356.001 PURPOSE OF PUBLIC PLANS.

Subdivision 1. **Exclusive benefit of members and beneficiaries.** (a) The public plans and funds specified in subdivision 4 are established to provide for the retirement of their members and to provide funds for the beneficiaries of members in the event of death of a member.

(b) The public plans and funds are established and must be maintained for the exclusive benefit of the members and the beneficiaries of the members. Except as provided in subdivisions 2 and 3, no part of the moneys of the plans and funds may revert to the plan or fund or be used for or diverted to purposes other than the exclusive benefit of the members or their beneficiaries.

Subd. 2. **Allowable expenses.** The necessary, reasonable, and direct expenses of maintaining, protecting, and administering the public plan or fund, as authorized in the laws governing the plan or fund, must be considered as expenditures for the exclusive benefit of the members or their beneficiaries.

Subd. 3. **Effect of amendments or termination.** (a) If a public plan or fund defined in subdivision 4 is terminated or the plan or fund provisions are amended, no part of the moneys held in the plan or fund may be used for or diverted to any purpose other than the exclusive benefit of the members or their beneficiaries, except as provided in this subdivision.

(b) If a plan or fund is terminated, all affected members have a nonforfeitable interest in their benefits that were accrued and funded to date. The value of the accrued benefits to be credited to the account of each affected member must be calculated as of the date of termination and the funding ratio of the plan or fund must be applied to the accrued benefit of each affected member.

(c) The board of trustees of the plan or fund shall, as soon as administratively feasible following the termination, pay each eligible member or beneficiary on behalf of a member the amount in the member's account in a lump sum. In the case of a member whose whereabouts is unknown, the board shall notify the member at the last known address by certified mail with return receipt requested advising the member of the member's right to a pending distribution. If the member cannot be located in this manner, the board shall establish a custodial account for the member's benefit in a federally insured bank, savings association, or credit union in which the member's account balance must be deposited. If the board receives proof of death of a member that is satisfactory to the board, the account balance must be paid to the beneficiary of the member.

Subd. 4. **Covered plans and funds.** This section applies to all public pension and retirement plans and funds established under the laws of the state of Minnesota that receive contributions from moneys derived from taxation.

Subd. 5. **Construction.** Nothing contained in this section may be construed to authorize, or otherwise imply, a legislative policy or intent favoring the termination of any plan or fund to which this section applies.

(c) "Approved actuary" means:

(1) a person who is regularly engaged in the business of providing actuarial services and who is a fellow in the Society of Actuaries; or

(2) a firm that retains a person described in clause (1) on its staff.

(e) "Experience study" means a report providing experience data and an actuarial analysis of the adequacy of the actuarial assumptions on which actuarial valuations are based.

(f) "Actuarial value of assets" means the market value of all assets as of the preceding June 30, reduced by:

(2) 40 percent of the difference between the actual net change in the market value of total assets between the June 30 that occurred two years earlier and the June 30 that occurred three years earlier and the computed increase in the market value of total assets over that fiscal year period if the assets had earned a rate of return on assets equal to the annual percentage investment return assumption used in the actuarial valuation for the July 1 that occurred three years earlier;

(4) 80 percent of the difference between the actual net change in the market value of total assets between the most recent June 30 and the June 30 that occurred one year earlier and the computed increase in the market value of total assets over that fiscal year period if the assets had earned a rate of return on assets equal to the annual percentage investment return assumption used in the actuarial valuation for the July 1 that occurred one year earlier.

(g) "Unfunded actuarial accrued liability" means the total current and expected future benefit obligations, reduced by the sum of the actuarial value of assets and the present value of future normal costs.

(h) "Pension benefit obligation" means the actuarial present value of credited projected benefits, determined as the actuarial present value of benefits estimated to be payable in the future as a result of employee service attributing an equal benefit amount, including the effect of projected salary increases and any step rate benefit accrual rate differences, to each year of credited and expected future employee service.

Subd. 2. **Requirements.** (a) It is the policy of the legislature that it is necessary and appropriate to determine annually the financial status of tax-supported retirement and pension plans for public employees. Subd. 6. **Accrued liability.** For a fund providing benefits under a defined benefit plan, the actuarial valuation must contain an exhibit indicating the actuarial accrued liabilities of the fund. This figure is the present value of future benefits reduced by the present value of future normal costs, calculated in accordance with the entry age actuarial cost method.

Subd. 7. MS 2000 [Renumbered subd 18]

Subd. 7. **Defined contribution plan accumulations.** For each fund providing benefits under a money purchase or defined contribution plan, the actuarial valuation must contain an exhibit indicating the member contributions accumulated at interest, as apportioned to members accounts, to the date of the valuation. These accumulations must be separately tabulated in a manner which properly reflects any differences in money purchase or defined contribution annuity rates which may apply.

Subd. 8. **Actuarial assumptions.** (a) The actuarial valuation must use the applicable following investment return assumption:

plan	investment return assumption
general state employees retirement plan	7%
correctional state employees retirement plan	7
State Patrol retirement plan	7
legislators retirement plan, and for the constitutional officers calculation of total plan liabilities	0
judges retirement plan	7
general public employees retirement plan	7
public employees police and fire retirement plan	7
local government correctional service retirement plan	7
teachers retirement plan	7
St. Paul teachers retirement plan	7
Bloomington Fire Department Relief Association	6
local monthly benefit volunteer firefighter relief associations	5
monthly benefit retirement plans in the statewide volunteer firefighter retirement plan	6

(b) The actuarial valuation for each of the covered retirement plans listed in section 356.415, subdivision 2, and the St. Paul Teachers Retirement Fund Association must take into account the postretirement adjustment rate or rates applicable to the plan as specified in section 354A.29, subdivision 7, or 356.415, whichever applies.

(c) The actuarial valuation must use the applicable salary increase and payroll growth assumptions found in the appendix to the standards for actuarial work adopted by the Legislative Commission on Pensions and

Retirement pursuant to section 3.85, subdivision 10. The appendix must be updated whenever new assumptions have been approved or deemed approved under subdivision 18.

(d) The assumptions set forth in the appendix to the standards for actuarial work continue to apply, unless a different salary assumption or a different payroll increase assumption:

(1) has been proposed by the governing board of the applicable retirement plan;

(2) is accompanied by the concurring recommendation of the actuary retained under section 356.214, subdivision 1, if applicable, or by the approved actuary preparing the most recent actuarial valuation report if section 356.214 does not apply; and

(3) has been approved or deemed approved under subdivision 18.

Subd. 9. Other assumptions. (a) Each plan's actuarial valuation must use assumptions concerning base mortality rates, disability, retirement, withdrawal, retirement age, and any other relevant demographic or economic factor. These assumptions must be set at levels consistent with those determined in the most recent quadrennial experience study completed under subdivision 16, if required, or as recommended by the plan's approved actuary, if a quadrennial experience study is not required.

(b) The actuarial valuation may use an assumption concerning future mortality improvement. This assumption may be set at levels consistent with those determined in the most recent mortality improvement scale published by the Society of Actuaries or as otherwise recommended by the plan's approved actuary.

(c) The actuarial valuation must contain an exhibit indicating the actuarial assumptions used in preparing the valuation report.

Subd. 10. Public sector accounting disclosure information. The actuarial valuation must contain those actuarial calculations that are necessary to allow the retirement plan administration or participating employing units to prepare the pension-related portions of annual financial reporting that meet generally accepted accounting principles for the public sector.

Subd. 11. Amortization contributions. (a) In addition to the exhibit indicating the level normal cost, the actuarial valuation of the retirement plan must contain an exhibit for financial reporting purposes indicating the additional annual contribution sufficient to amortize the unfunded actuarial accrued liability and must contain an exhibit indicating the additional contribution sufficient to amortize the unfunded actuarial accrued liability. For the retirement plans listed in subdivision 8, paragraph (a), but excluding the legislators retirement plan, the Bloomington Fire Department Relief Association, and the local monthly benefit volunteer firefighter relief associations, the additional contribution must be calculated on a level percentage of covered payroll basis by the established date for full funding in effect when the valuation is prepared, assuming annual payroll growth at the applicable percentage rate set forth in the appendix described in subdivision 8, paragraph (c). For the legislators retirement plan, the additional annual contribution must be calculated on a level annual dollar amount basis.

(b) For any retirement plan other than a retirement plan governed by paragraph (d), (e), (f), (g), (h), (i), or (j), if there has not been a change in the actuarial assumptions used for calculating the actuarial accrued liability of the fund, a change in the benefit plan governing annuities and benefits payable from the fund, a change in the actuarial cost method used in calculating the actuarial accrued liability of all or a portion of the fund, or a combination of the three, which change or changes by itself or by themselves without inclusion of any other items of increase or decrease produce a net increase in the unfunded actuarial accrued liability of the fund, the established date for full funding is the first actuarial valuation date occurring after June 1, 2020.

(c) For any retirement plan, if there has been a change in any or all of the actuarial assumptions used for calculating the actuarial accrued liability of the fund, a change in the benefit plan governing annuities and benefits payable from the fund, a change in the actuarial cost method used in calculating the actuarial accrued liability of all or a portion of the fund, or a combination of the three, and the change or changes, by itself or by themselves and without inclusion of any other items of increase or decrease, produce a net increase in the unfunded actuarial accrued liability in the fund, the established date for full funding must be determined using the following procedure:

(i) the unfunded actuarial accrued liability of the fund must be determined in accordance with the plan provisions governing annuities and retirement benefits and the actuarial assumptions in effect before an applicable change;

(ii) the level annual dollar contribution or level percentage, whichever is applicable, needed to amortize the unfunded actuarial accrued liability amount determined under item (i) by the established date for full funding in effect before the change must be calculated using the investment return assumption specified in subdivision 8 in effect before the change;

(iii) the unfunded actuarial accrued liability of the fund must be determined in accordance with any new plan provisions governing annuities and benefits payable from the fund and any new actuarial assumptions and the remaining plan provisions governing annuities and benefits payable from the fund and actuarial assumptions in effect before the change;

(iv) the level annual dollar contribution or level percentage, whichever is applicable, needed to amortize the difference between the unfunded actuarial accrued liability amount calculated under item (i) and the unfunded actuarial accrued liability amount calculated under item (iii) over a period of 30 years from the end of the plan year in which the applicable change is effective must be calculated using the applicable investment return assumption specified in subdivision 8 in effect after any applicable change;

(v) the level annual dollar or level percentage amortization contribution under item (iv) must be added to the level annual dollar amortization contribution or level percentage calculated under item (ii);

(vi) the period in which the unfunded actuarial accrued liability amount determined in item (iii) is amortized by the total level annual dollar or level percentage amortization contribution computed under item (v) must be calculated using the investment return assumption specified in subdivision 8 in effect after any applicable change, rounded to the nearest integral number of years, but not to exceed 30 years from the end of the plan year in which the determination of the established date for full funding using the procedure set forth in this clause is made and not to be less than the period of years beginning in the plan year in which the determination of the established date for full funding using the procedure set forth in this clause is made and ending by the date for full funding in effect before the change; and

(vii) the period determined under item (vi) must be added to the date as of which the actuarial valuation was prepared and the date obtained is the new established date for full funding.

