

161.081 HIGHWAY USER TAX, DISTRIBUTION, INVESTMENT.

Subdivision 1. **Distribution of five percent.** (a) Pursuant to article 14, section 5, of the Constitution, five percent of the net highway user tax distribution fund is set aside, and apportioned to the county state-aid highway fund.

(b) That apportionment is further distributed as follows:

- (1) 30.5 percent to the town road account created in section 162.081;
- (2) 16 percent to the town bridge account, which is created in the state treasury; and
- (3) 53.5 percent to the flexible highway account created in subdivision 3.

Subd. 2. **Investment.** Upon the request of the commissioner, money in the highway user tax distribution fund shall be invested by the State Board of Investment in those securities authorized for that purpose in section 11A.21. All interest and profits from the investments must be credited to the highway user tax distribution fund. The commissioner of finance shall be the custodian of all securities purchased under this section.

Subd. 3. **Flexible highway account; turnback accounts.** (a) The flexible highway account is created in the state treasury. Money in the account shall be used:

(1) in fiscal years 2009 and 2010, 100 percent of the excess sum, as calculated in paragraph (i), and in fiscal years 2011 and thereafter, 50 percent of the excess sum, as calculated in paragraph (i), for counties in the metropolitan area, as defined in section 473.121, subdivision 4, but for the purposes of the calculation cities of the first class will be excluded in the metropolitan area; and

(2) of the amount available in the flexible highway account less the amount under clause (1), as determined by the commissioner under this section for:

(i) restoration of former trunk highways that have reverted to counties or to statutory or home rule charter cities, or for trunk highways that will be restored and subsequently turned back by agreement between the commissioner and the local road authority;

(ii) safety improvements on county highways, municipal highways, streets, or town roads; and

(iii) routes of regional significance.

(b) For purposes of this subdivision, "restoration" means the level of effort required to improve the route that will be turned back to an acceptable condition as determined by agreement made between the commissioner and the county or city before the route is turned back.

(c) The commissioner shall review the need for funds to restore highways that have been or will be turned back. The commissioner shall determine, on a biennial basis, the percentage of funds in the flexible highway account to be distributed to each district, and within each district the percentage to be used for each of the purposes specified in paragraph (a). Money in the account may be used for safety improvements and routes of regional significance only after money is set aside to restore the identified turnbacks. The commissioner shall make these determinations only after meeting and holding discussions with committees selected by the statewide associations of both county commissioners and municipal officials. The commissioner shall, to the extent feasible, annually allocate 50 percent of the funds in the flexible highway account to the department's metropolitan district, and 50 percent to districts in greater Minnesota.

(d) Money that will be used for the restoration of trunk highways that have reverted or that will revert to cities must be deposited in the municipal turnback account, which is created in the state treasury.

(e) Money that will be used for the restoration of trunk highways that have reverted or that will revert to counties must be deposited in the county turnback account, which is created in the state treasury.

(f) Money that will be used for safety improvements must be deposited in the highway safety improvement account, which is created in the state treasury to be used as grants to statutory or home rule charter cities, towns, and counties to assist in paying the costs of constructing or reconstructing city streets, county highways, or town roads to reduce crashes, deaths, injuries, and property damage.

(g) Money that will be used for routes of regional significance must be deposited in the routes of regional significance account, which is created in the state treasury, and used as grants to statutory or home rule charter cities, towns, and counties to assist in paying the costs of constructing or reconstructing city streets, county highways, or town roads with statewide or regional significance that have not been fully funded through other state, federal, or local funding sources.

(h) As part of each biennial budget submission to the legislature, the commissioner shall describe how the money in the flexible highway account will be apportioned among the county turnback account, the municipal turnback account, the trunk highway fund for routes turned back to local governments by agreement, the highway safety improvement account, and the routes of regional significance account.

(i) The excess sum is calculated as the sum of revenue within the flexible highway account:

(1) attributed to that portion of the gasoline excise tax rate under section 296A.07, subdivision 3, in excess of 20 cents per gallon, and to that portion of the excise tax rates in excess of the energy equivalent of a gasoline excise tax rate of 20 cents per gallon for E85 and M85 under section 296A.07, subdivision 3, and special fuel under section 296A.08, subdivision 2;

(2) attributed to a change in the passenger vehicle registration tax under section 168.013, imposed on or after July 1, 2008, that exceeds (i) the amount collected in fiscal year 2008, multiplied by (ii) the annual average United States Consumer Price Index for the calendar year previous to the current calendar year, divided by the annual average United States Consumer Price Index for calendar year 2007; and

(3) attributed to that portion of the motor vehicle sales tax revenue in excess of the percentage allocated to the flexible highway account in fiscal year 2007.

(j) For purposes of this subdivision, the United States Consumer Price Index identified in paragraph (i), clause (2), is for all urban consumers, United States city average, as determined by the United States Department of Labor.

History: 1965 c 672 s 1; 1975 c 203 s 22; 1983 c 17 s 1; 1989 c 268 s 1; 1993 c 266 s 15; 1998 c 372 art 2 s 1,2; 2003 c 112 art 2 s 50; 2008 c 152 art 6 s 4

NOTE: The amendment to subdivision 3 by Laws 2008, chapter 152, article 6, section 4, with the exception of paragraph (h), is effective July 1, 2009. The amendment to paragraph (h), is effective January 1, 2009. Laws 2008, chapter 152, article 6, section 4, the effective date.
