121A.03 MODEL POLICY.

Subdivision 1. **Model policy.** The commissioner shall maintain and make available to school boards a model sexual, religious, and racial harassment and violence policy. The model policy shall address the requirements of subdivision 2, and may encourage violence prevention and character development education programs, consistent with section 120B.232, subdivision 1, to prevent and reduce policy violations.

Subd. 2. **Sexual, religious, and racial harassment and violence policy.** A school board must adopt a written sexual, religious, and racial harassment and sexual, religious, and racial violence policy that conforms with chapter 363A. The policy shall apply to pupils, teachers, administrators, and other school personnel, include reporting procedures, and set forth disciplinary actions that will be taken for violation of the policy. Disciplinary actions must conform with collective bargaining agreements and sections 121A.41 to 121A.56. The policy must be conspicuously posted throughout each school building, given to each district employee and independent contractor at the time of entering into the person's employment contract, and included in each school's student handbook on school policies. Each school must develop a process for discussing the school's sexual, religious, and racial harassment and violence policy with students and school employees.

Subd. 3. **Submission to commissioner.** Each school board must submit to the commissioner a copy of the sexual, religious, and racial harassment and sexual, religious, and racial violence policy the board has adopted.

121A.031 SCHOOL STUDENT BULLYING POLICY.

Subdivision 1. **Student bullying policy; scope and application.** (a) This section applies to bullying by a student against another student enrolled in a public school and which occurs:

(1) on the school premises, at the school functions or activities, or on the school transportation;

(2) by use of electronic technology and communications on the school premises, during the school functions or activities, on the school transportation, or on the school computers, networks, forums, and mailing lists; or

(3) by use of electronic technology and communications off the school premises to the extent such use substantially and materially disrupts student learning or the school environment.

(b) A nonpublic school under section 123B.41, subdivision 9, consistent with its school accreditation cycle, is encouraged to electronically transmit to the commissioner its antibullying policy, if any, and any summary data on its bullying incidents.

(c) This section does not apply to a home school under sections 120A.22, subdivision 4, and 120A.24, or a nonpublic school under section 123B.41, subdivision 9.

(d) A school-aged child who voluntarily participates in a public school activity, such as a cocurricular or extracurricular activity, is subject to the same student bullying policy provisions applicable to the public school students participating in the activity.

Subd. 2. **Definitions.** (a) For purposes of this section, the following terms have the meanings given them.

(b) "District" means a district under section 120A.05, subdivision 8.

(c) "Public school" or "school" means a public school under section 120A.05, subdivisions 9, 11, 13, and 17, and a charter school under chapter 124E.

(d) "Student" means a student enrolled in a school under paragraph (c).

(e) "Bullying" means intimidating, threatening, abusive, or harming conduct that is objectively offensive and:

(1) there is an actual or perceived imbalance of power between the student engaging in prohibited conduct and the target of the behavior and the conduct is repeated or forms a pattern; or

(2) materially and substantially interferes with a student's educational opportunities or performance or ability to participate in school functions or activities or receive school benefits, services, or privileges.

(f) "Cyberbullying" means bullying using technology or other electronic communication, including but not limited to a transfer of a sign, signal, writing, image, sound, or data, including a post on a social network Internet website or forum, transmitted through a computer, cell phone, or other electronic device.

(g) Intimidating, threatening, abusive, or harming conduct may involve, but is not limited to, conduct that causes physical harm to a student or a student's property or causes a student to be in reasonable fear of harm to person or property; under Minnesota common law, violates a student's reasonable expectation of privacy, defames a student, or constitutes intentional infliction of emotional distress against a student; is directed at any student or students, including those based on a person's actual or perceived race, ethnicity, color, creed, religion, national origin, immigration status, sex, marital status, familial status, socioeconomic status, physical appearance, sexual orientation, including gender identity and expression, academic status related to student performance, disability, or status with regard to public assistance, age, or any additional characteristic defined in chapter 363A. However, prohibited conduct need not be based on any particular characteristic defined in this paragraph or chapter 363A.