(d) For the general employees retirement plan of the Public Employees Retirement Association, the established date for full funding is June 30, 2048.

(e) For the Teachers Retirement Association, the established date for full funding is June 30, 2048, through June 30, 2025. Beginning July 1, 2025, the established date for full funding is June 30, 2053.

(f) For the correctional state employees retirement plan and the State Patrol retirement plan of the Minnesota State Retirement System, the established date for full funding is June 30, 2048.

(g) For the judges retirement plan, the established date for full funding is June 30, 2048.

(h) For the local government correctional service retirement plan and the public employees police and fire retirement plan, the established date for full funding is June 30, 2048.

(i) For the St. Paul Teachers Retirement Fund Association, the established date for full funding is June 30, 2048.

(j) For the general state employees retirement plan of the Minnesota State Retirement System, the established date for full funding is June 30, 2048.

(k) For the retirement plans for which the annual actuarial valuation indicates an excess of valuation assets over the actuarial accrued liability, the valuation assets in excess of the actuarial accrued liability must be recognized as a reduction in the current contribution requirements by an amount equal to the amortization of the excess expressed as a level percentage of pay over a 30-year period beginning anew with each annual actuarial valuation of the plan.

Subd. 12. **Actuarial gains and losses.** The actuarial valuation must contain an exhibit consisting of an analysis by the actuary explaining the net increase or decrease in the unfunded actuarial accrued liability since the last valuation. The explanation must subdivide the net increase or decrease in the unfunded actuarial accrued liability into at least the following parts:

(1) increases or decreases in the unfunded actuarial accrued liability because of changes in benefits;

(2) increases and decreases in the unfunded actuarial accrued liability because of changes in actuarial assumptions;

(3) increases or decreases in the unfunded actuarial accrued liability attributable to actuarial gains or losses resulting from any experience deviations from the assumptions on which the valuation is based, as follows:

(i) actual investment earnings;

(ii) actual postretirement mortality rates;

(iii) actual salary increase rates; and

(iv) the remainder of the increase or decrease not attributable to any separate source;

(4) increases or decreases in unfunded actuarial accrued liability because of other reasons, including the effect of any amortization contribution paid or additional amortization contribution previously calculated but unpaid; and

(5) increases or decreases in unfunded actuarial accrued liability because of changes in eligibility requirements or groups included in the membership of the fund.

Subd. 13. **Membership tabulation.** (a) The actuarial valuation must contain a tabulation of active membership and annuitants in the fund. If the membership of a fund is under more than one general benefit program, a separate tabulation must be made for each general benefit program.

(b) The tabulations must be prepared by the administration of the pension fund and must contain the following information:

(1) Active members	Number
As of last valuation date	
New entrants	
Total	
Separations from active service	
Refund of contributions	
Separation with deferred annuity	
Separation with neither refund nor deferred annuity	
Disability	
Death	
Retirement with service annuity	
Total separations	
As of current valuation date	
(2) Annuitants	Number
As of last valuation date	
New entrants	
Total	
Terminations	
Deaths	
Other	
Total Terminations	
As of current valuation date	

(c) The tabulation required under paragraph (b), clause (2), must be made separately for each of the following classes of benefit recipients:

- (1) service retirement annuitants;
- (2) disability benefit recipients;
- (3) survivor benefit recipients; and
- (4) deferred annuitants.

Subd. 14. **Administrative expenses.** (a) The actuarial valuation must indicate the administrative expenses of the fund, expressed both in dollars and as a percentage of covered payroll.

(b) Administrative expenses are the costs incurred by the retirement plans in the course of operating the plan, excluding investment expenses. Investment expenses include all expenses incurred for the retention of professional external investment managers and professional investment consultants, custodian bank fees, investment transaction costs, and the costs incurred by the retirement plans to manage investment portfolios or assets internally. Investment expenses must be deducted from the investment return used in the actuarial valuation, and must not be included in administrative expenses when calculating the allowance for expenses.

Subd. 15. **Benefit plan summary.** The actuarial valuation must contain a summary of the principal provisions of the benefit plan upon which the valuation is based.

Subd. 16. **Quadrennial experience study; contents.** A quadrennial experience study, if required, must contain an analysis by the approved actuary of the experience of the fund and a comparison of the experience with the actuarial assumptions on which the most recent actuarial valuation of the retirement fund was based.

Subd. 17. **Actuarial services by approved actuaries.** (a) The actuarial valuation or quadrennial experience study must be made and any actuarial consulting services for a retirement fund or plan must be provided by an approved actuary. The actuarial valuation or quadrennial experience study must include a signed written declaration that it has been prepared according to sections 356.20 to 356.23 and according to the most recent standards for actuarial work adopted by the Legislative Commission on Pensions and Retirement.

(b) Actuarial valuations or experience studies prepared by an approved actuary retained by a retirement fund or plan must be submitted to the Legislative Commission on Pensions and Retirement within ten days of the submission of the document to the retirement fund or plan.

Subd. 18. **Establishment of actuarial assumptions.** (a) The actuarial assumptions used for the preparation of actuarial valuations under this section that are other than the interest rate may be changed only with the approval of the Legislative Commission on Pensions and Retirement or after a period of one year has elapsed since the date on which the proposed assumption change or changes were received by the Legislative Commission on Pensions and Retirement without commission action.

(b) A change in the applicable actuarial assumptions may be proposed by the governing board of the applicable pension fund or relief association, by an actuary retained under section 356.214 or by the actuary retained by a local relief association governed by sections 424A.091 to 424A.096 or by Laws 2013, chapter 111, article 5, sections 31 to 42, if one is retained.

356.216 CONTENTS OF ACTUARIAL VALUATIONS FOR LOCAL MONTHLY VOLUNTEER FIREFIGHTER RELIEF ASSOCIATIONS.

The provisions of section 356.215 that govern the contents of actuarial valuations apply to the Bloomington Fire Department Relief Association and to any local monthly volunteer firefighter relief association required to make an actuarial report under this section, except as follows:

(1) in lieu of the amortization date specified in section 356.215, subdivision 11, the appropriate amortization target date specified in clause (2) or section 424A.093, subdivision 4, paragraph (c), must be used in calculating any required amortization contribution;

(2) for the Bloomington Fire Department Relief Association, any unfunded actuarial accrued liability must be amortized on a level dollar basis by December 31 of the year occurring 20 years after the year in which the unfunded actuarial accrued liability initially occurred, and, if subsequent actuarial valuations for the Bloomington Fire Department Relief Association indicate a net actuarial experience loss incurred during the year which ended as of the day before the most recent actuarial valuation date, any unfunded actuarial accrued liability due to that loss is to be amortized on a level dollar basis by December 31 of the year occurring 20 years after the year in which the net actuarial experience loss occurred;

(3) in addition to the tabulation of active members and annuitants provided for in section 356.215, subdivision 13, the prospective annual service pensions under the benefit plan for active members must be reported;

(4) actuarial valuations required under Laws 2013, chapter 111, article 5, section 39, must be made annually and actuarial valuations required under section 424A.093, subdivision 2, must be made every four years or as frequently as required by generally accepted accounting principles in the government sector, whichever frequency requirement is shorter;

(5) the actuarial balance sheet showing accrued assets valued at market value, actuarial accrued liabilities, and the unfunded actuarial accrued liability must include the following required reserves:

(i) for active members:

(A) retirement benefits or service pensions;

(B) disability benefits; and

(C) survivors' benefits;

(ii) for deferred annuitants' benefits;

(iii) for former members without vested rights;

(iv) for annuitants:

(A) retirement annuities or service pensions;

(B) disability annuities; and

(C) survivor benefits.

In addition to those required reserves, separate items must be shown for additional benefits, if any, which may not be appropriately included in the reserves listed above; and

(6) actuarial valuations are due to be filed with the state auditor by the first day of the seventh month after the end of the fiscal year which the actuarial valuation covers.

356.219 DISCLOSURE OF PUBLIC PENSION PLAN INVESTMENT PORTFOLIO AND PERFORMANCE INFORMATION.

Subdivision 1. **Report required.** (a) The Bloomington Fire Department Relief Association, volunteer firefighters relief associations governed by sections 424A.091 to 424A.095, the St. Paul Teachers Retirement Fund Association, and any Minnesota public pension plan that is not fully invested through the State Board of Investment, must report the information specified in subdivision 3 to the state auditor. The state auditor may prescribe a form or forms for the purposes of the reporting requirements contained in this section.

(b) For purposes of this section, a pension plan is fully invested through the State Board of Investment during a given calendar year if all assets of the pension plan beyond sufficient cash equivalent investments to cover six months of expected expenses are invested under section 11A.17.

(c) A public pension plan to which subdivision 3, paragraph (b) or (c), applies is not required to file the report required by this subdivision for a given calendar year if the pension plan's most recent annual financial audit was conducted by the state auditor.

(d) This section does not apply to the following plans:

- (1) the Minnesota unclassified employees retirement program under chapter 352D;
- (2) the public employees defined contribution plan under chapter 353D;
- (3) the individual retirement account plans under chapters 354B and 354D;
- (4) the higher education supplemental retirement plan under chapter 354C;
- (5) any alternative retirement benefit plan established under section 383B.914;
- (6) the University of Minnesota faculty retirement plan and supplemental plan; and

(7) any other statewide plan required to be invested by the State Board of Investment under section 11A.23.

Subd. 2. **Asset class definition.** (a) For purposes of this section, "asset class" means any of the following asset groupings as authorized in applicable law, bylaws, or articles of incorporation:

(1) cash and any cash equivalent investments with maturities of one year or less when issued;

(2) debt securities with maturities greater than one year when issued, including but not limited to mortgage participation certificates and pools, asset backed securities, guaranteed investment contracts, and authorized

government and corporate obligations of corporations organized under laws of the United States or any state, or the Dominion of Canada or its provinces;

(3) stocks or convertible issues of any corporation organized under laws of the United States or any state, or the Dominion of Canada or its provinces, or any corporation listed on the New York Stock Exchange or the American Stock Exchange;

(4) international stocks or convertible issues;

(5) international debt securities; and

(6) real estate and venture capital.

(b) If the pension plan is investing in open-end investment companies registered under the federal Investment Company Act of 1940, or in the Minnesota supplemental investment fund under section 11A.17, this investment must be included under an asset class indicated in paragraph (a), clauses (1) through (6), as appropriate. If the investment vehicle includes underlying securities from more than one asset class as indicated by paragraph (a), clauses (1) through (6), the investment may be treated as a separate asset class.

Subd. 3. Content of reports. (a) The report required by subdivision 1 must include a written statement of the investment policy. Following that initial report, subsequent reports must include investment policy changes and the effective date of each policy change rather than a complete statement of investment policy, unless the state auditor requests submission of a complete current statement. The report must also include the information required by the following paragraphs, as applicable.

