72C.02 PURPOSE.

The purpose of sections 72C.01 to 72C.13 is to provide that insurance policies and contracts be readable and understandable to a person of average intelligence, experience, and education. All insurers shall be required by sections 72C.01 to 72C.13 to use policy and contract forms which are written in simple and commonly used language, which are logically and clearly arranged, which are printed in a legible format, and which are generally understandable. It is not the intent of sections 72C.01 to 72C.13 to mandate, require or allow alteration of the legal effect of any provision of any insurance policy or contract.

History: 1977 c 345 s 2

72C.03 SCOPE.

Except as otherwise specifically provided, sections 72C.01 to 72C.13 shall apply to all policies or contracts of direct insurance, issued by persons authorized at any time to transact insurance in this state and including nonprofit health service plan corporations under chapter 62C, health maintenance organizations under chapter 62D, and fraternal benefit societies under chapter 64B. Sections 72C.01 to 72C.13 shall not apply to insurance as described in the master contract for any policy of group insurance when the group consists of ten or more persons. Sections 72C.01 to 72C.13 shall not apply to policies or contracts issued prior to July 1, 1980 under which there is no unilateral right of the insurer to cancel, nonrenew, amend or change in any way, unless the policy or contract is amended or changed by mutual agreement of the parties. Sections 72C.01 to 72C.13 shall not apply to an insurance policy or contract which is a security subject to federal jurisdiction, nor shall they apply to a new policy or contract written in language other than English.

72C.09 FLESCH SCALE ANALYSIS READABILITY SCORE, PROCEDURES.

A Flesch scale analysis readability score shall be measured as provided in this section.

(1) For contracts containing 10,000 words or less of text, the entire contract shall be analyzed. For contracts containing more than 10,000 words the readability of two 200 word samples per page may be analyzed in lieu of the entire contract. The samples shall be separated by at least 20 printed lines. For purposes of this clause a word shall be counted as five printed characters or spaces between characters.

(2)(a)(i) The number of words and sentences in the text shall be counted and the total number of words divided by the total number of sentences. The figure obtained shall be multiplied by a factor of 1.015.

(ii) The total number of syllables shall be counted and divided by the total number of words. The figure obtained shall be multiplied by a factor of 84.6.

(iii) The sum of the figures computed under (i) and (ii) subtracted from 206.835 equals the Flesch scale analysis readability score for the policy or contract.

(b) For purposes of clause (a) the following procedures shall be used:

(i) A contraction, hyphenated word, or numbers and letters, when separated by spaces, shall be counted as one word;

(ii) A unit of words ending with a period, semicolon or colon, but excluding headings, captions, and lists, shall be counted as a sentence; and

(iii) A syllable means a unit of spoken language consisting of one or more letters of a word as divided by an accepted dictionary. Where the dictionary shows two or more equally acceptable pronunciations of a word, the pronunciation containing fewer syllables may be used.
