

CHAPTER 424A

VOLUNTEER FIREFIGHTERS' RETIREMENT

424A.02 Volunteer firefighters; service pensions.
 424A.021 Credit for break in service to provide uniformed service.

424A.04 Volunteer relief associations; board of trustees.

424A.02 VOLUNTEER FIREFIGHTERS; SERVICE PENSIONS.

[For text of subs 1 and 2, see M.S.2004]

Subd. 3. **Flexible service pension maximums.** (a) Annually on or before August 1 as part of the certification of the financial requirements and minimum municipal obligation determined under section 69.772, subdivision 4, or 69.773, subdivision 5, as applicable, the secretary or some other official of the relief association designated in the bylaws of each relief association shall calculate and certify to the governing body of the applicable qualified municipality the average amount of available financing per active covered firefighter for the most recent three-year period. The amount of available financing shall include any amounts of fire state aid received or receivable by the relief association, any amounts of municipal contributions to the relief association raised from levies on real estate or from other available revenue sources exclusive of fire state aid, and one-tenth of the amount of assets in excess of the accrued liabilities of the relief association calculated under section 69.772, subdivision 2; 69.773, subdivisions 2 and 4; or 69.774, subdivision 2, if any.

(b) The maximum service pension which the relief association has authority to provide for in its bylaws for payment to a member retiring after the calculation date when the minimum age and service requirements specified in subdivision 1 are met must be determined using the table in paragraph (c) or (d), whichever applies.

(c) For a relief association where the governing bylaws provide for a monthly service pension to a retiring member, the maximum monthly service pension amount per month for each year of service credited that may be provided for in the bylaws is the greater of the service pension amount provided for in the bylaws on the date of the calculation of the average amount of the available financing per active covered firefighter or the maximum service pension figure corresponding to the average amount of available financing per active covered firefighter:

(e) For a relief association in which the governing bylaws provide for a monthly benefit service pension as an alternative form of service pension payment to a lump sum service pension, the maximum service pension amount for each pension payment type must be determined using the applicable table contained in this subdivision.

(f) If a relief association establishes a service pension in compliance with the applicable maximum contained in paragraph (c) or (d) and the minimum average amount of available financing per active covered firefighter is subsequently reduced because of a reduction in fire state aid or because of an increase in the number of active firefighters, the relief association may continue to provide the prior service pension amount specified in its bylaws, but may not increase the service pension amount until the minimum average amount of available financing per firefighter under the table in paragraph (c) or (d), whichever applies, permits.

(g) No relief association is authorized to provide a service pension in an amount greater than the largest applicable flexible service pension maximum amount even if

the amount of available financing per firefighter is greater than the financing amount associated with the largest applicable flexible service pension maximum.

[For text of subd 3a, see M.S.2004]

Subd. 4. **Defined contribution lump sum service pensions.** (a) If the bylaws governing the relief association so provide exclusively, the relief association may pay a defined contribution lump sum service pension in lieu of any defined benefit service pension governed by subdivision 2.

(b) An individual account for each firefighter who is a member of the relief association must be established. To each individual active member account must be credited an equal share of: (1) any amounts of fire state aid received by the relief association; (2) any amounts of municipal contributions to the relief association raised from levies on real estate or from other available revenue sources exclusive of fire state aid; and (3) any amounts equal to the share of the assets of the special fund to the credit of: (i) any former member who terminated active service with the fire department to which the relief association is associated before meeting the minimum service requirement provided for in subdivision 1 and has not returned to active service with the fire department for a period no shorter than five years; or (ii) any retired member who retired before obtaining a full nonforfeitable interest in the amounts credited to the individual member account under subdivision 2 and any applicable provision of the bylaws of the relief association. In addition, any investment return on the assets of the special fund must be credited in proportion to the share of the assets of the special fund to the credit of each individual active member account through the date on which the investment return is recognized by and credited to the special fund.

(c) At the time of retirement under subdivision 1 and any applicable provision of the bylaws of the relief association, a retiring member is entitled to that portion of the assets of the special fund to the credit of the member in the individual member account which is nonforfeitable under subdivision 2 and any applicable provision of the bylaws of the relief association based on the number of years of service to the credit of the retiring member.

[For text of subd 6, see M.S.2004]

Subd. 7. **Deferred service pensions.** (a) A member of a relief association is entitled to a deferred service pension if the member:

(1) has completed the lesser of the minimum period of active service with the fire department specified in the bylaws or 20 years of active service with the fire department;

(2) has completed at least five years of active membership in the relief association; and

(3) separates from active service and membership before reaching age 50 or the minimum age for retirement and commencement of a service pension specified in the bylaws governing the relief association if that age is greater than age 50.

(b) The deferred service pension is payable when the former member reaches age 50, or the minimum age specified in the bylaws governing the relief association if that age is greater than age 50, and when the former member makes a valid written application.

(c) A relief association that provides a lump sum service pension governed by subdivision 3 may, when its governing bylaws so provide, pay interest on the deferred lump sum service pension during the period of deferral. If provided for in the bylaws, interest must be paid in one of the following manners:

(1) at the investment performance rate actually earned on that portion of the assets if the deferred benefit amount is invested by the relief association in a separate account established and maintained by the relief association or if the deferred benefit amount is invested in a separate investment vehicle held by the relief association;

(2) at an interest rate of up to five percent, compounded annually, as set by the board of directors and approved as provided in subdivision 10; or

(3) at a rate equal to the actual time weighted total rate of return investment performance of the special fund as reported by the Office of the State Auditor under section 356.219, up to five percent, compounded annually, and applied consistently for all deferred service pensioners.

A relief association may not use the method provided for in clause (3), until it has modified its bylaws to be consistent with that clause.

