**ARCHITECTS, ENGINEERS, SURVEYORS,
LANDSCAPE ARCHITECTS, GEOSCIENTISTS,
INTERIOR DESIGNERS**

326.02 LICENSURE OR CERTIFICATION.

Subdivision 1. **Licensure or certification mandatory.** In order to safeguard life, health, and property, and to promote the public welfare, any person in either public or private capacity practicing, or offering to practice, architecture, professional engineering, land surveying, landscape architecture, or professional geoscience, or using the title certified interior designer in this state, either as an individual, a copartner, or as agent of another, shall be licensed or certified as hereinafter provided. It shall be unlawful for any person to practice, or to offer to practice, in this state, architecture, professional engineering, land surveying, landscape architecture, or professional geoscience, or to use the title certified interior designer, or to solicit or to contract to furnish work within the terms of sections 326.02 to 326.15, or to use in connection with the person's name, or to otherwise assume, use or advertise any title or description tending to convey the impression that the person is an architect, professional engineer (hereinafter called engineer), land surveyor, landscape architect, professional geoscientist (hereinafter called geoscientist), or certified interior designer, unless such person is qualified by licensure or certification under sections 326.02 to 326.15. This subdivision does not preclude an individual who retired from one of the professions listed in this subdivision from using the designation architect, professional engineer, land surveyor, landscape architect, professional geoscientist,

or certified interior designer as long as the designation is preceded by the word "retired" and the individual was licensed or certified in the designated profession in the state of Minnesota on the date the individual retired from the designated profession and the individual's license or certification was not subsequently revoked by the Board of Architecture, Engineering, Land Surveying, Landscape Architecture, Geoscience, and Interior Design.

Subd. 2. Practice of architecture. Any person shall be deemed to be practicing architecture, within the meaning of sections 326.02 to 326.15, who holds out as being able to perform or who does perform any professional service, such as planning, design, or supervision of construction for the purpose of assuring compliance with specifications and design, in connection with any private or public buildings, structures or projects, or the equipment or utilities thereof, or the accessories thereto, wherein the safeguarding of life, health, or property is concerned or involved, when such professional service requires the application of the art and science of construction based upon the principles of mathematics, aesthetics, and the physical sciences, acquired by education or training, and by experience. For the purposes of this subdivision "supervision" is a professional service as distinguished from superintending of construction and means the performance or the supervision thereof, of reasonable and ordinary on the site observations to determine that the construction is in substantial compliance with the approved drawings, plans and specifications.

Subd. 3. Practice of professional engineering. (a) Any person shall be deemed to be practicing professional engineering within the meaning of sections 326.02 to 326.15 who holds out as being able to perform or who does perform any technical professional service, such as planning, design or observation of construction for the purpose of assuring compliance with specifications and design, in connection with any public or private structures, buildings, utilities, machines, equipment, processes, works, or projects wherein the public welfare or the safeguarding of life, health, or property is concerned or involved, when such professional service requires the application of the principles of mathematics and the physical and applied engineering sciences, acquired by education or training, and by experience.

(b) No person other than one licensed under sections 326.02 to 326.15 as a professional engineer may:

(1) use the term "professional engineer";

(2) use any other abbreviation or term, including the initials "P.E." or "PE" by signature, verbal claim, sign, advertisement, letterhead, card, or similar means that would lead the public to believe that the person was a professional engineer; or

(3) use any means or in any other way make a representation that would lead the public to believe that the person was a professional engineer.

(c) A professional engineering license satisfies any requirements by the state or its political subdivisions to perform any actions authorized under the professional engineering license. A person licensed as a professional engineer under sections 326.02 to 326.15 shall only be required to obtain a license, certification, or other form of approval for a skill or service in addition to a professional engineering license if the state or political subdivision has made an affirmative written determination in statute, rule, or ordinance that such additional license or certification is necessary to safeguard life, health, or property, or promote the public welfare. This section does not preclude the state or a political subdivision from including additional requirements when soliciting public contracts for engineering services. This paragraph does not apply to practice areas where licenses or certifications are required prior to August 1, 2015.

Subd. 3a. Practice of professional geoscience. A person is considered to be practicing professional geoscience within the meaning of sections 326.02 to 326.15 who holds out as being able to perform or who does perform any technical professional services, the adequate performance of which requires professional

geoscience education, training, and experience in the application of special knowledge of the mathematical, physical, chemical, biological, and earth sciences to such services or creative work as consultation, investigation, evaluation, planning, mapping, and inspection of geoscientific work and its responsible supervision.

