No option shall be made for a period of greater than two months if no survey is required or for nine months if a survey is required, unless the landowner, in writing, expressly requests a longer period of time. Provided that, if county board approval of the transaction is required pursuant to section 97.481, no time limits shall apply. If the state elects not to purchase property upon which it has an option, it shall pay the landowner \$500 after the expiration of the option period. If the state elects to purchase the property, unless the landowner elects otherwise, payment to the landowner shall be made no later than 90 days following the state's election to purchase the property provided that the title is marketable and the owner acts expeditiously to complete the transaction.

Subd. 7. Disclosure. When the state proposes to purchase lands for natural resources purposes, the landowner shall be given a written statement in layman's terms of the rights and responsibilities provided for in subdivisions 5 and 6. 84.09 CONSERVATION OF WILD RICE.

From time immemorial the wild rice crop of the waters of the state of Minnesota has been a vital factor to the sustenance and the continued existence of the Indian race in Minnesota. The great present market demand for this wild rice, the recent development of careless, wasteful, and despoiling methods of harvesting, together with water conditions of the past few years, have resulted in an emergency, requiring immediate stringent methods of control and regulation of the wild rice crop. The traditional methods of the Indian in such harvesting are not destructive. On the other hand, the despoliation of the rice fields as now progressing under commercial harvesting methods will result in imminent danger of starvation and misery to large bands of these Indians. They are in danger of becoming relief charges upon the state and the counties, many of which are overburdened with relief loads now. It is further true that many of the reservation lands which were ceded in trust to these Indians have never been sold and others are reverting because of non-payment by the purchasers. It is therefore declared the purpose of sections 84.09 to 84.15, and Laws 1939, Chapter 231, to meet this emergency and to discharge in part a moral obligation to these Indians of Minnesota by strictly regulating the wild rice harvesting upon all public waters of the state and by granting to these Indians the exclusive right to harvest the wild rice crop upon all public waters within the original boundaries of the White Earth, Leech Lake, Nett Lake, Vermillion, Grand Portage, Fond du Lac, and Mille Lacs reservations.

84.10 WILD RICE HARVESTED IN CERTAIN LAKES.

It shall be unlawful for any person to take wild rice grain from any of the waters within the original boundaries of the White Earth, Leech Lake, Nett Lake, Vermillion, Grand Portage, Fond du Lac and Mille Lacs reservations except said persons be of Indian blood, or residents of the reservation upon which said wild rice grain is taken.

84.111 WATER CRAFT; METHODS OF HARVEST; HOURS OF HARVEST.

Subdivision 1. It shall be unlawful to use, in harvesting wild rice in any public waters in this state, any water craft other than a boat, skiff, or canoe propelled by hand, which boat, skiff, or canoe may have a top width of not more than 36 inches and a length of not more than 18 feet, or any machine or mechanical device for gathering or harvesting the grain other than with flails not over 30 inches in length nor over one pound in weight, which flails must be held and operated by hand.

Subd. 2. It is unlawful to use any pole for propelling any water craft used in such harvesting which is not forked at the end, with each branch less than 12 inches in length.

Subd. 3. It is unlawful to use in such harvesting any machine or device for gathering the grain other than a flail not over 30 inches in length nor over one pound in weight, held and operated by hand.

Subd. 4. It is unlawful to harvest any wild rice in any public waters between three o'clock p.m. and nine o'clock a.m. following except as otherwise expressly permitted in writing by an authorized committeeman or other agent of the commissioner pursuant to regulations of the commissioner.

Subd. 5. Notwithstanding the provisions of subdivisions 1 to 3, any person holding fee title to all property surrounding a body of public waters may use mechanical harvesting devices to harvest wild rice in those waters. This subdivision does not apply to:

(a) Any body of public waters greater than 125 acres in size;

(b) Any body of public waters to which the public has access directly or through a channel or watercourse;

(c) Any body of public waters within the original boundaries of any Indian reservation; or

(d) Harvesting of wild rice for use or sale by any person other than the owner of the surrounding property.

