The

value of deterrent materials provided to a person to help protect stored forage crops, agricultural crops, or pasture from damage by elk may not exceed \$5,000. If a person is a co-owner or cotenant with respect to the crops for which the deterrent materials are provided, the deterrent materials are deemed to be "provided" to the person for the purposes of this paragraph.

(d) As a condition of receiving emergency deterrent materials assistance under this subdivision, a landowner or tenant shall enter into a cooperative damage management agreement with the commissioner. (5) one public member appointed by the senate Subcommittee on Committees of the Committee on Rules and Administration for a term ending the first Monday in January 2013; and

(6) one public member appointed by the speaker of the house for a term ending the first Monday in January 2013.

(f) Terms, compensation, and removal of public members are as provided in section 15.0575. A vacancy on the council may be filled by the appointing authority for the remainder of the unexpired term.

(g) Members shall elect a chair, vice-chair, secretary, and other officers as determined by the council. The chair may convene meetings as necessary to conduct the duties prescribed by this section.

(h) The Legislative Coordinating Commission may appoint nonpartisan staff and contract with consultants as necessary to support the functions of the council. The council has final approval authority for the hiring of a candidate for executive director. Up to one percent of the money appropriated from the fund may be used to pay for administrative expenses of the council and for compensation and expense reimbursement of council members.

Subd. 3. Council recommendations. (a) The council shall make recommendations to the legislature on appropriations of money from the outdoor heritage fund that are consistent with the constitution and state law and that will achieve the outcomes of existing natural resource plans, including, but not limited to, the Minnesota Statewide Conservation and Preservation Plan, that directly relate to the restoration, protection, and enhancement of wetlands, prairies, forests, and habitat for fish, game, and wildlife, and that prevent forest fragmentation, encourage forest consolidation, and expand restored native prairie. In making recommendations, the council shall consider a range of options that would best restore, protect, and enhance wetlands, prairies, forests, and habitat for fish, game, and wildlife. The council's recommendations shall be submitted no later than January 15 each year. The council shall present its recommendations to the senate and house of representatives committees with jurisdiction over the environment and natural resources budget by February 15 in odd-numbered years, and within the first four weeks of the legislative session in even-numbered years. The council's budget recommendations to the legislature shall be separate from the Department of Natural Resource's budget recommendations.

(b) To encourage and support local conservation efforts, the council shall establish a conservation partners program. Local, regional, state, or national organizations may apply for matching grants for restoration, protection, and enhancement of wetlands, prairies, forests, and habitat for fish, game, and wildlife, prevention of forest fragmentation, encouragement of forest consolidation, and expansion of restored native prairie.

(c) The council may work with the Clean Water Council to identify projects that are consistent with both the purpose of the outdoor heritage fund and the purpose of the clean water fund.

(d) The council may make recommendations to the Legislative-Citizen Commission on Minnesota Resources on scientific research that will assist in restoring, protecting, and enhancing wetlands, prairies, forests, and habitat for fish, game, and wildlife, preventing forest fragmentation, encouraging forest consolidation, and expanding restored native prairie.

(e) Recommendations of the council, including approval of recommendations for the outdoor heritage fund, require an affirmative vote of at least nine members of the council.

(f) The council may work with the Clean Water Council, the Legislative-Citizen Commission on Minnesota Resources, the Board of Water and Soil Resources, soil and water conservation districts, and experts from Minnesota State Colleges and Universities and the University of Minnesota in developing the council's recommendations.

(g) The council shall develop and implement a process that ensures that citizens and potential recipients of funds are included throughout the process, including the development and finalization of the council's recommendations. The process must include a fair, equitable, and thorough process for reviewing requests for funding and a clear and easily understood process for ranking projects.

(h) The council shall use the regions of the state based upon the ecological sections and subsections developed by the Department of Natural Resources and establish objectives for each region and subregion to achieve the purposes of the fund outlined in the state constitution.

(i) The council shall develop and submit to the Legislative Coordinating Commission plans for the first ten years of funding, and a framework for 25 years of funding, consistent with statutory and constitutional requirements. The council may use existing plans from other legislative, state, and federal sources, as applicable.

(j) By July 1 each year, the council shall provide counties with a list of project proposals that include potential fee title land acquisitions in the county that is based on that year's funding requests received by the council from nongovernmental organizations.

Subd. 4. Conflict of interest. (a) A council member may not be an advocate for or against a council action or vote on any action that may be a conflict of interest. A conflict of interest must be disclosed as soon as it is discovered. The council shall follow the policies and requirements related to conflicts of interest developed by the Office of Grants Management under section 16B.98.

(b) For the purposes of this section, a "conflict of interest" exists when a person has an organizational conflict of interest or direct financial interests and those interests present the appearance that it will be difficult for the person to impartially fulfill the person's duty. An "organizational conflict of interest" exists when a person has an affiliation with an organization that is subject to council activities, which presents the appearance of a conflict between organizational interests and council member duties. An "organizational conflict of interest" does not exist if the person's only affiliation with an organization is being a member of the organization.

Subd. 5. Open meetings. (a) Meetings of the council and other groups the council may establish are subject to chapter 13D. Except where prohibited by law, the council shall establish additional processes to broaden public involvement in all aspects of its deliberations, including recording meetings, video conferencing, and publishing minutes. For the purposes of this subdivision, a meeting occurs when a quorum is present and the members receive information or take action on any matter relating to the duties of the council. The quorum requirement for the council shall be seven members.

