

122A.415 ALTERNATIVE COMPENSATION REVENUE.

Subdivision 1. **Revenue amount.** (a) A school district, intermediate school district, school site, or charter school that meets the conditions of section 122A.414 and submits an application approved by the commissioner is eligible for alternative teacher compensation revenue.

(b) For school district and intermediate school district applications, the commissioner must consider only those applications to participate that are submitted jointly by a district and the exclusive representative of the teachers. The application must contain an alternative teacher professional pay system agreement that:

(1) implements an alternative teacher professional pay system consistent with section 122A.414; and

(2) is negotiated and adopted according to the Public Employment Labor Relations Act under chapter 179A, except that notwithstanding section 179A.20, subdivision 3, a district may enter into a contract for a term of two or four years.

Alternative teacher compensation revenue for a qualifying school district or site in which the school board and the exclusive representative of the teachers agree to place teachers in the district or at the site on the alternative teacher professional pay system equals \$260 times the number of pupils enrolled at the district or site on October 1 of the previous fiscal year. Alternative teacher compensation revenue for a qualifying intermediate school district must be calculated under section 126C.10, subdivision 34, paragraphs (a) and (b).

(c) For a newly combined or consolidated district, the revenue shall be computed using the sum of pupils enrolled on October 1 of the previous year in the districts entering into the combination or consolidation. The commissioner may adjust the revenue computed for a site using prior year data to reflect changes attributable to school closings, school openings, or grade level reconfigurations between the prior year and the current year.

(d) The revenue is available only to school districts, intermediate school districts, school sites, and charter schools that fully implement an alternative teacher professional pay system by October 1 of the current school year.

Subd. 2. [Repealed, 1Sp2005 c 5 art 1 s 55]

Subd. 3. **Revenue timing.** (a) Districts, intermediate school districts, school sites, or charter schools with approved applications must receive alternative compensation revenue for each school year that the district, intermediate school district, school site, or charter school implements an alternative teacher professional pay system under this subdivision and section 122A.414. For fiscal year 2007 and later, a qualifying district, intermediate school district, school site, or charter school that received alternative teacher compensation aid for the previous fiscal year must receive at least an amount of alternative teacher compensation revenue equal to the lesser of the amount it received for the previous fiscal year or the amount it qualifies for under subdivision 1 for the current fiscal year if the district, intermediate school district, school site, or charter school submits a timely application and the commissioner determines that the district, intermediate school district, school site, or charter school continues to implement an alternative teacher professional pay system, consistent with its application under this section.

(b) The commissioner shall approve applications that comply with subdivision 1, and section 122A.414, subdivisions 2, paragraph (b), and 2a, if the applicant is a charter school, in the order in which they are received, select applicants that qualify for this program, notify school districts,

intermediate school districts, school sites, and charter schools about the program, develop and disseminate application materials, and carry out other activities needed to implement this section.

(c) For applications approved under this section before August 1 of the fiscal year for which the aid is paid, the portion of the state total basic alternative teacher compensation aid entitlement allocated to charter schools must not exceed \$522,000 for fiscal year 2006 and \$3,374,000 for fiscal year 2007. For fiscal year 2008 and later, the portion of the state total basic alternative teacher compensation aid entitlement allocated to charter schools must not exceed the product of \$3,374,000 times the ratio of the state total charter school enrollment for the previous fiscal year to the state total charter school enrollment for the second previous year. Additional basic alternative teacher compensation aid may be approved for charter schools after August 1, not to exceed the charter school limit for the following fiscal year, if the basic alternative teacher compensation aid entitlement for school districts based on applications approved by August 1 does not expend the remaining amount under the limit.
