86.71 FEDERAL LAND AND WATER FUND; ACCEPTANCE OF FUNDS; DISTRIBUTION.

Subdivision 1. The governor is designated as the state agency to apply for, accept, receive and disburse federal funds and private funds which are granted to the state of Minnesota from the Federal Land and Water Fund Act.

Subd. 2. The governor may designate a state agency or agencies to act in applying for, receiving, and accepting federal funds under the provisions of subdivision 1. Such designation of a state department or agency shall be filed in the office of the secretary of state.

Subd. 3. The governor or any state department or agency designated shall comply with any and all requirements of federal law and any rules and regulations promulgated thereunder to enable the application for, the receipt of, and the acceptance of such federal funds. The expenditure of any such funds received shall be governed by the laws of the state except insofar as federal requirements may otherwise provide. All such money received by the governor or any state department or agency designated for such purpose shall be deposited in the state treasury and are hereby appropriated annually in order to enable the governor or the state department or agency designated for such purpose to carry out the purposes for which the funds are received. None of such federal money so deposited in the state treasury shall cancel and they shall be available for expenditure in accordance with the requirements of federal law.

Subd. 4. Fifty percent of all money made available to the state from funds granted under subdivision 1 shall be distributed for projects to be acquired, developed and maintained by local units of government, providing that any project approved is consistent with a statewide or a county or regional recreational plan and compatible with the statewide recreational plan.

Subd. 5. Any guidelines established by the state for distribution of money made available to the state under subdivision 1 shall, after July 1, 1967, be distributed on a statewide and regional priorities basis other than a formula based on population and land areas.

86.72 NATURAL RESOURCES FEDERAL REIMBURSEMENT ACCOUNT.

Subdivision 1. Except as otherwise specifically provided, federal reimbursements and match money received for the purposes described in this chapter, regardless of the source of state match, credit or value used to earn the reimbursement or match, other than the federal match for state money appropriated to the local recreation and natural areas grant-in-aid account, and other than the federal great river road money, shall in the first instance be credited to a federal receipt account by the state agency receiving the reimbursement or match. Any state department or agency, including the Minnesota historical society and the University of Minnesota, that receives reimbursements or matching money as described above shall transfer those amounts to the natural resources federal reimbursement account. Amounts sufficient to pay the costs incurred by the department of natural resources in administering federal reimbursements are appropriated annually to the commissioner from the federal receipt account.

Subd. 2. Money appropriated from the account shall be expended for state land acquisition and development that is part of a natural resources acceleration activity, when the acquisition and development is deemed to be of an emergency or critical nature. In addition this money is available for studies initiated by the legislative commission on Minnesota resources that are found to be proper in order for the commission to carry out its legislative charge.

Subd. 3. Requests for allocation from the account for acquisition or development shall be accompanied by a certificate signed by the commissioner of natural resources, showing a review of the application against chapter 86A. Copies of the certification shall be submitted to the appropriate legislative committees and commissions. Appropriations from the account shall be expended with the approval of the governor after consultation with the legislative advisory commission. The legislative commission on Minnesota resources shall make recommendations to the legislative advisory commission regarding the expenditures.

Subd. 4. Any land and water conservation fund moneys received over and above the normal state apportionment from that fund are appropriated for the purposes of the reimbursement account. This appropriation is in addition to any amounts appropriated from the account as direct appropriations.
