62M.03 COMPLIANCE WITH STANDARDS.

Subdivision 1. **Licensed utilization review organization.** Beginning January 1, 1993, any organization that meets the definition of utilization review organization in section 62M.02, subdivision 21, must be licensed under chapter 60A, 62C, 62D, 62N, 62T, or 64B, or registered under this chapter and must comply with sections 62M.01 to 62M.16 and section 72A.201, subdivisions 8 and 8a. Each licensed community integrated service network or health maintenance organization that has an employed staff model of providing health care services shall comply with sections 62M.01 to 62M.16 and section 72A.201, subdivisions 8 and 8a, for any services provided by providers under contract.

Subd. 2. **Nonlicensed utilization review organization.** An organization that meets the definition of a utilization review organization under section 62M.02, subdivision 21, that is not licensed in this state that performs utilization review services for Minnesota residents must register with the commissioner of commerce and must certify compliance with sections 62M.01 to 62M.16.

Initial registration must occur no later than January 1, 1993. The registration is effective for two years and may be renewed. Applications for initial and renewal registrations must be made on forms prescribed by the commissioner. Each utilization review organization registered under this chapter shall notify the commissioner of commerce within 30 days of any change in the name, address, or ownership of the organization. The organization shall pay to the commissioner of commerce a fee of \$1,000 for the initial registration application and \$1,000 for each two-year renewal.

Subd. 3. **Penalties and enforcements.** If a utilization review organization fails to comply with sections 62M.01 to 62M.16, the organization may not provide utilization review services for any Minnesota resident. The commissioner of commerce may issue a cease and desist order under section 45.027, subdivision 5, to enforce this provision. The cease and desist order is subject to appeal under chapter 14. 62M.04 STANDARDS FOR UTILIZATION REVIEW PERFORMANCE.

Subdivision 1. **Responsibility for obtaining certification.** A health benefit plan that includes utilization review requirements must specify the process for notifying the utilization review organization in a timely manner and obtaining certification for health care services. Each health plan company must provide a clear and concise description of this process to an enrollee as part of the policy, subscriber contract, or certificate of coverage. In addition to the enrollee, the utilization review organization must allow any provider or provider's designee, or responsible patient representative, including a family member, to fulfill the obligations under the health plan.

A claims administrator that contracts directly with providers for the provision of health care services to enrollees may, through contract, require the provider to notify the review organization in a timely manner and obtain certification for health care services.

Subd. 2. **Information upon which utilization review is conducted.** If the utilization review organization is conducting routine prospective and concurrent utilization review, utilization review organizations must collect only the information necessary to certify the admission, procedure of treatment, and length of stay.

(a) Utilization review organizations may request, but may not require providers to supply numerically encoded diagnoses or procedures as part of the certification process.

(b) Utilization review organizations must not routinely request copies of medical records for all patients reviewed. In performing prospective and concurrent review, copies of the pertinent portion of the medical record should be required only when a difficulty develops in certifying the medical necessity or appropriateness of the admission or extension of stay.

(c) Utilization review organizations may request copies of medical records retrospectively for a number of purposes, including auditing the services provided, quality assurance review, ensuring compliance with the terms of either the health benefit plan or the provider contract, and compliance with utilization review activities. Except for reviewing medical records associated with an appeal or with an investigation or audit of data discrepancies, providers must be reimbursed for the reasonable costs of duplicating records requested by the utilization review organization for retrospective review unless otherwise provided under the terms of the provider contract.

Subd. 3. **Data elements.** Except as otherwise provided in sections 62M.01 to 62M.16, for purposes of certification a utilization review organization must limit its data requirements to the following elements:

Additional information may be required for other specific review functions such as discharge planning or catastrophic case management. Second opinion information may also be required, when applicable, to support benefit plan requirements.

