

CHAPTER 150A

DENTISTRY

150A.06 Licensure.
150A.081 Access to medical data.

150A.10 Allied dental personnel.

150A.06 LICENSURE.

Subdivision 1. **Dentists.** A person of good moral character not already a licensed dentist of the state, having submitted an application and fee as prescribed by the board and the diploma or equivalent awarded to the person by a dental college approved by the board, may be examined by the board or by an agency pursuant to section 150A.03, subdivision 1, in a manner to test the applicant's fitness to practice dentistry. A graduate of a dental college in another country must not be disqualified from examination solely because of the applicant's foreign training if the board determines that the training is equivalent to or higher than that provided by a dental college approved by the Commission on Dental Accreditation of the American Dental Association or a successor organization. In the case of examinations conducted pursuant to section 150A.03, subdivision 1, applicants may take the examination prior to applying to the board for licensure. The examination shall include an examination of the applicant's knowledge of the laws of Minnesota relating to dentistry and the rules of the board. An applicant is ineligible to retake the clinical examination required by the board after failing it twice until further education and training are obtained as specified by the board by rule. A separate, nonrefundable fee may be charged for each time a person applies. An applicant who passes the examination in compliance with subdivision 2b and meets all other requirements of the board shall be licensed to practice dentistry and supplied with a license by the board.

150A.081 ACCESS TO MEDICAL DATA.

[For text of subs 1 and 2, see M.S.2000]

Subd. 3. **Data classification; release of certain health data not required.** Information obtained under this section is classified as private data on individuals under chapter 13. Under this section, the commissioner of health is not required to release health data collected and maintained under section 13.3805, subdivision 2.

History: 1999 c 227 s 22

150A.10 ALLIED DENTAL PERSONNEL.

[For text of subd 1, see M.S.2000]

Subd. 1a. **Limited authorization for dental hygienists.** (a) Notwithstanding subdivision 1, a dental hygienist licensed under this chapter may be employed or retained by a health care facility to perform dental hygiene services described under paragraph (b) without the patient first being examined by a licensed dentist if the dental hygienist:

(1) has two years practical clinical experience with a licensed dentist within the preceding five years; and

(2) has entered into a collaborative agreement with a licensed dentist that designates authorization for the services provided by the dental hygienist.

(b) The dental hygiene services authorized to be performed by a dental hygienist under this subdivision are limited to removal of deposits and stains from the surfaces of the teeth, application of topical preventive or prophylactic agents, polishing and smoothing restorations, removal of marginal overhangs, performance of preliminary

charting, taking of radiographs, and performance of root planing and soft-tissue curettage. The dental hygienist shall not place pit and fissure sealants, unless the patient has been recently examined and the treatment planned by a licensed dentist. The dental hygienist shall not perform injections of anesthetic agents or the administration of nitrous oxide unless under the indirect supervision of a licensed dentist. The performance of dental hygiene services in a health care facility is limited to patients, students, and residents of the facility.

(c) A collaborating dentist must be licensed under this chapter and may enter into a collaborative agreement with no more than four dental hygienists. The collaborative agreement must include:

(1) consideration for medically compromised patients and medical conditions for which a dental evaluation and treatment plan must occur prior to the provision of dental hygiene services; and

(2) a period of time in which an examination by a dentist should occur.

The collaborative agreement must be maintained by the dentist and the dental hygienist and must be made available to the board upon request.

(d) For the purposes of this subdivision, a "health care facility" is limited to a hospital; nursing home; home health agency; group home serving the elderly, disabled, or juveniles; state-operated facility licensed by the commissioner of human services or the commissioner of corrections; and federal, state, or local public health facility, community clinic, or tribal clinic.

(e) For purposes of this subdivision, a "collaborative agreement" means a written agreement with a licensed dentist who authorizes and accepts responsibility for the services performed by the dental hygienist. The services authorized under this subdivision and the collaborative agreement may be performed without the presence of a licensed dentist and may be performed at a location other than the usual place of practice of the dentist or dental hygienist and without a dentist's diagnosis and treatment plan, unless specified in the collaborative agreement.