(b) For public pension plans not fully invested through the State Board of Investment with assets having a market value of \$50,000,000 or more as of the beginning of the calendar year, or that had a market value of \$50,000,000 or more in a prior calendar year, the report required by subdivision 1 must include the following:

(1) the market value of the total portfolio and the market value of each investment account, investment portfolio, or asset class included in the pension fund for each month;

(2) the amount and date of each injection and withdrawal to the total portfolio and to each investment account, investment portfolio, or asset class;

(3) a calculation of the total time-weighted rate of return available from index-matching investments, assuming the asset class performance targets and target asset mix indicated in the written statement of investment policy;

(4) a description of indices used in the analyses and an explanation of why those indices are appropriate;

(5) computed time-weighted rates of return; and

(6) any other information required by the state auditor.

(c) For public pension plans fully invested through the State Board of Investment with assets having a market value of \$50,000,000 or more as of the beginning of the calendar year, or that had a market value of \$50,000,000 or more in a prior calendar year, the report required by subdivision 1 must be in the form required by the state auditor and include the information needed by the state auditor to supplement the reporting available from the State Board of Investment.

(d) If a public pension plan has assets with a total market value of less than \$50,000,000 as of the beginning of the calendar year and was never required to file under paragraph (b) or (c), the report required by subdivision 1 must include the following:

(1) unless paragraph (f) applies, the amount and date of each total portfolio injection and withdrawal; and

(2) the market value of the total portfolio as of the beginning of the calendar year and for each quarter.

(e) For public pension plans reporting under paragraph (d), the public pension plan must retain supporting information specifying the date and amount of each injection and withdrawal to each investment account and investment portfolio. The public pension plan must also retain the market value of each investment account and investment portfolio at the beginning of the calendar year and for each quarter. Information that is required to be collected and retained for any given year or years under this paragraph must be submitted to the state auditor if the state auditor requests in writing that the information be submitted by the public pension plan. If the state auditor requests information under this subdivision, and the pension plan fails to comply, the pension plan is subject to penalties under subdivision 5, unless penalties are waived by the state auditor under that subdivision.

(f) A public pension plan reporting under paragraph (d) that is fully invested through the State Board of Investment for the given calendar year is required to report the market value of the total portfolio as of the beginning of the calendar year and for each quarter, but need not report the amount and date of each total portfolio injection and withdrawal.

Subd. 4. [Repealed, 2012 c 286 art 10 s 13]

Subd. 5. **Penalty for noncompliance.** Failure to comply with the reporting requirements of this section must result in a withholding of all state aid or state appropriation to which the pension plan may otherwise be directly or indirectly entitled until the pension plan has complied with the reporting requirements. The state auditor shall instruct the commissioners of revenue and management and budget to withhold any state aid or state appropriation from any pension plan that fails to comply with the reporting requirements contained in this section, until the pension plan has complied with the reporting requirements. The state auditor may waive the withholding of state aid or state appropriations if the state auditor determines in writing that compliance would create an excessive hardship for the pension plan.

Subd. 6. **Investment disclosure report.** (a) The state auditor shall prepare an annual report to the legislature on the investment performance of the public pension plans subject to this section. The content of the report is specified in paragraphs (b) to (d).

(b) For each public pension plan reporting under subdivision 3, paragraph (b), the state auditor shall compute and report total portfolio and asset class time-weighted rates of return, net of all investment-related costs and fees. The report by the state auditor must also include the information submitted by the pension plans under subdivision 3 or a summary of that information.

(c) For each public pension plan reporting under subdivision 3, paragraph (d), the state auditor shall compute and report total portfolio time-weighted rates of return, net of all costs and fees.

(d) The report by the state auditor may also include a presentation of multiyear performance and any other information or analysis deemed appropriate by the state auditor.

Subd. 7. **Expense of report.** All administrative expenses incurred relating to the investment report by the state auditor described in subdivision 6 must be borne by the state auditor and may not be charged back to the entities described in subdivisions 1 or 4.

Subd. 8. **Timing of reports.** (a) For the Bloomington Fire Department Relief Association and the volunteer firefighters relief associations, the information required under this section must be submitted by the due date for reports required under section 424A.014, subdivision 1 or 2, as applicable.

(b) For the St. Paul Teachers Retirement Fund Association, the information required under this section must be submitted to the state auditor by June 1 of each year.

(c) Any public pension plan required to submit information under this section that is not identified in paragraph (a) or (b) must submit the information to the state auditor by June 1 of each year.

Subd. 9. **Data availability.** Any information received by the state auditor under this section, if the data are public, must be made available to individuals or organizations which request that information. The state auditor is authorized to charge fees sufficient to cover the cost of providing the requested information in usable formats.

Subd. 10. **Pension performance reporting.** In addition to report presentations that the state auditor is required to provide elsewhere in this section, the state auditor shall provide an analysis comparing the one-year and the five-year rate of return for each pension fund and the benchmark rate of return for each fund. The state auditor shall select the benchmark rate of return based on the best practice in the industry.

PUBLIC RETIREMENT PLAN PORTABILITY

356.30 COMBINED SERVICE ANNUITY.

Subdivision 1. **Eligibility; computation of annuity.** (a) Notwithstanding any provisions of the laws governing the covered retirement plans listed in subdivision 3, a person may elect to receive, upon retirement, a retirement annuity from each covered retirement plan, subject to the provisions of paragraph (b), if the person has:

(1) allowable service in any two or more of the covered plans;

(2) at least one-half year of allowable service in each covered plan, based on the allowable service in each plan;

(3) total allowable service that equals or exceeds the longest service credit vesting requirement of the applicable retirement plan; and

(4) not begun to receive an annuity from any covered plan or made application for benefits from each applicable plan and the retirement annuity effective dates of each plan are within a one-year period.

(b) If all requirements in paragraph (a) have been satisfied, the retirement annuity from each plan must be based upon the allowable service, accrual rates, and average salary in the applicable plan except as further specified or modified in the following clauses:

(1) the laws governing annuities must be the law in effect on the date of termination from the last period of public service under a covered retirement plan with which the person earned a minimum of one-half year of allowable service credit during that employment;

(2) the average salary used to calculate the annuity for each formula plan must be based on the employee's highest five successive years of covered salary during the entire service in covered plans;

(3) the accrual rates under each plan must be the percentages prescribed by each plan's formula in effect for the respective years of allowable service from one plan to the next, recognizing all previous allowable service with the other covered plans;

(4) the allowable service in all the covered plans must be combined in determining eligibility for and the application of each plan's provisions with respect to reduction in the annuity amount for retirement prior to normal retirement age; and

(5) the annuity amount payable for any allowable service under a nonformula plan that is a covered plan must not be affected, but such service and covered salary must be used in the above calculation.

(c) If a person eligible for an annuity under paragraph (a) from each covered plan terminates all public service, the deferred annuity must be augmented from the date of termination until the earlier of:

(1) the effective date of retirement; or

(2) December 31, 2018, for the Minnesota State Retirement System and the Public Employees Retirement Association or June 30, 2019, for the Teachers Retirement Association and the St. Paul Teachers Retirement Association.

A deferred annuity must not be augmented after the applicable dates under clause (2). The appropriate rate of augmentation is the rate in effect on the date on which the person entered into public employment and subsequently adjusted according to the laws governing each covered plan, as applicable.

(d) This section does not apply to any person whose final termination from the last public service under a covered plan was before May 1, 1975.

(e) For the purpose of computing annuities under this section:

(1) the judges retirement fund accrual rate must not exceed 3.2 percent per year of service for any year of service or fraction thereof;

(2) the public employees police and fire plan and the State Patrol retirement plan accrual rate must not exceed 3.0 percent per year of service for any year of service or fraction thereof;

(3) the legislators retirement plan accrual rate must not exceed 2.5 percent, but this limit does not apply to the adjustment provided under section 3A.02, subdivision 1, paragraph (c); and

(4) any other covered plan's accrual rate must not exceed 2.7 percent per year of service for any year of service or fraction thereof.

(f) Any period of time for which a person has credit in more than one of the covered plans must be used only once for the purpose of determining total allowable service.

(g) If the period of duplicated service credit is more than one-half year, or the person has credit for more than one-half year, with each of the plans, each plan must apply its formula to a prorated service credit for the period of duplicated service based on a fraction of the salary on which deductions were paid to that fund for the period divided by the total salary on which deductions were paid to all plans for the period.

(h) If the period of duplicated service credit is less than one-half year, or when added to other service credit with that plan is less than one-half year, the service credit must be ignored and a refund of contributions made to the person in accord with that plan's refund provisions.

Subd. 2. **Repayment of refunds.** A person who has service credit in one of the retirement plans enumerated in subdivision 3 and who is employed or was formerly employed in a position covered by one of these covered plans but also has received a refund from any other of these covered plans, may repay the refund to the respective plan under terms and conditions that are consistent with the laws governing the other plan, except that the person need not be a currently contributing member of the plan to which the refund is repaid at the time the repayment is made. Unless otherwise provided by statute, the repayment of a refund under this subdivision may only be made within six months following termination of employment from a position covered by one of the covered plans enumerated in subdivision 3 or before the date of retirement from the plan to which the refund is repaid, whichever is earlier.

Subd. 2a. **Purchases of prior service.** If a purchase of prior service is made under the provisions of Laws 1988, chapter 709, article 3, or any similar special or general law provision which allows a purchase of service credit in any of the retirement plans enumerated in subdivision 3, the amount of required reserves calculated as prescribed in Laws 1988, chapter 709, article 3, must be paid to each plan based on the amount of benefit increase payable from that plan as a result of the purchase of prior service.

Subd. 3. **Covered plans.** This section applies to the following retirement plans:

(b) The disability benefit must be governed by the law in effect for each covered retirement plan on the date of the commencement of the member's most recent qualifying disability as a member of a covered retirement plan.

(c) All plans must base the disability benefit on the same average salary figure to the extent practicable.

(d) If the method of the covered retirement plan used to compute a disability benefit varies based on the length of allowable service credit, the benefit accrual formula percentages used by the plan must recognize the allowable service credit in the plan as a continuation of any previous allowable service credit with other covered retirement plans.

(e) If the covered retirement plan is a defined benefit or formula plan and the method used to compute a disability benefit does not vary based on the length of allowable service credit, the portion of the specified benefit amount from the plan must bear the same proportion to the total specified benefit amount as the allowable service credit in that plan bears to the total allowable service credit in all covered retirement plans. If the covered retirement plan is a defined contribution or nonformula plan, the disability benefit amount for allowable service under the plan is not affected, but the service and the covered salary under the plan must be used as applicable in calculations by other covered retirement plans.

(f) A period for which a person has allowable service credit in more than one covered retirement plan must be used only once in determining the total allowable service credit for calculating the combined service disability benefit, with any period of duplicated service credit handled as provided in section 356.30, subdivision 1, paragraphs (g) and (h).

(g) If a person is entitled to a minimum benefit payable from one of the public pension plans enumerated in section 356.30, subdivision 3, the person may receive additional credit for only those years of service in another covered pension plan that, when added to the years of service in the pension plan that is paying the minimum benefit, exceed the years of service on which the minimum benefit is based.

