

134.355 BASIC REGIONAL LIBRARY SYSTEM; SUPPORT.

Subdivision 1. **Appropriations.** Basic system support grants and regional library telecommunications aid provide the appropriations for the basic regional library system.

Subd. 2. **Grant application.** Any regional public library system which qualifies according to the provisions of section 134.34 may apply for an annual grant for regional library basic system support. Regional public library districts under section 134.201 may not compensate board members using grant funds. The amount of each grant for each fiscal year shall be calculated as provided in this section.

Subd. 3. **Per capita distribution.** Fifty-seven and one-half percent of the available grant funds shall be distributed to provide all qualifying systems an equal amount per capita. Each system's allocation pursuant to this subdivision shall be based on the population it serves.

Subd. 4. **Per square mile distribution.** Twelve and one-half percent of the available grant funds shall be distributed to provide all qualifying systems an equal amount per square mile. Each system's allocation pursuant to this subdivision shall be based on the area it serves.

Subd. 5. **Base grant distribution.** Five percent of the available grant funds shall be paid to each system as a base grant for basic system services.

Subd. 6. **Adjusted net tax capacity per capita distribution.** Twenty-five percent of the available grant funds shall be distributed to regional public library systems based upon the adjusted net tax capacity per capita for each member county or participating portion of a county as calculated for the second year preceding the fiscal year for which the grant is made. Each system's entitlement shall be calculated as follows:

(a) Multiply the adjusted net tax capacity per capita for each county or participating portion of a county by .0082.

(b) Add sufficient grant funds that are available under this subdivision to raise the amount of the county or participating portion of a county with the lowest value calculated according to paragraph (a) to the amount of the county or participating portion of a county with the next highest value calculated according to paragraph (a). Multiply the amount of the additional grant funds by the population of the county or participating portion of a county.

(c) Continue the process described in paragraph (b) by adding sufficient grant funds that are available under this subdivision to the amount of a county or participating portion of a county with the next highest value calculated in paragraph (a) to raise it and the amount of counties and participating portions of counties with lower values calculated in paragraph (a) up to the amount of the county or participating portion of a county with the next highest value, until reaching an amount where funds available under this subdivision are no longer sufficient to raise the amount of a county or participating portion of a county and the amount of counties and participating portions of counties with lower values up to the amount of the next highest county or participating portion of a county.

(d) If the point is reached using the process in paragraphs (b) and (c) at which the remaining grant funds under this subdivision are not adequate for raising the amount of a county or participating portion of a county and all counties and participating portions of counties with amounts of lower value to the amount of the county or participating portion of a county with the next highest value, those funds are to be divided on a per capita basis for all counties or

participating portions of counties that received grant funds under the calculation in paragraphs (b) and (c).

Subd. 7. **Population determination.** Population shall be determined according to section 477A.011, subdivision 3.

Subd. 8. **Eligibility.** A regional public library system may apply for regional library telecommunications aid. The aid must be used for data and video access maintenance, equipment, or installation of telecommunication lines. To be eligible, a regional public library system must be officially designated by the commissioner of education as a regional public library system as defined in section 134.34, subdivision 3, and each of its participating cities and counties must meet local support levels defined in section 134.34, subdivision 1. A public library building that receives aid under this section must be open a minimum of 20 hours per week.

Subd. 9. **Telecommunications aid.** An application for regional library telecommunications aid must, at a minimum, contain information to document the following:

(1) the connections are adequate and employ an open network architecture that will ensure interconnectivity and interoperability with school districts, postsecondary education, or other governmental agencies;

(2) that the connection is established through the most cost-effective means and that the regional library has explored and coordinated connections through school districts, postsecondary education, or other governmental agencies;

(3) that the regional library system has filed an e-rate application; and

(4) other information, as determined by the commissioner of education, to ensure that connections are coordinated, efficient, and cost-effective, take advantage of discounts, and meet applicable state standards.

The library system may include costs associated with cooperative arrangements with postsecondary institutions, school districts, and other governmental agencies.

Subd. 10. **Award of funds.** The commissioner of education shall develop an application and a reporting form and procedures for regional library telecommunications aid. Aid shall be based on actual costs of connections and funds available for this purpose. The commissioner shall make payments directly to the regional public library system.
