 239.79 Petroleum products; transaction
 requirements.
 239.791 Oxygenated gasoline.
 239.792 Gasoline octane.
 239.80 Violations; penalties.

METRIC SYSTEM

239.001 CITATION.

Sections 239.001 to 239.003 may be cited as the "metric implementation and standards act."

History: 1974 c 474 s 1

239.002 PURPOSE AND POLICY.

In recognition of the facts that (1) only about one dozen countries in the world have not yet adopted or begun to implement the metric system of weights and measures; (2) the United States is one, and the only major industrialized nation, of that remaining number; (3) the secretary of commerce of the United States, pursuant to a two-year study under the Metric Study Act of 1968, has recommended that the United States now begin a deliberate change to the metric system; (4) economists and other students of international trade recognize the pressing necessity of such a change if this country is to maintain and improve its rightful place in the world trade community; and (5) as the continued economic growth of this state and its local industry is inextricably linked with the ability of the United States to hold and competitively serve foreign export markets, it is, therefore, declared to be in the best interest of the state of Minnesota and its citizens that this state now begin the gradual but deliberate implementation of the metric system of weights and measures.

History: 1974 c 474 s 2; 1986 c 444

239.003 IMPLEMENTATION RULES; COMMISSIONER OF ADMINISTRATION.

The commissioner of administration shall have general supervisory authority over the implementation of the metric system in the state of Minnesota. The commissioner of administration shall promulgate such rules as may be necessary to plan for the gradual implementation in the commerce of this state the metric system of weights and measures. The rules promulgated by the commissioner of administration pursuant to this subdivision shall:

(1) provide for the full conversion of the commerce of this state to the metric system when this system has been fully adopted as national standards by the Congress of the United States; and

(2) insure that all state departments, divisions, agencies, boards and commissions having any authority and/or responsibility in matters concerning standards of weights and measurement in this state shall forthwith initiate planning for the gradual conversion to and implementation of the metric system of weights and measures in this state.

History: 1974 c 474 s 3; 1985 c 248 s 70

239.004 CONSULTATION WITH COMMISSIONER OF EDUCATION.

The commissioner of education shall in consultation with the commissioner of administration develop and implement a plan of public education on the metric system of weights and measures. The commissioner of education shall implement the plan.

History: 1974 c 474 s 4

WEIGHTS AND MEASURES DIVISION**239.01 WEIGHTS AND MEASURES DIVISION; JURISDICTION.**

The weights and measures division, referred to in this chapter as the division, is created under the jurisdiction of the department of public service. The division has supervision and control over all weights, weighing devices, and measures in the state.

History: (5270) 1911 c 156 s 1; 1971 c 25 s 42,44; 1971 c 74 s 5; 1991 c 198 s 1

239.011 DIVISION RESPONSIBILITIES AND POWERS.

Subdivision 1. Responsibilities. The division shall:

(1) ensure that weights and measures in commercial service within the state are suitable for their intended use, properly installed, accurate, and properly maintained by their owners or users;

(2) prevent unfair or deceptive dealing by weight or measure in a commodity or service advertised, packaged, sold, or purchased within the state;

(3) make the precision calibration and related metrological certification capabilities of the division available to users of physical standards or weighing and measuring equipment;

(4) promote uniformity, to the extent practicable and desirable, between the weights and measures requirements of Minnesota and those of other states and federal agencies; and

(5) adopt weights and measures requirements that will protect consumers, promote equity between buyers and sellers, and encourage desirable economic growth.

Subd. 2. Duties and powers. To carry out the responsibilities in section 239.01 and subdivision 1, the director:

(1) shall take charge of, keep, and maintain in good order the standard of weights and measures of the state and keep a seal so formed as to impress, when appropriate, the letters "MINN" and the date of sealing upon the weights and measures that are sealed;

(2) has general supervision of the weights, measures, and weighing and measuring devices offered for sale, sold, or in use in the state;

MINNESOTA STATUTES 1992

1443

WEIGHTS, MEASURES 239.011

(3) shall maintain traceability of the state standards to the national standards of the National Institute of Standards and Technology;

(4) shall enforce this chapter;

(5) shall grant variances from department rules, within the limits set by rule, when appropriate to maintain good commercial practices or when enforcement of the rules would cause undue hardship;

(6) shall conduct investigations to ensure compliance with this chapter;

(7) may delegate to division personnel the responsibilities, duties, and powers contained in this section;

(8) shall test annually, and approve when found to be correct, the standards of weights and measures used by the division, by a town, statutory or home rule charter city, or county within the state, or by a person using standards to repair, adjust, or calibrate commercial weights and measures;

(9) shall inspect and test weights and measures kept, offered, or exposed for sale;

(10) shall inspect and test, to ascertain if they are correct, weights and measures commercially used to:

(i) determine the weight, measure, or count of commodities or things sold, offered, or exposed for sale, on the basis of weight, measure, or count; and

(ii) compute the basic charge or payment for services rendered on the basis of weight, measure, or count;

(11) shall approve for use and mark weights and measures that are found to be correct;

(12) shall reject, and mark as rejected, weights and measures that are found to be incorrect and may seize them if those weights and measures:

(i) are not corrected within the time specified by the director;

(ii) are used or disposed of in a manner not specifically authorized by the director;

or

(iii) are found to be both incorrect and not capable of being made correct, in which case the director shall condemn those weights and measures;

(13) shall weigh, measure, or inspect packaged commodities kept, offered, or exposed for sale, sold, or in the process of delivery, to determine whether they contain the amount represented and whether they are kept, offered, or exposed for sale in accordance with this chapter and department rules. In carrying out this section, the director must employ recognized sampling procedures, such as those contained in National Institute of Standards and Technology Handbook 133, "Checking the Net Contents of Packaged Goods";

(14) shall prescribe the appropriate term or unit of weight or measure to be used for a specific commodity when an existing term or declaration of quantity does not facilitate value comparisons by consumers, or creates an opportunity for consumer confusion;

(15) shall allow reasonable variations from the stated quantity of contents, including variations caused by loss or gain of moisture during the course of good distribution practice or by unavoidable deviations in good manufacturing practice, only after the commodity has entered commerce within the state;

(16) shall inspect and test petroleum products in accordance with this chapter and chapter 296;

(17) shall distribute and post notices for used motor oil and lead acid battery recycling in accordance with sections 239.54, 325E.11, and 325E.115; and

(18) shall collect inspection fees in accordance with sections 239.10, 239.52, and 239.78.

History: 1991 c 198 s 2

239.012 SYSTEMS OF WEIGHTS AND MEASURES; RULES.

Subdivision 1. **Recognized systems.** The system of weights and measures in customary use in the United States and the metric system of weights and measures are both recognized. One or both of these systems must be used for commercial purposes in the state.

Subd. 2. **Rules.** The department shall adopt by rule definitions of basic units of weights and measures, tables of weights and measures, and weights and measures equivalents to govern weighing and measuring equipment and transactions in the state.