(h) A partially employed recipient of a disability benefit must have any current reemployment income plus the total disability payments from all plans enumerated in subdivision 7 added together, and then compared to their final salary rate as a public employee. If current income plus the total disability payments exceed the final salary of the person at the time of retirement, then disability benefit payments from all the plans must be reduced on a prorated basis relative to the years of service in each fund so that earnings plus benefit payments do not exceed the final salary rate.

356.303 SURVIVOR BENEFIT WITH COMBINED SERVICE.

Subdivision 1. **Definitions.** (a) The terms used in this section are defined in this subdivision.

(b) "Average salary" means the highest average of covered salary for the appropriate period of credited service that is required for the calculation of a survivor annuity or a survivor benefit, whichever applies, by the covered retirement plan and that is drawn from any period of credited service and covered salary in a covered retirement plan.

(c) "Covered retirement plan" or "plan" means a retirement plan enumerated in subdivision 4.

(d) "Deceased member" means a person who on the date of death was an active member of a covered retirement plan and who has reached the minimum age, if any, that is required by the covered retirement plan as part of qualifying for a survivor annuity or survivor benefit.

(e) "Surviving child" means a child of a deceased member (1) who is unmarried; (2) who has not reached age 18, or, if a full-time student, who has not reached a higher age as specified by the applicable covered retirement plan; and (3) if specified by that plan, who was actually dependent on the deceased member for a specified proportion of support before the deceased member's death. "Surviving child" includes a natural child, an adopted child, or a child of a deceased member who is conceived during the member's lifetime and who is born after the member's death.

(f) "Surviving spouse" means the legally married husband or wife, whichever applies, of the deceased member who was residing with the deceased member on the date of death and who, if specified by the applicable covered retirement plan, had been married to the deceased member for a specified period of time before the death of the deceased member.

(g) "Survivor annuity" means the entitlement to a future amount payable to a survivor as the remainder interest of an optional annuity form implied by law as having been chosen by a deceased member before the date of death and effective on the date of death or provided automatically.

(h) "Survivor benefit" means an entitlement to a future amount payable to a survivor that is not included in the definition of a survivor annuity.

Subd. 2. **Entitlement; eligibility.** Notwithstanding any provision of law to the contrary governing a covered retirement plan, a person who is the survivor of a deceased member of a covered retirement plan may receive a combined service survivor benefit from each covered retirement plan in which the deceased member had credit for at least one-half year of allowable service if the deceased member:

(1) had credit for sufficient allowable service in any combination of covered retirement plans to meet the minimum allowable service credit requirement of the applicable covered retirement fund with the longest allowable service credit requirement for qualification for a survivor benefit or annuity;

(2) had credit for at least one-half year of allowable service with the most recent covered retirement plan before the date of death and was an active member of that covered retirement plan on the date of death; and

(3) was not receiving a retirement annuity from any covered retirement plan on the date of death.

Subd. 3. Combined service survivor benefit computation. (a) The combined service survivor annuity or survivor benefit from each covered retirement plan must be based on the allowable service in each covered retirement plan, except as provided by paragraphs (b) to (f).

(b) The survivor annuity or survivor benefit must be governed by the law in effect for each covered retirement plan on the date of the death of the deceased member.

(c) All plans must base the survivor annuity or survivor benefit on the same average salary figure if the annuity or benefit is salary related.

(d) If the method of the covered retirement plan used to compute a survivor benefit or annuity varies based on the length of allowable service credit, the benefit accrual formula percentages used by the plan must recognize the allowable service credit in the plan as a continuation of any previous allowable service credit with other covered retirement plans.

(e) If the covered retirement plan is a defined benefit or formula plan and the method used to compute a survivor benefit or annuity does not vary based on the length of allowable service credit, the portion of the specified benefit or annuity amount from the covered retirement plan must bear the same proportion to the total specified benefit or annuity amount as the allowable service credit in that plan bears to the total allowable service credit in all covered retirement plans. If the covered retirement plan is a defined contribution or nonformula plan, the survivor benefit amount for allowable service under the plan is not affected, but the service and covered salary under the plan must be used in calculations by other covered retirement plans.

(f) A period for which a deceased member had allowable service credit in more than one covered retirement plan must be used only once in determining the total allowable service credit for calculating the combined service survivor annuity or survivor benefit. A period of duplicated service credit must be handled as provided in section 356.30, subdivision 1, paragraphs (g) and (h).

(g) If a person is entitled to a minimum benefit payable from a public pension plan named in section 356.30, subdivision 3, the person may receive additional credit for only those years of service in another covered pension plan that, when added to the years of service in the pension plan that is paying the minimum benefit, exceed the years of service on which the minimum benefit is based.

(a) Any person who has been a member of two or more of the retirement plans listed in paragraph (b) is entitled, when qualified, to an annuity from each fund if:

(1) the person's combined service in any two or more retirement plans equals or exceeds the vesting requirement of the fund with the longest vesting requirement; and

(b) In no event, however, may this section authorize the payment of both a retirement annuity and a surviving spouse's benefit in one month where the law governing the applicable retirement fund provides for the payment of the retired member's retirement annuity to the surviving spouse for the month in which the retired member dies.

Subdivision 1. **Exemption; exceptions.** None of the money, annuities, or other benefits provided for in the governing law of a covered retirement plan is assignable either in law or in equity or subject to state estate tax, or to execution, levy, attachment, garnishment, or other legal process, except as provided in subdivision 2 or section 518.58, 518.581, or 518A.53.

(b) Upon the request of a retiree, disablitant, survivor, or former member, the chief administrative officer of a covered retirement plan may remit the annuity, benefit, or refund payment to the applicable financial institution for deposit in the person's individual account or the person's joint account. If an overpayment of benefits is paid after the death of the annuitant or benefit recipient, the chief administrative officer of the pension plan is authorized to issue an administrative subpoena consistent with the requirements of section 13A.02, requiring the applicable financial institution to disclose the names of all joint and co-owners of the account and a description of all deposits to, and withdrawals from, the account which take place on or after the death of the annuitant or benefit recipient. An overpayment to a joint account after the death of the annuitant or benefit recipient must be repaid to the fund of the applicable covered retirement plan by the joint tenant if the overpayment is not repaid to that fund by the financial institution associated with the National Automated Clearinghouse Association or its successor. 356.403 NORMAL RETIREMENT AGE; SAVINGS CLAUSE.

The intent of the legislature in sections 352.01, subdivision 25; 353.01, subdivision 37; 354.05, subdivision 38; and 354A.011, subdivision 15a, is to create a normal retirement age for persons first covered by those sections after May 16, 1989, that is the same as the retirement age in the federal Social Security law, including future amendments to that law. If a court determines that the legislature may not incorporate by reference the future changes in federal Social Security law, the legislature reserves the right to amend the appropriate sections to make the normal retirement age conform to the retirement age in the federal Social Security law. No person first covered by any of those sections after May 16, 1989, has a right to a normal retirement age that is less than the retirement age in the federal Social Security law.

SURVIVOR BENEFITS

356.406 LOSS OF ENTITLEMENT TO BENEFITS FOR SURVIVOR CAUSING DEATH OF PENSION PLAN MEMBER.

Subdivision 1. **Definitions.** (a) Each of the words or terms defined in this subdivision has the meaning indicated.

(b) "Public pension plan" means any retirement plan or fund enumerated in section 356.20, subdivision 2, or 356.30, subdivision 3, the Bloomington Fire Department Relief Association, any relief association governed by sections 424A.091 to 424A.095, any retirement plan governed by chapter 354B or 354C, the Hennepin County supplemental retirement plan governed by sections 383B.46 to 383B.52, or any housing and redevelopment authority retirement plan.

(c) "Public pension plan member" means a person who is a participant covered by a public pension plan; a former participant of a public pension plan who has sufficient service to be entitled to receive a future retirement annuity or service pension; a recipient of a retirement annuity, service pension, or disability benefit from a public pension plan; or a former participant of a public pension plan who has member or employee contributions to the person's credit in the public pension plan.

(d) "Survivor" means the surviving spouse, a former spouse, a surviving child, a joint annuitant, a designated recipient of a second or remainder portion of an optional annuity form, a beneficiary, or the estate of a deceased public pension plan member, as those terms are commonly understood or defined in the benefit plan document of the public pension plan.

(e) "Survivor benefit" means a surviving spouse benefit, surviving child benefit, second or remainder portion of an optional annuity form, a death benefit, a funeral benefit, or a refund of member or employee contributions payable on account of the death of a public pension plan member as provided for in the benefit plan document of the public pension plan.

Subd. 2. **Suspension of survivor benefits upon felony charge.** During the pendency of a charge of a survivor of a felony that caused the death of a public pension plan member, of criminal liability for a death by wrongful act felony, or of conspiracy to commit a death by wrongful act felony, the entitlement of that survivor to receive a survivor benefit is suspended.

Subd. 3. **Forfeiture of survivor benefits upon felony conviction.** On final conviction of a survivor of a felony that caused the death of a public pension plan member, of criminal liability for a death by wrongful act felony, or of conspiracy to commit a death by wrongful act felony, the entitlement of that survivor to receive a survivor benefit is forfeited, including entitlement for any previously suspended survivor benefits under subdivision 2.

Subd. 4. **Suspension or forfeiture actions separate.** The charge of one survivor under subdivision 2 or the conviction of one survivor under subdivision 3 does not affect the entitlement of another survivor to a survivor benefit.

Payment may be made to the next beneficiary or survivor only in an amount equal to the amount recovered and in the amount of any future payments that would legally accrue to another survivor under the applicable laws of the retirement plan.

Subd. 6. **Disposition of forfeited survivor benefits.** If the benefit plan document governing the public pension plan does not provide for the disposition of forfeited benefits, survivor benefits forfeited under this section must be deposited in the general fund of the state.

The benefit resumes at the level which the person would have been receiving if there had been no remarriage.

Subdivision 1. **Authorization to terminate optional annuity form.** A public pension plan retired member receiving a joint and survivor retirement annuity or a person receiving a joint and survivor disability benefit from a plan listed in section 356.30, subdivision 3, and the designated survivor of that person may mutually agree to terminate the survivor designation by filing a termination statement on a form and in the manner specified by the chief administrative officer of the applicable public pension plan. Upon filing a valid termination statement accepted by the chief administrative officer, the rights of the designated survivor to receive a benefit upon death of the plan retired or disabled annuitant are terminated, and the retired or disabled annuitant must receive a normal single-life annuity.

Subd. 2. **Revised annuity form.** The replacement single life annuity must be actuarially equivalent to the joint and survivor annuity as of the first day of the month following acceptance of the valid termination statement by the chief administrative officer and payment of this revised prospective annuity begins on that same date.

Subd. 3. **Application.** This section does not apply if the designated survivor is the spouse or former spouse of the plan member.

Subd. 4. **Termination statement form requirements.** The annuity form termination statements must be in written form and must be notarized. Before accepting any signed form or forms, the chief administrative officer of the applicable pension plan must offer counseling to the retired or disabled annuitant and the designated survivor regarding the implications of the annuity form waiver. The forms must indicate that this counseling has been offered and either has been completed or has been waived by the retired or disabled annuitant and the designated survivor.

