

CHAPTER 120B

CURRICULUM AND ASSESSMENT

120B.021	REQUIRED ACADEMIC STANDARDS.	120B.15	GIFTED AND TALENTED STUDENTS PROGRAMS.
120B.022	ELECTIVE STANDARDS.	120B.30	STATEWIDE TESTING AND REPORTING SYSTEM.
120B.024	GRADUATION REQUIREMENTS; COURSE CREDITS.	120B.31	SYSTEM ACCOUNTABILITY AND STATISTICAL ADJUSTMENTS.
120B.12	READING INTERVENTION.	120B.35	STUDENT ACADEMIC ACHIEVEMENT AND PROGRESS.
120B.132	RAISED ACADEMIC ACHIEVEMENT; ADVANCED PLACEMENT AND INTERNATIONAL BACCALAUREATE PROGRAMS.	120B.36	SCHOOL ACCOUNTABILITY; APPEALS PROCESS.

120B.021 REQUIRED ACADEMIC STANDARDS.

Subdivision 1. **Required academic standards.** The following subject areas are required for statewide accountability:

- (1) language arts;
- (2) mathematics;
- (3) science;
- (4) social studies, including history, geography, economics, and government and citizenship;
- (5) health and physical education, for which locally developed academic standards apply; and
- (6) the arts, for which statewide or locally developed academic standards apply, as determined by the school district. Public elementary and middle schools must offer at least three and require at least two of the following four arts areas: dance; music; theater; and visual arts. Public high schools must offer at least three and require at least one of the following five arts areas: media arts; dance; music; theater; and visual arts.

The commissioner must submit proposed standards in science and social studies to the legislature by February 1, 2004.

For purposes of applicable federal law, the academic standards for language arts, mathematics, and science apply to all public school students, except the very few students with extreme cognitive or physical impairments for whom an individualized education plan team has determined that the required academic standards are inappropriate. An individualized education plan team that makes this determination must establish alternative standards.

A school district, no later than the 2007–2008 school year, must adopt graduation requirements that meet or exceed state graduation requirements established in law or rule. A school district that incorporates these state graduation requirements before the 2007–2008 school year must provide students who enter the 9th grade in or before the 2003–2004 school year the opportunity to earn a diploma based on existing locally established graduation requirements in effect when the students entered the 9th grade. District efforts to develop, implement, or improve instruction or curriculum as a result of the provisions of this section must be consistent with sections 120B.10, 120B.11, and 120B.20.

The commissioner must include the contributions of Minnesota American Indian tribes and communities as they relate to the academic standards during the review and revision of the required academic standards.

[For text of subs 1a to 3, see M.S.2006]

History: 2007 c 146 art 2 s 3

NOTE: The amendment to subdivision 1 by Laws 2007, chapter 146, article 2, section 3, is effective for the 2008–2009 school year and later. Laws 2007, chapter 146, article 2, section 3, the effective date.

120B.022 ELECTIVE STANDARDS.

Subdivision 1. **Elective standards.** (a) A district must establish its own standards in the following subject areas:

- (1) vocational and technical education; and
- (2) world languages.

A school district must offer courses in all elective subject areas.

(b) World languages teachers and other school staff should develop and implement world languages programs that acknowledge and reinforce the language proficiency and cultural awareness that non-English language speakers already possess, and encourage students' proficiency in multiple world languages. Programs under this paragraph must encompass indigenous American Indian languages and cultures, among other world languages and cultures. The department shall consult with postsecondary institutions in developing related professional development opportunities.

[For text of subd 2, see M.S.2006]

History: 2007 c 146 art 2 s 4

120B.024 GRADUATION REQUIREMENTS; COURSE CREDITS.

(a) Students beginning 9th grade in the 2004–2005 school year and later must successfully complete the following high school level course credits for graduation:

- (1) four credits of language arts;
- (2) three credits of mathematics, encompassing at least algebra, geometry, statistics, and probability sufficient to satisfy the academic standard;
- (3) three credits of science, including at least one credit in biology;
- (4) three and one-half credits of social studies, encompassing at least United States history, geography, government and citizenship, world history, and economics or three credits of social studies encompassing at least United States history, geography, government and citizenship, and world history, and one-half credit of economics taught in a school's social studies, agriculture education, or business department;
- (5) one credit in the arts; and
- (6) a minimum of seven elective course credits.

A course credit is equivalent to a student successfully completing an academic year of study or a student mastering the applicable subject matter, as determined by the local school district.

(b) An agriculture science course may fulfill a science credit requirement in addition to the specified science credits in biology and chemistry or physics under paragraph (a), clause (3).

