The comprehensive development guide must recognize and encompass physical, social, or economic needs of the metropolitan area and those future developments which will have an impact on the entire area including but not limited to such matters as land use, climate mitigation and adaptation, parks and open space land needs, the necessity for and location of airports, highways, transit facilities, public hospitals, libraries, schools, and other public buildings.

(b) For the purposes of this section, "climate mitigation and adaptation" includes mitigation goals and strategies that meet or exceed the greenhouse gas emissions-reduction goals established by the state under section 216H.02, subdivision 1, and transportation targets established by the commissioner of transportation, including vehicle miles traveled reduction targets established in the statewide multimodal transportation plan under section 174.03, subdivision 1a, as well as plans and policies to address climate adaptation in the region.
