TREATMENT.**254B.02 CHEMICAL DEPENDENCY ALLOCATION PROCESS.**

Subdivision 1. **Chemical dependency treatment allocation.** The chemical dependency funds appropriated for allocation shall be placed in a special revenue account. The commissioner shall annually transfer funds from the chemical dependency fund to pay for operation of the drug and alcohol abuse normative evaluation system and to pay for all costs incurred by adding two positions for licensing of chemical dependency treatment and rehabilitation programs located in hospitals for which funds are not otherwise appropriated. Six percent of the remaining money must be reserved for tribal allocation under section 254B.09, subdivisions 4 and 5. The commissioner shall annually divide the money available in the chemical dependency fund that is not held in reserve by counties from a previous allocation, or allocated to the American Indian chemical dependency tribal account. Six percent of the remaining money must be reserved for the nonreservation American Indian chemical dependency allocation for treatment of American Indians by eligible vendors under section 254B.05, subdivision 1. The remainder of the money must be allocated among the counties according to the following formula, using state demographer data and other data sources determined by the commissioner:

(a) For purposes of this formula, American Indians and children under age 14 are subtracted from the population of each county to determine the restricted population.

(b) The amount of chemical dependency fund expenditures for entitled persons for services not covered by prepaid plans governed by section 256B.69 in the previous year is divided by the amount of chemical dependency fund expenditures for entitled persons for all services to determine the proportion of exempt service expenditures for each county.

(c) The prepaid plan months of eligibility is multiplied by the proportion of exempt service expenditures to determine the adjusted prepaid plan months of eligibility for each county.

(d) The adjusted prepaid plan months of eligibility is added to the number of restricted population fee for service months of eligibility for the Minnesota family investment program, general assistance, and medical assistance and divided by the county restricted population to determine county per capita months of covered service eligibility.

(e) The number of adjusted prepaid plan months of eligibility for the state is added to the number of fee for service months of eligibility for the Minnesota family investment program, general assistance, and medical assistance for the state restricted population and divided by the state restricted population to determine state per capita months of covered service eligibility.

(f) The county per capita months of covered service eligibility is divided by the state per capita months of covered service eligibility to determine the county welfare caseload factor.

(g) The median married couple income for the most recent three-year period available for the state is divided by the median married couple income for the same period for each county to determine the income factor for each county.

(h) The county restricted population is multiplied by the sum of the county welfare caseload factor and the county income factor to determine the adjusted population.

(i) \$15,000 shall be allocated to each county.

(j) The remaining funds shall be allocated proportional to the county adjusted population.

Subdivision 1. **Local agency duties.** (a) Every local agency shall provide chemical dependency services to persons residing within its jurisdiction who meet criteria established by the commissioner for placement in a chemical dependency residential or nonresidential treatment service. Chemical dependency money must be administered by the local agencies according to law and rules adopted by the commissioner under sections 14.001 to 14.69.

(b) In order to contain costs, the county board shall, with the approval of the commissioner of human services, select eligible vendors of chemical dependency services who can provide economical and appropriate treatment. Unless the local agency is a social services department directly administered by a county or human services board, the local agency shall not be an eligible vendor under section 254B.05. The commissioner may approve proposals from county boards to provide services in an economical manner or to control utilization, with safeguards to ensure that necessary services are provided. If a county implements a demonstration or experimental medical services funding plan, the commissioner shall transfer the money as appropriate. If a county selects a vendor located in another state, the county shall ensure that the vendor is in compliance with the rules governing licensure of programs located in the state.

(c) A culturally specific vendor that provides assessments under a variance under Minnesota Rules, part 9530.6610, shall be allowed to provide assessment services to persons not covered by the variance.