(b) Travel to and from scheduled and publicly noticed site visits by council members for the purposes of receiving information is not a violation of paragraph (a). Any decision or agreement to make a decision during the travel is a violation of paragraph (a).

(c) For legislative members of the council, enforcement of this subdivision is governed by section 3.055, subdivision 2. For nonlegislative members of the council, enforcement of this subdivision is governed by section 13D.06, subdivisions 1 and 2.

(d) Unless held at a location outside the Capitol complex, meetings of the council must be made available on a website for live video streaming and be archived on a website for playback at a later time. For meetings of the council held at a location outside the Capitol complex, the council must make meetings available via live video stream and archive the video to the extent practicable.

Subd. 6. Audit. The legislative auditor shall audit the outdoor heritage fund expenditures, including administrative and staffing expenditures, to ensure that the money is spent in compliance with all applicable law and the constitution.

Subd. 7. Legislative oversight. The senate and house of representatives chairs of the committees with jurisdiction over the environment and natural resources budget shall convene a joint hearing to review the

activities and evaluate the effectiveness of the council and to receive reports on the council from the legislative auditor no later than June 30, 2014.

Subd. 8. [Repealed, 2017 c 91 art 1 s 11]

Subd. 9. **Lands in public domain.** (a) Money appropriated from the outdoor heritage fund shall not be used to purchase any land in fee title or a permanent conservation easement if the state of Minnesota or a political subdivision of the state owns the land in fee or if the land is wholly or partially subject to a conservation easement.

(b) Paragraph (a) does not apply if:

(1) the purchase creates additional direct benefit to protect, restore, or enhance the state's wetlands, prairies, forests, or habitat for fish, game, and wildlife, and the purchase is approved by an affirmative vote of at least nine members of the council; or

(2) the purchase is for land that is partially subject to a conservation easement and no money appropriated from the outdoor heritage fund is used to pay the purchase price for the portion of land that is subject to the easement. Nothing in this clause prohibits the use of money appropriated from the outdoor heritage fund to pay for costs and other expenses associated with the acquisition of the land as part of the larger acquisition.

(c) For purposes of this subdivision, "conservation easement" means a conservation easement as defined in section 84C.01.

Subd. 10. **Restoration and enhancements evaluations.** The commissioner of natural resources and the Board of Water and Soil Resources must convene a technical evaluation panel comprised of five members, including one technical representative from the Board of Water and Soil Resources, one technical representative from the Department of Natural Resources, one technical expert from the University of Minnesota or the Minnesota State Colleges and Universities, and two representatives with expertise in the project being evaluated. The board and the commissioner may add a technical representative from a unit of federal or local government. The members of the technical evaluation panel may not be associated with the restoration or enhancement, may vary depending upon the projects being reviewed, and shall avoid any potential conflicts of interest. Each year, the board and the commissioner may assign a coordinator to identify habitat restoration or enhancement projects completed with outdoor heritage funding. The coordinator shall secure the plans for the projects specified and direct the technical evaluation panel to evaluate the restorations and enhancements relative to the law, current science, and the stated goals and standards in the project plan and, when applicable, to the Board of Water and Soil Resources' native vegetation establishment and enhancement guidelines. The coordinator shall summarize the findings of the panel and provide a report to the chair of the Lessard-Sams Outdoor Heritage Council and the chairs of the respective house of representatives and senate policy and finance committees with jurisdiction over natural resources and spending from the outdoor heritage fund. The report shall determine if the restorations and enhancements are meeting planned goals, any problems with the implementation of restorations and enhancements, and, if necessary, recommendations on improving restorations and enhancements. The report shall be focused on improving future restorations and enhancements. At least one-tenth of one percent of forecasted receipts from the outdoor heritage fund must be used for restoration and enhancements evaluations under this section.

Subd. 11. **Recipient requirements.** (a) A state agency or other recipient of a direct appropriation from the outdoor heritage fund must compile and submit all information for funded projects or programs, including the proposed measurable outcomes and all other items required under section 3.303, subdivision 10, to the Legislative Coordinating Commission as soon as practicable or by January 15 of the applicable fiscal year,

whichever comes first. The Legislative Coordinating Commission must post submitted information on the website required under section 3.303, subdivision 10, as soon as it becomes available.

(b) When practicable, a direct recipient of an appropriation from the outdoor heritage fund shall prominently display on the recipient's website home page the legacy logo required under Laws 2009, chapter 172, article 5, section 10, as amended by Laws 2010, chapter 361, article 3, section 5, accompanied by the phrase "Click here for more information." When a person clicks on the legacy logo image, the website must direct the person to a web page that includes both the contact information that a person may use to obtain additional information, as well as a link to the Legislative Coordinating Commission website required under section 3.303, subdivision 10.

(c) Future eligibility for money from the outdoor heritage fund is contingent upon a state agency or other recipient satisfying all applicable requirements in this section, as well as any additional requirements contained in applicable session law. If the Office of the Legislative Auditor, in the course of an audit or investigation, publicly reports that a recipient of money from the outdoor heritage fund has not complied with the laws, rules, or regulations in this section or other laws applicable to the recipient, the recipient must be listed in an annual report to the legislative committees with jurisdiction over the legacy funds. The list must be publicly available. The legislative auditor shall remove a recipient from the list upon determination that the recipient is in compliance. A recipient on the list is not eligible for future funding from the outdoor heritage fund until the recipient demonstrates compliance to the legislative auditor.