A person is considered to practice or offer to practice professional geoscience, within the meaning and intent of sections 326.02 to 326.15 who practices any of the geoscience disciplines defined by the board; who by verbal claim, sign, advertisement, letterhead, card, or in any other way represents oneself to be a professional geoscientist; through the use of some other title implies that the person is a professional geoscientist; or who presents oneself as able to perform or who does perform any geoscience services or that constitutes the practice of a professional geoscience discipline as defined by the board.

"Geoscience" means the science which includes treatment of the earth and its origin and history; the investigation, measurement or sampling, of the earth's constituent rocks, natural and induced fields of force, minerals, fossils, solids, soils, fluids including surface and underground waters, gases, and other materials; and the study, interpretation, and analysis of the natural agents, forces, and processes which cause changes in the earth.

Nothing in this subdivision shall be construed to prevent a professional engineer, as defined in sections 326.02 to 326.15, from acquiring engineering data involving soil, rock, groundwater, and other earth materials; evaluating physical and chemical properties of soil, rock, groundwater, and other earth materials for engineering; and from utilizing these data for analysis, design, and construction. Nothing in this subdivision shall be construed to permit a professional geoscientist to engage in the practice of professional engineering, architecture, landscape architecture, or land surveying or to use the title "certified interior design" as those terms are defined in this section. Nothing in this subdivision shall be construed to regulate persons who take soil samples for the purpose of providing recommendations on crop production.

Subd. 4. Practice of land surveying. Land surveying means the application of the principles of mathematics, physical and applied sciences and law to measuring and locating lines, angles, elevations and natural or artificial features in the air, on the surface of the earth, underground and on the beds of bodies of water for the purpose of:

- (1) determining, monumenting, establishing, or reestablishing property boundaries;
- (2) determining, monumenting, or reestablishing the position for any public land survey system corner or line;
- (3) planning, designing, and platting of land and subdivisions including the topography, alignment and grades of streets; and
- (4) preparing and perpetuating maps, record plats, and property descriptions.

Any person who offers to perform, holds out as being able to perform, or does perform land surveying for others shall be practicing land surveying.

Nothing contained in the provisions of sections 326.02 to 326.15, shall prohibit a licensed professional engineer, architect, landscape architect, or professional geoscientist from doing any work included in the practice of engineering, architecture, landscape architecture, and professional geoscience, if the work does not involve the establishment or reestablishment of property corners, property lines, or public land survey system corners or lines.

Subd. 4a. **Practice of landscape architecture.** Any person shall be deemed to be practicing landscape architecture, within the meaning of sections 326.02 to 326.15, who holds out as being able to perform or who does perform any professional service in connection with the development of land areas where the dominant purpose of the service is the preservation, enhancement or determination of proper land uses, natural land features, ground cover and planting, naturalistic and aesthetic values, the settings, approaches or environment for structures or other improvements, and the consideration and determination of inherent problems of the land relating to erosion, wear and tear, blight and hazards. This practice shall include the location and arrangement of tangible objects and features incidental and necessary to the purposes outlined but shall not include the design of structures or facilities with separate and self-contained purposes as ordinarily included in the practice of engineering or architecture or the preparation of boundary surveys or final land plats, as ordinarily included in the practice of land surveying.

Nothing contained in sections 326.02 to 326.15 concerning landscape architects shall be construed:

- (1) to apply to a professional engineer duly registered under the laws of this state;
- (2) to apply to an architect registered under the laws of this state;
- (3) to apply to a land surveyor registered under the laws of this state;
- (4) to prevent a registered architect or professional engineer from doing landscape planning and designing;
- (5) to exclude nursery operators or other small business people from the preparation of landscape plans appropriate to the normal operation of their business;
- (6) to authorize a landscape architect to engage in the practice of architecture, engineering, land surveying, or geoscience.

No person shall use the designation landscape architect or any title or device indicating or representing that the person is a landscape architect or is practicing landscape architecture unless the person is registered under the provisions of sections 326.02 to 326.15.

Subd. 4b. **Certified interior designer.** (a) For the purposes of sections 326.02 to 326.15, "certified interior designer" means a person who is certified under section 326.10, to use the title certified interior designer and who provides services in connection with the design of public interior spaces, including preparation of documents relative to non-load-bearing interior construction, space planning, finish materials, and furnishings.

(b) No person may use the title certified interior designer unless that person has been certified as an interior designer or has been exempted by the board. Registered architects may be certified without additional testing. Persons represent themselves to the public as certified interior designers if they use a title that incorporates the words certified interior designer.

(c) Nothing in this section prohibits the use of the title interior designer or the term interior design by persons not certified by the board.