Subd. 5. **Prohibition against further annuity form revisions.** No retired or disabled annuitant who waives the annuity form under this section may further revise the annuity form at any later date.

(c) The retirement annuity payable to a person who retires before becoming eligible for Social Security benefits and who has elected the optional payment as provided in section 354.35 must be treated as the sum of a period-certain retirement annuity and a life retirement annuity for the purposes of any postretirement adjustment. The period-certain retirement annuity plus the life retirement annuity must be the annuity amount payable until age 62, 65, or normal retirement age, as selected by the member at retirement, for an annuity amount payable under section 354.35. A postretirement adjustment granted on the period-certain retirement annuity must terminate when the period-certain retirement annuity terminates.

The amount of the adjustment shall be determined under clause (2).

(e) Paragraph (d) does not apply to members who retire under section 354.44, subdivision 6, paragraph (c), clause (3), or who retire when the member is at least age 62 and has at least 30 years of service under section 354.44, subdivision 6, paragraph (c), (d), (e), or (f), as applicable.

(b) An increase in annuity or benefit payments under this subdivision must be made automatically unless written notice is filed by the annuitant or benefit recipient with the executive director of the applicable covered retirement plan requesting that the increase not be made.

Subd. 1f. **Annual postretirement adjustments; Minnesota State Retirement System judges retirement plan.** (a) Recipients of a retirement annuity, disability benefit, or survivor benefit from the judges retirement plan are entitled to an annual postretirement adjustment, effective as of each January 1, as follows:

(1) through December 31, 2021, a postretirement increase of 1.75 percent must be applied each year to the monthly annuity or benefit of each annuitant or benefit recipient who has been receiving an annuity or a benefit for at least 12 full months as of the June 30 of the calendar year immediately before the adjustment;

(2) through December 31, 2021, for each annuitant or benefit recipient who has been receiving an annuity or a benefit for at least one full month, but less than 12 full months as of the June 30 of the calendar year immediately before the adjustment, an annual postretirement increase of 1/12 of 1.75 percent for each month that the person has been receiving an annuity or benefit must be applied to the amount of the monthly annuity or benefit;

(3) effective January 1, 2022, and thereafter, a postretirement increase of 1.5 percent must be applied each year to the monthly annuity or benefit of each annuitant or benefit recipient who has been receiving an annuity or a benefit for at least 12 full months as of the June 30 of the calendar year immediately before the adjustment; and

(b) An increase in annuity or benefit payments under this subdivision must be made automatically unless written notice is filed by the annuitant or benefit recipient with the executive director of the applicable covered retirement plan requesting that the increase not be made.

Subd. 1g. **Annual postretirement adjustments; PERA local government correctional retirement plan.** (a) Annuities, disability benefits, and survivor benefits being paid from the local government correctional retirement plan of the Public Employees Retirement Association shall be increased effective each January 1 by the percentage of increase determined under this subdivision. The increase to the annuity or benefit shall be determined by multiplying the monthly amount of the annuity or benefit by the percentage of increase specified in paragraph (b), after taking into account any reduction to the percentage of increase required under paragraph (d).

(b) As of each January 1, the percentage of increase must be one percent unless the federal Social Security Administration has announced a cost-of-living adjustment pursuant to United States Code, title 42, section 415(i), in the last quarter of the preceding calendar year that is greater than one percent. If the cost-of-living adjustment announced by the federal Social Security Administration is greater than one percent, the percentage of increase must be the same as the cost-of-living adjustment announced by the federal Social Security

Administration, but in no event may the percentage of increase exceed the applicable maximum percentage in effect on January 1 under paragraph (c).

(c) The applicable maximum percentage in effect on January 1 is 2.5 percent, unless either of the following is true, in which case the applicable maximum percentage is 1.5 percent:

(1) the market value of assets equals or is less than 85 percent of the actuarial accrued liabilities as reported by the plan's actuary in the most recent two consecutive annual actuarial valuations; or

(2) the market value of assets equals or is less than 80 percent of the actuarial accrued liabilities as reported by the plan's actuary in the most recent annual actuarial valuation. If, on January 1 after a year during which the applicable maximum percentage was 1.5 percent, neither clause (1) or (2) is true, then the applicable maximum percentage is 2.5 percent.

(d) (1) If the recipient of an annuity, disability benefit, or survivor's benefit has been receiving the annuity or benefit for at least 12 full months as of the June 30 of the calendar year immediately before the effective date of the increase, there is no reduction in the percentage of increase.

(2) If the recipient of an annuity, disability benefit, or survivor's benefit has been receiving the annuity or benefit for at least one month, but less than 12 full months, as of the June 30 of the calendar year immediately preceding the effective date of the increase, the percentage of increase is multiplied by a fraction, the numerator of which is the number of months the annuity or benefit was received as of June 30 of the preceding calendar year and the denominator of which is 12.

(e) An increase in annuity or benefit payments under this section must be made automatically unless written notice is filed by the recipient with the executive director of the Public Employees Retirement Association requesting that the increase not be made.

(6) the laws in effect before June 30, 1971, if the person is receiving an annuity or benefit from the retirement fund specified in subdivision 3, clause (8).

Subd. 2. **Amount of postretirement adjustment; payment.** (a) For any person receiving an annuity or benefit on November 30, 1989, and entitled to receive a postretirement adjustment under subdivision 1, the postretirement adjustment is a lump-sum payment calculated under paragraph (b) or (c).

(b) For coordinated plan annuity or benefit recipients, the postretirement adjustment in 1989 is \$25 for each full year of allowable service credited to the person by the respective retirement fund. In 1990 and each following year, the postretirement adjustment is the amount payable in the preceding year increased by the same percentage applied to regular annuities paid from the postretirement fund or, for the retirement funds specified in subdivision 3, clauses (6), (7), and (8), by the same percentage applied under the articles of incorporation and bylaws of these funds.

(c) For basic plan annuity or benefit recipients, the postretirement adjustment in 1989 is the greater of:

In 1990 and each following year, each eligible basic plan annuity or benefit recipient shall receive the amount received in the preceding year increased by the same percentage applied to regular annuities paid from the postretirement fund or, for the retirement funds specified in subdivision 3, clauses (6), (7), and (8), by the same percentage applied under the articles of incorporation and bylaws of these funds.

(d) The postretirement adjustment provided for in this section must be paid on December 1 to those persons receiving an annuity or benefit on the preceding November 30. This section does not authorize the payment of a postretirement adjustment to an estate if the annuity or benefit recipient dies before the November 30 eligibility date. The postretirement adjustment provided for in this section must be paid automatically unless the intended recipient files a written notice with the retirement fund requesting that the postretirement adjustment not be paid or returns the amount of adjustment to the retirement fund. Written notice of the waiver of the postretirement adjustment is irrevocable for the year during which it was made.

OPTIONAL ANNUITY FORMS

356.46 APPLICATION FOR RETIREMENT ANNUITY; PROCEDURE FOR ELECTING ANNUITY FORM; MANDATORY JOINT AND SURVIVOR OPTIONAL ANNUITY FORM.

Subdivision 1. **Definitions.** As used in this section, each of the following terms shall have the meaning given.

(a) "Annuity form" means the payment procedure and duration of a retirement annuity or disability benefit available to a member of a public pension plan, based on the period over which a retirement annuity or disability benefit is payable, determined by the number of persons to whom the retirement annuity or disability benefit is payable, and the amount of the retirement annuity or disability benefit which is payable to each person.

(b) "Joint and survivor optional annuity" means an optional annuity form which provides a retirement annuity or disability benefit to a retired member or disabilitant and the spouse of the member or disabilitant on a joint basis during the lifetime of the retired member or disabilitant and all or a portion of the original retirement annuity or disability benefit amount to the surviving spouse in the event of the death of the retired member or disabilitant.

(c) "Optional annuity form" means an annuity form which is elected by a member and is not provided automatically as the standard annuity form of the public pension plan.

(d) "Public pension plan" means a public pension plan as defined under section 356.63, paragraph (b).

(e) "Retirement annuity" means a series of monthly payments to which a former or retired member of a public pension plan is entitled due to attaining a specified age and acquiring credit for a specified period of service, which includes a retirement annuity, retirement allowance, or service pension.

(f) "Disability benefit" means a series of monthly payments to which a former or disabled member of a public pension plan is entitled due to a physical or mental inability to engage in specified employment.

Subd. 2. Provision of information on annuity forms. (a) Every public pension plan which provides for an annuity form other than a single life annuity as an option which can be elected by an active, disabled, or retiring member shall provide as a part of, or accompanying the annuity application form, a written statement summarizing the annuity forms which are available, a general indication of the consequences of selecting one annuity form over another, a calculation of the actuarial reduction in the amount of the retirement annuity which would be required for each optional annuity form, and the procedure to be followed to obtain more information from the public pension plan administration concerning all annuity forms provided by the plan. If the public pension plan offers joint and survivor optional annuity forms, the annuity application and accompanying information must include a statement informing the member and the member's spouse that, notwithstanding any law to the contrary, unless the spouse waives any rights to an optional annuity by a notarized statement on the annuity application or other form provided by the pension plan administration, the public pension plan administration shall assume that the member selected the 50 percent joint and survivor optional annuity form.

(b) In lieu of the notarized statement requirement referred to in paragraph (a), the pension plan administration may accept a statement which has been verified, including electronic verification, by administrators of the pension plan.

Subd. 3. Requirement of notice to member's spouse. (a) Every public pension plan administration that provides for a joint and survivor optional retirement or disability annuity potentially applicable to the surviving spouse of a member shall send a copy of the written statement required by subdivision 2 to the spouse of the member before the member's selection of the form of retirement or disability benefit.

(b) Following the selection of a retirement or disability annuity by the member, a copy of the completed annuity application and annuity beneficiary form, if applicable, must be sent by the executive director of the public pension plan to the spouse of the retiring or disabled member. A signed acknowledgment must be required from the spouse confirming receipt of a copy of the completed annuity application and annuity beneficiary form, unless the spouse's signature acknowledging the annuity form selected is on the annuity application or other form as designated by the plan. If the public pension plan administration has not received from the spouse within 30 days a signed acknowledgment, because the annuity application or other form as designated by the public pension plan administration did not include the spouse's signature, the executive director of the public pension plan must notify the member and the member's spouse that the 50 percent joint and survivor annuity form, or a higher joint and survivor form if selected, shall be paid if the spouse

does not acknowledge the annuity form selected by the member by responding to the second notice sent to the spouse within 30 days. The second notice must be sent by certified mail with restricted delivery.

(c) If a public pension plan administration receives notice that the provisions of this section have not been complied with, or if a member selects a benefit form without the valid consent of the member's spouse, the executive director of the public pension plan shall suspend the payment of monthly benefits and shall take all actions necessary to comply with this subdivision.

(d) For the Teachers Retirement Association, the statement to the spouse that is required under paragraph (a) must be sent before or upon the member's election of an annuity.