History: 1991 c 198 s 3

239.02 DIRECTOR; DEPUTIES, EMPLOYEES.

The department shall appoint in accordance with chapter 43A, a director of weights and measures and such deputies and other employees as may be necessary to carry out the provisions of this chapter.

History: (4634, 5271) RL s 1959; 1911 c 140 s 3; 1911 c 156 s 2; 1921 c 382 s 1; 1971 c 25 s 43; 1977 c 364 s 12; 1981 c 210 s 54; 1991 c 198 s 4

239.03 [Superseded by Minnesota Statutes, chapter 43.]

239.04 [Repealed, 1971 c 25 s 45; 1976 c 2 s 163]

239.05 DEFINITIONS.

Subdivision 1. **Scope.** The terms used in this chapter have the meanings given them in this section.

Subd. 2. [Repealed, 1974 c 347 s 17]

Subd. 2a. **ASTM.** "ASTM" means the American Society for Testing and Materials, a private organization that utilizes committees of industry representatives and regulators to develop product quality standards and test methods to be used by industries, regulatory agencies, and purchasing agents.

Subd. 2b. **ASTM specification.** "ASTM specification" means a standard quality specification developed and published by the American Society for Testing and Materials. Each specification includes references to standard test methods, also developed and published by ASTM.

Subd. 2c. **Attestation engagement.** "Attestation engagement" means a standard auditing procedure prescribed by the Association of Independent Certified Public Accountants.

Subd. 3. [Repealed, 1974 c 347 s 17]

Subd. 4. [Repealed, 1974 c 347 s 17]

Subd. 5. [Repealed, 1974 c 347 s 17]

Subd. 6. [Repealed, 1974 c 347 s 17]

Subd. 6a. **Carbon monoxide control area.** "Carbon monoxide control area" means a geographic area designated as an oxygenated gasoline carbon monoxide control area by the United States Environmental Protection Agency.

Subd. 6b. **Carbon monoxide control period.** "Carbon monoxide control period" means a period of months designated as a carbon monoxide control period by the United States Environmental Protection Agency.

Subd. 6c. **Commissioner.** "Commissioner" means the commissioner of the department of public service.

Subd. 7. **Correct.** "Correct," when used in connection with weights and measures, means conformance with the applicable requirements of this chapter, and rules adopted under the authority granted by this chapter.

Subd. 7a. **Department.** "Department" means the department of public service.

Subd. 8. **Director.** "Director" means the director of the division of weights and measures of the department of public service.

Subd. 8a. **Dispenser.** "Dispenser" means a device designed to measure and deliver liquid petroleum products used as fuel.

Subd. 8b. **Distributor.** "Distributor" means a person who is licensed by the department of revenue, under the requirements of section 296.06, to manufacture, refine, receive, distribute, sell, or use petroleum products in Minnesota.

Subd. 8c. **Division.** "Division" means the division of weights and measures of the department of public service.

Subd. 8d. **EPA.** "EPA" means the United States Environmental Protection Agency.

Subd. 8e. **Gasoline.** "Gasoline" has the meaning given it in section 296.01, subdivision 18.

Subd. 9. **Metrology.** "Metrology" means the science and practice of precise measurement, including measurement of mass, length, volume, and temperature.

Subd. 10. **Net weight.** "Net weight" means the weight of a commodity excluding materials, substances, or items not considered to be part of the commodity. Materials, substances, or items not considered to be part of the commodity include, but are not limited to, containers, conveyances, bags, wrappers, packaging materials, labels, individual piece coverings, decorative accompaniments, and coupons.

Subd. 10a. **Oxygenate.** "Oxygenate" means agriculturally derived, denatured ethanol, or other alcohol or ether, approved as an oxygenate by the United States Environmental Protection Agency.

Subd. 10b. **Oxygenate blender.** "Oxygenate blender" means a person who has registered with the division to blend and distribute, transport, sell, or offer to sell gasoline containing a minimum of 2.0 percent, and an average of 2.7 percent oxygen by weight.

Subd. 10c. **Oxygenated gasoline.** "Oxygenated gasoline" means gasoline that has been blended with agriculturally derived denatured ethanol or with another oxygenate approved by the United States Environmental Protection Agency.

Subd. 11. **Package.** "Package" means a commodity put up or packaged in advance of sale in units suitable for either wholesale or retail sale.

Subd. 12. **Person.** "Person," means person or persons, corporation, partnership, stock company, society, association, or the agent or employee thereof.

Subd. 12a. **Person responsible for the product.** "Person responsible for the product" means a person or persons, corporation, partnership, stock company, society, association, or its agent or employee who processes, blends, holds, stores, imports, transfers, distributes, offers for sale or use, or sells petroleum products in Minnesota and who possesses petroleum products at the time they are sampled or inspected by the director.

Subd. 12b. **Petroleum product, product.** "Petroleum product" and "product" mean all of the products defined in section 296.01, subdivisions 2, 7, 8, 10, 13, 14, and 17 to 22.

Subd. 13. **Primary standards.** "Primary standards" means the physical standards of the state that serve as the legal reference from which all other standards and weights and measures are derived.

Subd. 13a. **Refinery, terminal.** "Refinery" or "terminal" means a petroleum refinery, pipeline terminal, river terminal, storage facility, or other point of origin where petroleum products are manufactured, or imported by rail, truck, barge, or pipe; and held, stored, transferred, offered for distribution, distributed, offered for sale, or sold. For the purpose of restricting petroleum product blending, this definition includes all refineries and terminals within and outside of Minnesota, but does not include a licensed distributor's bulk storage facility that is used to store petroleum products for which the petroleum inspection fee charged under this chapter is either not due or has been paid.

Subd. 14. **Sale from bulk.** "Sale from bulk" means the sale of commodities when the quantity is determined at the time of the sale.

Subd. 14a. **Sample.** "Sample" means a sample of a petroleum product taken from a dispenser or storage tank by the division or a sample of a petroleum product provided to the division by a licensed distributor.

Subd. 15. **Secondary standards.** "Secondary standards" means the physical standards that are used in enforcing weights and measures laws. These standards must be traceable to the primary standards.

Subd. 16. **Traceability; traceable.** "Traceability" and "traceable" mean:

(1) the ability to relate individual measurement results, through an unbroken chain of calibrations, to the United States national standards maintained by the United States Department of Commerce, National Institute of Standards and Technology; and

(2) the ability to produce evidence on a continuing basis to demonstrate that the measurement processes used by the division are producing results within the limits of uncertainty designated by the National Institute of Standards and Technology.

Subd. 17. **Weight.** "Weight" means net weight when it is used in connection with a commodity sold by weight.

Subd. 18. **Weights and measures.** "Weights and measures" mean weights and measures of every kind, instruments and devices for weighing and measuring, and appliances and accessories associated with these instruments and devices.