Subd. 4. Additional information. A utilization review organization may request information in addition to that described in subdivision 3 when there is significant lack of agreement between the utilization review organization and the provider regarding the appropriateness of certification during the review or appeal process. For purposes of this subdivision, "significant lack of agreement" means that the utilization review organization has:

- (1) tentatively determined through its professional staff that a service cannot be certified;
- (2) referred the case to a physician for review; and
- (3) talked to or attempted to talk to the attending health care professional for further information.

Nothing in sections 62M.01 to 62M.16 prohibits a utilization review organization from requiring submission of data necessary to comply with the quality assurance and utilization review requirements of chapter 62D or other appropriate data or outcome analyses.

Subd. 5. Sharing of information. To the extent allowed under sections 72A.49 to 72A.505, a utilization review organization shall share all available clinical and demographic information on individual patients internally to avoid duplicate requests for information from enrollees or providers.

History: 1992 c 574 s 4; 1999 c 239 s 19-22

62M.05 PROCEDURES FOR REVIEW DETERMINATION.

Subdivision 1. Written procedures. A utilization review organization must have written procedures to ensure that reviews are conducted in accordance with the requirements of this chapter.

Subd. 2. Concurrent review. A utilization review organization may review ongoing inpatient stays based on the severity or complexity of the enrollee's condition or on necessary

treatment or discharge planning activities. Such review must not be consistently conducted on a daily basis.

Subd. 3. **Notification of determinations.** A utilization review organization must have written procedures for providing notification of its determinations on all certifications in accordance with this section.

Subd. 3a. **Standard review determination.** (a) Notwithstanding subdivision 3b, an initial determination on all requests for utilization review must be communicated to the provider and enrollee in accordance with this subdivision within ten business days of the request, provided that all information reasonably necessary to make a determination on the request has been made available to the utilization review organization.

(b) When an initial determination is made to certify, notification must be provided promptly by telephone to the provider. The utilization review organization shall send written notification to the provider or shall maintain an audit trail of the determination and telephone notification. For purposes of this subdivision, "audit trail" includes documentation of the telephone notification, including the date; the name of the person spoken to; the enrollee; the service, procedure, or admission certified; and the date of the service, procedure, or admission. If the utilization review organization indicates certification by use of a number, the number must be called the "certification number." For purposes of this subdivision, notification may also be made by facsimile to a verified number or by electronic mail to a secure electronic mailbox. These electronic forms of notification satisfy the "audit trail" requirement of this paragraph.

(c) When an initial determination is made not to certify, notification must be provided by telephone, by facsimile to a verified number, or by electronic mail to a secure electronic mailbox within one working day after making the determination to the attending health care professional and hospital as applicable. Written notification must also be sent to the hospital as applicable and attending health care professional if notification occurred by telephone. For purposes of this subdivision, notification may be made by facsimile to a verified number or by electronic mail to a secure electronic mailbox. Written notification must be sent to the enrollee and may be sent by United States mail, facsimile to a verified number, or by electronic mail to a secure mailbox. The written notification must include the principal reason or reasons for the determination and the process for initiating an appeal of the determination. Upon request, the utilization review organization shall provide the provider or enrollee with the criteria used to determine the necessity, appropriateness, and efficacy of the health care service and identify the database, professional treatment parameter, or other basis for the criteria. Reasons for a determination not to certify may include, among other things, the lack of adequate information to certify after a reasonable attempt has been made to contact the provider or enrollee.

(d) When an initial determination is made not to certify, the written notification must inform the enrollee and the attending health care professional of the right to submit an appeal to the internal appeal process described in section 62M.06 and the procedure for initiating the internal appeal.

Subd. 3b. **Expedited review determination.** (a) An expedited initial determination must be utilized if the attending health care professional believes that an expedited determination is warranted.

(b) Notification of an expedited initial determination to either certify or not to certify must be provided to the hospital, the attending health care professional, and the enrollee as

expeditiously as the enrollee's medical condition requires, but no later than 72 hours from the initial request. When an expedited initial determination is made not to certify, the utilization review organization must also notify the enrollee and the attending health care professional of the right to submit an appeal to the expedited internal appeal as described in section 62M.06 and the procedure for initiating an internal expedited appeal.