84.14 DIRECTOR OF WILD RICE HARVEST.

Subdivision 1. The commissioner may appoint a director of the wild rice harvest, who shall be a person of proven experience in the actual cultivation and harvesting of wild rice, and such assistants as may be deemed necessary. The director shall serve at the will of the commissioner in this capacity and shall be appointed from the classified service of the state. The director shall have the duty of investigating the conditions affecting the crop of wild rice upon any waters that are proposed to be harvested.

Subd. 2. The director may, with the approval of the commissioner, appoint deputies or committeemen to assist him in any or all of his duties. The deputies or committeemen shall be in the unclassified service of the state and shall serve without compensation unless otherwise provided for by law. The director, deputies, and committeemen appointed for the purpose of regulating the harvesting of wild rice may be authorized by the commissioner to enforce the laws and regulations in relation thereto in the same manner as conservation officers are authorized so to do.

Subd. 3. The commissioner may by order establish rules and regulations for the harvesting of wild rice on all public waters or portions thereof. Such rules and regulations need not include the opening dates, days, and hours of the wild rice harvesting season.

The opening dates, days, and hours of harvest shall be established by the commissioner and published by posting at such places and in such manner as the commissioner shall by regulation prescribe, no less than 48 hours prior to the opening thereof.

After the season for the taking of wild rice has been designated, the commissioner may alter the season by changing the days and the hours of the day

during which such harvest may be conducted on any or all public waters or portions thereof. Whenever the commissioner alters the season notice thereof shall be published by posting in the vicinity of the waters or rice beds affected by such alteration at such places and in such manner as the commissioner shall by regulation prescribe, no less than 12 hours prior to the time such alterations are to take effect.

Subd. 4. It shall be the duty of the commissioner upon recommendation and advice of the director of wild rice harvest to list the important bodies and beds of wild rice growing in the public waters of this state and to rotate the opening of such beds with the general view that each bed shall be closed to harvesting where the director of wild rice finds that there is need of such closing for the purpose of restocking and reseeded such bed. The commissioner may regulate the days and hours of the day when harvesting shall be permitted in any one or more or all waters or rice beds of the state to obtain optimum quality and quantity of harvested wild rice consistent with adequate reseeded of wild rice beds. It is unlawful to take or harvest wild rice from any waters or rice bed at any time other than during the season, days and hours prescribed and announced by the commissioner therefor.

Subd. 5. The provisions of sections 84.09 to 84.15 shall not limit or supersede any authority otherwise conferred on the commissioner by law.

Subd. 6. Violation of any of the provisions of this section shall constitute a misdemeanor.

84.15 COMMISSIONER MAY RESTRICT HARVEST.

Subdivision 1. The commissioner may, in his discretion, restrict or prohibit the harvesting of wild rice grain on public waters of any designated area when, upon investigation of conditions, it shall be determined necessary or advisable to protect against undue depletion of the crop so as to retard reseeded or restocking of such area or so as to endanger its effective use as a natural food for waterfowl.

Subd. 2. The commissioner may harvest not to exceed 10,000 pounds of wild rice in any calendar year for the purposes of obtaining wild rice seed for experimental and research purposes and replanting in public waters of the state, including waters within the original boundaries of the Minnesota Indian reservations.

84.153 PROPERTY; LEASING, RENTING.

The commissioner is hereby authorized at public or private vendue and at such prices and under such terms and conditions as he may prescribe, to lease any buildings or lands not now authorized to be leased, acquired in the name of the state of Minnesota by any of the several divisions of the department which are not presently needed for the uses and purposes of any of the divisions of the department. No such lease shall be made for a term to exceed two years and shall contain a provision for cancellation at any time by the commissioner upon three months written notice. All money received from these leases shall be credited to the fund from which the property was acquired.

The commissioner is hereby authorized to rent or lease to employees of the various divisions of the department such cabins, buildings, or living quarters as are now or may hereafter be constructed upon state owned lands under the control of the several divisions of the department, when this occupancy is found to be necessary or beneficial to the work of the department. All receipts from rents shall be paid in to the state treasurer and credited to the fund charged with the cost of maintenance of such buildings and are hereby appropriated for such use.

