(3) for wetlands, public waters wetlands, or public waters connected to a public or private drainage system, an amount determined by the board based on the fair market value of the land if drainage infrastructure were restored.

(b) Payment for adjacent upland acreage of cropped and noncropped land under subdivision 2, paragraph (b), must be made at 90 percent and 60 percent, respectively, of the township average equalized market value of agricultural land as established by the commissioner of revenue at the time of easement application.