Subd. 4. **Plan exclusions.** This section does not apply to:

- (1) any volunteer fire relief association to which sections 424A.091 to 424A.096 apply; and
- (2) any plan under which the applicable surviving spouse would receive automatic surviving spouse coverage if a joint and survivor annuity were not elected.

Subd. 5. **Disabliant survivor treatment.** This section should not be interpreted as prohibiting payment of a survivor annuity to the spouse of a deceased disabliant, in lieu of any other annuity, if laws specific to the plan provide for a higher surviving spouse annuity.

Subd. 6. **Limitations due to marriage dissolution.** The requirement to pay a 50 percent joint and survivor annuity is void if there is a court order to the contrary.

Subd. 7. **Liability waiver.** The pension fund and plan, its employees, and any agent working on behalf of the plan administration are not liable for harm caused by any act of fraud committed by the retiring member or current or previous spouse, or any information withheld from, or incorrect information supplied to the plan administration.

For the St. Paul Teachers Retirement Fund Association, the annual interest is the rate of six percent from the date that the amount was deducted from the retirement annuity to the date of payment or June 30, 2011, whichever is earlier, and with no interest accrual after June 30, 2011.

SERVICE AND SALARY CREDIT

356.50 SERVICE AND SALARY CREDIT FROM BACK PAY AWARDS IN THE EVENT OF WRONGFUL DISCHARGE; ANNUITY AND DISABILITY TREATMENT.

Subdivision 1. **Application.** (a) A person who is wrongfully discharged from public employment that gave rise to coverage by a public employee pension plan enumerated in section 356.30, subdivision 3, is entitled to obtain allowable service credit from the applicable public employee pension plan for the applicable period caused by the wrongful discharge.

(b) A person is wrongfully discharged for purposes of this section if:

(1) the person has been determined by a court of competent jurisdiction, by an arbitrator in binding arbitration, by the commissioner of veterans affairs, or by a board, commission, or panel acting under section 197.46, whichever applies, to have been wrongfully discharged from public employment;

(2) the person received an award of back pay with respect to that discharge; and

(3) the award does not include any amount for any lost or interrupted public pension plan coverage.

Subd. 2. **Service credit procedure.** (a) To obtain the public pension plan allowable service credit, the eligible person under subdivision 1 shall pay the required member contribution amount. The required member contribution amount is the member contribution rate or rates in effect for the pension plan during the period of service covered by the back pay award, applied to the unpaid gross salary amounts of the back pay award including unemployment insurance, workers' compensation, or wages from other sources which reduced the back award. No contributions may be made under this clause for compensation covered by a public pension plan listed in section 356.30, subdivision 3, for employment during the removal period. The person shall pay the required member contribution amount within 60 days of the date of receipt of the back pay award or within 60 days of a billing from the retirement fund, whichever is later.

(b) The public employer who wrongfully discharged the public employee must pay an employer contribution on the back pay award. The employer contribution must be based on the employer contribution rate or rates in effect for the pension plan during the period of service covered by the back pay award, applied to the salary amount on which the member contribution amount was determined under paragraph (a). The employer must pay compound interest on both the required member and employer contribution amounts at the applicable monthly rate or rates specified in section 356.59, subdivision 2, 3, 4, or 5, whichever applies, between the date the contribution amount would have been paid to the date of actual payment. The employer payment must be made within 30 days of the payment under paragraph (a).

Subd. 3. **Employer reporting.** The employer must report to the executive director of the applicable pension plan that a person has been determined to be wrongfully discharged and the employer must provide a copy of the written order or decision.

Subd. 4. **Annuity repayment.** Notwithstanding subdivisions 1 and 2, if after being discharged, the person commences receipt of an annuity from the applicable plan, and it is later determined that the person was wrongfully discharged, the person shall repay the annuity received in a lump sum within 60 days of receipt of the back pay award.

Subd. 5. **Disability treatment.** If a person is wrongfully discharged and before reinstatement takes a refund of employee contributions under the applicable plan's refund provision and fails to repay that refund, then not withstanding other law to the contrary, if the person applies for a disability benefit and is approved for that benefit, the disability benefit amount must be computed solely on the years of covered service provided after reinstatement, on the individual's salary for benefit computation purposes, and on the applicable plan accrual rates, rather than receiving a minimum disability benefit amount, if applicable, specified in plan law.

356.551 POST-JULY 1, 2004, PRIOR SERVICE CREDIT PURCHASE PAYMENT AMOUNT DETERMINATION PROCEDURE.

Subdivision 1. **Application.** (a) Unless the prior service credit purchase authorization special law or general statute provision explicitly specifies a different purchase payment amount determination procedure, this section governs the determination of the prior service credit purchase payment amount of any prior service credit purchase.

(b) The purchase payment amount determination procedure must recognize any service credit accrued to the purchaser in a pension plan enumerated in section 356.30, subdivision 3.

(c) Any service credit in a Minnesota defined benefit public employee pension plan available to be reinstated by the purchaser through the repayment of a refund of member or employee contributions previously received must be repaid in full before any purchase of prior service credit payment is made under this section.

Subd. 2. **Determination.** (a) Unless the minimum purchase amount set forth in paragraph (c) applies, the prior service credit purchase amount is an amount equal to the actuarial present value, on the date of payment, as calculated by the chief administrative officer of the pension plan and reviewed by the actuary retained under section 356.214, of the amount of the additional retirement annuity obtained by the acquisition of the additional service credit in this section.

(b) Calculation of this amount must be made using the investment return assumption applicable to the public pension plan specified in section 356.215, subdivision 8, and the mortality table adopted for the public pension plan.

(1) Unless clause (2) applies, the calculation must assume continuous future service in the public pension plan until, and retirement at, the age at which the minimum requirements of the fund for normal retirement or retirement with an annuity unreduced for retirement at an early age, including section 356.30, are met with the additional service credit purchased. The calculation must also assume a full-time equivalent salary,

or actual salary, whichever is greater, and a future salary history that includes annual salary increases at the applicable salary increase rate for the plan specified in section 356.215, subdivision 8.

(2) This clause applies when the calculation is being done for purposes of section 352.272; 352B.087; 353.0141, subdivision 3; 354.544; 354A.0961; or 490.1211, subdivision 2. The calculation must include continuous future service in the public pension plan until, and retirement at, any age at or after which the minimum requirements of the fund for early retirement or retirement with an annuity unreduced for retirement at an early age, including section 356.30, are met with the additional service credit purchased. The calculation must be determined using the retirement age that provides the most valuable benefit to the member. The calculation must also assume a full-time equivalent salary, or actual salary, whichever is greater, and a future salary history that includes annual salary increases at the applicable salary increase rate for the plan specified in section 356.215, subdivision 8.

(c) The prior service credit purchase amount may not be less than the amount determined by applying, for each year or fraction of a year being purchased, the sum of the employee contribution rate, the employer contribution rate, and the additional employer contribution rate, if any, applicable during that period, to the person's annual salary during that period, or fractional portion of a year's salary, if applicable, plus interest at the applicable annual rate or rates specified in section 356.59, subdivision 2, 3, 4, or 5, whichever applies, compounded annually, from the end of the year in which contributions would otherwise have been made to the date on which the payment is received.

(d) Unless otherwise provided by statutes governing a specific plan, payment must be made in one lump sum within one year of the prior service credit authorization or prior to the member's effective date of retirement, whichever is earlier. Payment of the amount calculated under this section must be made by the applicable eligible person.

(e) However, the current employer or the prior employer may, at its discretion, pay all or any portion of the payment amount that exceeds an amount equal to the employee contribution rates in effect during the period or periods of prior service applied to the actual salary rates in effect during the period or periods of prior service, plus interest at the applicable annual rate or rates specified in section 356.59, subdivision 2, 3, 4, or 5, whichever applies, compounded annually, from the date on which the contributions would otherwise have been made to the date on which the payment is made. If the employer agrees to payments under this subdivision, the purchaser must make the employee payments required under this subdivision within 90 days of the prior service credit authorization. If that employee payment is made, the employer payment under this subdivision must be remitted to the chief administrative officer of the public pension plan within 60 days of receipt by the chief administrative officer of the employee payments specified under this subdivision.

Subd. 3. **Documentation.** The prospective prior service credit purchaser must provide any relevant documentation required by the chief administrative officer of the applicable public pension plan to determine eligibility for the prior service credit under this section.

Subd. 4. **Payment precondition for credit grant.** Service credit for the purchase period must be granted by the public pension plan to the purchaser upon receipt of the full purchase payment amount specified in subdivision 2.

356.62 PAYMENT OF EMPLOYEE CONTRIBUTION.

(a) For purposes of any public pension plan, as defined in section 356.63, paragraph (b), each employer shall pick up the employee contributions required under law or under the pension plan document for all salaries. If the United States Treasury Department rules that under section 414(h) of the Internal Revenue Code of 1986, as amended through December 31, 1992, that these picked up contributions are not includable

in the employee's adjusted gross income until they are distributed or made available, then these picked up contributions must be treated as employer contributions in determining tax treatment under the Internal Revenue Code of 1986 and the employer shall discontinue withholding federal income taxes on the amount of these contributions. The employer shall pay these picked up contributions from the same source of funds as is used to pay the salary of the employee. The employer shall pick up these employee contributions by a reduction in the cash salary of the employee.

(b) Employee contributions that are picked up must be treated for all purposes of the public pension plan in the same manner and to the same extent as employee contributions that were made before the date on which the employee contributions pick up began. The amount of the employee contributions that are picked up must be included in the salary upon which retirement coverage is credited and upon which retirement and survivor's benefits are determined. For purposes of this section, "employee" means any person covered by a public pension plan. (c) The employing unit shall supply each employee and the commissioner of revenue with an information return indicating the amount of the employer's picked-up contributions for the calendar year that were not subject to withholding. This return must be provided to the employee not later than January 31 of the succeeding calendar year. The commissioner of revenue shall prescribe the form of the return and the provisions of section 289A.12 must apply to the extent not inconsistent with the provisions of this section.

(a) Money held by or credited to a public pension plan as assets, including employer and employee contributions, state aid, appropriations from the state or a governmental subdivision, and accrued earnings on investments, constitutes a dedicated fund. The dedicated fund may be used exclusively to pay retirement annuities, service pensions, disability benefits, survivor benefits, refunds of contributions, or other benefits provided under the benefit plan document or documents governing the public pension plan, and to pay reasonable administrative expenses approved by the governing board of the public pension plan or by another appropriate authority. No assets of a public pension plan may be loaned or transferred to the state or a governmental subdivision or be used to amortize an unfunded actuarial accrued liability in another public pension plan or fund, whether or not the plan providing the assets consolidates or has consolidated with the plan receiving the assets. Nothing in this section prohibits a public pension plan or the State Board of Investment from investing the assets of a plan as authorized by law, including the investment of the assets of public pension plans by the State Board of Investment in a commingled investment fund.

(b) A public pension plan for purposes of this section means a pension plan or fund specified in section 356.20, subdivision 2, or 356.30, subdivision 3, or a retirement or pension plan or fund, including a supplemental retirement plan or fund, established, maintained, or supported by a governmental subdivision or public body whose revenues are derived from taxation, fees, assessments, or other public sources.