All instruments and transactions so negotiated shall be approved as to form, validity, and execution by the attorney general.

Each such lease for conservation purposes and each such cooperative agreement for the development and management of wild life or other conservation activity on such lands shall contain specific conditions reserving to the public during all open seasons for hunting wild waterfowl at least 40 percent of the area of these lands suitable for hunting waterfowl as public shooting grounds.

Subd. 2. Commissioner may complete Lac qui Parle and Big Stone Lake projects. Inasmuch as the cessation of the work relief program of the Federal government and the entry of the United States into the present war prevented completion of certain contemplated features of the Lac qui Parle and Big Stone Lake water control projects heretofore undertaken by the executive council, in cooperation with Federal agencies, and it is desirable that such projects be completed in order to secure effective control and utilization of the waters affected for the purposes of prevention and control of floods, water conservation, improvement of conditions for game and fish, and other authorized public uses, the commissioner of natural resources is authorized to construct all works and improvements pertaining or incidental to said projects which he deems necessary

When all the property authorized to be sold under said chapter has been sold and the proceeds have been received the executive council shall notify the commissioner of finance thereof. Thereupon the balance remaining in said revolving fund shall be transferred to said projects fund and said revolving fund shall be abolished.

(3) All moneys in said projects fund are hereby appropriated to the commissioner of conservation for the purposes of Laws 1943, Chapter 476, to remain available therefor until expended hereunder or otherwise expressly disposed of by law; provided, that all expenditures hereunder shall be subject to the approval of the governor; provided, that the governor shall not approve any such expenditure without first consulting the legislative advisory commission and securing their recommendation, which shall be advisory only. Failure or refusal of the commis-

sion to make a recommendation promptly shall be deemed a negative recommendation.

Subd. 6. **Transfer to commissioner.** (1) The supervision and control of the Lac qui Parle project lands, which is now vested in the executive council by Laws 1925, Chapter 426; Laws 1933, Chapter 355; Extra Session Laws 1933, Chapter 25; Laws 1935, Chapter 51; Extra Session Laws 1935, Chapter 101; Laws 1937, Chapters 209 and 459; Extra Session Laws 1937, Chapter 89; Laws 1941, Chapters 142 and 518; Laws 1943, Chapter 476; Laws 1945, Chapter 325; Laws 1947, Chapter 571; and Minnesota Statutes, Section 84.154, are hereby transferred to the commissioner of natural resources.

84.415 LICENSES, PERMITS.

Subdivision 1. **Utility companies, permit to cross state owned lands.** The commissioner of natural resources shall, on or before January 1, 1974, promulgate in the manner provided by chapter 15, regulations containing standards and criteria governing the sale of licenses permitting the passage of utilities over public lands and waters. The regulations shall include provisions to insure that all projects for which licenses are sold will have a minimum adverse impact on the environment. The commissioner of natural resources may, at public or private sale and for such price and upon such terms as are specified in the regulations (except where prohibited by law) grant licenses permitting passage over, under, or across any part of any school, university, internal improvement, swamp, tax-forfeited or other land or public water under the control of the commissioner of natural resources, of telephone, telegraph, and electric power lines, cables or conduits, underground or otherwise, or mains or pipe lines for gas, liquids, or solids in suspension. Any such license shall be cancelable upon reasonable notice by the commissioner for substantial violation of its terms, or if at any time its continuance will conflict with a public use of the land or water over or upon which it is granted, or for any other cause. All such land or public water shall remain subject to sale or lease or other legal use, but in case of sale, lease or other use there may be excepted from the grant or other disposition of land or public water all rights included in any license over, under, or across it, and the license may contain an agreement that there will be such exception. The commissioner may charge a fee in lieu of but not less than that authorized by subdivision 5 if he issues a license containing an agreement that there will be such an exception. All rights so excepted shall be reserved to the state and be cancelable by the commissioner for the same reasons or cause as they might have been canceled before such sale, lease or other use of the land or water. Upon such cancellation, which shall be only after reasonable notice to the licensee, all rights granted by the license shall be vested in the state and may be granted again by the commissioner on the terms and conditions he may prescribe, but subject to cancellation for the same reasons or causes as they might have been originally canceled unless ownership of the fee and of the license are merged. Any license granted before April 13, 1951, may be governed by it if the licensee and commissioner so agree. Reasonable notice as used in this subdivision means a 90 day written notice addressed to the record owner of the license at the last known address, and upon cancellation the commissioner may grant extensions of time to vacate the premises affected.