Subd. 12. **Accomplishment plans.** It is a condition of acceptance of money appropriated from the outdoor heritage fund that the agency or entity using the appropriation submits an accomplishment plan and periodic accomplishment reports to the Lessard-Sams Outdoor Heritage Council in the form determined by the council. The accomplishment plan must identify the project manager responsible for expending the appropriation and the final product. The accomplishment plan must account for the use of the appropriation and outcomes of the expenditure in measures of wetlands, prairies, forests, and fish, game, and wildlife habitat restored, protected, and enhanced. The plan must include an evaluation of results. If lands are acquired by fee with money from the outdoor heritage fund, the accomplishment plan must include a hunting and fishing management plan for the lands acquired by fee. No money appropriated from the outdoor heritage fund may be expended unless the council has approved the pertinent accomplishment plan.

Subd. 13. **Project requirements.** (a) As a condition of accepting money appropriated from the outdoor heritage fund, an agency or entity receiving money from an appropriation must comply with this subdivision for any project funded in whole or in part with funds from the appropriation.

(b) All conservation easements acquired with money appropriated from the outdoor heritage fund must:

(1) be permanent;

(2) specify the parties to the easement;

(3) specify all of the provisions of an agreement that are permanent;

(4) specify the habitat types and location being protected;

(5) where appropriate for conservation or water protection outcomes, require the grantor to employ practices retaining water on the eased land as long as practicable;

(6) specify the responsibilities of the parties for habitat enhancement and restoration and the associated costs of these activities;

(7) be sent to the office of the Lessard-Sams Outdoor Heritage Council;

(8) include a long-term stewardship plan and identify the sources and amount of funding for monitoring and enforcing the easement agreement; and

(9) identify the parties responsible for monitoring and enforcing the easement agreement.

(c) For all restorations, a recipient must prepare and retain an ecological restoration and management plan that, to the degree practicable, is consistent with current conservation science and ecological goals for the restoration site. Consideration should be given to soil, geology, topography, and other relevant factors that would provide the best chance for long-term success and durability of the restoration. The plan must include the proposed timetable for implementing the restoration, including, but not limited to, site preparation, establishment of diverse plant species, maintenance, and additional enhancement to establish the restoration; identify long-term maintenance and management needs of the restoration and how the maintenance, management, and enhancement will be financed; and use current conservation science to achieve the best restoration.

(d) For new lands acquired, a recipient must prepare a restoration and management plan in compliance with paragraph (c), including identification of sufficient funding for implementation.

(e) To ensure public accountability for the use of public funds, a recipient must provide to the Lessard-Sams Outdoor Heritage Council documentation of the process used to select parcels acquired in fee or as permanent conservation easements and must provide the council with documentation of all related transaction costs, including, but not limited to, appraisals, legal fees, recording fees, commissions, other similar costs, and donations. This information must be provided for all parties involved in the transaction. The recipient must also report to the Lessard-Sams Outdoor Heritage Council any difference between the acquisition amount paid to the seller and the state-certified or state-reviewed appraisal, if a state-certified or state-reviewed appraisal was conducted. The commissioner of natural resources may conduct or require additional appraisals of parcels to be acquired in fee title or as conservation easements. Acquisition data such as appraisals may remain private during negotiations but must ultimately be made public according to chapter 13.

(f) Except as otherwise provided in the appropriation, all restoration and enhancement projects funded with money appropriated from the outdoor heritage fund must be on land permanently protected by a conservation easement or public ownership or in public waters as defined in section 103G.005, subdivision 15.

(g) To the extent an appropriation is used to acquire an interest in real property, a recipient of an appropriation from the outdoor heritage fund must provide to the Lessard-Sams Outdoor Heritage Council and the commissioner of management and budget an analysis of increased operation and maintenance costs likely to be incurred by public entities as a result of the acquisition and of how the costs are to be paid.

(h) A recipient of money appropriated from the outdoor heritage fund must give consideration to and make timely written contact with Conservation Corps Minnesota for possible use of the corps' services to contract for restoration and enhancement services. A copy of the written contact must be filed with the Lessard-Sams Outdoor Heritage Council within 15 days of execution.

(i) A recipient of money appropriated from the outdoor heritage fund must erect signage according to Laws 2009, chapter 172, article 5, section 10.

(j) At least 30 days before closing on an acquisition of land in fee title with money in whole or in part from the outdoor heritage fund, a nongovernmental organization must notify in writing the county board and town board where the land is located and furnish them a description of the land to be acquired.

Subd. 14. **Purchase of recycled and recyclable materials.** A political subdivision, public or private corporation, or other entity that receives money appropriated from the outdoor heritage fund must use the money in compliance with sections 16C.0725, regarding purchase of recycled, repairable, and durable materials, and 16C.073, regarding purchase and use of paper stock and printing.

Subd. 15. **Land acquisition restrictions.** (a) An interest in real property, including, but not limited to, an easement or fee title, that is acquired with money appropriated from the outdoor heritage fund must be used in perpetuity or for the specific term of an easement interest for the purpose for which the appropriation was made. The ownership of the interest in real property transfers to the state if:

(1) the holder of the interest in real property fails to comply with the terms and conditions of the grant agreement or accomplishment plan; or

(2) restrictions are placed on the land that preclude its use for the intended purpose as specified in the appropriation.