History: (5283, 5285-11) 1911 c 156 s 12; 1935 c 216 s 1; 1949 c 549 s 1,2; 1Sp1981 c 4 art 1 s 97; 1991 c 198 s 5; 1992 c 575 s 3-22,53

239.06 RULES.

The department shall prescribe and adopt such rules as it may deem necessary to carry out the provisions of this chapter, and it may change, modify, or amend any or all rules when deemed necessary and the rules so made shall have the force and effect of law.

History: (5275) 1911 c 156 s 3; 1971 c 25 s 67; 1985 c 248 s 70

239.07 [Repealed, 1991 c 198 s 12]

239.08 [Repealed, 1991 c 198 s 12]

239.081 INSPECTING TRACK SCALES.

The department shall supervise and inspect all track scales, and may direct any carrier to transport, move, and switch to any track scale free of charge any car used in the inspection and testing of scales. The department shall require the installation and maintenance of track scales at terminals, warehouses, and at other points in the state where scales are deemed necessary. The department shall prescribe reasonable rules for the weighing of railroad cars and of freight. Rules of the department promulgated under chapter 218 and in effect on January 1, 1976, which pertain to installation or inspection of track scales or the weighing of railroad cars and freight shall continue in effect until amended or repealed by the department.

History: 1980 c 460 s 31; 1985 c 248 s 70

239.09 SPECIAL POLICE POWERS.

When necessary to enforce this chapter or rules adopted under the authority granted by section 239.06, the director is:

(1) authorized and empowered to arrest, without formal warrant, any violator of sections 325E.11 and 325E.115 or of the statute in relation to weights and measures;

(2) empowered to seize for use as evidence and without formal warrant, any false weight, measure, weighing or measuring device, package, or commodity found to be used, retained, or offered or exposed for sale or sold in violation of law;

(3) during normal business hours, authorized to enter commercial premises;

(4) if the premises are not open to the public, authorized to enter commercial

premises only after presenting credentials and obtaining consent or after obtaining a search warrant;

(5) empowered to issue stop-use, hold, and removal orders with respect to weights and measures commercially used, and packaged commodities or bulk commodities kept, offered, or exposed for sale, that do not comply with the weights and measures laws; and

(6) empowered, upon reasonable suspicion of a violation of the weights and measures laws, to stop a commercial vehicle and, after presentation of credentials, inspect the contents of the vehicle, require that the person in charge of the vehicle produce documents concerning the contents, and require the person to proceed with the vehicle to some specified place for inspection.

History: (5280) 1911 c 156 s 8; 1971 c 25 s 44; 1971 c 74 s 9; 1Sp1981 c 4 art 1 s 98; 1986 c 444; 1987 c 348 s 34; 1991 c 198 s 6

239.091 METHOD OF SALE.

The method of sale for a commodity must provide an accurate and adequate quantity of information that will allow the buyer to make price and quantity comparisons. The department may adopt rules to administer this section.

History: 1991 c 198 s 7

239.092 SALE FROM BULK.

Bulk sales of commodities, when the buyer and seller are not both present to witness the measurement, must be accompanied by a delivery ticket containing the following information:

- (1) the name and address of the person who weighed or measured the commodity;
- (2) the date delivered;
- (3) the quantity delivered;
- (4) the count of individually wrapped packages delivered, if more than one is included in the quantity delivered;
- (5) the quantity on which the price is based, if different than the quantity delivered; and
- (6) the identity of the commodity in the most descriptive terms commercially practicable, including representations of quality made in connection with the sale.

This section is not intended to conflict with the bulk sale requirements of the department of agriculture. If a conflict occurs, the law and rules of the department of agriculture govern.

History: 1991 c 198 s 8

239.093 INFORMATION REQUIRED IN PACKAGES.

A package offered, exposed, or held for sale must bear a clear and conspicuous declaration of:

- (1) the identity of the commodity in the package, unless the commodity can be easily identified through the wrapper or container;
- (2) the net quantity in terms of weight, measure, or count;
- (3) the name and address of the manufacturer, packer, or distributor, if the packages were not produced on the premises where they are offered, exposed, or held for sale; and
- (4) the unit price, if the packages are part of a lot containing random weight packages of the same commodity.

This section is not intended to conflict with the packaging requirements of the department of agriculture. If a conflict occurs, the laws and rules of the department of agriculture govern.

History: 1991 c 198 s 9

239.094 PACKAGED COMMODITIES; ADVERTISING FOR SALE.

When a packaged commodity is advertised with its retail price, the quantity declaration that appears on the package must also appear in the advertisement.

History: 1991 c 198 s 10

239.10 ANNUAL INSPECTION; FEE.

The department shall charge a fee to the owner for the costs of the regular inspection of scales, weights, measures, and weighing or measuring devices. The cost of any other inspection must be paid by the owner if the inspection is performed at the owner's request or if the inspection is made at the request of some other person and the scale, weight, measure, or weighing or measuring device is found to be incorrect. The department may fix the fees and expenses for regular inspections and special services by rule pursuant to section 16A.128, except that no additional fee may be charged for retail petroleum pumps, petroleum vehicle meters, and petroleum bulk meters that dispense petroleum products for which the petroleum inspection fee required by section 239.78 is collected. Money collected by the department for its regular inspections, special services, fees, and penalties must be paid into the state treasury and credited to the state general fund.

History: (5282) 1911 c 156 s 11; 1915 c 281 s 1; 1969 c 399 s 1; 1969 c 1031 s 11; 1971 c 25 s 44,67; 1971 c 74 s 10; 1977 c 364 s 15; 1981 c 357 s 76; 1983 c 301 s 175; 1984 c 654 art 3 s 79; 1987 c 268 art 14 s 1

239.11 [Obsolete]**239.12 TESTING MEASURING EQUIPMENT.**

The department may inspect and test all meters, mechanical devices, and measures of every kind, and tools, appliances, and accessories connected therewith, used, employed, kept, sold, or offered or exposed for sale within this state for the purpose of measuring the amount, quantity or extent of electricity, gas, or water furnished, sold, or distributed to the public by any person, association, corporation, or municipality except cities of the first class having meter inspection departments. Upon petition of at least ten consumers of electricity, gas, or water within the territorial limits of any municipality and upon the deposit with the clerk of such municipality by each of such consumers of a fee of 25 cents for each such meter, mechanical device, and measure installed or used upon the premises of each such petitioning consumer, the governing body of such municipality may request the department to make an inspection and test of all such meters, mechanical devices, and measures upon the premises of such petitioning consumers. Thereupon the department, within a reasonable time after the receipt by it of such request, shall proceed to make an inspection and test of all of such meters, mechanical devices, and measures upon the premises of all such petitioning consumers and upon the premises of all other consumers within such municipality who, at the time of such inspection and test, shall have deposited with the clerk of such municipality the fee of 25 cents for each such meter, mechanical device, and measure upon the premises of such consumers. All such fees collected by the clerk of any such municipality shall be remitted by such municipality to the department within 30 days of the completion of such inspection and test, and deposited to the credit of the general fund. All such meters, mechanical devices, and measures found, upon inspection, to be correct and accurate, shall be sealed with proper devices to be approved by the department. The department, or any of its employees, shall condemn, seize and destroy all incorrect and inaccurate meters, mechanical devices, and measures which, in the judgment of the department, cannot be satisfactorily repaired; and such as are incorrect and inaccurate and yet may be repaired shall be marked as "Condemned for Repair," in the manner to be prescribed by the department. The owner of such meters, mechanical devices, and measures which have been so "Condemned for Repair" shall have the same repaired and corrected within 30 days; and such meters, mechanical devices, and measures shall not be disposed of without the consent of the department. In the general

performance of its duty, the department, or any of its employees, may enter or go into or upon any premises, building, stand, or place at all reasonable times.

