REGULATION OF SURFACE WATER USE

86B.201 STATE LAW AND LOCAL ORDINANCE AUTHORITY.

Subdivision 1. **Application of state law.** The provisions of this chapter and of other applicable laws of this state shall govern the operation, equipment, numbering, and all other related matters for a watercraft operated on the waters of this state, or the time when an activity regulated by this chapter may take place.

Subd. 2. **Local authority to adopt ordinance.** (a) This chapter does not limit the authority of a political subdivision of this state to adopt regulations that are not inconsistent with this chapter and the rules of the commissioner relating to the use of waters of this state that are wholly or partly within the territorial boundaries of a county or entirely within the boundaries of a city.

(b) A city of the first class of over 200,000 or the park board of the city may forbid the use of motorboats or boats with attached motors on its lakes.

History: 1990 c 391 art 9 s 9

86B.205 WATER SURFACE USE ORDINANCE.

Subdivision 1. **Assistance.** The commissioner shall develop and publish guidelines to assist counties adopting water surface use ordinances for waters within their jurisdiction.

Subd. 2. **Surface use ordinances.** (a) A county board may, by ordinance, regulate the surface use of bodies of water located entirely or partially within the county and not located entirely within the boundary of a single city or lake conservation district established by law.

(b) If a body of water is located within more than one county, a surface use ordinance is not effective until adopted by the county boards of all the counties where the body of water lies under section 471.59 or placed into effect by order of the commissioner under subdivision 9.

(c) With the authorization of an affected city or lake conservation district, a county board may assume and exercise the powers in subdivisions 2 to 5 with respect to bodies of water lying entirely within that city or lake conservation district. The regulation by the county of the surface use of a portion of a body of water located within the boundary

of a city must be consistent with any city regulation existing on May 25, 1973, of the surface use of that portion of the body of water. After January 1, 1975, the ordinance must be consistent with the provisions of this chapter and rules of the commissioner under this chapter.

Subd. 3. Prior ordinances invalid without approval. A surface use zoning ordinance adopted under subdivisions 2 to 5 by a local governmental unit after May 25, 1973, is invalid unless it is approved by the commissioner.

Subd. 4. Approval of ordinances. A proposed surface use zoning ordinance must be submitted to the commissioner for review and approval before adoption. The commissioner must approve or disapprove the proposed ordinance within 120 days after receiving it. If the commissioner disapproves the proposed ordinance, the commissioner must return it to the local governmental unit with a written statement of the reasons for disapproval.

Subd. 5. County regulatory authority. A county board may:

(1) regulate and police public beaches, public docks, and other public facilities for access to a body of water, except:

(i) regulations are subject to subdivision 6;

(ii) a county board may not regulate state accesses; and

(iii) a municipality may by ordinance preempt the county from exercising power under this subdivision within its jurisdiction;

(2) regulate the construction, configuration, size, location, and maintenance of commercial marinas and their related facilities including parking areas and sanitary facilities in a manner consistent with other state law and the rules of the commissioner of natural resources, the pollution control agency, and the commissioner of health, and with the applicable municipal building codes and zoning ordinances where the marinas are located;

(3) regulate the construction, installation, and maintenance of permanent and temporary docks and moorings in a manner consistent with state and federal law, permits required under chapter 103G, and sections 86B.111 and 86B.115;

(4) except as provided in subdivision 6, regulate the type and size of watercraft allowed to use the body of water and set access fees;

(5) subject to subdivision 6, limit the types and horsepower of motors used on the body of water;

(6) limit the use of the body of water at various times and the use of various parts of the body of water;

(7) regulate the speed of watercraft on the body of water and the conduct of other activities on the body of water to secure the safety of the public and the most general public use; and

(8) contract with other law enforcement agencies to police the body of water and its shore.

Subd. 6. Public access restrictions. The county board must allow the same types and sizes of watercraft and horsepower of motors to access and enter the lake or water body as are generally allowed to be operated on the lake or water body. Special use exceptions that are not dependent on lakeshore or property ownership may be granted by permit.

Subd. 7. County acquisition of public access. A county board may acquire by purchase, gift, or devise land for public access to a lake or stream and may improve the land as a park or playground if the land is less than ten acres and is contiguous to the meander line of a navigable lake or stream wholly or partly within the county and not entirely within the corporate limits of a city.

Subd. 8. Advisory assistance. The county board may invite any municipal council or town board or the soil and water conservation district board of supervisors or watershed district board of managers to designate a representative to advise and consult with the county board on water use regulation and improvement.