(h) "Prohibited conduct" means bullying or cyberbullying as defined under this subdivision or retaliation for asserting, alleging, reporting, or providing information about such conduct or knowingly making a false report about bullying.

(i) "Remedial response" means a measure to stop and correct prohibited conduct, prevent prohibited conduct from recurring, and protect, support, and intervene on behalf of the student who is the target of the prohibited conduct.

Subd. 3. Local district and school policy. (a) Districts and schools, in consultation with students, parents, and community organizations, to the extent practicable, shall adopt, implement, and, on a cycle consistent with other district policies, review, and revise where appropriate, a written policy to prevent and prohibit student bullying consistent with this section. The policy must conform with sections 121A.41 to 121A.56. A district or school must adopt and implement a local policy under subdivisions 3 to 5 or comply with the provisions of the state model policy in subdivision 6.

(b) Each local district and school policy must establish research-based, developmentally appropriate best practices that include preventive and remedial measures and effective discipline for deterring policy violations; apply throughout the school or district; and foster active student, parent, and community participation. The policy shall:

- (1) define the roles and responsibilities of students, school personnel, and volunteers under the policy;
- (2) specifically list the characteristics contained in subdivision 2, paragraph (g);
- (3) emphasize remedial responses;
- (4) be conspicuously posted in the administrative offices of the school and school district in summary form;
- (5) be given to each school employee and independent contractor, if a contractor regularly interacts with students, at the time of employment with the district or school;
- (6) be included in the student handbook on school policies; and
- (7) be available to all parents and other school community members in an electronic format in the languages appearing on the district or school website, consistent with the district policies and practices.

(c) Consistent with its applicable policies and practices, each district and school under this subdivision must discuss its policy with students, school personnel, and volunteers and provide appropriate training for all school personnel to prevent, identify, and respond to prohibited conduct. Districts and schools must establish a training cycle, not to exceed a period of three school years, for school personnel under this paragraph. Newly employed school personnel must receive the training within the first year of their employment with the district or school. A district or school administrator may accelerate the training cycle or provide additional training based on a particular need or circumstance.

(d) Each district and school under this subdivision must submit an electronic copy of its prohibited conduct policy to the commissioner.

Subd. 4. Local policy components. (a) Each district and school policy implemented under this section must, at a minimum:

- (1) designate a staff member as the primary contact person in the school building to receive reports of prohibited conduct under clause (3), ensure the policy and its procedures including restorative practices,

consequences, and sanctions are fairly and fully implemented, and serve as the primary contact on policy and procedural matters implicating both the district or school and the department;

(2) require school employees who witness prohibited conduct or possess reliable information that would lead a reasonable person to suspect that a student is a target of prohibited conduct to make reasonable efforts to address and resolve the prohibited conduct;

(3) provide a procedure to begin to investigate reports of prohibited conduct within three school days of the report, and make the primary contact person responsible for the investigation and any resulting record and for keeping and regulating access to any record;

(4) indicate how a school will respond to an identified incident of prohibited conduct, including immediately intervening to protect the target of the prohibited conduct; at the school administrator's discretion and consistent with state and federal data practices law governing access to data, including section 13.02, subdivision 8, a presumption that a district or school official will notify the parent of the reported target of the prohibited conduct and the parent of the actor engaged in the prohibited conduct; providing other remedial responses to the prohibited conduct; and ensuring that remedial responses are tailored to the particular incident and nature of the conduct and the student's developmental age and behavioral history;

(5) prohibit reprisals or retaliation against any person who asserts, alleges, or reports prohibited conduct or provides information about such conduct and establish appropriate consequences for a person who engages in reprisal or retaliation;

(6) allow anonymous reporting but do not rely solely on an anonymous report to determine discipline;

(7) provide information about available community resources to the target, actor, and other affected individuals, as appropriate;

