

**116.9407 PARTICIPATING IN INTERSTATE CHEMICALS CLEARINGHOUSE.**

The state may cooperate with other states in an interstate chemicals clearinghouse regarding chemicals in consumer products, including the classification of priority chemicals in commerce; organizing and managing available data on chemicals, including information on uses, hazards, risks, and environmental and health concerns; and producing and evaluating information on safer alternatives to specific uses of priority chemicals.

**History:** 2009 c 37 art 1 s 52
