by reason of bearing or containing such substance in accordance with the regulations, be considered adulterated within the meaning of section 31.121, clause (a).

History: 1974 c 84 s 31

31.123 FOOD MISBRANDING.

A food shall be deemed to be misbranded:

(a) If its labeling is false or misleading in any particular, or if its labeling, whether on the commodity itself, its container or its package, fails to conform with the requirements of Laws 1974, Chapter 84;

(b) If it is offered for sale under the name of another food;

(c) If it is an imitation of another food for which a definition and standard of identity have been prescribed by regulations as provided by sections 31.10 and 31.102; or if it is an imitation of another food that is not subject to clause (g), unless in either case its label bears in type of uniform size and prominence the word "imitation" and immediately thereafter the name of the food imitated;

(d) If its container is so made, formed, or filled as to be misleading;

(e) If in package form, unless it bears a label containing (1) the name and place of business of the manufacturer, packer, or distributor, and (2) an accurate statement of the net quantity of the contents in terms of weight, measure, or numerical count, which statement shall be separately and accurately stated in a uniform location upon the principal display panel of the label; provided, that under this subclause reasonable variations shall be permitted, and exemptions as to small packages shall be established by regulations prescribed by the commissioner;

(f) If any word, statement, or other information required by or under authority of the Minnesota food law to appear on the label or labeling is not prominently placed thereon with such conspicuousness (as compared with other

words, statements, designs, or devices, in the labeling) and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use:

(g) If it purports to be or is represented as a food for which a definition and standard of identity have been prescribed by regulations as provided by sections 31.10 and 31.102, unless (1) it conforms to such definition and standard, and (2) its label bears the name of the food specified in the definition and standard, and, insofar as may be required by such regulations, the common names of optional ingredients (other than spices, flavoring, and coloring) present in such food;

(h) If it purports to be or is represented as (1) a food for which a standard of quality has been prescribed by regulations as provided by sections 31.10 and 31.102, and its quality falls below such standard unless its label bears, in such manner and form as such regulations specify, a statement that it falls below such standard, or (2) a food for which a standard or standards of fill of container have been prescribed by regulation as provided by sections 31.10 and 31.102, and it falls below the standard of fill of container applicable thereto unless its label bears, in such manner and form as such regulations specify, a statement that it falls below such standard;

(i) If it is not subject to the provisions of clause (g), unless it bears labeling clearly giving (1) the common or usual name of the food, if any there be, and (2) in case it is fabricated from two or more ingredients, the common or usual name of each such ingredient; except that spices, flavorings, and colorings, other than those sold as such, may be designated as spices, flavorings, and colorings, without naming each; provided, that to the extent that compliance with the requirements of this subclause is impractical or results in deception or unfair competition, exemptions shall be established by regulations promulgated by the commissioner;

(j) If it purports to be or is represented for special dietary uses, unless its label bears such information concerning its vitamin, mineral, and other dietary properties as the commissioner determines to be, and by regulations prescribes as, necessary in order to fully inform purchasers as to its value for such uses;

(k) If it bears or contains any artificial flavoring, artificial coloring, or chemical preservative, unless it bears labeling stating that fact; provided, that to the extent that compliance with the requirements of this clause is impracticable, exemptions shall be established by regulations promulgated by the commissioner. The provisions of this clause and clauses (g) and (i) with respect to artificial coloring do not apply to butter, cheese or ice cream. The provisions with respect to chemical preservatives do not apply to a pesticide chemical when used in or on a raw agricultural commodity which is the product of the soil;

(l) If it is a raw agricultural commodity which is the product of the soil, bearing or containing a pesticide chemical applied after harvest, unless the shipping container of such commodity bears labeling which declares the presence of such chemical in or on such commodity and the common or usual name and the function of such chemical; provided, however, that no such declaration shall be required while such commodity, having been removed from the shipping container, is being held or displayed for sale at retail out of such container in accordance with the custom of the trade;

(m) If it is a product intended as an ingredient of another food and when used according to the directions of the purveyor will result in the final food product being adulterated or misbranded;

(n) If it is a color additive unless its packaging and labeling are in conformity with such packaging and labeling requirements applicable to such color additive prescribed under the provisions of the federal act.

Subdivision 1. Whenever the commissioner finds after investigation that the distribution in the state of Minnesota of any class of food may, by reason of contamination with microorganisms during manufacture, processing, or packing thereof in any locality, be injurious to health, and that such injurious nature cannot be adequately determined after such articles have entered commerce, he then, and in such case only, shall promulgate regulations providing for the issuance, to manufacturers, processors, or packers of such class of food in such locality, of permits to which shall be attached such conditions governing the manufacture, processing, or packaging, or packing of such class of food, for such temporary period of time as may be necessary to protect the public health; and after the effective date of such regulations, and during such temporary period, no person shall introduce or deliver for introduction into commerce any such food manufactured, processed, or packed by any such manufacturer, processor, or packer unless such manufacturer, processor, or packer holds a permit issued by the commissioner as provided by such regulations.