356.635 INTERNAL REVENUE CODE COMPLIANCE.

Subdivision 1. **Retirement benefit commencement.** (a) The retirement benefit of a member or participant must begin to be distributed or, if a lump sum, be distributed no later than the member's or participant's required beginning date. "Required beginning date" means April 1 of the calendar year following the later of (1) the calendar year in which the member or the participant attains the age specified in section 401(a)(9)(C)(i)(I) of the Internal Revenue Code, or (2) the calendar year in which the member or participant terminates employment.

(b) A pension or defined contribution plan shall not be required to obtain the consent of a member or participant to a distribution if the distribution is required to satisfy the requirements of paragraph (a).

Subd. 2. **Distributions.** Distributions shall be made as required under section 401(a)(9) of the Internal Revenue Code and the treasury regulations adopted under that section, including, but not limited to, the incidental death benefit provisions of section 401(a)(9)(G) of the Internal Revenue Code.

Subd. 3. **Direct rollovers.** A distributee may elect, at the time and in the manner prescribed by the plan administrator, to have all or any portion of an eligible rollover distribution paid directly to an eligible retirement plan as specified by the distributee.

Subd. 4. **Eligible rollover distribution.** An "eligible rollover distribution" is any distribution of all or any portion of the balance to the credit of the distributee.

Subd. 5. **Ineligible amounts.** An eligible rollover distribution does not include:

(1) a distribution that is one of a series of substantially equal periodic payments, receivable annually or more frequently, that is made for the life or life expectancy of the distributee, the joint lives or joint life expectancies of the distributee and the distributee's designated beneficiary, or for a specified period of ten years or more;

(2) a distribution that is required under section 401(a)(9) of the Internal Revenue Code; or

(3) any other exception required by law or the Internal Revenue Code.

Subd. 6. **Eligible retirement plan.** (a) An "eligible retirement plan" is:

(1) an individual retirement account under section 408(a) or 408A of the federal Internal Revenue Code;

(2) an individual retirement annuity plan under section 408(b) of the federal Internal Revenue Code;

(3) an annuity plan under section 403(a) of the federal Internal Revenue Code;

(4) a qualified trust plan under section 401(a) of the federal Internal Revenue Code that accepts the distributee's eligible rollover distribution;

(5) an annuity contract under section 403(b) of the federal Internal Revenue Code;

(6) an eligible deferred compensation plan under section 457(b) of the federal Internal Revenue Code, which is maintained by a state or local government and which agrees to separately account for the amounts transferred into the plan; or

(7) in the case of an eligible rollover distribution to a nonspousal beneficiary, an individual account or annuity treated as an inherited individual retirement account under section 402(c)(11) of the federal Internal Revenue Code.

(b) For distributions of after-tax contributions which are not includable in gross income, the after-tax portion may be transferred only to an individual retirement account or annuity described in section 408(a) or (b) of the federal Internal Revenue Code, to a Roth individual retirement account described in section 408A of the federal Internal Revenue Code, or to a qualified plan described in either section 401(a) of the federal Internal Revenue Code or to an annuity contract described in section 403(b) of the federal Internal Revenue Code, that agrees to separately account for the amounts transferred, including separately accounting for the portion of the distribution which is includable in gross income and the portion of the distribution which is not includable.

Subd. 7. **Distributee.** A "distributee" is:

(1) an employee or a former employee;

(2) the surviving spouse of an employee or former employee;

(3) the former spouse of the employee or former employee who is the alternate payee under a qualified domestic relations order as defined in section 414(p) of the federal Internal Revenue Code, or who is a recipient of a court-ordered equitable distribution of marital property, as provided in section 518.58; or

(4) a nonspousal beneficiary of an employee or former employee who qualifies for a distribution under the plan and is a designated beneficiary as defined in section 401(a)(9)(E) of the federal Internal Revenue Code.

Subd. 8. **Forfeitures.** For defined benefit plans, unless otherwise permitted by section 401(a)(8) of the Internal Revenue Code, forfeitures may not be applied to increase the benefits that any employee would otherwise receive under the plan.

Subd. 9. **Military service.** Contributions, benefits, including death and disability benefits under section 401(a)(37) of the federal Internal Revenue Code, and service credit with respect to qualified military service must be provided according to section 414(u) of the federal Internal Revenue Code. For deaths occurring on or after January 1, 2007, while a member is performing qualified military service as defined in United States Code, title 38, chapter 43, to the extent required by section 401(a)(37) of the Internal Revenue Code, survivors of a member in the system are entitled to any additional benefits that the system would have provided if the member had resumed employment and then died, including but not limited to accelerated vesting or survivor benefits that are contingent on the member's death while employed. In any event, a deceased member's period of qualified military service must be counted for vesting purposes.

Subd. 9a. **Definitions.** (a) The following definitions apply for purposes of this subdivision and subdivisions 10 to 12.

(b) "Annual addition" means the sum for the limitation year of all pretax and after-tax contributions made by the member or the member's employer and credited to an account in the name of the member in any defined contribution plan maintained by the employer.

(c) "Compensation" means the compensation actually paid or made available to a member for any limitation year, including all items of remuneration described in Code of Federal Regulations, title 26, section 1.415(c)-2(b), and excluding all items of remuneration described in Code of Federal Regulations, title 26, section 1.415(c)-2(c). Compensation for pension plan purposes for any limitation year shall not exceed the applicable federal compensation limit described in section 356.611, subdivision 2.

(d) "Limitation year" means the calendar year or fiscal year, whichever is applicable to the particular pension plan.

(e) "Maximum permissible benefit" means an annual benefit of \$160,000, automatically adjusted under section 415(d) of the Internal Revenue Code for each limitation year ending after December 31, 2001, payable in the form of a single life annuity. The new limitation shall apply to limitation years ending with or within the calendar year of the date of the adjustment, but a member's benefits shall not reflect the adjusted limit prior to January 1 of that calendar year. The maximum permissible benefit amount shall be further adjusted as follows:

(1) if the member has less than ten years of participation, the maximum permissible benefit shall be multiplied by a fraction, the numerator of which is the number of years, or part thereof, but not less than one year, of participation in the plan, and the denominator of which is ten;

(2) if the annual benefit begins before the member has attained age 62, the determination as to whether the maximum permissible benefit limit has been satisfied shall be made, in accordance with regulations prescribed by the United States secretary of the treasury, by reducing the limit so that the limit, as so reduced, equals an annual benefit, beginning when the annual benefit actually begins, which is equivalent to a \$160,000, as adjusted, annual benefit beginning at age 62; and

(3) if the annual benefit begins after the member has attained age 65, the determination as to whether the maximum permissible benefit limit has been satisfied shall be made, in accordance with regulations prescribed by the United States secretary of the treasury, by increasing the limit so that the limit, as so increased, equals an annual benefit, beginning when the annual benefit actually begins, which is equivalent to a \$160,000, as adjusted, annual benefit beginning at age 65.

Subd. 10. **Annual benefit limitations; defined benefit plans.** (a) The annual benefit payable to a member shall not exceed the maximum permissible benefit. If the benefit the member would otherwise receive for a limitation year would result in the payment of an annual benefit in excess of the maximum permissible benefit, the benefit shall be reduced to the extent necessary so the benefit does not exceed the maximum permissible benefit.

(b) For purposes of applying the limitation in paragraph (a), an annual benefit that is payable in any form other than a single life annuity shall be adjusted to an actuarially equivalent single life annuity that equals, if the annuity starting date is in a plan year beginning after 2005, the annual amount of the single life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, using whichever of the following produces the greatest annual amount:

(1) the interest rate and the mortality table or other tabular factor specified in the plan for adjusting benefits in the same form;

(2) a 5.5 percent interest rate assumption and the applicable mortality table; or

(3) the applicable interest rate under section 417(e)(3) of the Internal Revenue Code and the applicable mortality table, divided by 1.05.

(c) If a member participated in more than one pension plan in which the employer participates, the benefits under each plan must be reduced proportionately to satisfy the limitation in paragraph (a).

Subd. 11. **Annual addition limitation; defined contribution plans.** The annual additions by or on behalf of a member to a defined contribution plan for any limitation year shall not exceed the lesser of (1) 100 percent of the member's compensation for the limitation year or (2) the dollar limit in effect for the limitation year under section 415(c)(1)(A) of the Internal Revenue Code, as adjusted by the United States secretary of the treasury under section 415(d)(1)(C) of the Internal Revenue Code.

Subd. 12. **Incorporation by reference.** Any requirements of section 415(b) and (c) of the Internal Revenue Code and related regulations and agency guidance not addressed by subdivisions 10 and 11 shall be considered incorporated by reference, including provisions applicable to qualified police and firefighters and to survivor and disability benefits. Subdivisions 10 to 12 shall be interpreted in a manner that is consistent with the requirements of section 415(b) and (c) of the Internal Revenue Code and the related regulations.

Subd. 13. **Correction of errors.** The executive director of each plan may correct an operational, demographic, employer eligibility, or plan document error as the executive director deems necessary or appropriate to preserve and protect the plan's tax qualification under section 401(a) of the Internal Revenue Code, including as provided in the Internal Revenue Service's Employee Plans Compliance Resolution System (EPCRS) or any successor thereto. To the extent deemed necessary by the executive director to implement correction, the executive director may:

(1) make distributions;

(2) transfer assets; or

(3) recover an overpayment by reducing future benefit payments or designating appropriate revenue or source of funding that will restore to the plan the amount of the overpayment.

The intent of the legislature in sections 352.01, subdivision 25; 353.01, subdivision 37; 354.05, subdivision 38; and 354A.011, subdivision 15a is to create a normal retirement age for persons first covered by those sections after the effective date of those sections that is the same as the retirement age in the federal Social Security law, including future amendments to that law. The organization requesting the blind mailing shall pay all costs associated with these mailings, including but not limited to copying, labeling, mailing, postage, and record keeping. In lieu of administering a blind mailing in-house, a retirement system may transmit annuitant data necessary for conducting a blind mailing to a mail center pursuant to a secure data share agreement with the mail center which provides that neither the organization nor any other entity shall have direct access to the data transmitted by the retirement system. - (2) a statement that the person may petition the governing board of the covered pension plan for a review of the determination and that a person's petition for review must be filed in the administrative office of the covered pension plan no later than 60 days after the date of the written notice of determination;
- (3) a statement indicating that a failure to petition for review within 60 days precludes the person from any further administrative or judicial review of the executive director's determination;
- (4) a statement indicating that all relevant materials, documents, affidavits, and other records that the person wishes to be reviewed in support of the petition and a list of any witnesses who will testify before

the governing board, along with a summary of the witness' testimony, must be filed with the administrative office of the covered pension plan at least 15 days before the date of the hearing under subdivision 10 or as directed by the administrative law judge who conducts a fact-finding conference under subdivision 7, paragraph (b), or a contested case hearing under subdivision 12, paragraph (b);

(5) a summary of this section, including all filing requirements and deadlines; and

(6) the statement required under subdivision 4, paragraph (a), if applicable.

