(8) failure to adhere to the provisions of the physician-physician assistant agreement;

(9) engaging in the practice of medicine beyond that allowed by the physician-physician assistant agreement, including the delegation form or the addendum to the delegation form, or aiding or abetting an unlicensed person in the practice of medicine;

Subd. 6. Mental examination; access to medical data. (a) If the board has probable cause to believe that a physician assistant comes under subdivision 1, clause (1), it may direct the physician assistant to submit to a mental or physical examination. For the purpose of this subdivision, every physician assistant registered under this chapter is deemed to have con-

sented to submit to a mental or physical examination when directed in writing by the board and further to have waived all objections to the admissibility of the examining physicians' testimony or examination reports on the ground that the same constitute a privileged communication. Failure of a physician assistant to submit to an examination when directed constitutes an admission of the allegations against the physician assistant, unless the failure was due to circumstance beyond the physician assistant's control, in which case a default and final order may be entered without the taking of testimony or presentation of evidence. A physician assistant affected under this subdivision shall at reasonable intervals be given an opportunity to demonstrate that the physician assistant can resume competent practice with reasonable skill and safety to patients. In any proceeding under this subdivision, neither the record of proceedings nor the orders entered by the board shall be used against a physician assistant in any other proceeding.

(b) In addition to ordering a physical or mental examination, the board may, notwithstanding sections 13.384, 144.651, or any other law limiting access to medical or other health data, obtain medical data and health records relating to a registrant or applicant without the registrant's or applicant's consent if the board has probable cause to believe that a physician assistant comes under subdivision 1, clause (1).

The medical data may be requested from a provider, as defined in section 144.291, subdivision 2, paragraph (h), an insurance company, or a government agency, including the Department of Human Services. A provider, insurance company, or government agency shall comply with any written request of the board under this subdivision and is not liable in any action for damages for releasing the data requested by the board if the data are released pursuant to a written request under this subdivision, unless the information is false and the provider giving the information knew, or had reason to believe, the information was false. Information obtained under this subdivision is classified as private under chapter 13.