(d) Nothing in this section restricts persons not certified by the board from providing interior design services and from saying that they provide such services, as long as they do not use the title certified interior designer.

(e) Nothing in this section authorizes certified interior designers to engage in the practice of architecture as defined in subdivision 2 or the practice of engineering as defined in subdivision 3.

Subd. 5. **Limitation.** The provisions of sections 326.02 to 326.15 shall not apply to the preparation of plans and specifications for the erection, enlargement, or alteration of any building or other structure by any person, for that person's exclusive occupancy or use, unless such occupancy or use involves the public health or safety or the health or safety of the employees of said person, or of the buildings listed in section 326.03, subdivision 2, nor to any detailed or shop plans required to be furnished by a contractor to a registered engineer, landscape architect, architect, or certified interior designer, nor to any standardized manufactured product, nor to any construction superintendent supervising the execution of work designed by an architect, landscape architect, engineer, or certified interior designer licensed or certified in accordance with section 326.03, nor to the planning for and supervision of the construction and installation of work by an electrical or elevator contractor or master plumber as defined in and licensed pursuant to chapter 326B, where such work is within the scope of such licensed activity and not within the practice of professional engineering, or architecture, or where the person does not claim to be a certified interior designer as defined in subdivision 2, 3, or 4b.

In preparation of such documents, reasonable care shall be given to compliance with applicable laws, ordinances, and building codes relating to design.

Subd. 2. **Exceptions.** Nothing contained in sections 326.02 to 326.15 shall prevent persons from advertising and performing services such as consultation, investigation, or evaluation in connection with, or from making plans and specifications for, or from supervising, the erection, enlargement, or alteration of any of the following buildings:

(1) dwellings for single families, and outbuildings in connection therewith, such as barns and private garages;

Subd. 3. **Recording.** No plat, map, or drawing of any survey or subdivision of lands required by law to be filed or recorded with the county recorder or registered with the registrar of titles of any county, shall be filed, recorded, or registered therein unless there shall be endorsed thereon a certification by a licensed land surveyor.

Subd. 4. **Exception for persons elected in office.** The provisions hereof shall not apply to any person holding an elective office when in discharging the duties thereof such person is required to do work or

perform service of the character of work or service usually done or performed by an architect, engineer, land surveyor, landscape architect, or geoscientist.

326.10 LICENSURE AND CERTIFICATION.

Subdivision 1. **Issuance.** The board shall on application therefor on a prescribed form, and upon payment of a fee prescribed by rule of the board, issue a license or certificate as an architect, engineer, land surveyor, landscape architect, geoscientist, or certified interior designer. A separate fee shall be paid for each profession licensed.

(1) To any person over 25 years of age, who is of good moral character and repute, and who has the experience and educational qualifications which the board by rule may prescribe.

(2) To any person who holds an unexpired certificate of registration or license issued by proper authority in the District of Columbia, any state or territory of the United States, or any foreign country, in which the requirements for registration or licensure of architects, engineers, land surveyors, landscape architects, geoscientists, or certified interior designers, respectively, at the time of registration or licensure in the other jurisdiction, were equal, in the opinion of the board, to those fixed by the board and by the laws of this state, and in which similar privileges are extended to the holders of certificates of registration or licensure issued by this state. The board may require such person to submit a certificate of technical qualification from the National Council of Architectural Registration Boards in the case of an architect, from the National Council of Examiners for Engineering and Surveying in the case of an engineer, from the Council of Landscape Architectural Registration Boards in the case of a landscape architect, and from the National Council for Interior Design Qualification in the case of a certified interior designer.

Subd. 2. **Examination.** The board, or a committee of the board, may subject any applicant for licensure or certification to such examinations as may be deemed necessary to establish qualifications.

In determining the qualifications of applicants, at least one member determining the qualifications must be licensed or certified in the same profession as that being evaluated.

Subd. 2a. **Needs of physically disabled, inclusion in examination.** Examinations for architect, civil structural engineer, landscape architect, and certified interior designer shall include questions which require the applicant to demonstrate knowledge of the design needs of people with physical disabilities and of the relevant statutes and codes.

Subd. 7. **Engineer, land surveyor, geoscientist; in-training.** (1) An applicant for certification as an engineer-in-training who is a graduate with a bachelor of engineering degree from a school or college having an accredited engineering curriculum or whose education, in the opinion of the board, is equivalent thereto, shall receive from the board, upon passing an examination in fundamental engineering subjects, a certificate stating that the applicant has passed such examination and that the applicant's name has been recorded as an engineer-in-training.