(c) A career and technical education course may fulfill a science, mathematics, or arts credit requirement in addition to the specified science, mathematics, or arts credits under paragraph (a), clause (2), (3), or (5).

History: 2007 c 146 art 2 s 5

120B.12 READING INTERVENTION.

[For text of subd 1, see M.S.2006]

Subd. 2. **Identification; report.** For the 2002–2003 school year and later, each school district shall identify before the end of first grade students who are at risk of not learning to read before the end of second grade. The district must use a locally adopted assessment method. The district must annually report the results of the assessment to the commissioner by June 1.

[For text of subds 3 to 5, see M.S.2006]

History: 2007 c 146 art 2 s 6

120B.132 RAISED ACADEMIC ACHIEVEMENT; ADVANCED PLACEMENT AND INTERNATIONAL BACCALAUREATE PROGRAMS.

Subdivision 1. **Establishment; eligibility.** A program is established to raise kindergarten through grade 12 academic achievement through increased student participation in preadvanced placement, advanced placement, and international baccalaureate programs, consistent with section 120B.13. Schools and charter schools eligible to participate under this section:

- (1) must have a three-year plan approved by the local school board to establish a new international baccalaureate program leading to international baccalaureate authorization, expand an existing program that leads to international baccalaureate authorization, or expand an existing authorized international baccalaureate program; or
- (2) must have a three-year plan approved by the local school board to create a new or expand an existing program to implement the college board advanced placement courses and exams or preadvanced placement initiative; and
- (3) must propose to further raise students' academic achievement by:
 - (i) increasing the availability of and all students' access to advanced placement or international baccalaureate courses or programs;
 - (ii) expanding the breadth of advanced placement or international baccalaureate courses or programs that are available to students;
 - (iii) increasing the number and the diversity of the students who participate in advanced placement or international baccalaureate courses or programs and succeed;
 - (iv) providing low-income and other disadvantaged students with increased access to advanced placement or international baccalaureate courses and programs; or
 - (v) increasing the number of high school students, including low-income and other disadvantaged students, who receive college credit by successfully completing advanced placement or international baccalaureate courses or programs and achieving satisfactory scores on related exams.

Subd. 2. **Application and review process; funding priority.** (a) Charter schools and school districts in which eligible schools under subdivision 1 are located may apply to the commissioner, in the form and manner the commissioner determines, for competitive funding to further raise students' academic achievement. The application must detail the specific efforts the applicant intends to undertake in further raising students' academic achievement, consistent with subdivision 1, and a proposed budget detailing the district or charter school's current and proposed expenditures for advanced placement, preadvanced placement, and international baccalaureate courses and programs. The proposed budget must demonstrate that the applicant's efforts will support implementation of advanced placement, preadvanced placement, and international baccalaureate courses and programs. Expenditures for administration must not exceed five percent of the proposed budget. The commissioner may require an applicant to provide additional information.

(b) When reviewing applications, the commissioner must determine whether the applicant satisfied all the requirements in this subdivision and subdivision 1. The commissioner may give funding priority to an otherwise qualified applicant that demonstrates:

- (1) a focus on developing or expanding preadvanced placement, advanced placement, or international baccalaureate courses or programs or increasing students' participation in, access to, or success with the courses or programs, including the participation, access, or success of low-income and other disadvantaged students;
- (2) a compelling need for access to preadvanced placement, advanced placement, or international baccalaureate courses or programs;
- (3) an effective ability to actively involve local business and community organizations in student activities that are integral to preadvanced placement, advanced placement, or international baccalaureate courses or programs;

(4) access to additional public or nonpublic funds or in-kind contributions that are available for preadvanced placement, advanced placement, or international baccalaureate courses or programs; or

(5) an intent to implement activities that target low-income and other disadvantaged students.

Subd. 3. **Funding; permissible funding uses.** (a) The commissioner shall award grants to applicant school districts and charter schools that meet the requirements of subdivisions 1 and 2. The commissioner must award grants on an equitable geographical basis to the extent feasible and consistent with this section. Grant awards must not exceed the lesser of:

(1) \$85 times the number of pupils enrolled at the participating sites on October 1 of the previous fiscal year; or

(2) the approved supplemental expenditures based on the budget submitted under subdivision 2. For charter schools in their first year of operation, the maximum funding award must be calculated using the number of pupils enrolled on October 1 of the current fiscal year. The commissioner may adjust the maximum funding award computed using prior year data for changes in enrollment attributable to school closings, school openings, grade level reconfigurations, or school district reorganizations between the prior fiscal year and the current fiscal year.

