Subd. 2a. **Actuarial equivalent.** (a) "Actuarial equivalent" means the condition of one annuity or benefit having an equal actuarial present value as another annuity or benefit, determined as of a given date with each actuarial present value based on the appropriate mortality table adopted by the board of directors of the Minnesota State Retirement System based on the experience of the fund as recommended by the actuary retained under section 356.214 and approved under section 356.215, subdivision 18, and using the applicable preretirement or postretirement interest rate assumption specified in section 356.215, subdivision 8.

To obtain the service credit, the judge shall pay an amount equal to the normal cost of the judges retirement plan on the date of return from the leave of absence, as determined in the most recent actuarial report for the plan filed with the Legislative Commission on Pensions and Retirement, multiplied by the judge's average monthly salary rate during the authorized leave of absence and multiplied by the number of months of the authorized leave of absence, plus interest at the applicable annual rate or rates specified in section 356.59, subdivision 2, compounded annually, from the date of the termination of the leave to the date on which payment is made. The payment must be made within one year of the date on which the authorized leave of absence terminated. Service credit for an authorized leave of absence is in addition to a uniformed service leave under section 490.1211.