Subd. 4. Failure to provide necessary information. A utilization review organization must have written procedures to address the failure of a provider or enrollee to provide the necessary information for review. If the enrollee or provider will not release the necessary information to the utilization review organization, the utilization review organization may deny certification in accordance with its own policy or the policy described in the health benefit plan.

Subd. 5. Notification to claims administrator. If the utilization review organization and the claims administrator are separate entities, the utilization review organization must forward, electronically or in writing, a notification of certification or determination not to certify to the appropriate claims administrator for the health benefit plan. If it is determined by the claims administrator that the certified health care service is not covered by the health benefit plan, the claims administrator must promptly notify the claimant and provider of this information.

History: 1992 c 574 s 5; 1994 c 485 s 65; 1994 c 625 art 2 s 12; 1999 c 239 s 23; 2001 c 215 s 25; 2009 c 178 art 1 s 32

62M.06 APPEALS OF DETERMINATIONS NOT TO CERTIFY.

Subdivision 1. Procedures for appeal. A utilization review organization must have written procedures for appeals of determinations not to certify. The right to appeal must be available to the enrollee and to the attending health care professional.

Subd. 2. Expedited appeal. (a) When an initial determination not to certify a health care service is made prior to or during an ongoing service requiring review and the attending health care professional believes that the determination warrants an expedited appeal, the utilization review organization must ensure that the enrollee and the attending health care professional have an opportunity to appeal the determination over the telephone on an expedited basis. In such an appeal, the utilization review organization must ensure reasonable access to its consulting physician or health care provider.

(b) The utilization review organization shall notify the enrollee and attending health care professional by telephone of its determination on the expedited appeal as expeditiously as the enrollee's medical condition requires, but no later than 72 hours after receiving the expedited appeal.

(c) If the determination not to certify is not reversed through the expedited appeal, the utilization review organization must include in its notification the right to submit the appeal to the external appeal process described in section 62Q.73 and the procedure for initiating the process. This information must be provided in writing to the enrollee and the attending health care professional as soon as practical.

Subd. 3. Standard appeal. The utilization review organization must establish procedures for appeals to be made either in writing or by telephone.

(a) A utilization review organization shall notify in writing the enrollee, attending health care professional, and claims administrator of its determination on the appeal within 30 days upon receipt of the notice of appeal. If the utilization review organization cannot make a determination

within 30 days due to circumstances outside the control of the utilization review organization, the utilization review organization may take up to 14 additional days to notify the enrollee, attending health care professional, and claims administrator of its determination. If the utilization review organization takes any additional days beyond the initial 30-day period to make its determination, it must inform the enrollee, attending health care professional, and claims administrator, in advance, of the extension and the reasons for the extension.

(b) The documentation required by the utilization review organization may include copies of part or all of the medical record and a written statement from the attending health care professional.

(c) Prior to upholding the initial determination not to certify for clinical reasons, the utilization review organization shall conduct a review of the documentation by a physician who did not make the initial determination not to certify.

(d) The process established by a utilization review organization may include defining a period within which an appeal must be filed to be considered. The time period must be communicated to the enrollee and attending health care professional when the initial determination is made.

(e) An attending health care professional or enrollee who has been unsuccessful in an attempt to reverse a determination not to certify shall, consistent with section 72A.285, be provided the following:

- (1) a complete summary of the review findings;
- (2) qualifications of the reviewers, including any license, certification, or specialty designation; and
- (3) the relationship between the enrollee's diagnosis and the review criteria used as the basis for the decision, including the specific rationale for the reviewer's decision.

(f) In cases of appeal to reverse a determination not to certify for clinical reasons, the utilization review organization must ensure that a physician of the utilization review organization's choice in the same or a similar specialty as typically manages the medical condition, procedure, or treatment under discussion is reasonably available to review the case.

(g) If the initial determination is not reversed on appeal, the utilization review organization must include in its notification the right to submit the appeal to the external review process described in section 62Q.73 and the procedure for initiating the external process.