(d) Interest under paragraph (c), clause (2) or (3), is payable from the first day of the month next following the date on which the municipality has approved the deferred service pension interest rate established by the board of trustees or from the first day of the month next following the date on which the member separated from active fire department service and relief association membership, whichever is later, to the last day of the month immediately before the month in which the deferred member becomes eligible to begin receipt of the service pension and applies for the deferred service pension.

(e) A relief association that provides a defined contribution service pension may, if its governing bylaws so provide, credit interest or additional investment performance on the deferred lump sum service pension during the period of deferral. If provided for in the bylaws, the interest must be paid in one of the manners specified in paragraph (c) or alternatively the relief association may credit any investment return on the assets of the special fund of the defined contribution volunteer firefighter relief association in proportion to the share of the assets of the special fund to the credit of each individual deferred member account through the date on which the investment return is recognized by and credited to the special fund.

(f) For a deferred service pension that is transferred to a separate account established and maintained by the relief association or separate investment vehicle held by the relief association, the deferred member bears the full investment risk subsequent to transfer and in calculating the accrued liability of the volunteer firefighters relief association that pays a lump sum service pension, the accrued liability for deferred service pensions is equal to the separate relief association account balance or the fair market value of the separate investment vehicle held by the relief association.

(g) The deferred service pension is governed by and must be calculated under the general statute, special law, relief association articles of incorporation, and relief association bylaw provisions applicable on the date on which the member separated from active service with the fire department and active membership in the relief association.

History: *1Sp2005 c 8 art 9 s 10-12*

424A.021 CREDIT FOR BREAK IN SERVICE TO PROVIDE UNIFORMED SERVICE.

Subdivision 1. **Authorization.** Subject to restrictions stated in this section, a volunteer firefighter who is absent from firefighting service due to service in the uniformed services, as defined in United States Code, title 38, section 4303(13), may obtain service credit if the relief association is a defined benefit plan or an allocation of any fire state aid, any municipal contributions, and any investment return received by the relief association if the relief association is a defined contribution plan for the period of the uniformed service, not to exceed five years, unless a longer period is required under United States Code, title 38, section 4312.

Subd. 2. **Limitations.** (a) To be eligible for service credit or an investment return allocation under this section, the volunteer firefighter must return to firefighting service with coverage by the same relief association or by the successor to that relief association upon discharge from service in the uniformed service within the time frame required in United States Code, title 38, section 4312(e).

(b) Service credit or an investment return allocation is not authorized if the firefighter separates from uniformed service with a dishonorable or bad conduct discharge or under other than honorable conditions.

(c) Service credit or an investment return allocation is not authorized if the firefighter fails to provide notice to the fire department that the individual is leaving to provide service in the uniformed service, unless it is not feasible to provide that notice due to the emergency nature of the situation.

History: *1Sp2005 c 8 art 9 s 13*

424A.04 VOLUNTEER RELIEF ASSOCIATIONS; BOARD OF TRUSTEES.

Subdivision 1. Membership. (a) A relief association that is directly associated with a municipal fire department must be managed by a board of trustees consisting of nine members. Six trustees must be elected from the membership of the relief association and three trustees must be drawn from the officials of the municipalities served by the fire department to which the relief association is directly associated. The bylaws of a relief association which provides a monthly benefit service pension may provide that one of the six trustees elected from the relief association membership may be a retired member receiving a monthly pension who is elected by the membership of the relief association. The three municipal trustees must be one elected municipal official and one elected or appointed municipal official who are designated as municipal representatives by the municipal governing board annually and the chief of the municipal fire department.

(b) A relief association that is a subsidiary of an independent nonprofit firefighting corporation must be managed by a board of trustees consisting of nine members. Six trustees must be elected from the membership of the relief association, two trustees must be drawn from the officials of the municipalities served by the fire department to which the relief association is directly associated, and one trustee shall be the fire chief serving with the independent nonprofit firefighting corporation. The bylaws of a relief association may provide that one of the six trustees elected from the relief association membership may be a retired member receiving a monthly pension who is elected by the membership of the relief association. The two municipal trustees must be elected or appointed municipal officials, selected as follows:

(1) if only one municipality contracts with the independent nonprofit firefighting corporation, the municipal trustees must be two officials of the contracting municipality who are designated annually by the governing body of the municipality; or

(2) if two or more municipalities contract with the independent nonprofit corporation, the municipal trustees must be one official from each of the two largest municipalities in population who are designated annually by the governing bodies of the applicable municipalities.

(c) The municipal trustees for a relief association that is directly associated with a fire department operated as or by a joint powers entity must be designated annually by the joint powers board. The municipal trustees for a relief association that is directly associated with a fire department service area township must be designated by the township board.

(d) If a relief association lacks the municipal board members provided for in paragraph (a), (b), or (c) because the fire department is not located in or associated with an organized municipality, joint powers entity, or township, the municipal board members must be appointed from the fire department service area by the board of commissioners of the applicable county.

(e) The term of these appointed municipal board members is one year or until the person's successor is qualified, whichever is later.

(f) A municipal trustee under paragraph (a), (b), (c), or (d) has all the rights and duties accorded to any other trustee, except the right to be an officer of the relief association board of trustees.

(g) A board must have at least three officers, who are a president, a secretary and a treasurer. These officers must be elected from among the elected trustees by either the full board of trustees or by the membership, as specified in the bylaws. In no event may any trustee hold more than one officer position at any one time. The terms of the elected trustees and of the officers of the board must be specified in the bylaws of the relief association, but may not exceed three years. If the term of the elected trustees exceeds one year, the election of the various trustees elected from the membership must be staggered on as equal a basis as is practicable.