VIOLATIONS, PENALTIES

239.23 OFFENSES; PENALTIES.

Any person who shall offer or expose for sale, sell or use, or possess a false scale, weight or measure, or weighing or measuring device, or any weight or measure or weighing or measuring device which has not been sealed as provided by sections 239.01 to 239.10, or use the same in the buying or selling of any commodity or thing; or who shall dispose of any condemned weight, measure, or weighing or measuring device, or remove any tag placed thereon by any authorized employee of the division, or sell or offer or expose for sale less than the quantity represented; or sell or offer or expose for sale any such commodities in the manner contrary to law; or sell or offer for sale or possess for the purpose of selling, any device or instrument to be used to, or calculated to, falsify any weight or measure, or refuse to pay any fee charged for testing and sealing or condemning any scale, weight, or measure, or weighing or measuring device, shall be guilty of a misdemeanor.

History: (5278) 1911 c 156 s 6; 1971 c 25 s 44; 1971 c 74 s 12; 1977 c 364 s 17; 1986 c 444

239.24 HINDERING OFFICIAL; PENALTY.

Any person hindering, impeding, or restricting in any way any employee of the division while in the performance of official duty shall be guilty of a misdemeanor.

History: (5279) 1911 c 156 s 7; 1971 c 25 s 44; 1971 c 74 s 13; 1977 c 364 s 18; 1986 c 444

239.25 OBSTRUCTION OF INSPECTION.

Every person, association, or corporation that refuses to allow entrance upon or into its premises, building, stand, or place for the purpose of inspection as prescribed in section 239.12, or that shall use, employ, keep, sell, or offer or expose for sale any such meters, mechanical devices, or measures in violation of section 239.12 shall be guilty of a misdemeanor and each violation thereof shall constitute a separate offense.

History: (5285-2) 1927 c 291 s 2; 1986 c 444

- 239.26 [Repealed, 1974 c 347 s 17]
- 239.27 [Repealed, 1980 c 509 s 94]

STANDARD MEASURES, CONTAINERS

239.28 DRY MEASURES.

The standard measure of capacity for commodities sold by dry measure shall be the bushel containing 2150.42 cubic inches. The half bushel, peck, half peck, quarter peck, quart, and pint shall be derived by successively dividing that measure by two.

History: (7021) *RL s 2724; 1913 c 560 s 1*

239.29 LIQUID MEASURE.

The standard measure of capacity for liquids shall be the wine gallon, containing 231 cubic inches; and 31.50 gallons shall constitute a barrel, except for fermented malt liquors which shall be a barrel of 31 gallons, and 63 gallons a hogshead.

History: (7022) *RL s 2725; 1913 c 560 s 2*

239.30 LINEAL MEASURE.

The standard measure of length, from which all other measures of extension, lineal, superficial, or solid, shall be derived, is the yard, of three feet, or 36 inches.

History: (7023) *RL s 2726; 1913 c 560 s 2*

239.31 HUNDREDWEIGHT.

In contracts for the sale of goods or commodities, the term "hundredweight" shall mean 100 pounds avoirdupois.

History: (7024) *RL s 2727; 1913 c 560 s 3*

239.32 STANDARD WEIGHT OF BUSHEL.

In contracts for the sale of any of the following articles, the term "bushel" shall mean the number of pounds avoirdupois herein stated:

Corn, in ear, 70; beans (except lima beans, scarlet runner pole beans, white runner pole beans and broad windsor beans), smooth peas, wheat, clover seed, Irish potatoes and alfalfa, 60; broom corn seed and sorghum seed, 57; shelled corn (except sweet corn), rye, lima beans, flaxseed and wrinkled peas, 56; sweet potatoes and turnips, 55; onions and rutabagas, 52; buckwheat, hempseed, rapeseed, beets, green apples, walnuts, rhubarb, hickory nuts, chestnuts, tomatoes, scarlet runner pole beans and white runner pole beans, 50; barley, millet, Hungarian grass seed, sweet corn, cucumbers and peaches, 48; broad windsor beans, 47; carrots, timothy seed and pears, 45; parsnips, 42; spelt or spilts, 40; cranberries, 36; oats and bottom onion-sets, 32; dried apples, dried peaches and top onion-sets, 28; peanuts, 22; blue grass, orchard grass and redbtop seed, 14; plastering hair, unwashed, 8; plastering hair, washed, 4; lime, 80; but if sold by the barrel the weight shall be 200 pounds. In contracts for the sale of green apples, the term "bushel" shall mean 2150.42 cubic inches.

History: (7025) *RL s 2728; 1913 c 560 s 4; 1935 c 270*

239.33 STANDARD MEASUREMENT OF WOOD.

In all contracts for sale of wood the term "cord" shall mean 128 cubic feet of wood, in four foot lengths; and if the sale is of "sawed wood," a cord shall mean 110 cubic feet when ranked, or 160 cubic feet when thrown irregularly or loosely into a conveyance for delivery to the purchaser; and if the sale is of "sawed and split wood," a cord shall mean 120 cubic feet, when ranked, and 175 cubic feet when thrown irregularly and loosely into a conveyance for delivery. If a measurement is made by weight, the term "cord" or any other term used to describe freshly cut green aspen in 100 inch or pole lengths containing 133-1/3 cubic feet of loosely or irregularly piled wood for transportation constitutes 4,300 pounds during the period of May 1 through October 31 and 4,500 pounds during the period of November 1 through April 30. Specified weights are based on 74 cubic feet of solid wood content per cord.

History: (7026) *1913 c 560 s 5; 1985 c 260 s 1*

239.34 STANDARD WEIGHT OF COAL AND CHARCOAL.

In all contracts for the sale of coal, charcoal, and ice, the term "ton" shall mean 2,000 pounds. A sale of coal and charcoal, except by weight, is hereby prohibited.

History: (7027) 1913 c 560 s 6; 1973 c 89 s 1

239.35 STANDARD WEIGHT OF FLOUR.

In all contracts for the sale of flour, the term "barrel" shall mean 196 net pounds avoirdupois.