Subd. 9. **Watercraft use rules for local waters.** (a) On request of a county, city, or town, the commissioner may, after determining it to be in the public interest, establish rules relating to the use of watercraft on waters of this state that border upon or are within, in whole or in part, the territorial boundaries of the governmental unit.

(b) The rules shall be established in the manner provided by sections 14.02 to 14.62, but may not be submitted to the attorney general nor filed with the secretary of state until first approved by resolutions of the county boards of a majority of the counties affected by the proposed rules.

(c) The rules may restrict:

(1) the type and size of watercraft and size of motor that may use the waters affected by the rule;

(2) the areas of water that may be used by watercraft;

(3) the speed of watercraft;

(4) the times permitted for use of watercraft; or

(5) the minimum distance between watercraft.

(d) When establishing rules, the commissioner shall consider the physical characteristics of the waters affected, their historical uses, shoreland uses and classification, and other features unique to the waters affected by the rules.

(e) The commissioner shall inform the users of the waters of the rules affecting them at least two weeks before the effective date of the rules by distributing copies of the rules and by posting of the public accesses of the waters. The failure of the commissioner to comply with this paragraph does not affect the validity of the rules or a conviction for violation of the rules.

(f) The cost of publishing rules and of marking and posting waters under this subdivision shall be paid by the counties affected by the rules, as apportioned by the commissioner.

(g) Regulations or ordinances relating to the use of waters of this state enacted by a local governmental unit before January 1, 1972, shall continue in effect until repealed by the local governmental unit or superseded by a rule of the commissioner adopted under this subdivision.

History: 1990 c 391 art 9 s 10

86B.211 WATER SAFETY RULES.

The commissioner shall adopt rules and publish the rules in the manner prescribed in section 97A.051, subdivision 3, that relate to:

(1) the application for, form, and numbering of watercraft licenses;

(2) the size, form, reflectorized material, and display of watercraft license numbers, which must comply with the requirements of the federal watercraft numbering system;

(3) placement and regulation of docks, piers, buoys, mooring or marking devices, and other structures in the waters of this state;

(4) rules of the road for watercraft navigation;

(5) standards for equipment used in the towing of persons on water skis, aquaplanes, surfboards, saucers, and other devices;

(d) An operator who refuses a breath sample is subject to the provisions of section 86B.335 unless, in compliance with that section, the operator submits to a blood, breath, or urine test to determine the presence of alcohol or a controlled substance.

Subd. 4. Evidence. (a) Upon the trial of a prosecution arising out of acts alleged to have been committed by a person arrested for operating or being in physical control of a motorboat in violation of subdivision 1, paragraph (a), the court may admit evidence of the amount of alcohol or a controlled substance in the person's blood, breath, or urine as shown by an analysis of those items.

(b) For the purposes of this subdivision:

(1) evidence that there was at the time an alcohol concentration of 0.05 or less is prima facie evidence that the person was not under the influence of alcohol; and

(2) evidence that there was at the time an alcohol concentration of more than 0.05 and less than 0.10 is relevant evidence in indicating whether or not the person was under the influence of alcohol.

(c) Evidence of the refusal to take a preliminary screening test required under subdivision 3 or a chemical test required under section 86B.335 is admissible into evidence in a prosecution under this section.

(d) This subdivision does not limit the introduction of other competent evidence bearing upon the question of whether or not the person violated this section, including results obtained from partial tests on an infrared breath-testing instrument. A result from a partial test is the measurement obtained by analyzing one adequate breath sample. A sample is adequate if the instrument analyzes the sample and does not indicate the sample is deficient.

Subd. 5. Penalties. (a) A person who violates a prohibition contained in subdivision 1 is guilty of a misdemeanor; except that a person who violates a prohibition contained in subdivision 1 within five years of a prior conviction under that subdivision or civil liability under section 86B.335, subdivision 2, or within ten years of two or more prior convictions under that subdivision or civil liability under section 86B.335, subdivision 2, is guilty of a gross misdemeanor. The attorney in the jurisdiction where the violation occurred who is responsible for prosecution of misdemeanor violations

of this section is also responsible for prosecution of gross misdemeanor violations of this section.

(b) A person who operates a motorboat on the waters of this state during the period the person is prohibited from operating any motorboat or after the person's motorboat operator's permit has been revoked, as provided under subdivision 6, is guilty of a misdemeanor.

Subd. 6. Suspension and revocation of operating privileges. (a) Upon conviction, and in addition to any penalty imposed under subdivision 5, the person is prohibited from operating any motorboat on the waters of this state for a period of 90 days between May 1 and October 31, extending over two consecutive years if necessary.

