This practice shall include the location and arrangement of tangible objects and features incidental and necessary to the purposes outlined but shall not include the design of structures or facilities with separate and self-contained purposes as ordinarily included in the practice of engineering or architecture or the preparation of boundary surveys or final land plats, as ordinarily included in the practice of land surveying.

No person failing an examination may retake it for six months thereafter, but within such six months he may take an examination for a lesser grade of license. Any licensee failing to renew his license for two years or more after its expiration shall be required to retake the examination before he is issued a new license.

The representative shall give such bond as the board may require conditioned upon the faithful and lawful performance of such work and such bond shall be for

the benefit of persons injured or suffering financial loss by reason of failure of such performance. Such bond shall be written by a corporate surety licensed to do business in the state of Minnesota. Such representative shall also comply with all public liability and property damage insurance requirements imposed by this chapter upon a licensed electrical contractor.

Subd. 11. **Reciprocity.** To the extent that any other state which provides for the licensing of electricians provides for similar action the board may grant licenses, without examination, of the same grade and class to an electrician who has been licensed by such other state for at least one year, upon payment by the applicant of the required fee and upon the board being furnished with proof that the required fee and upon the board being furnished with proof that the qualifications of the applicant are equal to the qualifications of holders of similar licenses in Minnesota.

Subd. 2. **Procedure.** (a) At or before commencement of any installation required to be inspected by the board, the electrical contractor, installer, special electrician, or owner making the installation shall submit to the board a request for inspection, in a form prescribed by the board, together with the fees required for the installation.

The handling fee shall be set by the board in an amount sufficient to pay the cost of printing and handling the form requesting an inspection. If the installation or the noncomplying part will seriously and proximately endanger human life and property, the order of the inspector, when approved by the inspector's superior, shall require immediate condemnation or disconnection. In all other cases, the order of the inspector shall permit a reasonable opportunity for the installation to be brought into compliance with accepted standards of construction for safety to life and property prior to the effective time established for condemnation or disconnection.

(e) Copies of each condemnation or disconnection order shall be served personally or by mail upon the property owner, and the electrical contractor, installer, or special electrician making the installation, and other persons as the board by rule or regulation may direct. An aggrieved party may appeal any condemnation or disconnection order by filing with the board a notice of appeal within ten days after (1) service upon the aggrieved party of the condemnation or