(b) A recipient of funding that acquires an interest in real property subject to this subdivision may not alter the intended use of the interest in real property or convey any interest in the real property acquired with the appropriation without the prior review and approval of the Lessard-Sams Outdoor Heritage Council or its successor. The council shall notify the chairs and ranking minority members of the legislative committees and divisions with jurisdiction over the outdoor heritage fund at least 15 business days before approval under this paragraph. The council shall establish procedures to review requests from recipients to alter the use of or convey an interest in real property. These procedures shall allow for the replacement of the interest in real property with another interest in real property meeting the following criteria:

(1) the interest must be at least equal in fair market value, as certified by the commissioner of natural resources, to the interest being replaced; and

(2) the interest must be in a reasonably equivalent location and have a reasonably equivalent useful conservation purpose compared to the interest being replaced, taking into consideration all effects from fragmentation of the whole habitat.

(c) A recipient of funding who acquires an interest in real property under paragraph (a) must separately record a notice of funding restrictions in the appropriate local government office where the conveyance of the interest in real property is filed. The notice of funding agreement must contain:

(1) a legal description of the interest in real property covered by the funding agreement;

(2) a reference to the underlying funding agreement;

(3) a reference to this section; and

(4) the following statement: "This interest in real property shall be administered in accordance with the terms, conditions, and purposes of the grant agreement controlling the acquisition of the property. The interest in real property, or any portion of the interest in real property, shall not be sold, transferred, pledged, or otherwise disposed of or further encumbered without obtaining the prior written approval of the Lessard-Sams Outdoor Heritage Council or its successor. The ownership of the interest in real property transfers to the state if: (1) the holder of the interest in real property fails to comply with the terms and

conditions of the grant agreement or accomplishment plan; or (2) restrictions are placed on the land that preclude its use for the intended purpose as specified in the appropriation."

Subd. 16. Real property interest report. (a) By December 1 each year, a recipient of money appropriated from the outdoor heritage fund that is used for the acquisition of an interest in real property, including, but not limited to, an easement or fee title, must submit annual reports on the status of the real property to the Lessard-Sams Outdoor Heritage Council or its successor in a form determined by the council. If lands are acquired by fee with money from the outdoor heritage fund, the real property interest report must include a verification of the status of the hunting and fishing management plan for the lands acquired by fee. The responsibility for reporting under this subdivision may be transferred by the recipient of the appropriation to another person or entity that holds the interest in the real property. To complete the transfer of reporting responsibility, the recipient of the appropriation must:

(1) inform the person to whom the responsibility is transferred of that person's reporting responsibility;

(2) inform the person to whom the responsibility is transferred of the property restrictions under subdivision 15; and

(3) provide written notice to the council of the transfer of reporting responsibility, including contact information for the person to whom the responsibility is transferred.

(b) After the transfer, the person or entity that holds the interest in the real property is responsible for reporting requirements under this subdivision.

Subd. 17. Easement monitoring and enforcement requirements. Money appropriated from the outdoor heritage fund for easement monitoring and enforcement may be spent only on activities included in an easement monitoring and enforcement plan contained within the accomplishment plan. Money received for monitoring and enforcement, including earnings on the money received, shall be kept in a monitoring and enforcement fund held by the organization and is appropriated for monitoring and enforcing conservation easements in the state. Within 120 days after the close of the entity's fiscal year, an entity receiving appropriations for easement monitoring and enforcement must provide an annual financial report to the Lessard-Sams Outdoor Heritage Council on the easement monitoring and enforcement fund as specified in the accomplishment plan. Money appropriated from the outdoor heritage fund for monitoring and enforcement of easements and earnings on the money appropriated shall revert to the state if:

(1) the easement transfers to the state under subdivision 15;

(2) the holder of the easement fails to file an annual report and then fails to cure that default within 30 days of notification of the default by the state; or

(3) the holder of the easement fails to comply with the terms of the monitoring and enforcement plan contained within the accomplishment plan and fails to cure that default within 90 days of notification of the default by the state.

Subd. 18. Successor organizations. The Lessard-Sams Outdoor Heritage Council may approve the continuation of a project with an organization that has adopted a new name. Continuation of a project with an organization that has undergone a significant change in mission, structure, or purpose requires:

(1) notice to the chairs of the legislative committees and divisions with jurisdiction over the outdoor heritage fund; and

(2) presentation by the council of proposed legislation either ratifying or rejecting continued involvement with the new organization.

Subd. 19. **Fee title acquisition; open season.** (a) Lands acquired by fee with money appropriated from the outdoor heritage fund that are held by the state must be open to the public taking of fish and game during the open season, unless otherwise provided by state law.

(b) Lands acquired by fee with money appropriated from the outdoor heritage fund that are held by the United States Fish and Wildlife Service must be open to the public taking of fish and game during the open season according to the National Wildlife Refuge System Improvement Act, United States Code, title 16, section 668dd, et seq.

(c) Except as provided in paragraph (b), lands acquired by fee with money appropriated from the outdoor heritage fund that are held by a nonstate entity must be open to the public taking of fish and game during the open season, unless otherwise prescribed by the commissioner of natural resources.

Subd. 20. **Donations.** A recipient shall not accept a monetary donation or payment from an owner of land that is acquired in fee in whole or in part with an appropriation from the outdoor heritage fund that exceeds the documented expenses that are directly related to and necessary for activities specified in the accomplishment plan approved by the Lessard-Sams Outdoor Heritage Council, unless expressly approved by the Lessard-Sams Outdoor Heritage Council in the accomplishment plan. This subdivision does not apply to donations that are not connected with the acquisition transaction or bargain sales, as defined by Code of Federal Regulations, title 26, section 1.1011-2, provided that the purchase price reimbursed by the state does not exceed the purchase price paid by the recipient.