History: (7028) 1913 c 560 s 7

239.36 FRACTIONAL PARTS.

All contracts for the sale of a fractional part of a bushel, barrel, ton, or cord of any article or commodity on which the legal weight or measurement per bushel, barrel, ton, or cord has been established, shall require and mean a like fractional part of the legal and established weight or measurement per bushel, barrel, ton, or cord.

History: (7029) 1913 c 560 s 8

239.37 [Repealed, 1991 c 198 s 12]

239.38 SEALING.

Every person who shall buy, sell, or dispose of any goods or commodities by an unsealed weight, measure, or scale kept by the person, or shall knowingly use any such weight, measure, or scale which has been sealed, but is incorrect, shall be guilty of a misdemeanor; but no contract of sale shall thereby be rendered void.

History: (7032) RL s 2729; 1975 c 313 s 23; 1986 c 444

239.39 [Repealed, 1975 c 313 s 24]

239.40 [Repealed, 1975 c 313 s 24]

239.41 [Repealed, 1975 c 313 s 24]

239.42 [Repealed, 1975 c 313 s 24]

239.43 [Repealed, 1975 c 313 s 24]

239.44 PENALTY FOR VIOLATION.

Whoever in buying shall take any greater number of pounds or cubic feet to the bushel, barrel, ton, or cord, as the case may be, than is allowed and provided in sections 239.28 to 239.36, or in selling, shall give any less number, shall be guilty of a misdemeanor.

History: (7030) 1913 c 560 s 9; 1977 c 364 s 19; 1991 c 198 s 11

239.45 [Repealed, 1976 c 239 s 75]

239.46 FINES.

All fines collected under the provisions of sections 239.28 to 239.38 shall be paid to the county treasurer for the benefit of the school fund of the county where the action is brought.

History: (7035) RL s 2732; 1976 c 239 s 76

239.51 STANDARD WEIGHTS OF CERTAIN CONTAINERS.

Subdivision 1. Standard weights; exceptions. It shall be unlawful for any person, partnership, corporation, company, cooperative society, or organization to pack for sale, sell, offer or expose for sale in this state any of the following commodities except in containers of net avoirdupois weights of 3, 5, 10, 25, 50, and 100 pounds, and multiples of 100 pounds: wheat flour, self-rising wheat flour, phosphated wheat flour, bro-

mated flour, enriched flour, enriched self-rising flour, enriched bromated flour, corn flour, corn meals, hominy, and hominy grits.

The provisions of this section shall not apply to:

- (a) The retailing of flours, meals, hominy, and hominy grits direct to the consumer from bulk stock;
- (b) The sale of flours and meals to commercial bakers or blenders in containers of more than 100 pounds or for export;
- (c) Flours, meals, hominy, and hominy grits packed in containers the net contents of which are less than three pounds;
- (d) The exchange of wheat for flour by mills grinding for toll.

Subd. 2. **Penalty.** Any violation of this section constitutes a misdemeanor.

History: 1945 c 295

239.511 CONTAINERS FOR SMALL FRUITS.

Subdivision 1. **Legal size.** It shall be unlawful for any person to sell, offer for sale, or give away, any containers for the distribution of berries or small fruits in less quantities than one bushel, unless the containers are of the capacity of one quart, one pint, or one-half pint, or multiples of a quart standard dry measure, and all sales of raspberries, blackberries, blueberries, currants, gooseberries, strawberries, and similar berries, and all plums, cherries, and similar small fruit, in less quantities than one bushel shall be by dry measure, or in containers as above specified. The possession of containers for berries or small fruit shall be presumptive evidence that they were to be used for distribution. This subdivision shall not require containers as above specified when such berries and small fruits are picked by the consumer on the grower's property.

Subd. 2. **Refilling.** In no case shall such containers be refilled for use in the sale of berries or small fruits of any kind whatsoever.

Subd. 3. **Penalty.** Any person violating the provisions of subdivisions 1 and 2 shall be guilty of a misdemeanor and punished by a penalty of not less than \$10 nor more than \$100 or by imprisonment in the county jail for not less than ten nor more than 90 days.

History: (10402, 10403, 10404) 1913 c 66 s 1-3; 1971 c 137 s 1

239.52 WEIGHTS AND MEASURES FEES.

The department of public service shall adjust the schedule of fees for regular and special weights and measures inspections to recover the amount of money appropriated for the weights and measures program, other than the cost of (1) checkweighing or the weighing of prepackaged goods to determine whether the content weight listed on the package is accurate, (2) testing for the quality of petroleum products, (3) inspections or investigations made as a result of a complaint received by the department, if the scale weight, measure, or weighing or measuring device is found to be correct, (4) court appearances by department personnel on behalf of other governmental agencies, and (5) enforcement of sections 325E.11 and 325E.115. The department of public service shall review and adjust its schedule of fees for regular and special inspections at the end of each six months and have all fees charged approved by the commissioner of finance before they are adopted, so as to insure that the fees charged shall be sufficient to pay all the recoverable costs connected with regular and special inspections during the fiscal year.

History: 1947 c 634 s 20; 1969 c 399 s 1; 1971 c 25 s 46,67; 1981 c 357 s 77; 1987 c 348 s 35

239.521 [Repealed, 1981 c 357 s 115]

239.53 USING FALSE WEIGHTS AND MEASURES.

Every person who shall injure or defraud another by using, with knowledge that

the same is false, a false weight, measure, or other apparatus for determining the quantity of any commodity or article of merchandise, or by knowingly delivering less than the quantity represented; or who shall retain any weight or measure, knowing it to be false, unless it appears beyond a reasonable doubt that it was so retained without intent to use it, or permit it to be used in violation of the foregoing provisions of this section; or who shall knowingly mark or stamp false or short weights or false tare on any cask or package, or knowingly sell or offer for sale any cask or package so marked, shall be guilty of a misdemeanor.

History: (10401) *RL s 5115; 1986 c 444*

AMMONIA, MOTOR OIL, BATTERIES

239.531 ANHYDROUS AMMONIA.

Anhydrous ammonia may be sold at the retail level to any buyer using a temperature correctable liquid meter.

History: 1988 *c 448 s 1; 1991 c 198 s 11*

239.54 INSPECTION OF MOTOR OIL AND AUTOMOTIVE BATTERY RETAILERS.

The division shall produce, print, and distribute the notices required by sections 325E.11 and 325E.115 and shall inspect all places where motor oil is offered for sale by persons subject to section 325E.11 and where lead acid batteries are offered for sale at retail subject to section 325E.115 at least once every two years to determine compliance with those sections. In performing its duties under this section the division may inspect any place, building, or premises governed by sections 325E.11 and 325E.115. Authorized employees of the division may issue warnings and citations to persons who fail to comply with the requirements of those sections.