(8) where appropriate for a child with a disability to prevent or respond to prohibited conduct, allow the child's individualized education program or section 504 plan to address the skills and proficiencies the child needs to respond to or not engage in prohibited conduct;

(9) use new employee training materials, the school publication on school rules, procedures, and standards of conduct, and the student handbook on school policies to publicize the policy;

(10) require ongoing professional development, consistent with section 122A.60, to build the skills of all school personnel who regularly interact with students, including but not limited to educators, administrators, school counselors, social workers, psychologists, other school mental health professionals, school nurses, cafeteria workers, custodians, bus drivers, athletic coaches, extracurricular activities advisors, and paraprofessionals to identify, prevent, and appropriately address prohibited conduct;

(11) allow the alleged actor in an investigation of prohibited conduct to present a defense; and

(12) inform affected students and their parents of their rights under state and federal data practices laws to obtain access to data related to the incident and their right to contest the accuracy or completeness of the data.

(b) Professional development under a local policy includes, but is not limited to, information about:

(1) developmentally appropriate strategies both to prevent and to immediately and effectively intervene to stop prohibited conduct;

(2) the complex dynamics affecting an actor, target, and witnesses to prohibited conduct;

(3) research on prohibited conduct, including specific categories of students at risk for prohibited conduct in school;

(4) the incidence and nature of cyberbullying; and

(5) Internet safety and cyberbullying.

Subd. 5. Safe and supportive schools programming. (a) Districts and schools are encouraged to provide developmentally appropriate programmatic instruction to help students identify, prevent, and reduce prohibited conduct; value diversity in school and society; develop and improve students' knowledge and skills for solving problems, managing conflict, engaging in civil discourse, and recognizing, responding to, and reporting prohibited conduct; and make effective prevention and intervention programs available to students. Districts and schools must establish strategies for creating a positive school climate and use evidence-based social-emotional learning to prevent and reduce discrimination and other improper conduct.

(b) Districts and schools are encouraged to:

(1) engage all students in creating a safe and supportive school environment;

(2) partner with parents and other community members to develop and implement prevention and intervention programs;

(3) engage all students and adults in integrating education, intervention, and other remedial responses into the school environment;

(4) train student bystanders to intervene in and report incidents of prohibited conduct to the school's primary contact person;

(5) teach students to advocate for themselves and others;

(6) prevent inappropriate referrals to special education of students who may engage in prohibited conduct; and

(7) foster student collaborations that foster a safe and supportive school climate.

Subd. 6. State model policy. (a) The commissioner, in consultation with the commissioner of human rights, shall develop and maintain a state model policy. A district or school that does not adopt and implement a local policy under subdivisions 3 to 5 must implement and may supplement the provisions of the state model policy. The commissioner must assist districts and schools under this subdivision to implement the state model policy. The state model policy must:

(1) define prohibited conduct, consistent with this section;

(2) apply the prohibited conduct policy components in this section;

(3) for a child with a disability, whenever an evaluation by an individualized education program team or a section 504 team indicates that the child's disability affects the child's social skills development or the child is vulnerable to prohibited conduct because of the child's disability, the child's individualized education program or section 504 plan may address the skills and proficiencies the child needs to not engage in and respond to such conduct; and

(4) encourage violence prevention and character development education programs under section 120B.232, subdivision 1.

(b) The commissioner shall develop and post departmental procedures for:

- (1) periodically reviewing district and school programs and policies for compliance with this section;
- (2) investigating, reporting, and responding to noncompliance with this section, which may include an annual review of plans to improve and provide a safe and supportive school climate; and
- (3) allowing students, parents, and educators to file a complaint about noncompliance with the commissioner.

(c) The commissioner must post on the department's website information indicating that when districts and schools allow non-curriculum-related student groups access to school facilities, the district or school must give all student groups equal access to the school facilities regardless of the content of the group members' speech.

(d) The commissioner must develop and maintain resources to assist a district or school in implementing strategies for creating a positive school climate and use evidence-based, social-emotional learning to prevent and reduce discrimination and other improper conduct.