Subd. 21. **Haying and grazing.** Lands acquired with money appropriated from the outdoor heritage fund may not be used for emergency haying and grazing in response to federal or state disaster declarations. Conservation grazing under a management plan that is being implemented prior to the emergency declaration may continue.

Subd. 22. **Revenues.** (a) A recipient must disclose to the Lessard-Sams Outdoor Heritage Council and the commissioner all revenues that are received by the recipient before the availability of the appropriation ends and that are generated from activities on land acquired in fee title or easement, restored, or enhanced with money from the outdoor heritage fund. The revenues must be disclosed to the council and commissioner no later than 60 days after the availability of the appropriation ends.

(b) For all revenues disclosed under paragraph (a), a recipient must:

(1) use the revenues to protect, restore, or enhance wetlands, prairies, forests, or habitat for fish, game, or wildlife according to the appropriation purposes and the approved accomplishment plan;

(2) use the revenues for other purposes as approved in the accomplishment plan by the Lessard-Sams Outdoor Heritage Council; or

(3) transfer the revenues to the outdoor heritage fund no later than 60 days after the availability of the appropriation ends, unless otherwise approved by the council.

(c) Paragraph (b), clause (3), does not apply to the state and its departments and agencies.

Subd. 23. **Reserve requirement.** In any fiscal year, at least five percent of that year's projected tax receipts determined by the most recent forecast for the outdoor heritage fund must not be appropriated.

Subd. 24. **Previous funding; notification requirement.** Any state agency or organization requesting a direct appropriation from the outdoor heritage fund must inform the Lessard-Sams Outdoor Heritage Council and the house of representatives and senate committees having jurisdiction over the outdoor heritage fund, at the time the request for funding is made, whether the request is supplanting or is a substitution for any previous funding that was not from a legacy fund and was used for the same purpose.

97A.085 GAME REFUGES.

Subdivision 1. **State parks.** All state parks are designated as game refuges.

Subd. 2. **Establishment by commissioner.** The commissioner may designate a game refuge if more than 50 percent of the area is in public ownership. The game refuge must be a contiguous area of at least 640 acres unless it borders or includes a marsh, or other body of water or watercourse suitable for wildlife habitat.

Subd. 3. **Establishment by petition of land holders.** The commissioner may designate a land area or portion of a land area described in a petition as a game refuge. The petition must be signed by the owner, the lessee, or the person in possession of each tract in the area. A certificate of the auditor of the county where the lands are located must accompany the petition stating that the persons named in the petition are the owners, lessees, or persons in possession of all of the land described according to the county records. The game refuge must be a contiguous area of at least 640 acres unless it borders or includes a marsh, or other body of water or watercourse suitable for wildlife habitat.

Subd. 4. **Establishment by petition of county residents.** The commissioner may designate as a game refuge public waters or a contiguous area described in a petition, signed by 50 or more residents of the county where the public waters or area is located. The game refuge must be a contiguous area of at least 640 acres unless it borders or includes a marsh, or other body of water or watercourse suitable for wildlife habitat. The game refuge may be designated only if the commissioner finds that protected wild animals are depleted and are in danger of extermination, or that it will best serve the public interest. If any of the land area in the proposed game refuge is privately owned and the commissioner receives a petition opposing designation of the refuge signed by the owners, lessees, or persons in possession of at least 75 percent of the private land area within the proposed game refuge, the commissioner shall not designate the private lands as a game refuge.

Subd. 4a. **Hearing required.** Before designating a game refuge under this section, the commissioner must hold a public hearing within the county where the majority of the proposed game refuge exists. Notices of the time and place of the hearing must be posted in five conspicuous places within the proposed game refuge at least 15 days before the hearing. A notice of the hearing must be published in a legal newspaper in each county where the area is located at least seven days before the hearing.

Subd. 5. **Game refuge for specified game.** The commissioner may designate a game refuge under this section for only specified species. The game refuge must be posted accordingly.

Subd. 6. **Area included in game refuge.** A state game refuge includes all public lands, waters, highways, and railroad right-of-way within the refuge boundary and, in the discretion of the commissioner, may include adjacent public lands and waters.

Subd. 7. **Game refuge boundary posting.** (a) The designation of a state game refuge is not effective until the boundary has been posted with notices that measure at least 12 inches.

(b) The notices must be posted at intervals of not more than 500 feet or less along the boundary. The notices must also be posted at all public road entrances to the refuges, except where the boundary is also an international or state boundary in public waters. Where the boundary of a refuge extends more than 500 feet continuously through a body of water, instead of placing notices in the water, notices with the words, "Adjacent Waters Included," may be placed on the shoreline at the intersection of the boundary and the water 20 feet or less above the high-water mark and at intervals of 500 feet or less along the shoreline.

(c) A certification by the commissioner or the director of the Wildlife Division, or a certification filed with the commissioner or director by a conservation officer, refuge supervisor, or other authorized officer or employee, stating that the required notices have been posted is prima facie evidence of the posting.

Subd. 8. **Modification or abandonment.** A state game refuge may be vacated or modified by the commissioner under the same procedures required for establishment of the refuge, except that a refuge established or modified under subdivision 2 or 3 may be vacated or modified following a public hearing as specified in subdivision 4a.

Subd. 9. **Vacating refuges open to hunting.** Notwithstanding subdivision 8, the commissioner may vacate a state game refuge by publishing a notice in the State Register if the refuge has been open to trapping and hunting small game including waterfowl, deer or bear by archery, and deer or bear by firearms for at least five years.

97A.091 HUNTING ON GAME REFUGES.