(b) A person with a motorboat operator's permit 13 years of age or older but less than 18 years of age and who violates any prohibition contained in subdivision 1 shall have the permit revoked by the commissioner as required by section 86B.811, subdivision 2, in addition to any other penalty imposed by the court.

Subd. 7. Duties of commissioner. The court shall promptly forward copies of all convictions and criminal and civil penalties imposed under subdivision 5 and section 86B.335, subdivision 2, to the commissioner. The commissioner shall notify the convicted person of the period when the person is prohibited from operating a motorboat as provided under subdivision 6 or section 86B.335, subdivision 2. The commissioner shall also periodically circulate to appropriate law enforcement agencies a list of all persons who are prohibited from operating any motorboat or have had their motorboat operator's permits revoked pursuant to subdivision 6 or section 86B.335, subdivision 2.

Subd. 8. Government immunity from liability for boat care. The state or political subdivision that is the employer of an officer authorized under subdivision 2 to make an arrest for violations of subdivision 1 is immune from any liability, civil or criminal, for the care or custody of the motorboat being operated by or in the physical control of the person arrested if the officer acts in good faith and exercises due care.

86B.335 TESTING FOR ALCOHOL AND CONTROLLED SUBSTANCES.

Subdivision 1. Chemical testing. A person who operates or is in physical control of a motorboat in operation on the waters of this state is required, subject to the provisions of this section, to take or submit to a test of the person's blood, breath, or urine for the purpose of determining the presence and amount of alcohol or a controlled substance. A motorboat "in operation" does not include a motorboat that is anchored, beached, or securely fastened to a dock or other permanent mooring. The test shall be administered at the direction of an officer authorized to make arrests under section 86B.331, subdivision 2. Taking or submitting to the test is mandatory when requested by an officer who has probable cause to believe the person was operating or in physical control of a motorboat in violation of section 86B.331, subdivision 1, paragraph (a), and one of the following conditions exist:

- (1) the person has been lawfully placed under arrest for violating section 86B.331, subdivision 1, paragraph (a);
- (2) the person has been involved in a motorboat accident resulting in property damage, personal injury, or death;
- (3) the person has refused to take the preliminary screening test provided for in section 86B.331, subdivision 3; or
- (4) the screening test was administered and recorded an alcohol concentration of 0.10 or more.

Subd. 2. Refusal to take test. (a) If a person refuses to take a test required under subdivision 1, a test is not to be given, but the officer authorized to make arrests under section 86B.331, subdivision 2, shall report the refusal to the commissioner of natural resources and to the authority having responsibility for prosecution of misdemeanor offenses for the jurisdiction where the incident occurred that gave rise to the test demand and refusal.

(b) On certification by the officer that probable cause existed to believe the person had been operating or in physical control of a motorboat while under the influence of alcohol or a controlled substance, and that the person refused to submit to testing, the commissioner shall impose a civil penalty of \$500 and shall prohibit the person from operating any motorboat on the waters of this state for a period of one year. If the person refusing to submit to testing is under the age of 18 years at the time of the refusal, the person's watercraft operator's permit shall be revoked by the commissioner as set forth in this subdivision and a new permit after the revocation must be issued only after the person successfully completes a watercraft safety course.

(c) On behalf of the commissioner, an officer requiring a test or directing the administration of a test shall serve on a person who refused to permit a test immediate notice of intention to impose the civil penalty set forth in this subdivision, to prohibit the operation of motorboats, and to revoke a watercraft operator's permit. The officer shall take a watercraft operator's permit held by the person, and shall send the permit to the commissioner along with the certification provided for in this subdivision. If the officer fails to serve a notice of intent to revoke, the commissioner may notify the person by mail and the notice is deemed received three days after mailing. The notice must advise the person of the right to obtain administrative and judicial review as provided in this section. The prohibition and revocation, if any, shall take effect ten days after receipt of the notice. The civil penalty is imposed on receipt of the notice and shall be paid within 30 days of imposition.

(d) A person who operates a motorboat on the waters of this state during the period the person is prohibited from operating a motorboat as provided under paragraph (b) or (c) is guilty of a misdemeanor.

Subd. 3. Administrative review. (a) At any time during the period of prohibition or revocation imposed under this section, the person may request in writing a review of the order imposing sanctions under this section. If the person makes a request for administrative review within 30 days following receipt of a notice and order imposing sanctions, the request shall stay imposition of the civil penalty. Upon receiving the request for review, the commissioner or the commissioner's designee shall review the order, the evidence upon which the order was based, and other material information brought to the attention of the commissioner and determine whether sufficient cause exists to sustain the order.

