

103C.331 POWERS OF DISTRICT BOARDS.

Subdivision 1. **General authority.** A soil and water conservation district is a governmental and political subdivision of this state, and a public body, corporate and politic, and has the following powers in addition to any others prescribed by law.

Subd. 2. **Advisory assistance.** The supervisors may invite the legislative body of a municipality or county in the district to designate a representative to advise and consult with the supervisors of the district on questions of program and policy that may affect the property, water supply, or other interests of the municipality or county.

Subd. 3. **Surveys, investigations, and research.** A district may conduct surveys, investigations, and research to identify the problems and preventive practices specified in section 103A.206. To avoid duplication of research activities, no district shall initiate any research program except in cooperation with a state agency or an agency of the United States.

Subd. 4. **Publication of information.** A district may publish its comprehensive plan and the results of its surveys, investigations, and research and may disseminate information to the public concerning any of its activities.

Subd. 5. **Demonstration projects.** A district may conduct demonstration projects within the district on lands owned or administered by a state agency, with the cooperation of the administering agency, and on other lands with the consent of the land occupier, to demonstrate practices which implement the state policy specified in section 103A.206.

Subd. 6. **Implementation of practices.** A district may implement any necessary practices within the district, including structural measures and works of improvement for any purpose specified in section 103A.206, methods of cultivation, the use of vegetation, and changes in use of land, on:

- (1) lands acquired by the district;
- (2) lands owned or administered by a state agency, with the cooperation of the administering agency; and
- (3) other lands, with the consent of the land occupier.

Subd. 7. **Implementation of soil and water conservation policy.** A district may cooperate or enter into agreements with and furnish financial or other aid to a land occupier or appropriate agency, to implement the policy specified in section 103A.206, within the district, subject to conditions the district board determines is necessary.

Subd. 8. **Acquisition and maintenance of property.** A district may acquire any rights or interests in real or personal property by option, purchase, exchange, lease, gift, grant, bequest, devise, or otherwise. It may maintain, operate, administer, and improve any properties acquired. It may receive income from the properties and expend the income to implement this chapter and sections 103F.401 to 103F.455. It may sell, lease, or otherwise dispose of any of its property or interests.

Subd. 9. **Use of machinery and supplies.** A district may make available, on terms it shall prescribe, to land occupiers within the district, agricultural and engineering machinery and equipment, fertilizer, seeds, and seedlings, and other material or equipment which will assist land occupiers to implement practices on their land specified in section 103C.005.

Subd. 10. **Construction of improvements.** A district may construct, install, improve, maintain, and operate structures and works necessary or convenient to perform an operation authorized under this chapter and sections 103F.401 to 103F.455.

Subd. 11. **Comprehensive plan.** (a) A district may develop and revise a comprehensive plan, specifying practices to implement the state policy specified in section 103A.206, including:

- (1) the construction, maintenance, and operation of structural measures;
- (2) methods of cultivation;
- (3) the use of vegetation;
- (4) cropping programs;
- (5) mechanical practices;
- (6) changes in use of land;
- (7) water quality improvement practices;
- (8) other land use, soil erosion reduction, and agricultural practices; and
- (9) related technical standards and specifications.

(b) The plan shall include a classification of the soil types within the district as determined by the Minnesota Cooperative Soil Survey.

(c) The plan must identify the areas within the district where erosion, sedimentation, and related water quality problems appear most in need of control methods.

(d) The plan shall be consistent with the statewide framework water resources plan, the statewide water quality management plan, and the state board's soil and water program plan.

(e) Each district that applies for cost-sharing funds under section 103C.501 shall submit to the state board an annual work plan for the high priority erosion, sedimentation, and water quality problems in the district. The work plan shall be prepared as required by the rules of the state board. In preparing the annual work plan, the district shall actively identify and seek out land occupiers with high priority erosion problems who have not participated in cost-sharing contracts and encourage their participation in programs to control their erosion problems.