Subdivision 1. **Hunting and possession of firearms.** Except as provided in subdivision 2, a person may not take a wild animal, except fish, within a state game refuge. A person may not carry within a refuge:

- (1) a firearm unless the firearm is unloaded and contained in a case, or unloaded and broken down; or
- (2) an uncased bow.

Subd. 2. **When hunting allowed.** (a) The commissioner may allow hunting of a protected wild animal species within any portion of a state game refuge, including a state park. Hunting may be allowed under this paragraph only if the commissioner finds:

- (1) the population of the species exceeds the refuge's carrying capacity;
- (2) the species is causing substantial damage to agricultural or forest crops in the vicinity;
- (3) the species or other protected wild animals are threatened by the species population; or
- (4) a harvestable surplus of the species exists.

(b) The commissioner may allow hunting of unprotected wild animals in a game refuge.

(c) The commissioner may prescribe rules for any hunting allowed within a refuge.

(d) In any selection process for permits to take deer within a game refuge, the commissioner may designate a certain number of permits that are available only to applicants who are age 70 or over or are qualified for a special permit under section 97B.055, subdivision 3, or 97B.106.

Subd. 3. **Trap or target shooting.** The commissioner may issue special permits, without fee, to the owner or lessee of privately owned land within the boundaries of a state game refuge for trap or target shooting.

97A.092 CONTROLLED HUNTING ZONES.

The commissioner may by rule establish controlled hunting zones in areas on or adjacent to wildlife management areas and game refuges where the commissioner determines it is necessary to limit the distribution of waterfowl hunters. The commissioner may by rule establish conditions for entry and restrictions on hunting in a controlled hunting zone, including procedures for impartially selecting hunters for the zone.

97A.093 HUNTING, TRAPPING, AND FISHING IN SCIENTIFIC AND NATURAL AREAS.

Except as otherwise provided by law, scientific and natural areas are closed to hunting, trapping, and fishing unless:

- (1) the designating document allows hunting, trapping, or fishing; or
- (2) the commissioner allows hunting, trapping, or fishing in accordance with the procedure in section 86A.05, subdivision 5, paragraph (d).

97A.095 WATERFOWL PROTECTED AREAS.

Subdivision 1. **Migratory-waterfowl sanctuary.** The commissioner may designate by rule any part of a state game refuge or any part of a public water that is designated for management purposes under section 97A.101, subdivision 2, as a migratory-waterfowl sanctuary. The commissioner must consider an area for designation upon presentation of a petition signed by at least ten residents demonstrating that the area is primarily a migratory-waterfowl refuge. The commissioner shall post the area as a migratory-waterfowl sanctuary. A person may not enter a posted migratory-waterfowl sanctuary during the open migratory-waterfowl season or during other times prescribed by the commissioner unless accompanied by or under a permit issued by a conservation officer or wildlife manager. Upon a request from a private landowner within a migratory-waterfowl sanctuary, an annual permit must be issued to provide access to the property during the waterfowl season. The permit shall include conditions that allow no activity which would disturb waterfowl using the refuge during the waterfowl season.

Subd. 2. **Waterfowl feeding and resting areas.** The commissioner may, by rule, designate any part of a lake as a migratory feeding and resting area if there is adequate, free public access to the area. Before designation, the commissioner must describe the area in a public notice and receive public comments for 30 days. The commissioner must consider an area for designation upon presentation of a petition signed by at least ten residents demonstrating that the area is a substantial feeding or resting area for migratory waterfowl. The commissioner shall post the area as a migratory-waterfowl feeding and resting area. Except as authorized in rules adopted by the commissioner, a person may not enter a posted migratory-waterfowl feeding and resting area, during a period when hunting of migratory waterfowl is allowed, with watercraft or aircraft propelled by a motor, other than an electric motor with battery power of 12 volts or less. The commissioner may, by rule, further restrict the use of electric motors in migratory-waterfowl feeding and resting areas.

Subd. 3. [Repealed, 2012 c 277 art 1 s 91]

Subd. 4. **Swan Lake Migratory-Waterfowl Sanctuary.** The land described in Laws 1999, chapter 81, section 2, is designated Swan Lake Migratory-Waterfowl Sanctuary under subdivision 1.

97A.101 PUBLIC WATER RESERVES AND MANAGEMENT DESIGNATION.

Subdivision 1. **Reserves.** The commissioner may designate and reserve public waters of the state to propagate and protect wild animals.

Subd. 2. **Management designation.** (a) The commissioner may designate, reserve, and manage public waters for wildlife after giving notice and holding a public hearing. The hearing must be held in the county where the major portion of the waters is located. Notice of the hearing must be published in a legal newspaper within each county where the waters are located at least seven days before the hearing. The designation by the commissioner shall be by written order published in the State Register. Designations are not subject to the rulemaking provisions of chapter 14 and section 14.386 does not apply.

(b) The commissioner may contract with riparian owners for water projects under section 103G.121, subdivision 3, and may acquire land, accept local funding, and construct, maintain, and operate structures to control water levels under section 103G.505 to manage designated waters.

Subd. 3. **Fishing may not be restricted.** Seasons or methods of taking fish other than minnows may not be restricted under this section.

Subd. 4. **Restrictions on airboats, watercraft, and recreational vehicles.** (a) The use of airboats is prohibited at all times on lakes designated for wildlife management purposes under this section unless otherwise authorized by the commissioner.