Subd. 4. **Notification to claims administrator.** If the utilization review organization and the claims administrator are separate entities, the utilization review organization must notify, either electronically or in writing, the appropriate claims administrator for the health benefit plan of any determination not to certify that is reversed on appeal.

62M.07 PRIOR AUTHORIZATION OF SERVICES.

(a) Utilization review organizations conducting prior authorization of services must have written standards that meet at a minimum the following requirements:

- (1) written procedures and criteria used to determine whether care is appropriate, reasonable, or medically necessary;

(2) a system for providing prompt notification of its determinations to enrollees and providers and for notifying the provider, enrollee, or enrollee's designee of appeal procedures under clause (4);

(3) compliance with section 62M.05, subdivisions 3a and 3b, regarding time frames for approving and disapproving prior authorization requests;

(4) written procedures for appeals of denials of prior authorization which specify the responsibilities of the enrollee and provider, and which meet the requirements of sections 62M.06 and 72A.285, regarding release of summary review findings; and

(5) procedures to ensure confidentiality of patient-specific information, consistent with applicable law.

(b) No utilization review organization, health plan company, or claims administrator may conduct or require prior authorization of emergency confinement or emergency treatment. The enrollee or the enrollee's authorized representative may be required to notify the health plan company, claims administrator, or utilization review organization as soon after the beginning of the emergency confinement or emergency treatment as reasonably possible.

(c) If prior authorization for a health care service is required, the utilization review organization, health plan company, or claim administrator must allow providers to submit requests for prior authorization of the health care services without unreasonable delay by telephone, facsimile, or voice mail or through an electronic mechanism 24 hours a day, seven days a week. This paragraph does not apply to dental service covered under MinnesotaCare, general assistance medical care, or medical assistance.

History: 1992 c 574 s 7; 1994 c 485 s 65; 1995 c 234 art 8 s 12; 1999 c 239 s 25; 2004 c 246 s 1

62M.072 USE OF EVIDENCE-BASED STANDARDS.

If no independently developed evidence-based standards exist for a particular treatment, testing, or imaging procedure, then an insurer or utilization review organization shall not deny coverage of the treatment, testing, or imaging based solely on the grounds that the treatment, testing, or imaging does not meet an evidence-based standard. This section does not prohibit an insurer or utilization review organization from denying coverage for services that are investigational, experimental, or not medically necessary.

History: 2006 c 255 s 32

62M.08 CONFIDENTIALITY.

Subdivision 1. **Written procedures to ensure confidentiality.** A utilization review organization must have written procedures for ensuring that patient-specific information obtained during the process of utilization review will be:

(1) kept confidential in accordance with applicable federal and state laws;

(2) used solely for the purposes of utilization review, quality assurance, discharge planning, and case management; and

(3) shared only with those organizations or persons that have the authority to receive such information.

Subd. 2. **Summary data.** Summary data is not subject to this section if it does not provide

sufficient information to allow identification of individual patients.

History: 1992 c 574 s 8

62M.09 STAFF AND PROGRAM QUALIFICATIONS; ANNUAL REPORT.

Subdivision 1. **Staff criteria.** A utilization review organization shall have utilization review staff who are properly trained, qualified, and supervised.

Subd. 2. **Licensure requirement.** Nurses, physicians, and other licensed health professionals conducting reviews of medical services, and other clinical reviewers conducting specialized reviews in their area of specialty must be currently licensed or certified by an approved state licensing agency in the United States.

Subd. 3. **Physician reviewer involvement.** (a) A physician must review all cases in which the utilization review organization has concluded that a determination not to certify for clinical reasons is appropriate.

(b) The physician conducting the review must be licensed in this state. This paragraph does not apply to reviews conducted in connection with policies issued by a health plan company that is assessed less than three percent of the total amount assessed by the Minnesota Comprehensive Health Association.

(c) The physician should be reasonably available by telephone to discuss the determination with the attending health care professional.

(d) This subdivision does not apply to outpatient mental health or substance abuse services governed by subdivision 3a.
