Subd. 3. **Administration.** (a) The pollution prevention assistance program must be coordinated with other public and private programs that provide management and technical assistance to eligible recipients.

(b) The director may make grants to public or private entities to operate elements of the program. Grantees shall provide periodic reports on their efforts to assist eligible recipients to reduce pollution.

(c) A person, when operating or participating in elements of the technical assistance program pursuant to a grant or contract with the office under this section or other law, is an employee of the state, certified to be acting within the scope of employment, for purposes of the indemnification provisions of section 3.736, subdivision 9, for claims that arise out of the information, assistance, and recommendations covered by the grant or contract. The state is not obligated to defend or indemnify a grantee or contractor under this subdivision to the extent of the grantee's or contractor's liability insurance.