(2) An applicant for certification as a land surveyor-in-training who is a graduate with a bachelor's degree from a school or college having an accredited engineering or land surveying curriculum or who has equivalent education, in the opinion of the board, shall receive from the board, upon passing a written examination in the fundamentals of mathematics and the basic principles of land surveying, a certificate stating that the applicant has passed such examination and that the applicant's name has been recorded as a land surveyor-in-training.

certificate stating that the applicant's name has been recorded as a geoscientist-in-training with the appropriate geoscientist-in-training legend as approved by the board.

Subd. 8. Expiration and renewal. All licenses and certificates, other than in-training certificates, issued by the board expire at midnight on June 30 of each even-numbered calendar year if not renewed. A holder of a license or certificate issued by the board may renew it by completing and filing with the board an application for renewal consisting of a fully completed form provided by the board and the fee specified in section 326.105. Both the fee and the application must be submitted at the same time and by June 30 of each even-numbered calendar year. The form must be signed by the applicant, contain all of the information requested, and clearly show that the licensee or certificate holder has completed the minimum number of required professional development hours or has been granted an exemption under section 326.107, subdivision 4. An application for renewal that does not comply with the requirements of this subdivision is an incomplete application and must not be accepted by the board.

Subd. 9. Reinstatement of expired license or certificate. A licensee or certificate holder whose license or certificate has expired may reinstate the expired license or certificate by satisfying all prior continuing education requirements to a maximum of 48 professional development hours, by paying all of the renewal fees due for all prior renewal periods that the license or certificate was expired and the current renewal period, and paying a delayed renewal fee in the amount set by the board. The continuing education requirement must be satisfied with professional development hours completed within the four years immediately prior to reinstatement and may not include any professional development hours that had previously been used to renew the license or certificate being reinstated.

To reinstate an expired license or certificate, the licensee or certificate holder must file with the board an application for reinstatement consisting of a fully completed form provided by the board and the fees specified in this subdivision. The form must be signed, contain all of the information requested, and clearly show that the licensee or certificate holder either has completed the minimum number of required professional development hours or has been granted an exemption under section 326.107, subdivision 4. An application for reinstatement that does not comply with the requirements of this subdivision is an incomplete application and must not be accepted by the board.

Subd. 10. Temporary military license. The board shall establish a temporary license in accordance with section 197.4552 for the practice of architecture, professional engineering, geosciences, land surveying, landscape architecture, and interior design. 326.106 DEFINITIONS.

Subdivision 1. **Scope.** The terms used in section 326.107 have the meanings given them in this section.

Subd. 2. **Biennial renewal.** "Biennial renewal" means a period of time consisting of two consecutive 12-month periods ending on June 30 of each even-numbered year.

Subd. 3. **Dual license or certificate holder.** "Dual license or certificate holder" means a person who is licensed or certified in two professions regulated by the board.

Subd. 4. **Professional development hours.** "Professional development hours" means contact hours consisting of not less than 50 minutes each of instruction or presentation meeting the requirements of section 326.107.

History: 1999 c 213 s 2

326.107 CONTINUING EDUCATION.

Subdivision 1. **Requirements.** (a) Architects, professional engineers, land surveyors, landscape architects, geoscientists, and interior designers licensed or certified by this board must obtain the number of professional development hours described in paragraphs (b) to (d) during each two-year period of licensure or certification identified in section 326.105. This requirement must be satisfied during the two-year period prior to biennial renewal except for a carryover permitted from the previous renewal period, which must not exceed 50 percent of the biennial requirement of professional development hours.

(b) Licensed professional engineers must earn a minimum of 24 professional development hours, of which two must be dedicated to professional ethics, per biennial renewal except for the carryover permitted. The ethics hours must have been earned during the biennium to which they are applied and shall not be used toward carryover.

(c) Licensed architects, land surveyors, landscape architects, geoscientists, and certified interior designers must earn a minimum of 24 professional development hours, of which two must be dedicated to professional ethics, per biennial renewal except for the carryover permitted. The ethics hours must have been earned during the biennium to which they are applied and shall not be used toward carryover.

(d) Dual license or certificate holders who have obtained a license or certificate for two professions must earn professional development hours required by the license or certificate requiring the greatest number of professional development hours and must obtain in each profession a minimum of one-third of the total professional development hours required. The remaining one-third requirement may be obtained in either profession at the sole discretion of the licensee or certificate holder.

