**246.0136 ESTABLISHING ENTERPRISE ACTIVITIES IN STATE-OPERATED SERVICES.**

**Subdivision 1. Planning for enterprise activities.** The commissioner of human services is directed to study and make recommendations to the legislature on establishing enterprise activities within state-operated services. Before implementing an enter-

prise activity, the commissioner must obtain statutory authorization for its implementation, except that the commissioner has authority to implement enterprise activities for adult mental health, adolescent services, and to establish a public group practice without statutory authorization. Enterprise activities are defined as the range of services, which are delivered by state employees, needed by people with disabilities and are fully funded by public or private third-party health insurance or other revenue sources available to clients that provide reimbursement for the services provided. Enterprise activities within state-operated services shall specialize in caring for vulnerable people for whom no other providers are available or for whom state-operated services may be the provider selected by the payer. In subsequent biennia after an enterprise activity is established within a state-operated service, the base state appropriation for that state-operated service shall be reduced proportionate to the size of the enterprise activity.