(b) School districts and charter schools that submit an application and receive funding under this section must use the funding, consistent with the application, to:

(1) provide teacher training and instruction to more effectively serve students, including low-income and other disadvantaged students, who participate in preadvanced placement, advanced placement, or international baccalaureate courses or programs;

(2) further develop preadvanced placement, advanced placement, or international baccalaureate courses or programs;

(3) improve the transition between grade levels to better prepare students, including low-income and other disadvantaged students, for succeeding in preadvanced placement, advanced placement, or international baccalaureate courses or programs;

(4) purchase books and supplies;

(5) pay course or program fees;

(6) increase students' participation in and success with preadvanced placement, advanced placement, or international baccalaureate courses or programs;

(7) expand students' access to preadvanced placement, advanced placement, or international baccalaureate courses or programs through online learning;

(8) hire appropriately licensed personnel to teach additional advanced placement or international baccalaureate courses or programs; or

(9) engage in other activity directly related to expanding students' access to, participation in, and success with preadvanced placement, advanced placement, or international baccalaureate courses or programs, including low-income and other disadvantaged students.

Subd. 4. **Annual reports.** (a) Each school district and charter school that receives a grant under this section annually must collect demographic and other student data to demonstrate and measure the extent to which the district or charter school raised students' academic achievement under this program and must report the data to the commissioner in the form and manner the commissioner determines. The commissioner annually by February 15 must make summary data about this program available to the education policy and finance committees of the legislature.

(b) Each school district and charter school that receives a grant under this section annually must report to the commissioner, consistent with the Uniform Financial Accounting and Reporting Standards, its actual expenditures for advanced placement, preadvanced placement, and international baccalaureate courses and programs. The report must demonstrate that the school district or charter school has maintained its effort from other sources for advanced placement, preadvanced placement, and international baccalaureate courses and pro-

grams compared with the previous fiscal year, and the district or charter school has expended all grant funds, consistent with its approved budget.

History: 2007 c 146 art 2 s 7

120B.15 GIFTED AND TALENTED STUDENTS PROGRAMS.

(a) School districts may identify students, locally develop programs, provide staff development, and evaluate programs to provide gifted and talented students with challenging educational programs.

(b) School districts may adopt guidelines for assessing and identifying students for participation in gifted and talented programs. The guidelines should include the use of:

(1) multiple and objective criteria; and

(2) assessments and procedures that are valid and reliable, fair, and based on current theory and research.

(c) School districts must adopt procedures for the academic acceleration of gifted and talented students. These procedures must include how the district will:

(1) assess a student's readiness and motivation for acceleration; and

(2) match the level, complexity, and pace of the curriculum to a student to achieve the best type of academic acceleration for that student.

History: 2007 c 146 art 2 s 8

120B.233 [Repealed, 2007 c 146 art 2 s 48]

120B.30 STATEWIDE TESTING AND REPORTING SYSTEM.

Subdivision 1. **Statewide testing.** (a) The commissioner, with advice from experts with appropriate technical qualifications and experience and stakeholders, consistent with subdivision 1a, shall include in the comprehensive assessment system, for each grade level to be tested, state-constructed tests developed from and aligned with the state's required academic standards under section 120B.021 and administered annually to all students in grades 3 through 8 and at the high school level. A state-developed test in a subject other than writing, developed after the 2002-2003 school year, must include both machine-scoreable and constructed response questions. The commissioner shall establish one or more months during which schools shall administer the tests to students each school year. For students enrolled in grade 8 before the 2005-2006 school year, only Minnesota basic skills tests in reading, mathematics, and writing shall fulfill students' basic skills testing requirements for a passing state notation. The passing scores of basic skills tests in reading and mathematics are the equivalent of 75 percent correct for students entering grade 9 in 1997 and thereafter, as based on the first uniform test administration of February 1998.

(b) For students enrolled in grade 8 in the 2005-2006 school year and later, only the following options shall fulfill students' state graduation test requirements:

(1) for reading and mathematics:

(i) obtaining an achievement level equivalent to or greater than proficient as determined through a standard setting process on the Minnesota comprehensive assessments in grade 10 for reading and grade 11 for mathematics or achieving a passing score as determined through a standard setting process on the graduation-required assessment for diploma in grade 10 for reading and grade 11 for mathematics or subsequent retests;

(ii) achieving a passing score as determined through a standard setting process on the state-identified language proficiency test in reading and the mathematics test for English language learners or the graduation-required assessment for diploma equivalent of those assessments for students designated as English language learners;