Subd. 2. **Programs and activities.** Continuing education must consist of learning experiences which enhance and expand the skills, knowledge, and abilities of practicing professionals to remain current and render competent professional services to the public. Practitioners may pursue technical, nontechnical, regulatory, ethical, and business practice needs for a well-rounded education provided the education directly benefits the health, safety, or welfare of the public. Continuing education activities which satisfy the professional development requirement include, but are not limited to, the following:

- (1) completing or auditing college-sponsored courses;
- (2) completing self-study college or non-college-sponsored courses, presented by correspondence, Internet, television, video, or audio, ending with examination or other verification processes;
- (3) participation in seminars, tutorials, televised or videotaped courses, or short courses;
- (4) attending self-sponsored and prepared in-house educational programs;
- (5) completing a study tour with a structured program resulting in a written or visual presentation by the licensee or certificate holder;
- (6) presenting or instructing qualifying courses or seminars. Professional development hours may be earned for preparation time for the initial presentation;
- (7) authoring published papers, articles, or books. Professional development hours earned may equal preparation time spent, may be claimed only following publication, and shall be given for authorship or presentation, but not for both;
- (8) participating in professional examination grading or writing. A maximum of five professional development hours per biennium may be applied from this source. The hours from this source must have been earned during the biennium to which they are applied and shall not be used toward carryover;
- (9) providing professional service to the public which draws upon the licensee's or certificate holder's professional expertise on boards, commissions, and committees such as planning commissions, building code advisory boards, urban renewal boards, or non-work-related volunteer service. A maximum of ten professional development hours per biennium may be applied from this source regardless of the number of boards, commissions, and committees the licensee or certificate holder serves. The hours from this source must have been earned during the biennium to which they are applied and shall not be used toward carryover; and
- (10) patents, after they are granted, for a credit of ten professional development hours. The patent must have been granted during the biennium to which the hours are applied and shall not be used toward carryover.

Subd. 3. **Criteria.** (a) Continuing education courses and activities must meet the criteria in paragraphs (b) to (f).

(b) There must be a clear purpose and objective for each activity which will maintain, improve, or expand skills and knowledge obtained prior to initial licensure or certification or develop new and relevant skills and knowledge.

(c) The content of each presentation must be well organized and presented in a sequential manner.

(d) There must be evidence of preplanning which must include the opportunity for input by the target group to be served.

(e) The presentation must be made by persons who are well qualified by education or experience.

(f) There must be a provision for documentation of the individual's participation in the activity, including information required for record keeping and reporting.

Subd. 4. **Exemptions.** The following licensees or certificate holders are exempt from the continuing education requirements:

(1) a new licensee or certificate holder for the individual's first biennial renewal; or

(2) a licensee or certificate holder who has experienced during the biennial renewal a serious illness, injury, or other extenuating circumstances, or who has been called to active duty in the military services for a period of time exceeding 120 consecutive days, as reviewed and approved by the board, and where such activities restrict compliance with the continuing education requirements, as supported by documentation furnished to the board.

Subd. 5. [Repealed, 2014 c 236 s 13]

Subd. 6. [Repealed, 2003 c 85 s 5]

Subd. 7. **Reports and records.** The licensee or certificate holder shall maintain a file in which records of courses and activities are kept, including dates, subjects, duration of programs, sponsoring organization, professional development hours earned, registration receipts where appropriate, and other pertinent documentation, for a period of four years after the end of the licensure period for which the hours apply. This information may be required to be produced by licensees or certificate holders. The board may require a licensee or certificate holder to produce this information in connection with verification of a renewal application, a random audit conducted by the board, or upon receipt of a complaint alleging noncompliance on the part of a licensee or certificate holder.

Subd. 8. **Noncompliance.** If the board rejects professional development hours reported by a licensee or certificate holder in an amount sufficient to reduce the number of nonrejected professional development hours below the required minimum number, the licensee or certificate holder must be notified of the board's rejection of the hours. The licensee or certificate holder has 180 days after notification to substantiate the validity of the rejected hours or to earn other qualifying hours to meet the minimum requirement. The board's rejection of any professional development hours submitted during this 180-day cure period does not extend or expand the cure period. If the board does not reinstate a sufficient number of the rejected professional development hours to meet the required minimum number of professional development hours, or the licensee or certificate holder does not complete or substantiate that the individual has completed other qualifying professional development hours to meet the required minimum number of professional development hours within the specified period of time, the individual's licensure or certification shall be suspended. Professional development hours earned within the 180-day cure period and applied to current renewal may not be applied to the requirements for the following biennial renewal.