History: 1987 *c 348 s 36*

PETROLEUM PRODUCTS

239.75 INSPECTION OF PETROLEUM PRODUCTS.

Subdivision 1. **Inspection to be made.** The director shall:

(1) take samples, free of charge, of petroleum products wherever processed, blended, held, stored, imported, transferred, offered for sale or use, or sold in Minnesota, limiting each sample to:

- (i) two-tenths of one gallon, except when an octane test is planned; or
- (ii) seven-tenths of one gallon for an octane test;

(2) inspect and test petroleum product samples according to the methods of ASTM or other valid test methods adopted by rule, to determine whether the products comply with the specifications in section 239.761;

(3) inspect petroleum product storage tanks to ensure that the products are free from water and impurities;

(4) inspect and test samples submitted to the department by a licensed distributor, making the test results available to the distributor;

(5) inspect the labeling, price posting, and price advertising of petroleum product dispensers and advertising signs at businesses or locations where petroleum products are sold, offered for sale or use, or dispensed into motor vehicles;

(6) maintain records of all inspections and tests according to the records retention policies of the department of administration;

(7) delegate to division personnel, at the director's discretion, any or all of the responsibilities, duties, and powers in sections 239.75 to 239.80;

(8) publish octane test data and information to assist persons who produce and sell gasoline and gasoline-oxygenate blends;

- (9) register gasoline-oxygenate blenders according to the requirements of the EPA;
- (10) audit the records of any person responsible for the product to determine compliance with sections 239.75 to 239.792;
- (11) after consulting with the commissioner of the pollution control agency, grant a temporary exemption from the oxygenated gasoline requirements in section 239.791 if the supply of oxygenate is insufficient to produce gasoline-oxygenate blends during an EPA-designated carbon monoxide control period; and
- (12) adopt, as an enforcement policy for the division, reasonable margins of uncertainty for the tests used to determine compliance with the specifications in section 239.761, the oxygen percentages in section 239.791, and the octane requirements in section 239.792 and apply the margins of uncertainty to only tests performed by the division, not by adding the margins to uncertainties in tests performed by any person responsible for the product.

Subd. 2. Petroleum samples; when not meeting specifications. When a sample does not comply with the specifications in section 239.761, the director shall reject the non-complying product from which the sample was taken and employ any or all of the following actions to prohibit sale of the noncomplying product:

- (1) issue a stop sale order to a person responsible for the product;
- (2) reject and mark as rejected the pumps, meters, or other dispensers from which the noncomplying product was obtained;
- (3) seal and mark as sealed the storage tanks from which the noncomplying product was obtained;
- (4) issue a citation;
- (5) request that a city or county attorney draft a misdemeanor complaint;
- (6) when a product fails to comply with the specifications and when use of the product does not endanger the public health or safety or adversely affect the emissions characteristics of the equipment in which it is used, advise the person responsible for the product that the product must be blended with another product to bring it into compliance.

Subd. 3. [Repealed, 1992 c 575 s 54]

Subd. 4. [Repealed, 1992 c 575 s 54]

Subd. 5. Product quality, responsibility. After a gasoline product is purchased, transferred, or otherwise removed from a refinery or terminal, the person responsible for the product shall:

- (1) keep the product free from contamination with water and impurities;
- (2) not blend the product with dissimilar petroleum products, for example, gasoline must not be blended with diesel fuel;
- (3) not blend the product with any contaminant, dye, chemical, or additive, except:
 - (i) agriculturally derived, denatured ethanol that complies with the specifications in this chapter;
 - (ii) an antiknock additive, or an additive designed to replace tetra-ethyl lead, that is registered by the EPA; or
 - (iii) a dye to distinguish heating fuel from low sulfur diesel fuel; and
- (4) maintain a record of the name or chemical composition of the additive, with the product shipping manifest or bill of lading for one year after the date of the manifest or bill.

Subd. 6. Rejected products, responsibility. When a product is rejected, the person responsible for the product shall blend or remove the product according to the director's instructions. If the rejected product is blended with another product to bring it into compliance, the person responsible for the product shall provide testing and documentation, in a manner approved by the director, to prove to the director that the blended product will comply with the specifications in section 239.761. If the rejected

product is removed, the person responsible for the product shall provide documentation to prove to the director that the rejected product has been removed and replaced with a product that complies with the specifications in section 239.761.

History: 1987 c 268 art 14 s 2; 1992 c 575 s 23

239.751 PETROLEUM DISPENSERS, PRICES, LABELS, AND SIGNS.

Subdivision 1. Dispenser requirements, automatic price computation. A retail petroleum dispenser that automatically computes the total price of each sale must have a unit price indicator on the face of the computer mechanism that clearly displays the price per gallon or price per liter, including all taxes. The unit price indicator must not be covered or obscured in any manner.

Subd. 2. Dispenser requirements, manual price computation. A retail petroleum dispenser that does not automatically compute the total price of each sale must have a sign stating the price per gallon or price per liter, including all taxes. The sign must be white with black letters and figures. The letters and figures must be at least one inch high. The sign must be clearly and conspicuously posted on all dispenser faces, as close as possible to the total quantity indicator. Examples of acceptable unit price signs include: "\$1.20/gallon," or "\$0.32/liter."

Subd. 3. Price advertising signs; gasoline, diesel fuel. A sign or device designed to advertise the price of gasoline or diesel fuel, that is posted within view of any public highway, road, or street, or on or near premises where gasoline is sold at retail, must meet the following requirements:

(a) The price per gallon, or price per liter, including all taxes and fees to be collected in connection with the sale, must be clearly stated in figures of uniform size and prominence.

(b) If the advertised price per gallon, or price per liter, is subject to any conditions or restrictions, the conditions or restrictions must be clearly posted on the sign. For example, if a customer must pay cash to obtain the advertised price, the sign must clearly state "cash," "cash price," or "cash discount price."

Subd. 4. Use of term "premium". The term "premium" may be used only to advertise, or to identify a dispenser used to dispense, gasoline with an octane rating of 91 or greater.

Subd. 5. Multiple price structure, signs. A person shall post signs on the dispensers, on the dispenser island, or on the canopy over the dispensers, that clearly state the conditions for obtaining the price offered on the dispensers, if the person:

- (1) sells or offers to sell gasoline or diesel fuel at retail;
- (2) has more than one dispenser for a specific grade of product; and
- (3) sets different dispensers to compute a total sale at different prices for the same product.

For example, signs must be posted to direct customers to separate dispensers for full service or self-service prices.

Subd. 6. Nonconforming dispensers, signs, displays, or labels. When a dispenser, sign, display, or label does not comply with the requirements in this section, the director shall reject the noncomplying dispenser or other equipment and employ any or all of the following actions to prohibit use of the noncomplying dispenser or other equipment:

- (1) reject and mark as rejected the pumps, meters, or other dispensers that do not comply, or are used in conjunction with advertising signs or price displays that do not comply;
- (2) issue a written warning to the owner, operator, manager, or attendant of the business or property where the dispenser or sign is located;
- (3) issue a citation to the owner, operator, manager, or attendant of the business or property where a dispenser or sign is located;
- (4) request that a city or county attorney draft a misdemeanor complaint.