(b) Within 15 days after receiving the request, the commissioner shall issue a written report ordering that the prohibition, revocation, or civil penalty be either sustained or rescinded. The review provided in this subdivision is not subject to the contested case provisions of the administrative procedure act under chapter 14. The availability of administrative review does not have an effect upon the availability of judicial review under this section.

Subd. 4. Judicial review. (a) Within 30 days following receipt of a notice and order imposing sanctions under this section, a person may petition the court for review. The petition must be filed with the court administrator of the county, municipal, or unified trial court in the county where the incident occurred which gave rise to the test demand and refusal, together with proof of service of a copy on the commissioner and the prosecuting authority for misdemeanor offenses for the jurisdiction in which the incident occurred. A responsive pleading is not required of the commissioner of natural resources, and court fees may not be charged for the appearance of the representative of the commissioner in the matter.

(b) The petition must be captioned in the name of the person making the petition as petitioner and the commissioner as respondent. The petition must state specifically the grounds upon which the petitioner seeks rescission of the order imposing sanctions.

(c) The filing of the petition does not stay the revocation or prohibition against operation of a motorboat. However, the filing of a petition stays imposition of the civil penalty. The judicial review shall be conducted according to the rules of civil procedure.

Subd. 5. Hearing. (a) A hearing under this section must be before a municipal,

county, or unified court judge in the county where the incident occurred which gave rise to the test demand and refusal. The hearing must be to the court and may be conducted at the same time as hearings upon pretrial motions in the criminal prosecution under section 86B.331. The hearing must be recorded. The commissioner must be represented by the prosecuting authority for misdemeanor offenses for the jurisdiction in which the incident occurred which gave rise to the test demand and refusal.

(b) The hearing must be held at the earliest practicable date and in any event no later than 60 days following the filing of the petition for review. The reviewing court may order a temporary stay of the balance of the prohibition or revocation if the hearing has not been conducted within 60 days after filing of the petition, upon the application of the petitioner and upon terms the court deems proper.

(c) The scope of the hearing must be limited to the issues of:

(1) whether the officer had probable cause to believe that the person was operating or in physical control of a motorboat in violation of section 86B.331;

(2) whether one of the conditions in subdivision 1 existed;

(3) whether the person was informed as prescribed in subdivision 6; and

(4) whether the person refused to submit to testing.

(d) It is an affirmative defense for the petitioner to prove that, at the time of the refusal, the petitioner's refusal to permit the test was based upon reasonable grounds.

(e) The court shall order that the prohibition or revocation be either sustained or rescinded and shall either sustain or rescind the civil penalty. The court shall forward a copy of the order to the commissioner.

Subd. 6. Rights and obligations. At the time a test is requested, the person must be informed:

(1) that Minnesota law requires a person to take a test to determine if the person is under the influence of alcohol or a controlled substance;

(2) that a person is subject to a civil penalty of \$500 for refusing to take the test and, in addition, the person is prohibited from operating any motorboat, as provided under subdivision 2, for refusing to take the test;

(3) that if testing is refused it will not affect the person's motor vehicle driver's license;

(4) that if the test is taken and the results indicate that the person is under the influence of alcohol or a controlled substance, the person will be subject to criminal penalties and, in addition to any other penalties the court may impose, the person's operating privileges will be suspended as provided under section 86B.331, subdivision 6, paragraph (a);

(5) that, after submitting to testing, the person has the right to have additional tests made by someone of the person's own choosing; and

(6) that a refusal to take a test will be offered into evidence against the person at trial.

Subd. 7. Requirement of urine test. Notwithstanding subdivision 1, if there are reasonable and probable grounds to believe there is impairment by a controlled substance which is not subject to testing by a blood or breath test, a urine test may be required even after a blood or breath test has been administered.

Subd. 8. Breath test using an infrared breath-testing instrument. In the case of a breath test administered using an infrared breath-testing instrument, the test shall consist of analyses in the following sequence: one adequate breath sample analysis, one calibration standard analysis, and a second adequate breath sample analysis. In the case of a test administered using an infrared breath-testing instrument, a sample is adequate if the instrument analyzes the sample and does not indicate the sample is deficient. For purposes of this section, when a test is administered using an infrared breath-testing instrument, failure of a person to provide two separate adequate breath samples in the proper sequence constitutes a refusal to take the test.

Subd. 9. Consent of person incapable of refusal not withdrawn. A person who is

unconscious or who is otherwise in a condition rendering the person incapable of refusal is deemed not to have withdrawn the consent provided by subdivision 1 and the test may be given.

