

62Q.78 DENTAL BENEFIT PLAN REQUIREMENTS.

Subdivision 1. **Utilization profiling.** (a) A dental organization that uses utilization profiling as a method of differentiating provider reimbursement or as a requirement for continued participation in the organization's provider network shall, upon request, make available to participating dentists the following information:

(1) a description of the methodology used in profiling so that dentists can clearly understand why and how they are affected; and

(2)(i) a list of the codes measured; (ii) a dentist's personal frequency data within each code so that the accuracy of the data can be verified; and (iii) an individual dentist's representation of scoring compared to classification points and how the dentist compares with peers in each category including the cutoff point of the score impacting qualification in order to inform the dentist about how the dentist may qualify or retain qualification for differentiated provider reimbursement or continued participation in the dental organization's provider network.

(b) A dental organization that uses utilization profiling as a method of differentiating provider reimbursement or as a requirement for continued participation in the organization's provider network shall, upon request, provide a clear and concise description of the methodology of the utilization profiling on dental benefits to group purchasers and enrollees.

(c) A dental organization shall not be considered to be engaging in the practice of dentistry pursuant to chapter 150A, to the extent it releases utilization profiling information as required by sections 62Q.76 to 62Q.79.

Subd. 2. **Reimbursement codes.** (a) Unless the federal government requires the use of other procedural codes, for all dental care services in which a procedural code is used by the dental organization to determine coverage or reimbursement, the organization must use the most recent American Dental Association current dental terminology code that is available, within a year of its release. Current dental terminology codes must be used as specifically defined, must be listed separately, and must not be altered or changed by either the dentist or the dental organization.

(b) Enrollee benefits must be determined on the basis of individual codes subject to provider and group contracts.

(c) This subdivision does not prohibit or restrict dental organizations from setting reimbursement and pricing with groups, purchasers, and participating providers or addressing issues of fraud or errors in claims submissions.

Subd. 3. **Treatment options.** No contractual provision between a dental organization and a dentist shall in any way prohibit or limit a dentist from discussing all clinical options for treatment with the patient.