(iii) achieving an individual passing score on the graduation-required assessment for diploma as determined by appropriate state guidelines for students with an individual education plan or 504 plan;

(iv) obtaining achievement level equivalent to or greater than proficient as determined through a standard setting process on the state-identified alternate assessment or assess-

ments in grade 10 for reading and grade 11 for mathematics for students with an individual education plan; or

(v) achieving an individual passing score on the state-identified alternate assessment or assessments as determined by appropriate state guidelines for students with an individual education plan; and

(2) for writing:

(i) achieving a passing score on the graduation-required assessment for diploma;

(ii) achieving a passing score as determined through a standard setting process on the state-identified language proficiency test in writing for students designated as English language learners;

(iii) achieving an individual passing score on the graduation-required assessment for diploma as determined by appropriate state guidelines for students with an individual education plan or 504 plan; or

(iv) achieving an individual passing score on the state-identified alternate assessment or assessments as determined by appropriate state guidelines for students with an individual education plan.

(c) The 3rd through 8th grade and high school level test results shall be available to districts for diagnostic purposes affecting student learning and district instruction and curriculum, and for establishing educational accountability. The commissioner must disseminate to the public the test results upon receiving those results.

(d) State tests must be constructed and aligned with state academic standards. The testing process and the order of administration shall be determined by the commissioner. The statewide results shall be aggregated at the site and district level, consistent with subdivision 1a.

(e) In addition to the testing and reporting requirements under this section, the commissioner shall include the following components in the statewide public reporting system:

(1) uniform statewide testing of all students in grades 3 through 8 and at the high school level that provides appropriate, technically sound accommodations, alternate assessments, or exemptions consistent with applicable federal law, only with parent or guardian approval, for those very few students for whom the student's individual education plan team under sections 125A.05 and 125A.06 determines that the general statewide test is inappropriate for a student, or for a limited English proficiency student under section 124D.59, subdivision 2;

(2) educational indicators that can be aggregated and compared across school districts and across time on a statewide basis, including average daily attendance, high school graduation rates, and high school drop-out rates by age and grade level;

(3) state results on the American College Test; and

(4) state results from participation in the National Assessment of Educational Progress so that the state can benchmark its performance against the nation and other states, and, where possible, against other countries, and contribute to the national effort to monitor achievement.

Subd. 1a. Statewide and local assessments; results. (a) The commissioner must develop reading, mathematics, and science assessments aligned with state academic standards that districts and sites must use to monitor student growth toward achieving those standards. The commissioner must not develop statewide assessments for academic standards in social studies, health and physical education, and the arts. The commissioner must require:

(1) annual reading and mathematics assessments in grades 3 through 8 and at the high school level for the 2005-2006 school year and later; and

(2) annual science assessments in one grade in the grades 3 through 5 span, the grades 6 through 9 span, and a life sciences assessment in the grades 10 through 12 span for the 2007-2008 school year and later.

(b) The commissioner must ensure that all statewide tests administered to elementary and secondary students measure students' academic knowledge and skills and not students' values, attitudes, and beliefs.

(c) Reporting of assessment results must:

(1) provide timely, useful, and understandable information on the performance of individual students, schools, school districts, and the state;

(2) include, by no later than the 2008–2009 school year, a value-added component that is in addition to a measure for student achievement growth over time; and

(3)(i) for students enrolled in grade 8 before the 2005–2006 school year, determine whether students have met the state’s basic skills requirements; and

(ii) for students enrolled in grade 8 in the 2005–2006 school year and later, determine whether students have met the state’s academic standards.

(d) Consistent with applicable federal law and subdivision 1, paragraph (d), clause (1), the commissioner must include appropriate, technically sound accommodations or alternative assessments for the very few students with disabilities for whom statewide assessments are inappropriate and for students with limited English proficiency.

(e) A school, school district, and charter school must administer statewide assessments under this section, as the assessments become available, to evaluate student progress in achieving the academic standards. If a state assessment is not available, a school, school district, and charter school must determine locally if a student has met the required academic standards. A school, school district, or charter school may use a student’s performance on a statewide assessment as one of multiple criteria to determine grade promotion or retention. A school, school district, or charter school may use a high school student’s performance on a statewide assessment as a percentage of the student’s final grade in a course, or place a student’s assessment score on the student’s transcript.

Subd. 2. Department of Education assistance. The Department of Education shall contract for professional and technical services according to competitive bidding procedures under chapter 16C for purposes of this section.

