The legislative auditor shall audit, as resources permit, information and data systems supported with public funds and operated by an organization listed in subdivision 6. The audits shall include an assessment of controls designed to protect government data, particularly government data classified as not public by chapter 13, from unauthorized access and use. The legislative auditor shall conduct program evaluations to determine the degree to which the activities and programs entered into or funded by the state are accomplishing their goals and objectives, including a critical analysis of goals and objectives, measurement of program results and effectiveness, alternative means of achieving the same results, and efficiency in the allocation of resources. The legislative auditor shall recommend ways to improve the effectiveness of the programs, reduce the cost of providing state services, and eliminate services of one agency that overlap with or duplicate the services performed by another agency. At the direction of the commission the legislative auditor may conduct program evaluations of any state department, board, commission, or agency and any metropolitan agency, board, or commission created under chapter 473; or any program or activity established or funded, in whole or in part, by the state. After an evaluation report has been released, the legislative auditor may periodically conduct a follow-up review to assess what changes have occurred.