326.111 UNAUTHORIZED PRACTICE; DISCIPLINARY ACTION.

Subdivision 1. **Generally.** (a) If the board, or the complaint committee if authorized by the board, has a reasonable basis to believe that a person has engaged in an act or practice constituting the unauthorized practice of architecture, engineering, land surveying, landscape architecture, geoscience, or the unauthorized use of the title certified interior designer, or a violation of a statute, rule, or order that the board has issued or is empowered to enforce, the board, or the complaint committee if authorized by the board, may proceed as described in subdivisions 2 and 3.

(b) The board shall establish a complaint committee to investigate, mediate, or initiate administrative or legal proceedings on behalf of the board with respect to complaints filed with or information received by the board alleging or indicating the unauthorized practice of architecture, engineering, land surveying, landscape architecture, geoscience, or the unauthorized use of the title certified interior designer, or a violation of statute, rule, or order that the board has issued or is empowered to enforce. The complaint committee shall consist of five members of the board, with no more than one from each of the professions licensed by the board, and no more than two public members.

(c) Except as otherwise described in this section, all hearings shall be conducted in accordance with chapter 14.

Subd. 2. **Legal action.** (a) When necessary to prevent the unauthorized practice of architecture, engineering, land surveying, landscape architecture, geoscience, or the unauthorized use of the title certified interior designer, or a violation of a statute, rule, or order that the board has issued or is empowered to enforce, the board, or the complaint committee if authorized by the board, may bring an action in the name of the state in the district court in Ramsey County or in any county in which jurisdiction is proper to enjoin the act, practice, or violation and to enforce compliance with the statute, rule, or order. Upon a showing that a person has engaged in an act or practice constituting the unauthorized practice of architecture, engineering, land surveying, landscape architecture, geoscience, or the unauthorized use of the title certified interior designer, or a violation of a statute, rule, or order that the board has issued or is empowered to enforce, a permanent or temporary injunction, restraining order, or other appropriate relief shall be granted.

(b) For purposes of injunctive relief under this subdivision, irreparable harm exists when the board shows that a person has engaged in an act or practice constituting the unauthorized practice of architecture, engineering, land surveying, landscape architecture, geoscience, or the unauthorized use of the title certified interior designer, or a violation of a statute, rule, or order that the board has issued or is empowered to enforce.

(c) Injunctive relief granted under paragraph (a) does not relieve an enjoined person from criminal prosecution by a competent authority or from disciplinary action by the board with respect to the person's license, certificate, or application for examination, license, or renewal.

Subd. 3. **Cease and desist orders.** (a) The board, or the complaint committee if authorized by the board, may issue and have served upon a person an order requiring the person to cease and desist from the unauthorized practice of architecture, engineering, land surveying, landscape architecture, geoscience, or the unauthorized use of the titles architect, professional engineer, land surveyor, landscape architect, professional geologist, professional soil scientist, certified interior designer, or violation of the statute, rule, or order. The order shall be calculated to give reasonable notice of the rights of the person to request a hearing and shall state the reasons for the entry of the order.

(b) Service of the order is effective if the order is served on the person or counsel of record personally or by certified mail to the most recent address provided to the board for the person or counsel of record.

(c) Unless otherwise agreed by the board, or the complaint committee if authorized by the board, and the person requesting the hearing, the hearing shall be held no later than 30 days after the request for the hearing is received by the board.

(d) The administrative law judge shall issue a report within 30 days of the close of the contested case hearing record, notwithstanding Minnesota Rules, part 1400.8100, subpart 3. Within 30 days after receiving the report and any exceptions to it, the board shall issue a further order vacating, modifying, or making permanent the cease and desist orders as the facts require.

(e) If no hearing is requested within 30 days of service of the order, the order becomes final and remains in effect until it is modified or vacated by the board.

(f) If the person to whom a cease and desist order is issued fails to appear at the hearing after being duly notified, the person is in default and the proceeding may be determined against that person upon consideration of the cease and desist order, the allegations of which may be considered to be true.

Subd. 4. **Actions against applicants and licensees.** (a) The board may, by order, deny, refuse to renew, suspend, temporarily suspend, or revoke the application, license, or certification of a person; censure or reprimand that person; condition or limit the person's practice; refuse to permit a person to sit for examination; or refuse to release the person's examination grades if the board finds that the order is in the public interest and the applicant, licensee, or certificate holder:

(1) has violated a statute, rule, or order that the board has issued or is empowered to enforce;

(2) has engaged in conduct or acts that are fraudulent, deceptive, or dishonest whether or not the conduct or acts relate to the practice of architecture, engineering, land surveying, landscape architecture, geoscience, or certified interior design, providing that the fraudulent, deceptive, or dishonest conduct or acts reflect adversely on the person's ability or fitness to engage in the practice of architecture, engineering, land surveying, landscape architecture, geoscience, or certified interior design;