Subd. 7. Relation to existing law. This section does not:

- (1) establish any private right of action;
- (2) limit rights currently available to an individual under other civil or criminal law, including, but not limited to, chapter 363A; or
- (3) interfere with a person's rights of religious expression and free speech and expression under the First Amendment of the United States Constitution.

121A.0312 MALICIOUS AND SADISTIC CONDUCT.

(a) For purposes of this section, "malicious and sadistic conduct" means creating a hostile learning environment by acting with the intent to cause harm by intentionally injuring another without just cause or reason or engaging in extreme or excessive cruelty or delighting in cruelty.

(b) A school board of a district or charter school must adopt a written policy to address malicious and sadistic conduct and sexual exploitation by a district or school staff member, independent contractor, or student enrolled in a public school against a staff member, independent contractor, or student that occurs as described in section 121A.031, subdivision 1, paragraph (a). The policy must prohibit:

(1) malicious and sadistic conduct involving race, color, creed, national origin, sex, age, marital status, status with regard to public assistance, disability, religion, sexual harassment, and sexual orientation and gender identity, as defined in chapter 363A; and

(2) sexual exploitation.

(c) The policy must apply to students, independent contractors, teachers, administrators, and other school personnel; must include at a minimum the components under section 121A.031, subdivision 4, paragraph (a); and must include disciplinary actions for each violation of the policy. Disciplinary actions must conform with collective bargaining agreements and sections 121A.41 to 121A.56.

(d) The policy must be conspicuously posted throughout each school building, distributed to each district or school employee and independent contractor at the time of hiring or contracting, and included in each school's student handbook on school policies. Each school must develop a process for discussing with students, parents of students, independent contractors, and school employees the policy adopted under this section.

121A.035 CRISIS MANAGEMENT POLICY.

Subdivision 1. **Model policy.** The commissioner shall maintain and make available to school boards and charter schools a model crisis management policy that includes, among other items, cardiac emergency response plans, school lock-down and tornado drills, consistent with subdivision 2, and school fire drills under section 299F.30.

Subd. 2. **School district and charter school policy.** (a) A school board and a charter school must adopt a crisis management policy to address potential violent crisis situations in the district or charter school. The policy must be developed cooperatively with administrators, teachers, employees, students, parents, community members, law enforcement agencies, other emergency management officials, county attorney offices, social service agencies, emergency medical responders, and any other appropriate individuals or organizations. The policy must include at least five school lock-down drills, five school fire drills consistent with section 299F.30, and one tornado drill.

(b) A school board or a charter school may adopt the model cardiac emergency response plan provided by the commissioner under subdivision 1.

121A.037 SCHOOL SAFETY DRILLS.

Private schools and educational institutions not subject to section 121A.035 must have at least five school lock-down drills, five school fire drills consistent with section 299F.30, and one tornado drill.

History: 2006 c 263 art 2 s 7

121A.038 STUDENT SAFETY DRILLS AT SCHOOL.

Subdivision 1. **Definitions.** (a) For the purposes of this section, the following terms have the meanings given.

(b) "Active shooter drill" means an emergency preparedness drill designed to teach students, teachers, school personnel, and staff how to respond in the event of an armed intruder on campus or an armed assailant

in the immediate vicinity of the school. An active shooter drill is not an active shooter simulation, nor may an active shooter drill include any sensorial components, activities, or elements which mimic a real life shooting.

(c) "Active shooter simulation" means an emergency exercise including full-scale or functional exercises, designed to teach adult school personnel and staff how to respond in the event of an armed intruder on campus or an armed assailant in the immediate vicinity of the school which also incorporates sensorial components, activities, or elements mimicking a real life shooting. Activities or elements mimicking a real life shooting include, but are not limited to, simulation of tactical response by law enforcement. An active shooter simulation is not an active shooter drill.