Subd. 10. Manner of making tests. (a) Only a physician, medical technician, physician's trained mobile intensive care paramedic, registered nurse, medical technologist, or laboratory assistant acting at the request of a peace officer authorized to make arrests under section 86B.331, subdivision 2, may withdraw blood for the purpose of determining the presence of alcohol or controlled substance. This limitation does not apply to the taking of a breath or urine sample. The person tested has the right to have someone of the person's own choosing administer a chemical test or tests in addition to any administered at the direction of a peace officer; provided, that the additional test sample on behalf of the person is obtained at the place where the person is in custody, after the test administered at the direction of a peace officer, and at no expense to the state.

(b) The failure or inability to obtain an additional test or tests by a person shall not preclude the admission in evidence of the test taken at the direction of a peace officer unless the additional test was prevented or denied by the peace officer.

(c) The physician, medical technician, physician's trained mobile intensive care paramedic, medical technologist, laboratory assistant, or registered nurse drawing blood at the request of a peace officer for the purpose of determining alcohol concentration shall in no manner be liable in any civil or criminal action except for negligence in drawing the blood. The person administering a breath test shall be fully trained in the administration of breath tests pursuant to training given by the commissioner of public safety.

Subd. 11. Payment of civil penalty. The civil penalty imposed under subdivision 2 must be paid to the political subdivision that represents the commissioner on the petition for judicial review or, in the event that a petition is not filed, to the political subdivision that would have represented the commissioner had a petition been filed. If a person does not pay the civil penalty, the prohibition against operating motorboats is automatically extended until the political subdivision reports in writing to the commissioner that the penalty has been paid.

Subd. 12. Enforcement of civil penalty. (a) If a person does not pay the civil penalty imposed under subdivision 2 within 30 days of the time the penalty was imposed, the prosecuting authority representing the commissioner may petition the municipal, county, or unified court in the jurisdiction where the incident occurred to file the order imposing the civil penalty as an order of the court.

(b) Once entered, the order may be enforced in the same manner as a final judgment of the court. In addition to the penalty, attorney fees, costs, and interest may be assessed against any person who fails to pay the civil penalty.

86B.341 DUTIES AND LIABILITIES AT ACCIDENT OR INCIDENT.

Subdivision 1. Operator's duty at accident or incident. (a) The operator of a watercraft involved in an accident or incident resulting in injury or death to a person or in damage to property shall, if possible without serious danger to the watercraft or the persons aboard, immediately stop at the scene of the accident or incident and render assistance as may be practicable and necessary.

(b) The operator must give the operator's name, address, and license number of the watercraft and the name and address of the owner of the watercraft to the person injured or the operator or occupants of the other watercraft or owner or occupant of the property involved. The operator must promptly report the accident or incident to the sheriff of the county where the accident or incident occurred. Sheriffs are required to report all accidents and incidents to the commissioner of natural resources, who shall transmit statistics on boating accidents and incidents to the United States Coast Guard.

Subd. 2. Owner's and operator's liability. (a) The owner and operator of a watercraft are jointly and severally liable for any injury or damage caused by the negligent

operation of a watercraft whether the negligence consists of a violation of the provisions of the statutes of this state or neglecting to observe ordinary care in the operation as the common law requires. The owner is not liable if the watercraft is being operated without the owner's express or implied consent. It is presumed that the operation of a watercraft is with the knowledge and consent of the owner if at the time of the injury or damage the watercraft is under the control of the owner's spouse, father, mother, brother, sister, son, daughter, or other member of the owner's immediate family.

(b) This subdivision may not be construed to:

- (1) relieve other persons from liability which the persons would otherwise have;
- or
- (2) authorize or allow recovery in excess of the injury or damage actually incurred.

Subdivision 1. Application. (a) A person may apply to the commissioner of natural resources, the commissioner of public safety, or an authorized deputy registrar of motor vehicles to license a watercraft in a form as prescribed by the commissioner of public safety.

(b) The application must state the names and addresses of all owners of the watercraft and be signed by at least one owner.

(c) The installation or presence of a marine toilet in a watercraft must be indicated by the owner upon application for licensing of the watercraft or marine conveyance, and a license for watercraft bearing a marine toilet may not be issued except upon certification by the owner of the installation of an acceptable retention device for use with the marine toilet.

Subd. 2. Temporary certificate. A person who applies for a watercraft license may be issued a temporary license certificate to operate the watercraft. The temporary license certificate is valid for the period of time specified by the commissioner.

Subd. 3. Licensing. The license agent shall register the watercraft on receiving an application and the license fee. A license and registration sticker with a registration number shall be issued and must be affixed to the watercraft as prescribed by the commissioner of natural resources.