Subd. 7. **Dispensers and other equipment; responsibility.** A person responsible for the product must meet all of the requirements in this section. When a dispenser or other equipment is rejected for failure to comply with this section, a person responsible for the product is required to correct the dispenser, price display violation, or price advertising violation.

History: 1992 c 575 s 24

239.752 STORAGE TANK MARKING; RETAIL LOCATIONS.

A person responsible for the product shall securely mount a permanent engraved plastic or stamped metal identification tag on the fill pipe of a petroleum product storage tank at a business where petroleum products are sold, offered for sale, or dispensed at retail into the storage tanks of motor vehicles. The identification tag must clearly display the grade or trade name of the product stored in the tank. The grade or trade name on the identification tag must be the same as the grade or trade name displayed on the dispensers through which the product is dispensed. The grade or trade name must not be displayed on an access cover over a fill pipe.

History: 1992 c 575 s 25

239.753 ENTRY UPON PREMISES AND ACCESS TO RECORDS.

The director, or a delegated employee of the department, may enter the premises of a person who processes, holds, stores, imports, transfers, offers for sale or use, or sells petroleum products in Minnesota to:

- (1) inspect the product in storage tanks and take samples from the storage tanks and dispensing equipment connected to the storage tanks;
- (2) inspect petroleum product dispensers and related signs and equipment, advertising signs, price displays, oxygenate labels, and octane labels; and
- (3) audit and make copies of petroleum product shipping, receiving, and invoice documents and records to determine compliance with sections 239.75 to 239.792.

The director shall limit inspection to information and data relating to product quantity, quality, oxygen content, and octane. The director shall maintain the confidentiality of certain records as required by section 239.791.

History: 1992 c 575 s 26

239.76 [Repealed, 1992 c 575 s 54]

239.761 PETROLEUM PRODUCT SPECIFICATIONS.

Subdivision 1. **Application.** A person responsible for the product must meet the specifications in subdivisions 3 to 12. The specifications apply to petroleum products processed, held, stored, imported, transferred, distributed, offered for distribution, offered for sale or use, or sold in Minnesota.

Subd. 2. **Coordination with departments of revenue and agriculture.** The petroleum product specifications in this section are intended to match the definitions and specifications in sections 41A.09 and 296.01. Petroleum products named in subdivisions 3 to 12 are defined in section 296.01.

Subd. 3. **Gasoline.** Gasoline that is not blended with ethanol must not be contaminated with water or other impurities and must comply with ASTM specification D 439-89. Gasoline that is not blended with ethanol must also comply with the volatility requirements in Code of Federal Regulations, title 40, part 80. After gasoline is sold, transferred, or otherwise removed from a refinery or terminal, a person responsible for the product:

- (1) may blend the gasoline with agriculturally derived ethanol as provided in subdivision 4;
- (2) shall not blend the gasoline with any oxygenate other than denatured, agriculturally derived ethanol;

(3) shall not blend the gasoline with other petroleum products that are not gasoline or denatured, agriculturally derived ethanol;

(4) shall not blend the gasoline with products commonly and commercially known as casinghead gasoline, absorption gasoline, condensation gasoline, drip gasoline, or natural gasoline; and

(5) may blend the gasoline with a detergent additive, an antiknock additive, or an additive designed to replace tetra-ethyl lead, that is registered by the EPA.

Subd. 4. Gasoline blended with ethanol. Gasoline may be blended with up to ten percent, by volume, agriculturally derived, denatured ethanol that complies with the requirements of subdivision 5. A gasoline-ethanol blend must:

(1) comply with the volatility requirements in Code of Federal Regulations, title 40, part 80;

(2) comply with ASTM specification D 4814-90a, or the gasoline base stock from which a gasoline-ethanol blend was produced must comply with ASTM specification D 4814-90a; and

(3) not be blended with casinghead gasoline, absorption gasoline, condensation gasoline, drip gasoline, or natural gasoline after the gasoline-ethanol blend has been sold, transferred, or otherwise removed from a refinery or terminal.

Subd. 5. Denatured ethanol. Denatured ethanol that is to be blended with gasoline must be agriculturally derived and must comply with ASTM specification D 4806-88. This includes the requirement that ethanol may be denatured only with specified concentrations of unleaded gasoline or rubber hydrocarbon solvent as defined in Code of Federal Regulations, title 27, parts 211 and 212, as adopted by the Bureau of Alcohol, Tobacco and Firearms of the United States Treasury Department.

Subd. 6. Gasoline blended with an oxygenate. Gasoline that is blended with an oxygenate, other than denatured ethanol, must comply with ASTM specification D 4814-90a. Oxygenates, other than denatured ethanol, must not be blended into gasoline after the gasoline has been sold, transferred, or otherwise removed from a refinery or terminal.

Subd. 7. Heating fuel oil. Heating fuel oil must comply with ASTM specification D 396-90a.

Subd. 8. Diesel fuel oil. Diesel fuel oil must comply with ASTM specification D 975-90.

Subd. 9. Kerosene. Kerosene must comply with ASTM specification D 3699-90.

Subd. 10. Aviation gasoline. Aviation gasoline must comply with ASTM specification D 910-90.

Subd. 11. Aviation turbine fuel, jet fuel. Aviation turbine fuel and jet fuel must comply with ASTM specification D 1655-90.

Subd. 12. Gas turbine fuel oil. Fuel oil for use in nonaviation gas turbine engines must comply with ASTM specification D 2880-90a.

History: 1992 c 575 s 27

239.78 INSPECTION FEES.

A person who owns petroleum products held in storage at a pipeline terminal, river terminal, or refinery shall pay an inspection fee of 85 cents for every 1,000 gallons sold or withdrawn from the terminal or refinery storage. The revenue from the fee must cover the amounts appropriated for petroleum product quality inspection expenses, for the inspection and testing of petroleum product measuring devices as required by this chapter, and for petroleum supply monitoring under chapter 216C.

The commissioner of revenue shall credit a person for inspection fees previously paid in error or for any material exported or sold for export from the state upon filing of a report in a manner approved by the department. The commissioner of revenue may collect the inspection fees along with any taxes due under chapter 296.

History: 1987 c 268 art 14 s 4; 1991 c 233 s 87; 1991 c 235 art 1 s 6; 1992 c 597 s

239.785 LIQUEFIED PETROLEUM GAS SALES.

The operator of a terminal that sells liquefied petroleum gas for resale to retail customers in this state shall pay a fee equal to one mill for each gallon of liquefied petroleum gas sold by the terminal. The fee must be remitted monthly to the commissioner of revenue for deposit in the general fund.

History: 1992 c 597 s 12

239.79 PETROLEUM PRODUCTS; TRANSACTION REQUIREMENTS.

Subdivision 1. [Repealed, 1992 c 575 s 54]

Subd. 2. [Repealed, 1992 c 575 s 54]

Subd. 3. **Results of test supplied by shipper to distributor.** Upon request from a distributor, a shipper of petroleum products shall, at the time of shipment, supply a distributor with the results of typical tests of the petroleum product shipped to the distributor.

