(2) a written report or other documentation of private analyses of a state-owned or controlled drill core that is public data and is under the custody of the commissioner; or

(3) exploration data received by the commissioner under the terms of a state mineral lease.

(b) **Data become public.** (1) Data under paragraph (a), clause (1), become public data three years after the date the lease sale was held or, if not held, within three years after the date the lease sale was scheduled to be held. Except as provided in clause (2), data under paragraph (a), clause (2), become public data one year after receipt by the commissioner. Except as provided in clause (3) or as otherwise provided for by law, data under paragraph (a), clause (3), become public data upon termination of the state mineral lease under which the data were gathered.