Subd. 4. License number. Each watercraft must be assigned a license number. The license number assigned a watercraft shall remain the same if continually renewed. The owner of a watercraft must purchase the watercraft license numbers assigned and affix the license numbers as prescribed by the commissioner.

Subd. 5. License period. A watercraft license is valid for three calendar years or a portion of the three-year period beginning in the calendar year the license is issued. The watercraft license expires on December 31 of the last calendar year of the license period.

Subd. 6. Renewal. Watercraft licenses may be renewed in the same manner as applying for the original license.

Subd. 7. Notification of change of address by licensee. If the address of an owner of a licensed watercraft changes so that it does not conform with the address on the watercraft license, the owner must notify the commissioner in writing by 30 days after the address change occurs on a form prescribed by the commissioner.

Subd. 8. Notice of ownership change, destruction, or abandonment of watercraft. (a) An owner of a watercraft must provide written notice to the commissioner on a form prescribed by the commissioner by 15 days after abandonment, destruction, or a change in ownership of a licensed watercraft.

- (b) A change in ownership does not include the transfer of a security interest.
- (c) After a change of ownership:

(1) the new owners are subject to the penalties imposed by this chapter if they fail to give notice as required by this subdivision; and

(2) the commissioner shall terminate the license without further action for failure to give the notice of ownership change.

(d) A notice of ownership change must be accompanied by the duplicate license fee. The commissioner shall issue a duplicate license on receipt of the notice of ownership change and the duplicate license fee.

Subd. 9. Loss or destruction of license. The commissioner shall issue a duplicate watercraft license if an owner provides to the commissioner an affidavit of loss or destruction of the watercraft license previously issued and pays the duplicate license fee.

Subd. 10. New license for previously licensed watercraft. A new license may not be issued for a watercraft that has previously been issued a watercraft license by this state unless:

(1) a notice of abandonment of the watercraft has been given at least one year before the date of application for the license; or

(2) the application is accompanied by satisfactory proof that the watercraft has been continually outside this state at least one year before the date of the application.

Subd. 11. Suspension for not removing Eurasian or Northern water milfoil. The commissioner, after notice and an opportunity for hearing, may suspend for a period of not more than one year the license of a watercraft if the owner or person in control of the watercraft or its trailer refuses to comply with an order of a conservation officer or other licensed peace officer to remove Eurasian or Northern water milfoil, *Myriophyllum spicatum* or *exalbescens*, from the watercraft or its trailer as provided in section 18.317, subdivision 3.

Subdivision 1. **Requirement.** (a) A watercraft 20 feet or less in length manufactured for sale in this state after December 31, 1980, except canoes, kayaks, sailboats, sailboards, and inflatable boats, must have a capacity plate permanently affixed to the watercraft by the manufacturer. The capacity plate must contain information relating to maximum safe carrying and power capacity specifications prescribed by the commissioner. The information contained on the capacity plate must, at a minimum, comply with the established standards and regulations of the United States Coast Guard.

(b) For purposes of this section, "manufacture" means to construct or assemble a watercraft or alter a watercraft in a manner that changes its weight and carrying capacity.

Subd. 2. **Certification of correct information.** The information appearing on a capacity plate is deemed to certify that the manufacturer has correctly and faithfully specified the maximum safe carrying and horsepower capacity and that the information is not a deliberate or negligent misrepresentation.

Subdivision 1. **Exhaust muffling system required.** A motor may not be used on a motorboat unless it is equipped with an efficient muffler, underwater exhaust, or other device that adequately muffles or suppresses the sound of the exhaust of the motor so as to prevent excessive or unusual noise. A motor may not be equipped with a cut-out.

Subd. 2. **Sale of motor that exceeds noise limits prohibited.** A person may not sell or offer for sale a new marine engine or motorboat that would exceed the noise limits contained in section 86B.321, subdivision 2, under a test procedure approved by the commissioner if the motor is maintained according to the manufacturer's specifications.

86B.825 CERTIFICATE OF TITLE REQUIRED.

Subdivision 1. **Requirement.** Except as provided in subdivision 2, a watercraft used on the waters of the state must have a certificate of title if:

- (1) the watercraft is owned by a resident of this state and is kept in the state for more than 90 consecutive days; or
- (2) the watercraft is kept in the state for more than 60 consecutive days and has not been issued a certificate of title or similar document from another jurisdiction.