FOOD SALVAGE**31.495 REGULATION OF FOOD SALVAGE OPERATIONS.**

Subdivision 1. For the purposes of this section, the terms defined in this subdivision have the meanings given them:

(a) "Distressed food" means any food, the label of which has been lost, defaced, or obliterated, or food which has been subjected to possible damage due to accident, fire, flood, adverse weather, or to any other similar cause; or food which is suspected of having been rendered unsafe or unsuitable for food use.

(b) "Reconditionable or salvageable food" is distressed food which it is possible to reclaim for food, feed, or seed use as determined by examination by the commissioner or his representatives.

(c) "Reconditioned or salvaged food" is reconditionable or salvageable food which has been reconditioned or salvaged under supervision of the commissioner so as to comply with the standards established under this section.

(d) "Reconditioning" or "salvaging" is the act of cleaning, culling, sorting, scouring, labeling, relabeling, or in any way treating "distressed food" so that it may be deemed to be "reconditioned" or "salvaged food" and therefore is

acceptable for sale or use as human food, animal feed, or seed as provided therefor by the commissioner.

(e) "Salvage food processor" is a person who holds a license under section 28A.04 to operate as a salvage food processor and who receives supervision of his salvaging operations from the commissioner.

(f) "Labeling" means any legend or descriptive matter or design appearing upon an article of food or its container, and includes circulars, pamphlets and the like, which are packed and go with the article to the purchaser, and placards which may be allowed to be used to describe the food.

Subd. 2. (a) It is unlawful for any person either to represent himself to be a salvage food processor, or to engage in the activities of reconditioning or salvaging distressed food, or both, unless he has been issued a license under section 28A.04 authorizing that person to operate as a salvage food processor, which license may not be issued until he has complied with all the provisions of this section and all rules and regulations promulgated under this section.

(b) Before issuing a license, the commissioner shall determine that the applicant's salvage establishment meets at least the minimum requirements adopted by rule and regulation for such an establishment which shall include but not be limited to adequacy of buildings, location, water supply, waste disposal, equipment, hand washing and toilet facilities, and sanitation practices, as the same relate to the protection of the public health and welfare.

Subd. 3. [Repealed, 1974 c 2 s 8]

Subd. 4. (a) No salvage food processor shall sell distressed food for human food, animal feed, or seed unless he first has notified the commissioner who shall inspect and examine the distressed food and determine if it needs to be salvaged. If he determines that the distressed food is reconditionable or salvageable, he shall issue a stop sale order which shall require the distressed food to be held inviolate pending supervision of the reconditioning or salvaging of the distressed food by the commissioner. If distressed food is found to be in need of salvage and is salvageable, the commissioner shall direct it to be salvaged by any salvage food processor who holds a valid license and is duly authorized by the owner of the food or his agent to salvage it, after which the salvaged food shall be released by the commissioner for sale. If it is found not to be salvageable for human food, it may be salvaged for animal feed or seed, unless it is not suitable for animal feed or seed, in which case the commissioner shall render such distressed food unsalable for use as human food, animal feed, or seed and order it disposed of under his supervision.

(b) No person shall offer for sale as human food any distressed food which has been diverted to animal feed or seed use or has been rendered unsalable as human food by the commissioner or his assistants.

Subd. 5. This section does not apply to: (a) Any food manufacturer, distributor, or processor who in the normal course of his business of manufacturing, processing, or distributing of food engages in the activities of reconditioning and salvaging distressed food manufactured, distributed or processed by or for him and not purchased by him solely for the purpose of reconditioning, salvaging, and sale; or (b) Any person who reassembles or disposes of undamaged food which is from lots in which food or packaging materials or containers are damaged in the normal course of commerce or while in his possession and which is not purchased by him solely for the purpose of reconditioning, salvaging, and sale, or any common carrier or his agent who disposes of or otherwise transfers undamaged or distressed food to a person exempt under this section or to a salvage food processor who holds a valid license under this section; or (c) Any person who stores, handles or processes grain or oil seeds in the normal course of his business

except when such person purchases for the purpose of reconditioning, salvaging, and sale as human food grain or oil seeds contaminated by bird, rodent or animal excreta or by chemicals poisonous, injurious or detrimental to human life or health.