Subd. 2. [Repealed, 1967 c 536 s 3]

The commissioner may at any time order such changes or modifications respecting construction or maintenance of structures or other conditions of the license or permit as he deems necessary to protect the public health and safety.

Subd. 4. **Attorney general, duties.** The license or permit to be granted shall be in a form to be prescribed by the attorney general; shall describe the location of the license or permit thereby granted and shall continue until canceled by the commissioner, subject to change or modification as herein provided.

Subd. 5. **Fee.** In the event the construction of such lines causes damage to timber or other property of the state on or along the same, the license or permit shall also provide for payment to the state treasurer of the amount thereof as may be determined by the commissioner.

All money received under such licenses or permits shall be credited to the fund to which other income or proceeds of sale from such land would be credited, if provision therefor be made by law, otherwise to the general fund.

84.523 BWCA; MANAGEMENT OF MINERALS AND RELATED RESOURCES.

Subdivision 1. **Definition.** For the purposes of this section, the term "boundary waters canoe area" means that area of lands and waters included within the boundaries designated in federal regulation REG U-3, 36 Code of Federal Regulations 293.16, as that regulation provided on January 1, 1975.

Subd. 2. **Intent.** The legislature finds that a combination of state legislative and administrative actions and court decisions have established a public policy of primarily wilderness management for state lands and waters within the boundary waters canoe area. This state policy, together with a similar federal policy and international actions consistent with these state and federal policies, has created an area of hundreds of thousands of acres of land and water containing myriad lakes and streams, wooded shores, virgin forests, and other natural attractions of surpassing scenic beauty and solitude, free from substantially all commercial activities and artificial development such as hydroelectric dams and power lines, resorts, roads, sawmills, and timber harvesting in no-cut zones.

Subd. 3. **Mining; prohibition.** Except with the prior approval of the legislature in those cases of national emergency which have been declared by the Congress and which direct the need for exploration and mining of federal lands within the boundary waters canoe area, and after an investigation and determination by the commissioner of natural resources pursuant to subdivision 5 no state owned or administered land may be leased for exploration or mining of minerals, and no state permits, licenses or leases shall be issued to use any other state natural resources for any mineral exploration or mining operations in the boundary waters canoe area.

Subd. 4. **Peat harvesting; prohibition.** Except with prior approval of the legislature in those cases of national emergency which have been declared by the Congress and which direct the need for exploitation of peat deposits on federal land within the boundary waters canoe area, and after an investigation and determination by the commissioner of natural resources pursuant to subdivision 5 no state owned or administered land may be leased for the purpose of harvesting peat, and no state permits, licenses or leases shall be issued to use any other state natural resources for the purpose of harvesting peat in the boundary waters canoe area.

Subd. 5. **Investigation and determination.** In the event of a national emergency declared by Congress which requires, for the protection of national interests, exploitation of natural resources of the type found in the boundary waters canoe area, the commissioner of natural resources shall investigate and determine if there are reasonable alternative methods for providing the needed resources. If the investigation shows there are reasonable alternatives to exploitation of natural resources in the area, no permit for development shall be issued. If the commissioner of natural resources determines there is a need to provide resources from within the boundary waters canoe area, and that there is no reasonable alternative available to meet the need, a permit may be issued upon approval by the state legislature.

- (3) Three residents of Lake County appointed by the governor; and
- (4) Eight residents of the state residing outside of the aforementioned counties appointed by the governor.

The governor shall designate one of the appointees to serve as chairman and the advisory task force may elect such other officers as it deems necessary. The advisory task force shall be subject to the provisions of section 15.059, except that the advisory task force shall not expire until June 30, 1983.