(b) The commissioner may restrict the use of motorized watercraft and recreational vehicles on lakes designated for wildlife management purposes by posting all public access points on the designated lake. To minimize disturbance to wildlife or to protect wildlife habitat, the commissioner may restrict the type of allowable motorized watercraft or recreational vehicle, horsepower or thrust of motor, speed of operation, and season or area of use. Designation of areas, times, and types of restrictions to be posted shall be by written order published in the State Register. Posting of the restrictions is not subject to the rulemaking provisions of chapter 14 and section 14.386 does not apply.

(c) Before the commissioner establishes perpetual restrictions under paragraph (b), public comment must be received and a public meeting must be held in the county where the largest portion of the lake is located. Notice of the meeting must be published in a news release issued by the commissioner and in a newspaper of general circulation in the area where the waters are located. The notice must be published at least once between 30 and 60 days before the public meeting and at least once between seven and 30 days before the meeting. The notices required in this paragraph must summarize the proposed action, invite public comment, and specify a deadline for the receipt of public comments. The commissioner shall mail a copy of each required notice to persons who have registered their names with the commissioner for this purpose.

The commissioner shall consider any public comments received in making a final decision. This paragraph does not apply to temporary restrictions that expire within 90 days of the effective date of the restrictions.

97A.105 GAME AND FUR FARMS.

Subdivision 1. **License requirements.** (a) A person may breed and propagate fur-bearing animals, game birds, bear, or mute swans only on privately owned or leased land and after obtaining a license. Any of the permitted animals on a game farm may be sold to other licensed game farms. "Privately owned or leased land" includes waters that are shallow or marshy, are not actually navigable, and are not of substantial beneficial public use. Before an application for a license is considered, the applicant must enclose the area to sufficiently confine the animals to be raised in a manner approved by the commissioner. A license may be granted only if the commissioner finds the application is made in good faith with intention to actually carry on the business described in the application and the commissioner determines that the facilities are adequate for the business.

(b) A person may purchase live game birds or their eggs without a license if the birds or eggs, or birds hatched from the eggs, are released into the wild, consumed, or processed for consumption within one year after they were purchased or hatched. This paragraph does not apply to the purchase of migratory waterfowl or their eggs.

(c) A person may not introduce mute swans into the wild without a permit issued by the commissioner.

Subd. 2. **Transfer of license.** (a) A game or fur farm license is transferable with the transfer of all or a portion of the title or leasehold of the land if:

(1) the land transferred complies with the license requirements;

(2) the land is used for the purposes of the license; and

(3) a verified written report of the existing and intended land use is made to the commissioner, accompanied by a copy of deed, assignment, lease, or other instrument transferring the corresponding title or leasehold in the enclosed land.

(b) A transfer of less than the whole interest in the license is not valid. Each bona fide partner or associate in the ownership or operation of a game or fur farm must obtain a separate license.

Subd. 3. **Ownership of wild animals.** All wild animals and their offspring, of the species identified in the license, that are within the enclosure are the property of the game and fur farm licensee.

Subd. 3a. [Repealed, 2003 c 128 art 1 s 176]

Subd. 3b. [Repealed, 2003 c 128 art 1 s 176]

Subd. 4. **Sale of live animals.** (a) A sale of live animals from a licensed fur or game farm is not valid unless the animals are delivered to the purchaser or they are identified and kept separately.

(b) Live animals sold through auction or through a broker are considered to be sold by the game farm licensee.

(c) The sale agreement or contract must be in writing. The licensee must notify a purchaser of the death of an animal within 30 days and of the number of increase before July 20 of each year.

Subd. 5. **Sale of pelts.** The commissioner shall prescribe:

(1) the manner that pelts and products of wild animals raised on fur or game farms may be sold or transported; and

(2) the tags or seals to be affixed to the pelts and products.

Subd. 6. **Fox and mink.** Fox and mink may not be bought or sold for breeding or propagating unless they have been pen-bred for at least two generations.

Subd. 7. **Transporting live beaver.** Live beaver may not be transported without a permit from the commissioner.

Subd. 8. **Penalty.** A licensee that does not comply with a provision of this section subjects all wild animals on the game or fur farm to confiscation.

Subd. 9. **Rules.** The commissioner may adopt rules for:

(1) the issuance of game farm licenses;

(2) the inspection of game farm facilities;

(3) the acquisition and disposal of game farm animals; and

(4) record keeping and reporting by game farm licensees, including transactions handled by auction or broker.

97A.115 SHOOTING PRESERVES.

Subdivision 1. **Licenses; rules.** A person may not operate a shooting preserve without a license. The commissioner may issue licenses to operate commercial shooting preserves and private shooting preserves if the commissioner determines that it is in the public interest and that there will not be an adverse effect on wild game bird populations. Private shooting preserves may only be located outside of the pheasant range as determined by the commissioner. The commissioner may adopt rules to implement this section and section 97A.121.

Subd. 2. **Authorized species.** Species that may be released and hunted in a licensed shooting preserve must be specified in the license and are limited to unprotected birds, adult pheasant, and bobwhite quail for private shooting preserves and adult pheasant, bobwhite quail, turkey, mallard duck, black duck, and other species designated by the commissioner for commercial shooting preserves. These game birds must be pen hatched and raised.

Subd. 3. **Size of preserve.** A shooting preserve must be at least 40 but not more than 160 contiguous acres for private shooting preserves and at least 100 but not more than 1,000 contiguous acres, including any water area, for commercial shooting preserves.

Subd. 4. **Posting boundaries.** The boundaries of a shooting preserve must be clearly posted in a manner prescribed by the commissioner.

