

CHAPTER 147

BOARD OF MEDICAL PRACTICE

147.091 Grounds for disciplinary action.

147.091 GROUNDS FOR DISCIPLINARY ACTION.

[For text of subs 1 and 1a, see M.S.2000]

Subd. 1b. **Utilization review.** The board may investigate allegations and impose disciplinary action as described in section 147.141 against a physician performing utilization review for a pattern of failure to exercise that degree of care that a physician reviewer of ordinary prudence making utilization review determinations for a utilization review organization would use under the same or similar circumstances. As part of its investigative process, the board shall receive consultation or recommendation from physicians who are currently engaged in utilization review activities. The internal and external review processes under sections 62M.06 and 62Q.73 must be exhausted prior to an allegation being brought under this subdivision. Nothing in this subdivision creates, modifies, or changes existing law related to tort liability for medical negligence. Nothing in this subdivision preempts state peer review law protection in accordance with sections 145.61 to 145.67, federal peer review law, or current law pertaining to complaints or appeals.

[For text of subs 2 to 5, see M.S.2000]

Subd. 6. **Mental examination; access to medical data.** (a) If the board has probable cause to believe that a regulated person comes under subdivision 1, paragraph (1), it may direct the person to submit to a mental or physical examination. For the purpose of this subdivision every regulated person is deemed to have consented to submit to a mental or physical examination when directed in writing by the board and further to have waived all objections to the admissibility of the examining physicians' testimony or examination reports on the ground that the same constitute a privileged communication. Failure of a regulated person to submit to an examination when directed constitutes an admission of the allegations against the person, unless the failure was due to circumstance beyond the person's control, in which case a default and final order may be entered without the taking of testimony or presentation of evidence. A regulated person affected under this paragraph shall at reasonable intervals be given an opportunity to demonstrate that the person can resume the competent practice of the regulated profession with reasonable skill and safety to the public.

In any proceeding under this paragraph, neither the record of proceedings nor the orders entered by the board shall be used against a regulated person in any other proceeding.

(b) In addition to ordering a physical or mental examination, the board may, notwithstanding section 13.384, 144.651, or any other law limiting access to medical or other health data, obtain medical data and health records relating to a regulated person or applicant without the person's or applicant's consent if the board has probable cause to believe that a regulated person comes under subdivision 1, paragraph (1). The medical data may be requested from a provider, as defined in section 144.335, subdivision 1, paragraph (b), an insurance company, or a government agency, including the department of human services. A provider, insurance company, or government agency shall comply with any written request of the board under this subdivision and is not liable in any action for damages for releasing the data requested by the board if the data are released pursuant to a written request under this subdivision, unless the information is false and the provider giving the information knew, or had reason to believe, the information was false. Information obtained under this subdivision is classified as private under sections 13.01 to 13.87.