Subd. 4. Termination of benefits. (a) If the executive director's determination will terminate a benefit that is being paid to a person, the notice of determination must also state that the person has the opportunity to explain, in writing, in person, by telephone, or by email, the reasons that the benefit should not be terminated.

(b) If the notice of determination is returned as undeliverable and the person cannot be reached by any other reasonable means of communication and the executive director determines that a failure to terminate the benefit will result in unauthorized payment by a covered pension plan, the executive director may terminate the benefit immediately.

Subd. 5. Petition for review. (a) Upon receipt of the notice of determination required in subdivision 3, a person may petition the governing board of the covered pension plan for a review of the executive director's determination.

(b) The petitioner must file the petition for review with the administrative office of the covered pension plan no later than 60 days after the date of the notice of determination required by subdivision 3. Filing of the petition is effective upon mailing or personal delivery. The petition must include the petitioner's statement of the reason or reasons that the determination of the executive director should be reversed or modified.

Subd. 6. Failure to petition. If a timely petition for review under subdivision 5 is not filed with the administrative office of the covered pension plan, the executive director's determination is final and is not subject to further administrative or judicial review.

Subd. 7. Notice of hearing; fact-finding; filing and timing requirements. (a) After receiving a petition, the executive director must schedule a hearing to review the petition before the governing board of the covered pension plan or the executive director may defer the scheduling of a hearing until after a fact-finding conference under paragraph (b).

(b) The executive director may direct the petitioner to participate in a fact-finding conference conducted by an administrative law judge assigned by the Office of Administrative Hearings. The fact-finding conference is an informal proceeding not subject to Minnesota Rules, chapter 1400, except that Minnesota Rules, part 1400.7300, shall govern the admissibility of evidence and Minnesota Rules, part 1400.8603, shall govern how the fact-finding conference is conducted. The administrative law judge must issue a report and a recommendation to the governing board.

(c) If the petitioner's claim relates to disability benefits, the executive director may direct the petitioner to participate in a vocational assessment conducted by a qualified rehabilitation counselor under contract with the covered pension plan. The counselor must issue a report regarding the assessment to the governing board.

(d) Not less than 30 calendar days before the date scheduled for the hearing before the governing board, the executive director must notify the petitioner of the time and place of the meeting at which the governing board is scheduled to conduct the hearing. If there has been no fact-finding conference under paragraph (b),

not less than 15 days before the date scheduled for the hearing, the petitioner and the executive director must provide to the governing board and the other party copies of all documentary evidence that will be presented and a list of witnesses who will testify, along with a summary of their testimony.

(e) The petitioner may request a postponement of the date scheduled for the hearing before the governing board within a reasonable time, but no later than ten calendar days before the scheduled hearing date. A petitioner shall be granted only one postponement unless the applicable covered pension plan agrees to additional postponements.

Subd. 8. Record for review. (a) All evidence, including all records, documents, and affidavits in the possession of the covered pension plan of which the covered pension plan desires to avail itself and be considered by the governing board, and all evidence which the petitioner wishes to present to the governing board, including any evidence which would otherwise be classified by law as "private," must be made part of the hearing record.

(b) The executive director must provide a copy of the record to each member of the governing board at least five days before the scheduled hearing date.

(c) If a fact-finding conference under subdivision 7, paragraph (b), is not conducted, the record is limited to those materials provided to the petitioner in accordance with subdivision 7, paragraph (d), those filed by the petitioner with the covered pension plan in a timely manner in accordance with subdivision 7, paragraph (e), any vocational assessment report under subdivision 7, paragraph (c), and any testimony at the hearing before the governing board. Any additional evidence may be placed in the record pursuant to subdivision 10, paragraph (b).

(d) If a fact-finding conference under subdivision 7, paragraph (b), or a contested case hearing under subdivision 12, paragraph (b), is conducted, the record before the governing board must be limited to the following:

- (1) the record from the Office of Administrative Hearings;
- (2) seven-page submissions by the petitioner and a representative of the covered pension plan commenting on the administrative law judge's recommendation; and
- (3) any vocational assessment report under subdivision 7, paragraph (c).

Subd. 9. Amended determination. At any time before the hearing before the governing board, for good cause shown and made part of the records of the plan, the executive director may reverse, alter, amend, or modify the prior decision which is subject to review under this section by issuing an amended determination to the petitioner. Upon doing so, the executive director may cancel the governing board's scheduled review of the person's petition and notify the petitioner.

Subd. 10. Board hearing. (a) The governing board shall hold a timely hearing on a petition for review as part of a regularly scheduled board meeting, or as part of a special meeting if so scheduled. All governing board members who participate in the decision-making process must be familiar with the record. The governing board shall make its decision on a petition solely on the record as submitted and on the proceedings of the hearing.

(b) At the hearing, the petitioner, the petitioner's representative, if any, the executive director, and a representative of the covered pension plan who does not also serve as the governing board's legal advisor during the board's decision-making process may state and discuss with the governing board their positions with respect to the petition. If no fact-finding conference under subdivision 7, paragraph (b), or contested

case hearing under subdivision 12, paragraph (b), was conducted, additional evidence may be received in the form of testimony from previously disclosed witnesses. The governing board may allow further documentation to be placed in the record at the board meeting only with the agreement of both the executive director and the petitioner. The executive director may not otherwise participate in the board's decision-making process.

(c) If a petitioner who received timely notice of a scheduled hearing fails to appear, the governing board may nevertheless hear the petition and issue a decision.

(d) The governing board's decision shall be made upon a motion by a board member and approval by a majority of the governing board. The governing board must issue its decision as a written order containing findings of fact, conclusions of law, and the board's decision no later than 30 days after the hearing. If the decision is contrary to the petitioner's desired outcome, the notice must inform the petitioner of the appeal rights set forth in subdivision 13.

Subd. 11. Disability medical issues. If the petitioner seeks to reverse or modify a determination by the executive director that there was insufficient medical data to support an application for disability benefits, the governing board may reverse that determination only if there is medical evidence supporting the application. The governing board has the discretion to resubmit a disability benefit application at any time to a medical advisor for reconsideration, and the resubmission may include an instruction that further medical examinations be obtained.

Subd. 12. Referral for administrative hearing. (a) A fact-finding conference under subdivision 7, paragraph (b), must be conducted exclusively under the procedures set forth in this section and not as a contested case under chapter 14.

(b) A governing board, in its sole discretion, may refer a petition brought under this section to the Office of Administrative Hearings for a contested case hearing under sections 14.57 to 14.69.

Subd. 13. Appeal of the governing board's decision; judicial review. No later than 60 days after the date of the mailing of the notice of the governing board's decision, the petitioner may appeal the decision by filing a writ of certiorari with the court of appeals under section 606.01 and Rule 115 of the Minnesota Rules of Civil Appellate Procedure. Failure by a person to appeal to the court of appeals within the 60-day period precludes the person from later raising, in any subsequent administrative hearing or court proceeding, those substantive and procedural issues that reasonably should have been raised upon a timely appeal.

356.98 ALLOCATION OF RECEIVABLES.

If an employing unit is dissolved or closed and amounts are owed to more than one Minnesota public pension plan, any amounts available to cover payments to the plans must be applied first to the employee contributions owed to the applicable plans, and next to the unpaid employer contributions, including any applicable employer additional contributions, and finally to the interest due on the employee and employer amounts. If, at any stage in this allocation process, the available amount is insufficient to fully cover the amount required, the remaining available payment amount must be prorated among the applicable plans based on each plan's share of combined covered payroll.

356.99 CORRECTION OF ERRONEOUS DEFINED BENEFIT PLAN COVERAGE.

Subdivision 1. **Definitions.** (a) For purposes of this section, the terms in paragraphs (b) to (e) have the meanings given them.

(b) "Chief administrative officer" means the person selected or elected by the governing board of a covered pension plan with primary responsibility to administer the covered pension plan, or that person's designee or representative.

(c) "Covered pension plan" means a plan enumerated in section 356.30, subdivision 3, except clauses (3) and (5).

(d) "Governing board" means the governing board of the Minnesota State Retirement System, the Public Employees Retirement Association, the Teachers Retirement Association, or the St. Paul Teachers Retirement Fund Association.

(e) "Member" means an active plan member in a covered pension plan.

Subd. 2. **Treatment of terminated employee coverage error.** Any person who terminated the erroneously covered service before a chief administrative officer determined the covered pension plan coverage was in error retains the coverage with the plan that originally credited the service.

Subd. 3. **Active employee correction of prospective service coverage.** Upon determination by a chief administrative officer that a member is covered by the wrong pension plan, the employer must stop remitting the erroneous employee deductions and employer contributions and report the employee to the correct covered pension plan for all subsequent service.

Subd. 4. **Active employee treatment of past service.** Any plan member, with past service credited in an erroneous plan, retains the coverage for that past service with the plan that originally credited that service if the reporting error began earlier than two fiscal years prior to the current fiscal year in which the error was determined by the chief administrative officer. If the reporting error began within two fiscal years prior to the current fiscal year, the pension plan coverage for that past service must be corrected as provided in subdivision 5.

Subd. 5. **Past service transfer procedure.** (a) For cases under subdivision 4 requiring correction of prior service coverage, on behalf of the applicable member the chief administrative officer of the covered pension plan fund that has received erroneous employee deductions and employer contributions must transfer to the appropriate covered retirement plan fund an amount which is the lesser of all contributions made by or on behalf of the member for the period of erroneous membership, or the specific amount requested by

the chief administrative officer of the other covered pension plan which represents the employee deductions and employer contributions that would have been made had the member been properly reported.

(b) If excess employee deductions remain in the member's account after the transfer of funds, the remaining erroneous amount must be refunded to the person with interest at the rate provided under the general refund law of the applicable covered pension plan. The chief administrative officer must also return any remaining excess employer contributions by providing to the employer a credit against future contributions payable by that employer.

(c) If the contributions transferred to the correct covered pension plan fund are less than the amounts required for the period being corrected, the chief administrative officer of the correct covered pension plan fund must collect the remaining employee deductions and employer contributions from the employer under laws for recovering deficient contributions applicable to the correct covered pension plan, except that no interest is chargeable if the additional amounts due under this paragraph are received by the chief administrative officer within 30 days of notifying the employer of the amount due.

(d) A potential transfer under this section that would cause a plan to fail to be a qualified plan under section 401(a) of the Internal Revenue Code, as amended, must not be made. Within 30 days after being notified by a chief administrative officer of an unmade potential transfer under this section, the employer of the member must transmit an amount representing the applicable salary deductions and employer contributions, without interest, to the fund of the appropriate covered pension plan. The chief administrative officer of the covered pension plan which erroneously provided coverage must provide to the employer a credit for the amount of the erroneous salary deductions and employer contributions against future contributions from that employer.

(e) Upon transfer of the required assets, or payment from the employer under paragraph (d), whichever is applicable, allowable service and salary credit for the period being transferred is forfeited in the erroneous plan and is granted in the correct plan.