(d) "Evidence-based" means a program or practice that demonstrates any of the following:

(1) a statistically significant effect on relevant outcomes based on any of the following:

(i) strong evidence from one or more well designed and well implemented experimental studies;

(ii) moderate evidence from one or more well designed and well implemented quasi-experimental studies;

or

(iii) promising evidence from one or more well designed and well implemented correlational studies with statistical controls for selection bias; or

(2) a rationale based on high-quality research findings or positive evaluations that the program or practice is likely to improve relevant outcomes, including the ongoing efforts to examine the effects of the program or practice.

(e) "Full-scale exercise" means an operations-based exercise that is typically the most complex and resource-intensive of the exercise types and often involves multiple agencies, jurisdictions, organizations, and real-time movement of resources.

(f) "Functional exercise" means an operations-based exercise designed to assess and evaluate capabilities and functions while in a realistic, real-time environment, however, movement of resources is usually simulated.

Subd. 2. **Criteria.** An active shooter drill conducted according to section 121A.037 with students in early childhood through grade 12 must be:

(1) accessible;

(2) developmentally appropriate and age appropriate, including using appropriate safety language and vocabulary;

(3) culturally aware;

(4) trauma-informed; and

(5) inclusive of accommodations for students with mobility restrictions, sensory needs, developmental or physical disabilities, mental health needs, and auditory or visual limitations.

Subd. 3. **Student mental health and wellness.** Active shooter drill protocols must include a reasonable amount of time immediately following the drill for teachers to debrief with their students. The opportunity to debrief must be provided to students before regular classroom activity may resume. During the debrief period, students must be allowed to access any mental health services available on campus, including

counselors, school psychologists, social workers, or cultural liaisons. An active shooter drill must not be combined or conducted consecutively with any other type of emergency preparedness drill. An active shooter drill must be accompanied by an announcement prior to commencing. The announcement must use concise and age-appropriate language and, at a minimum, inform students there is no immediate danger to life and safety.

Subd. 4. **Notice.** (a) A school district or charter school must provide notice of a pending active shooter drill to every student's parent or legal guardian before an active shooter drill is conducted. Whenever practicable, notice must be provided at least 24 hours in advance of a pending active shooter drill and inform the parent or legal guardian of the right to opt their student out of participating.

(b) If a student is opted out of participating in an active shooter drill, no negative consequence must impact the student's general school attendance record nor may nonparticipation alone make a student ineligible to participate in or attend school activities.

(c) The commissioner of education must ensure the availability of alternative safety education for students who are opted out of participating or otherwise exempted from an active shooter drill. Alternative safety education must provide essential safety instruction through less sensorial safety training methods and must be appropriate for students with mobility restrictions, sensory needs, developmental or physical disabilities, mental health needs, and auditory or visual limitations.

Subd. 5. **Participation in active shooter drills.** Any student in early childhood through grade 12 must not be required to participate in an active shooter drill that does not meet the criteria in subdivision 2.

Subd. 6. **Active shooter simulations.** A student must not be required to participate in an active shooter simulation. An active shooter simulation must not take place during regular school hours if a majority of students are present, or expected to be present, at the school. A parent or legal guardian of a student in grades 9 through 12 must have the opportunity to opt their student into participating in an active shooter simulation.

Subd. 7. **Violence prevention.** (a) A school district or charter school conducting an active shooter drill must provide students in middle school and high school at least one hour, or one standard class period, of violence prevention training annually.

(b) The violence prevention training must be evidence-based and may be delivered in-person, virtually, or digitally. Training must, at a minimum, teach students the following:

(1) how to identify observable warning signs and signals of an individual who may be at risk of harming oneself or others;

(2) the importance of taking threats seriously and seeking help; and

(3) the steps to report dangerous, violent, threatening, harmful, or potentially harmful activity.