Subd. 3. Reporting. The commissioner shall report test data publicly and to stakeholders, including the performance achievement levels developed from students’ unweighted test scores in each tested subject and a listing of demographic factors that strongly correlate with student performance. The commissioner shall also report data that compares performance results among school sites, school districts, Minnesota and other states, and Minnesota and other nations. The commissioner shall disseminate to schools and school districts a more comprehensive report containing testing information that meets local needs for evaluating instruction and curriculum.

Subd. 4. Access to tests. The commissioner must adopt and publish a policy to provide public and parental access for review of basic skills tests, Minnesota Comprehensive Assessments, or any other such statewide test and assessment. Upon receiving a written request, the commissioner must make available to parents or guardians a copy of their student’s actual responses to the test questions to be reviewed by the parent.

History: 2007 c 146 art 2 s 9

120B.31 SYSTEM ACCOUNTABILITY AND STATISTICAL ADJUSTMENTS.

[For text of subs 1 and 2, see M.S.2006]

Subd. 3. Educational accountability. (a) The Independent Office of Educational Accountability, as authorized by Laws 1997, First Special Session chapter 4, article 5, section 28, subdivision 2, is established, and shall be funded through the Board of Regents of the University of Minnesota. The office shall advise the education committees of the legislature and the commissioner of education, at least on a biennial basis, on the degree to which the statewide educational accountability and reporting system includes a comprehensive assessment framework that measures school accountability for students achieving the goals de-

scribed in the state's results-oriented graduation rule. The office shall determine and annually report to the legislature whether and how effectively:

(1) the statewide system of educational accountability utilizes multiple indicators to provide valid and reliable comparative and contextual data on students, schools, districts, and the state, and if not, recommend ways to improve the accountability reporting system;

(2) the commissioner makes statistical adjustments when reporting student data over time, consistent with clause (4);

(3) the commissioner uses indicators of student achievement growth over time and a value-added assessment model that estimates the effects of the school and school district on student achievement to measure school performance, consistent with section 120B.36, subdivision 1;

(4) the commissioner makes data available on students who do not pass one or more of the state's required GRAD tests and do not receive a diploma as a consequence, and categorizes these data according to gender, race, eligibility for free or reduced lunch, and English language proficiency; and

(5) the commissioner fulfills the requirements under section 127A.095, subdivision 2.

(b) When the office reviews the statewide educational accountability and reporting system, it shall also consider:

(1) the objectivity and neutrality of the state's educational accountability system; and

(2) the impact of a testing program on school curriculum and student learning.

[For text of subd 4, see M.S.2006]

History: 2007 c 146 art 2 s 10

120B.35 STUDENT ACADEMIC ACHIEVEMENT AND PROGRESS.

[For text of subs 1 to 4, see M.S.2006]

Subd. 5. Improving graduation rates for students with emotional or behavioral disorders. (a) A district must develop strategies in conjunction with parents of students with emotional or behavioral disorders and the county board responsible for implementing sections 245.487 to 245.4889 to keep students with emotional or behavioral disorders in school, when the district has a drop-out rate for students with an emotional or behavioral disorder in grades 9 through 12 exceeding 25 percent.

(b) A district must develop a plan in conjunction with parents of students with emotional or behavioral disorders and the local mental health authority to increase the graduation rates of students with emotional or behavioral disorders. A district with a drop-out rate for children with an emotional or behavioral disturbance in grades 9 through 12 that is in the top 25 percent of all districts shall submit a plan for review and oversight to the commissioner.

History: 2007 c 147 art 8 s 38

120B.36 SCHOOL ACCOUNTABILITY; APPEALS PROCESS.

Subdivision 1. School performance report cards. (a) The commissioner shall use objective criteria based on levels of student performance to report at least student academic performance, school safety, two separate student-to-teacher ratios that clearly indicate the definition of teacher consistent with sections 122A.06 and 122A.15 for purposes of determining these ratios, and staff characteristics, with a value-added component added no later than the 2008-2009 school year. The report must indicate a school's adequate yearly progress status, and must not set any designations applicable to high- and low-performing schools due solely to adequate yearly progress status.

(b) The commissioner shall develop, annually update, and post on the department Web site school performance report cards.

(c) The commissioner must make available the first performance report cards by November 2003, and during the beginning of each school year thereafter.

(d) A school or district may appeal its adequate yearly progress status in writing to the commissioner within 30 days of receiving the notice of its status. The commissioner's decision to uphold or deny an appeal is final.

(e) School performance report cards data are nonpublic data under section 13.02, subdivision 9, until not later than ten days after the appeal procedure described in paragraph (d) concludes. The department shall annually post school performance report cards to its public Web site no later than September 1.

[For text of subd 2, see M.S.2006]

History: 2007 c 146 art 2 s 11