(3) has engaged in conduct or acts that are negligent or otherwise in violation of the standards established by Minnesota Rules, chapters 1800 and 1805, where the conduct or acts relate to the practice of architecture, engineering, land surveying, landscape architecture, geoscience, or use of the title certified interior designer;

(4) has been convicted of or has pled guilty or nolo contendere to a felony, an element of which is dishonesty or fraud, whether or not the person admits guilt, or has been shown to have engaged in acts or practices tending to show that the applicant or licensee is incompetent or has engaged in conduct reflecting

adversely on the person's ability or fitness to engage in the practice of architecture, engineering, land surveying, landscape architecture, geoscience, or use of the title certified interior designer;

(5) employed fraud or deception in obtaining a certificate, license, renewal, or reinstatement or in passing all or a portion of the examination;

(6) has had the person's architecture, engineering, land surveying, landscape architecture, geoscience, or interior design license, certificate, right to examine, or other similar authority revoked, suspended, canceled, limited, or not renewed for cause in any state, commonwealth, or territory of the United States, in the District of Columbia, or in any foreign country;

(7) has had the person's right to practice before any federal, state, or other government agency revoked, suspended, canceled, limited, or not renewed;

(8) failed to meet any requirement for the issuance or renewal of the person's license or certificate;

(9) has attached the person's seal or signature to a plan, specification, report, plat, or other architectural, engineering, land surveying, landscape architectural, geoscientific, or interior design document not prepared by the person sealing or signing it or under that person's direct supervision; or

(10) with respect to temporary suspension orders, has committed an act, engaged in conduct, or committed practices that may, or has in the opinion of the board, or the complaint committee if authorized by the board, resulted in an immediate threat to the public.

(b) In lieu of or in addition to any remedy provided in paragraph (a), the board may require, as a condition of continued licensure, possession of certificate, termination of suspension, reinstatement of license or certificate, examination, or release of examination grades, that the person:

(1) submit to a quality review of the person's ability, skills, or quality of work, conducted in such fashion and by such persons, entity, or entities as the board may require including, but not limited to, remedial education courses; and

(2) complete to the satisfaction of the board such continuing professional education courses as the board may specify by rule.

(c) Service of the order is effective if the order is served on the licensee, certificate holder, applicant, person, or counsel of record personally or by certified mail, to the most recent address provided to the board for the licensee, certificate holder, applicant, person, or counsel of record. The order shall state the reasons for the entry of the order.

(d) All hearings required by this section shall be conducted in accordance with chapter 14, except with respect to temporary suspension orders, as provided for in subdivision 5, paragraph (d).

Subd. 5. Procedure for temporary suspension of license or certificate. (a) When the board, or the complaint committee if authorized by the board, issues a temporary suspension order, the suspension is in effect upon service of a written order on the licensee or counsel of record, specifying the statute, rule, or order violated. The order remains in effect until the board issues a final order in the matter after a hearing or upon agreement between the board and the licensee.

(b) Service of the order is effective if the order is served on the licensee or counsel of record personally or by certified mail, to the most recent address provided to the board for the licensee or counsel of record.

(c) The order shall set forth the rights to a hearing contained in this subdivision and shall state the reasons for the entry of the order.

(d) Within ten days after service of the order, the licensee may request a hearing in writing. The board shall hold a hearing before its own members within five working days of receipt of a request for hearing on the sole issue of whether there is a reasonable basis to continue, modify, or lift the temporary suspension. This hearing is not subject to chapter 14. Evidence presented by the board or the licensee shall be in affidavit form only. The licensee or counsel of record may appear for oral argument.

(e) Within five working days after the hearing, the board shall issue its order and, if the suspension is continued, schedule a contested case hearing within 30 days after issuance of the order. The administrative law judge shall issue a report within 30 days after closing of the contested case hearing record, notwithstanding the provisions of Minnesota Rules, part 1400.8100, subpart 3. The board shall issue a final order within 30 days after receipt of that report and any exceptions to it.

Subd. 6. Violations; penalties; costs of proceeding. (a) The board may impose a civil penalty not to exceed \$10,000 per violation upon a person who commits an act or practice constituting the unauthorized practice of architecture, engineering, land surveying, landscape architecture, geoscience, or the unauthorized use of the title certified interior designer, or violates a statute, rule, or order that the board has issued or is empowered to enforce.