Subd. 4. **Sales of certain petroleum products on gross volume basis.** A person responsible for the products listed in this subdivision shall transfer, ship, distribute, offer for distribution, sell, or offer to sell the products by volume. Volumetric measurement of the product must not be temperature compensated, or adjusted by any other factor. This subdivision applies to gasoline, number one and number two diesel fuel oils, number one and number two heating fuel oils, kerosene, denatured ethanol that is to be blended into gasoline, and an oxygenate that is to be blended into gasoline. This subdivision does not apply to the measurement of petroleum products transferred, sold, or traded between refineries, between refineries and terminals, or between terminals.

History: 1987 c 268 art 14 s 5; 1989 c 350 art 18 s 1; 1992 c 575 s 28

239.791 OXYGENATED GASOLINE.

Subdivision 1. **Minimum oxygen content required.** A person responsible for the product shall comply with the following requirements:

(a) After October 31, 1992, gasoline sold or offered for sale in a carbon monoxide control area, and during a carbon monoxide control period, must contain at least two percent oxygen by weight.

(b) After October 31, 1995, gasoline sold or offered for sale at any time in a carbon monoxide control area must contain at least two percent by oxygen weight.

(c) After October 31, 1997, all gasoline sold or offered for sale in Minnesota must contain at least two percent oxygen by weight.

Subd. 2. **Average oxygen content required.** After October 31, 1992, the total amount of gasoline distributed, transported, delivered, sold, or offered for sale by a registered oxygenate blender, during each annual carbon monoxide control period, in each carbon monoxide control area, must contain an average of 2.7 percent oxygen by weight.

Subd. 3. **Blending restriction.** When gasoline contains an oxygenate, a person responsible for the product shall not blend the product with ethanol or with any other oxygenate after it is transferred or otherwise removed from a refinery or terminal.

Subd. 4. **Blender registration.** A person shall register with the director, as prescribed by the director, at least 30 days before the beginning of a control period, if the person:

- (1) is either a licensed distributor or owns products stored at a refinery or terminal;
- (2) blends gasoline with an oxygenate; and
- (3) distributes, transports, delivers, sells, or offers to sell the gasoline-oxygenate blend in a carbon monoxide control area, during a carbon monoxide control period.

Subd. 5. **Oxygenate blending records.** A registered oxygenate blender shall maintain records of gasoline-oxygenate blends for one year after the end of each carbon monoxide control period. The records must be audited according to subdivision 6. The records must include:

(1) a record of the gallons of gasoline, gallons of oxygenate, and calculated weight percent of oxygen in each gasoline-oxygenate blend produced, distributed, transported, delivered, sold, or offered for sale in a carbon monoxide control area; and

(2) a cumulative record of the gallons of gasoline, gallons of oxygenate, and calculated weight percent of oxygen in all gasoline-oxygenate blends produced, distributed, transported, delivered, sold, or offered for sale in a carbon monoxide control area, and during a carbon monoxide control period.

Subd. 6. Oxygenate records; self audits. A registered oxygenate blender shall commission an attestation engagement performed by a certified public accountant to investigate compliance with this section and with EPA oxygenated fuel requirements. The audit report, including the cumulative record of gasoline oxygenate blends, must be submitted to the director, as prescribed by the director, within 120 days after the end of each carbon monoxide control period.

Subd. 7. Oxygenate records; state audits. The director shall audit the records of registered oxygenate blenders to ensure that each blender has met all requirements in this chapter. Specific information or data relating to sales figures or to processes or methods of production unique to the blender or that would tend to adversely affect the competitive position of the blender must be only for the confidential use of the director, unless otherwise specifically authorized by the registered blender.

Subd. 8. Disclosure. A person responsible for the product who delivers, distributes, sells, or offers to sell gasoline in a carbon monoxide control area, during a carbon monoxide control period, shall provide, at the time of delivery, a bill of lading or shipping manifest to the person who receives the gasoline. For oxygenated gasoline, the bill or manifest must state: "This fuel contains an oxygenate. Do not blend this fuel with ethanol or with any other oxygenate." For nonoxygenated gasoline, the bill or manifest must state: "This fuel must not be sold at retail or used in a carbon monoxide control area." This subdivision does not apply to sales or transfers of gasoline when the gasoline is dispensed into the supply tanks of motor vehicles.

Subd. 9. Dispenser labeling. During a carbon monoxide control period, and in a carbon monoxide control area, a person responsible for the product must clearly label each gasoline dispenser controlled by the person. The label must state:

(1) "The gasoline dispensed from this pump is oxygenated and will reduce carbon monoxide pollution from motor vehicles."; or

(2) "From October 1 through January 31, the gasoline dispensed from this pump is oxygenated and will reduce carbon monoxide pollution from motor vehicles."

History: 1992 c 575 s 29

239.792 GASOLINE OCTANE.

Subdivision 1. Gasoline octane; disclosure. A manufacturer, hauler, blender, agent, jobber, consignment agent, importer, or distributor who sells, delivers, or distributes gasoline or gasoline-oxygenate blends, shall provide, at the time of delivery, a bill of lading or shipping manifest to the person who receives the gasoline. The bill or manifest must state the minimum octane of the gasoline delivered. The stated octane number must be the average of the "motor method" octane number and the "research method" octane number as determined by the test methods in ASTM specification D 439-89 or D 4814-90a, or by a test method adopted by department rule.

Subd. 2. Gasoline octane; dispenser labeling. A person responsible for the product shall clearly, conspicuously, and permanently label each gasoline dispenser that is used to sell gasoline or gasoline-oxygenate blends at retail or to dispense gasoline or gasoline-oxygenate blends into the fuel supply tanks of motor vehicles, with the minimum octane of the gasoline dispensed. The label must meet the following requirements:

(a) The octane number displayed on the label must represent the average of the "motor method" octane number and the "research method" octane number as determined by the test methods in ASTM specification D 439-89 or D 4814-90a, or by a test method adopted by department rule.

(b) The label must be at least 2-1/2 inches high and three inches wide, with a yellow background, black border, and black figures and letters.

(c) The number representing the octane of the gasoline must be at least one inch high.

(d) The label must include the words "minimum octane" and the term " $(R+M)/2$ " or " $(RON+MON)/2$."

History: 1992 c 575 s 30

239.80 VIOLATIONS; PENALTIES.

Subdivision 1. Violations; actions of department. The director, or any delegated employee shall use the methods in section 239.75 to enforce sections 239.10, 239.761, 239.78, 239.79, 239.791, and 239.792.

Subd. 2. Penalty. A person who fails to comply with any provision of section 239.10, 239.761, 239.78, 239.79, 239.791, or 239.792 is guilty of a misdemeanor.
