

103B.252 EMERGENCY PROJECTS.

Subdivision 1. **General authority.** Notwithstanding chapter 103D, a local government unit or a watershed management organization which has an approved and adopted plan may undertake and perform emergency projects under this section.

Subd. 2. **Declaration of emergency.** If the joint powers board, watershed district managers, or local government unit find that conditions exist that present a clear and imminent danger to the health or welfare of the people of the watershed management organization or local government unit, and that to delay action would prejudice the interests of the people of the watershed management organization or local government unit, or would likely cause permanent harm, the joint powers board, watershed district managers, or local government unit may declare the existence of an emergency and designate the location, watershed or sub-watershed unit, nature, and extent of the emergency.

Subd. 3. **Project order.** If an emergency has been declared to the extent necessary to protect the interests of the watershed management organization or the local government unit, the joint powers board, watershed district managers, or local government unit may order that the work be done under the direction of the joint powers board, watershed district managers, or local government unit and their engineer, without a contract.