(b) The board may, in addition, impose a fee to reimburse the board for all or part of the cost of the proceedings resulting in disciplinary action authorized by this section, the imposition of civil penalties, or the issuance of a cease and desist order. The fee may be imposed when the board shows that the position of the person who commits an act or practice constituting the unauthorized practice of architecture, engineering, land surveying, landscape architecture, geoscience, or the unauthorized use of the title certified interior designer, or violates a statute, rule, or order that the board has issued or is empowered to enforce is not substantially justified, unless special circumstances make an award unjust, notwithstanding the provisions of Minnesota Rules, part 1400.8401. The costs include, but are not limited to, the amount paid by the board for services from the office of administrative hearings, attorney fees, court reporters, witnesses, reproduction of records, board members' per diem compensation, board staff time, and expense incurred by board members and staff.

Subd. 7. Reinstatement. The board may reinstate a suspended, revoked, or surrendered certificate or license upon petition of the former or suspended certificate holder or licensee. The board may, in its sole discretion, place any other conditions, including reexamination in whole or in part, upon reinstatement of a suspended, revoked, or surrendered certificate or license that it finds appropriate and necessary to ensure that the purposes of sections 326.02 to 326.15 are met. No suspended certificate or license shall be reinstated until the former certificate holder or licensee has completed one-half of the suspension.

326.12 LICENSE OR CERTIFICATE AS EVIDENCE; SEAL.

Subdivision 1. **Judicial proof.** The issuance of a license or certificate by the board shall be evidence that the person named therein is entitled to all the rights and privileges of a licensed architect, licensed engineer, licensed land surveyor, licensed landscape architect, licensed geoscientist, or certified interior designer while the license or certificate remains unrevoked or has not expired or has not been suspended.

Subd. 2. **Seal.** Each licensee or certificate holder may, upon licensure or certification, obtain a seal bearing the licensee's or certificate holder's name and the legend "licensed architect," "licensed professional

engineer," "licensed land surveyor," "licensed landscape architect," the appropriate licensed professional geoscientist legend as defined by the board, or "certified interior designer." Plans, specifications, plats, reports, and other documents prepared by a licensee or certificate holder may be stamped with the seal during the life of the license or certificate. A rubber stamp facsimile thereof may be used in lieu of the seal on tracings from which prints are to be made or on papers which would be damaged by the regular seal. It shall be unlawful for any one to stamp or seal any document with the stamp or seal after the license or certificate has expired, been revoked or suspended, unless said license or certificate shall have been renewed or reissued.

Subd. 3. **Certified signature.** Each plan, drawing, specification, plat, report, or other document which under sections 326.02 to 326.15 is prepared by a licensed architect, licensed engineer, licensed land surveyor, licensed landscape architect, licensed geoscientist, or certified interior designer must bear the signature of the licensed or certified person preparing it, or the signature of the licensed or certified person under whose direct supervision it was prepared. Each signature shall be accompanied by a certification that the signer is licensed or certified under sections 326.02 to 326.15, by the person's license or certificate number, and by the date on which the signature was affixed. The provisions of this paragraph shall not apply to any plans, drawings, specifications, plats, reports, or other documents of an intraoffice or intracompany nature or that are considered to be drafts or of a preliminary, schematic, or design development nature by licensed or certified individuals who would normally be responsible for their preparation. The required signature and certification must appear on all pages of plans and drawings that must be signed, but only on the first page of specifications, plats, reports, or other documents that must be signed. A stamp, printed signature, or electronically created signature has the same force and effect as an actual signature if it creates an accurate depiction of the licensed or certified professional's actual signature.

326.523 LICENSE PROVISIONS; DISTRIBUTION; CANCELLATION.

No distributor shall hereafter license feature motion picture films to an exhibitor to be exhibited, shown or performed in this state unless the license provides:

(1) that all the feature motion picture films, which such distributor will license during the exhibition season, or the unexpired portion thereof, shall be included: the term "all the feature motion picture films" applies to each producer for whom the distributor is acting; and

(2) that the exhibitor shall have the right to cancel a minimum of 20 percent of the total number of feature motion pictures included in such license where the exhibitor deems the same injurious and damaging to business or offensive on moral, religious, or racial grounds.

The cancellation shall be made proportionately among the several price brackets, if there be such price brackets in the license agreement. Any number of cancellations to which an exhibitor is entitled, may be made the lowest price bracket at the exhibitor's option.

The right to cancellation shall not be effective, unless the exhibitor exercises such right by giving notice thereof, to the distributor, by certified mail, within 15 days after being notified of the availability of a feature motion picture. In determining the number of feature motion pictures that may be canceled, fractions of one-half or more shall be counted as one and fractions of less than one-half shall not be counted.