Subd. 2. **Exempt watercraft.** A watercraft is not required to have a certificate of title if the watercraft is:

- (1) owned by a manufacturer or dealer and held for sale;
- (2) used by a manufacturer solely for testing;
- (3) from a jurisdiction other than this state, temporarily using the waters of this state;
- (4) owned by the United States, a state, this state, or a political subdivision;
- (5) a duck boat used only during duck hunting season;
- (6) a rice boat used only during the wild rice harvesting season;
- (7) owned by a person, firm, or corporation operating a resort as defined in section 157.01, subdivision 1, or a recreational camping area as defined in section 327.14, subdivision 8, except with respect to a previously titled watercraft; or
- (8) watercraft manufactured prior to August 1, 1979.

Subd. 3. **Voluntary titling.** The owner of a device used or designed for navigation on water and used on the waters of this state may obtain a certificate of title for the device, even though it is not a watercraft as defined in section 86B.820, subdivision 14, in the same manner and with the same effect as the owner of a watercraft required to be titled under Laws 1989, chapter 335. Once titled, the device is a titled watercraft as defined in section 86B.820, subdivision 13, and is and remains subject to Laws 1989, chapter 335, to the same extent as a watercraft required to be titled.

Subd. 4. **Title required for transfer.** A person may not sell or otherwise transfer a titled watercraft without delivering to the person acquiring the watercraft a certificate of title with an assignment on it to show title in the person acquiring the watercraft. A person may not acquire a watercraft required to have a certificate of title without obtaining a certificate of title for the watercraft in the person's name.

Subd. 5. **No legal title without certificate.** A person acquiring a watercraft through a sale or gift does not acquire a right, title, claim, or interest in the watercraft until the person has been issued a certificate of title to the watercraft or has received a manufacturer's or importer's certificate. A waiver or estoppel does not operate in favor of that person against another person who has obtained possession of the certificate of title or manufacturer's or importer's certificate for the watercraft for valuable consideration.

Subd. 6. **Watercraft license may not be issued without title.** The commissioner may not issue or renew a watercraft license to an owner of a titled watercraft unless the owner has been issued or has applied for a certificate of title for the watercraft.

86B.830 APPLICATION AND ISSUANCE OF CERTIFICATE OF TITLE.

Subdivision 1. **Application.** The owner of a titled watercraft must apply for the first certificate of title of a watercraft in this state to the commissioner or a deputy registrar on a form prescribed by the commissioner. The appropriate fee under section 86B.870 must accompany the application. The application must be signed by the owner and contain:

- (1) the full names, dates of birth, and addresses of owners who are natural persons and the full names and addresses of other owners;
- (2) a description of the watercraft including its make, model, year, length, the principal material used in construction, the builder's hull identification number, and the manufacturer's inboard engine serial number;

(3) the date of purchase by the applicant, the name and address of the person from whom the watercraft was acquired;

(4) the name and address of the person who is to possess the title and any conditions of possession; and

(5) other information required by the commissioner to determine whether the owner is entitled to a certificate of title and whether security interests exist in the watercraft.

Subd. 2. Issuance. (a) The commissioner shall issue a certificate of title for a watercraft upon verification that:

(1) the application is genuine;

(2) the applicant is the owner of the watercraft; and

(3) payment of the required fee.

(b) The original certificate of title must be mailed to the first secured party disclosed in the application or, if none, to the owner named in the application.

Subd. 3. Contents. (a) A certificate of title issued by the commissioner must contain:

(2) the full names, dates of birth, and addresses of owners who are natural persons and the full names and addresses of other owners;

(3) the names and addresses of secured parties;

(4) the title number assigned to the watercraft;

(5) a description of the watercraft including its make, model, year of manufacture, length, principal material used in construction, registration number, and manufacturer's hull identification number or, if none, the builder's hull identification number assigned to the watercraft by the commissioner;

(7) spaces on the certificate for application of title by a new owner subject to the security interests of secured parties named and for the assignment or release of the security interest of a secured party; and

(8) other information the commissioner may require.

(b) A certificate of title issued by the commissioner is prima facie evidence of the facts appearing on it.

Subd. 4. Issuance without absolute proof of ownership. (a) If application is made for a certificate of title for a watercraft and the commissioner is not satisfied of the ownership of the watercraft or the existence of security interests in the watercraft, the watercraft may be assigned a title number but the commissioner must:

(1) withhold issuance of a certificate of title until the applicant presents documents that satisfy the commissioner of the applicant's ownership of the watercraft and of security interest in the watercraft; or

(2) require the applicant to file a bond in the form prescribed by the commissioner and executed by the applicant as a condition to issuing a certificate of title.