Subd. 12. **Assumption of conservation projects.** (a) A district may take over by purchase, lease, or otherwise, and may improve, maintain, operate, and administer a soil or water conservation, erosion-control, erosion-prevention, water quality improvement, watershed protection, flood prevention, or flood control project in its boundaries undertaken by the United States or by a state agency.

(b) A district may accept donations, gifts, grants, or contributions in money, services, materials, or otherwise from the United States, a state agency, or other source to accomplish the authorization in this section. A board may enter into a contract or agreement necessary or appropriate to accomplish the transfer. A board may use or expend money, services, materials, or other things to accomplish an authorized purpose.

Subd. 13. **Authority for suit and contracts.** A district may sue and be sued in its name, have perpetual succession unless terminated as provided in section 103C.225, make and execute contracts and other

instruments necessary or convenient to the exercise of its powers, and make, amend, or repeal rules and regulations consistent with this chapter and sections 103F.401 to 103F.455.

Subd. 14. **Compensation for work or projects.** As a condition for extending benefits for the performance of work upon lands not owned or administered by a state agency or the district, the supervisors may require compensation or contributions in money, services, materials, or otherwise, commensurate with the cost or reasonable value of the operations or work conferring the benefits.

Subd. 15. **Agreements for federal assistance.** (a) A district may submit an application and enter into an agreement or contract with the secretary of agriculture or other designated authority to obtain or use federal assistance under any law providing for federal assistance for an authorized purpose of the district.

(b) A district may:

(1) acquire without cost to the federal government any land, easements, or rights-of-way needed in connection with works of improvement installed with federal assistance;

(2) assume the proportionate share of the cost of installing works of improvement involving federal assistance determined by the secretary or other designated authority to be equitable in consideration of anticipated benefits from the improvements;

(3) make arrangements satisfactory to the secretary or other authority to defray costs of operating and maintaining works of improvement in accordance with prescribed regulations;

(4) acquire or provide assurance that land occupiers have acquired the water rights and other rights, pursuant to state law, needed to install, maintain, and operate the works of improvement; and

(5) obtain agreements to carry out recommended soil and water conservation measures and prepare farm plans for owners of not less than 50 percent or other required percentage of the lands situated in a drainage area above a retention reservoir installed with federal assistance, as prescribed by applicable federal law, and may do any other acts necessary to secure and use federal aid.

Subd. 16. **Budget.** The district board shall annually present a budget consisting of an itemized statement of district expenses for the ensuing calendar year to the boards of county commissioners of the counties in which the district is located. The county boards may levy an annual tax on all taxable real property in the district for the amount that the boards determine is necessary to meet the requirements of the district. The amount levied shall be collected and distributed to the district as prescribed by chapter 276. The amount may be spent by the district board for a district purpose authorized by law.

Subd. 17. **Funds for state and national associations.** A district may appropriate funds to provide membership in state and national associations that have as their purpose the betterment and improvement of soil and water conservation district operations. A district may participate through designated representatives in the meetings and activities of the associations. A district may appropriate funds to defray the actual and necessary expenses of its representatives in connection with the associations' membership. The expenses may be paid only upon the presentation of a verified itemized claim.

Subd. 18. **Liability insurance.** A district may procure liability insurance as provided in section 466.06, automobile insurance on personal cars while used on official business, insurance on the contents of district offices, and workers' compensation insurance, or may require the counties in which the district is located to include the district in the counties' insurance coverage for these purposes.

Subd. 19. **Administration of official controls.** A district may accept delegation from the state, a county, or a city of authority to administer soil and water conservation-related official controls, as defined in section 103B.305, subdivision 7, of the county or city. Prior to the delegation, the district and the state, county, or city agreement must include provisions that:

- (1) provide for the source of funding for administering the official controls;
- (2) the district will provide notice and hearing in the same instances that the county or city would; and
- (3) identify who will provide legal advice and support for administration and enforcement.

Subd. 20. **Coordination and cooperation.** In implementing its authorities, a district shall cooperate as far as possible with federal, state, and local agencies and with private organizations in order to avoid duplication and to enhance implementation of public and private conservation initiatives within its jurisdiction.
