

171.305 IGNITION INTERLOCK DEVICE.

Subdivision 1. **Definition.** "Ignition interlock device" or "device" means breath alcohol ignition equipment designed to prevent a motor vehicle's ignition from being started by a person whose alcohol concentration exceeds the calibrated setting on the device.

[See Note.]

Subd. 2. [Expired]

Subd. 3. **Performance standards.** The commissioner shall specify performance standards for ignition interlock devices, including standards relating to accuracy, safe operation of the vehicle, and degree of difficulty rendering the device inoperative. The interlock ignition device must be designed to operate from a 12-volt DC vehicle battery and be capable of locking a motor vehicle's ignition when a minimum alcohol concentration of 0.020 grams of ethyl alcohol per 210 liters of breath is introduced into the device. The device must also require a breath sample to determine alcohol concentration at variable time intervals ranging from five to 30 minutes while the engine is running. The device must also be capable of recording information for later review that includes the date and time of any use of the vehicle or any attempt to use the vehicle, including all times that the vehicle engine was started or stopped and the alcohol concentration of each breath sample provided.

[See Note.]

Subd. 4. **Certification.** The commissioner shall certify ignition interlock devices that meet the performance standards and may charge the manufacturer of the ignition interlock device a certification fee. A manufacturer who submits a device for certification must provide an application for certification on a form prescribed by the department.

[See Note.]

Subd. 5. **Issuance of limited license.** The commissioner may issue a limited license to a person whose driver's license has been canceled and denied due to an alcohol or controlled substance-related incident under section 171.04, subdivision 1, clause (10), under the following conditions:

- (1) at least one-half of the person's required abstinence period has expired;
- (2) the person has successfully completed chemical dependency treatment and is currently participating in a generally recognized support group based on ongoing abstinence; and
- (3) the person agrees to drive only a motor vehicle equipped with a functioning and certified ignition interlock device.

[See Note.]

Subd. 6. **Monitoring.** The ignition interlock device must be monitored for proper use and accuracy by an entity approved by the commissioner.

[See Note.]

Subd. 7. **Payment.** The commissioner shall require that the person issued a limited license under subdivision 5 pay all costs associated with use of the device.

[See Note.]

Subd. 8. **Proof of installation.** A person approved for a limited license must provide proof of installation prior to issuance of the limited license.

[See Note.]

Subd. 9. **Misdemeanor.** (a) A person who knowingly lends, rents, or leases a motor vehicle that is not equipped with a functioning ignition interlock device to a person with a limited license issued under subdivision 5 is guilty of a misdemeanor.

(b) A person who tampers with, circumvents, or bypasses the ignition interlock device, or assists another to tamper with, circumvent, or bypass the device, is guilty of a misdemeanor.

(c) The penalties of this subdivision do not apply if the action was taken for emergency purposes or for mechanical repair, and the person limited to the use of an ignition interlock device does not operate the motor vehicle while the device is disengaged.

[See Note.]

Subd. 10. **Cancellation of limited license.** The commissioner shall cancel a limited license issued under this section if the device registers a positive reading for use of alcohol or the person violates any conditions of the limited license.

[See Note.]

Subd. 11. **Program standards.** The program standards applicable to section 171.306 also apply to this section.