Subd. 5. **License revocation.** The commissioner may revoke a shooting preserve license if the licensee or persons authorized to hunt in the preserve have been convicted of a violation under this section or section 97A.121. After revocation, a new license may be issued in the discretion of the commissioner.

History: 1986 c 386 art 1 s 22; 1990 c 605 s 1; 1994 c 623 art 1 s 22; 1995 c 186 s 27

97A.121 HUNTING IN PRIVATE SHOOTING PRESERVES.

Subdivision 1. **Hunter's license.** (a) A person hunting released birds in a private shooting preserve must have the licenses required by law for hunting pheasants.

(b) A license is not required to hunt authorized game birds on a commercial shooting preserve.

Subd. 2. **Season.** (a) The open season for hunting in commercial shooting preserves is continuous. Sanctioned registered field trials in commercial shooting preserves may be held from April 16 to July 14 after notification to the commissioner.

(b) The open season for hunting in a private shooting preserve is September 15 until December 31.

(c) The commissioner may restrict the open season after receiving a complaint, holding a public hearing, and finding that the population of wild game birds is in danger by hunting in the preserve.

Subd. 3. **Operator-established restrictions.** A shooting preserve licensee may determine who is allowed to hunt in the preserve. In each preserve the licensee may establish the charge for taking game, the shooting hours, the season, limitations, and restrictions on the age, sex, and number of each species that may be taken by a hunter. These provisions may not conflict with this section or section 97A.115 and may not be less restrictive than any rule.

Subd. 4. **Limits and identification.** Except as provided in subdivision 4a, the commissioner shall prescribe the minimum number of each authorized species that may be released and the percentage of each species that may be taken. The commissioner shall prescribe methods for identifying birds to be released.

Subd. 4a. **Pheasants.** (a) A private shooting preserve licensed to release pheasants may release no more than 300 adult pheasants on the licensed shooting preserve area during the private shooting preserve hunting season. (2) are areas of historic all-terrain vehicle use, including trails that end within a wildlife management area.

The designated trails must be either within or contiguous to the wildlife management areas. The commissioner shall consult with wildlife management area users, including both motorized and nonmotorized trail users, in identifying and designating trails under this paragraph. Trail establishment must be in compliance with other state and federal law. Local governments and other trail sponsors may propose the designation of trails, including the designation as a grant-in-aid trail for the purposes of funding under section 84.927, subdivision 2. The existence of a corridor of disturbance eligible for corridor designation may be demonstrated by physical evidence, document recorded in the office of the county recorder or other public official, aerial survey, or other evidence similar to the above. Cross-country motorized use of land shall not cause that land to be considered a corridor of disturbance.

Subdivision 1. **Public hunting and wildlife areas.** (a) The commissioner or the commissioner of administration shall acquire and improve land for public hunting, game refuges, and food and cover planting. The land may be acquired by a gift, lease, easement, purchase, or condemnation. At least two-thirds of the total area acquired in a county must be open to public hunting. The commissioner may designate, by written order published in the State Register, land acquired under this subdivision as a wildlife management area for the purposes of the outdoor recreation system. Designations of wildlife management areas are exempt from the rulemaking provisions of chapter 14 and section 14.386 does not apply.

(b) The commissioner of administration may transfer money to the commissioner for acquiring wildlife lands to qualify for Pittman-Robertson funds. The transferred money is reappropriated to the commissioner for the wildlife land acquisition.

Subd. 2. **Disposal of unsuitable hunting areas.** The commissioner shall sell or exchange land acquired for public hunting that is unnecessary or unsuitable. The land may not be sold for less than its purchase price. The land may be exchanged for land of equal value that adds to existing public hunting areas. The sales and exchanges must be approved by the Executive Council. This subdivision does not apply to land in a wildlife management area.

Subd. 2a. **Disposal of land in wildlife management areas.** (a) The commissioner may sell or exchange land in a wildlife management area authorized by designation under section 86A.07, subdivision 3, 97A.133, or 97A.145 if the commissioner vacates the designation before the sale or exchange in accordance with this subdivision. The designation may be vacated only if the commissioner finds, after a public hearing, that the disposal of the land is in the public interest.

(b) A sale under this subdivision is subject to sections 94.09 to 94.16. An exchange under this subdivision is subject to sections 94.341 to 94.347.

(c) Revenue received from a sale authorized under paragraph (a) is appropriated to the commissioner for acquisition of replacement wildlife management lands.

(d) Land acquired by the commissioner under this subdivision must meet the criteria in section 86A.05, subdivision 8, and as soon as possible after the acquisition must be designated as a wildlife management area under section 86A.07, subdivision 3, 97A.133, or 97A.145.

(e) In acquiring land under this subdivision, the commissioner must give priority to land within the same geographic region of the state as the land conveyed.

Subd. 3. Cooperative farming agreements. On any public hunting, game refuge, wildlife management area, aquatic management area, or scientific and natural area lands, the commissioner may enter into written cooperative farming agreements on a sharecrop basis, without competitive bidding, for the purpose of wildlife and plant management. Cooperative farming agreements may also be used to allow pasturing of livestock. The agreements may provide for the bartering of a share of any crop, produced from these lands, for services or products that will enhance or benefit the management of state lands for plant and animal species. Cooperative farming agreements pursuant to this section shall not be considered leases for tax purposes under section 272.01, subdivision 2, or 273.19.

The commissioner must distribute the information through Department of Natural Resources print and digital communications targeting those who hunt and fish. The commissioner must prepare the information in conjunction with a Minnesota organ procurement organization.