(b) A bond filed under this subdivision must be accompanied by the deposit of cash or executed by a surety company authorized to do business in this state. The bond must be in an amount equal to 1-1/2 times the value of the watercraft as determined by the commissioner. The bond must be conditioned to indemnify prior owners, secured parties, and later purchasers of the watercraft or persons acquiring a security interest in the watercraft, or successors in interest of the persons, against expenses, losses, or damages, including reasonable attorney fees, by reason of the issuance of the certificate of title to the watercraft or on account of a defect in or undisclosed security interest upon the right, title, and interest of the applicant in the watercraft.

(c) An interested person has a right of action to recover on the bond for a breach

of its conditions, but the aggregate liability of the surety to all persons may not exceed the amount of the bond.

(d) The commissioner shall return the bond and any deposit accompanying the bond if:

(1) the commissioner has not been notified of the pendency of an action to recover on the bond;

(2) questions of ownership and outstanding security interests have been resolved to the satisfaction of the commissioner;

(3) the bond has been posted for three years or the watercraft is not registered for license purposes in this state under sections 86B.125, 86B.301, and 86B.401 to 86B.421; and

(4) the currently valid certificate of title is surrendered.

Subd. 5. **Records.** (a) The commissioner shall maintain records of certificates of title issued under this section according to one of the following systems:

(1) under a distinctive title number assigned to a watercraft;

(2) under the registration number awarded to a watercraft in accordance with the registration and numbering law of the state where it is registered;

(3) alphabetically, under the name of the owner; or

(4) under another system determined by the commissioner.

(b) Records relating to watercraft titling maintained by the commissioner are public records and are open to public inspection during regular office hours.

Subd. 6. **Grounds for refusal to issue certificate of title.** The commissioner may not issue a certificate of title if a required fee is not paid or the commissioner has reasonable grounds to believe that:

(1) the applicant is not the owner of the watercraft;

(2) the application contains a false statement; or

(3) the applicant failed to furnish required information or documents or additional information the commissioner reasonably requires.

Subd. 3. Sale of new watercraft. A dealer selling or exchanging a new titled watercraft, before delivering the watercraft to a purchaser, shall apply to the commissioner for a new title in the name of the purchaser. The application must contain the name and address of any secured party holding a security interest created or reserved at the time of sale and the date of the security agreement and must be accompanied by a manufacturer's or importer's certificate of origin. The application must be signed by the dealer and the owner, and the dealer shall promptly mail or deliver the application to the commissioner or a deputy registrar.

Subd. 4. Used watercraft acquired for resale. (a) If a dealer buys or acquires a used titled watercraft for resale, the dealer must apply to the commissioner or deputy registrar and obtain a title number before selling or exchanging the watercraft in the same manner as a new watercraft on forms the commissioner provides or apply for and obtain a certificate of title.

(b) If a dealer acquires a used titled watercraft for resale and the watercraft is covered by a certificate of title that is surrendered to the dealer by the owner at the time of delivery of the watercraft, the dealer need not send the certificate of title to the commissioner. Upon transferring the watercraft to another person, the dealer must promptly execute the assignment, showing the name and address of the person to whom the watercraft is transferred and forward the certificate to the commissioner or deputy registrar with the application for a new certificate of title.

(1) a certificate of title or registration issued by the other state or foreign country; and

(2) other information or documents the commissioner requires to establish the ownership of the watercraft and the existence or nonexistence of security interests.

(b) If the state or foreign country where the watercraft was last registered does not issue certificates of title, the application must contain or be accompanied by:

(1) a proper bill of sale or sworn statement of ownership, certificate of registration, or evidence of ownership as required by the law of the state or foreign country; and

(2) any other information or documents the commissioner requires to establish the ownership of the watercraft and the existence or nonexistence of security interests.

The application for certificate of title must be filed within 15 days after delivery of the watercraft to the person acquiring the watercraft.

(c) Upon request of the owner or the person who acquired the watercraft, a secured party in possession of the certificate of title must deliver the certificate to the person acquiring the watercraft, the commissioner, or a deputy registrar, unless the transfer is a breach of the security agreement. The delivery of the certificate does not affect the rights of the secured party under the security agreement.

(d) If a security interest or encumbrance is first created at the time of transfer of ownership, the certificate must be retained by or delivered to the secured party.

Subd. 2. Transfer by law. (a) Except as otherwise provided in this chapter, if the ownership of a titled watercraft is transferred by operation of law, including inheritance

or bequest, order in bankruptcy, insolvency, replevin, execution, sale, or satisfaction of mechanic's lien, or repossession upon default in performance of the terms of a security agreement, the person acquiring the watercraft by operation of law must promptly submit the last certificate of title, if available, or the manufacturer's or importer's certificate or other satisfactory proof of the transfer of ownership to the commissioner or deputy registrar with the application for a new certificate of title and the required fee.