(c) By July 1, 2024, the commissioner of public safety and the commissioner of education must jointly develop a list of evidence-based trainings that a school district or charter school may use to fulfill the requirements of this section, including no-cost programming, if any. The agencies must:

(1) post the list publicly on the Minnesota School Safety Center's website; and

(2) update the list every two years.

(d) A school district or charter school must ensure that students have the opportunity to contribute to their school's safety and violence prevention planning, aligned with the recommendations for multihazard planning for schools, including but not limited to:

- (1) student opportunities for leadership related to prevention and safety;
- (2) encouragement and support to students in establishing clubs and programs focused on safety; and
- (3) providing students with the opportunity to seek help from adults and to learn about prevention connected to topics including bullying, sexual harassment, sexual assault, and suicide.

Subd. 8. **Board meeting.** At a regularly scheduled school board meeting, a school board of a district that has conducted an active shooter drill must consider the following:

- (1) the effect of active shooter drills on the safety of students and staff; and
- (2) the effect of active shooter drills on the mental health and wellness of students and staff.

History: 2023 c 55 art 2 s 23

121A.04 ATHLETIC PROGRAMS; SEX DISCRIMINATION.

Subdivision 1. **Purpose.** The legislature recognizes certain past inequities in access to athletic programs and in the various degrees of athletic opportunity previously afforded members of each sex, race, and ethnicity. The purpose of this section is to provide an equal opportunity for members of each sex and members of all races and ethnicities to participate in athletic programs.

Subd. 2. **Equal opportunity in athletic programs.** Each educational institution or public service shall provide equal opportunity for members of each sex and members of all races and ethnicities to participate in its athletic program. In determining whether equal opportunity to participate in athletic programs is available for the purposes of this section, at least the following factors shall be considered to the extent that they are applicable to a given situation: whether the opportunity for males and females to participate in the athletic program reflects the demonstrated interest in athletics of the males and females in the student body of the educational institution or the population served by the public service; whether the opportunity for members of all races and ethnicities to participate in the athletic program reflects the demonstrated interest in athletics of members of all races and ethnicities in the student body of the educational institution or the population served by the public service; whether the variety and selection of sports and levels of competition effectively accommodate the demonstrated interests of members of each sex; whether the variety and selection of sports and levels of competition effectively accommodate the demonstrated interests of members of all races and ethnicities; the provision of equipment and supplies; scheduling of games and practice times; assignment of coaches; provision of locker rooms; practice and competitive facilities; and the provision of necessary funds for teams of one sex.

Subd. 3. **Exceptions.** (a) Notwithstanding any other state law to the contrary, in athletic programs operated by educational institutions or public services and designed for participants 12 years old or older or in the 7th grade or above, it is not an unfair discriminatory practice to restrict membership on an athletic team to participants of one sex whose overall athletic opportunities have previously been limited.

(b) When an educational institution or a public service provides athletic teams for children 11 years old or younger or in the 6th grade or below, those teams shall be operated without restrictions on the basis of sex, except that when overall athletic opportunities for one sex have previously been limited and there is a

demonstrated interest by members of that sex to participate on a team restricted to members of that sex, the educational institution or public service may provide a team restricted to members of that sex.

(c) When two teams in the same sport are in fact separated or substantially separated according to sex, the two teams shall be provided with substantially equal budgets per participant, exclusive of gate receipts and other revenues generated by that sport, and in all other respects shall be treated in a substantially equal manner. However, nothing in this section shall be construed to require the two teams to conduct combined practice sessions or any other combined activities related to athletics.

(d) If two teams are provided in the same sport, one of these teams may be restricted to members of a sex whose overall athletic opportunities have previously been limited, and members of either sex shall be permitted to try out for the other team.

(e) Notwithstanding the provisions of paragraphs (a), (b), and (d), any wrestling team may be restricted to members of one sex whether or not the overall athletic opportunities of that sex have previously been limited, provided that programs or events are provided for each sex to the extent the educational institution or public service determines that these programs or events are necessary to accommodate the demonstrated interest of each sex to participate in wrestling.

Subd. 4. Provision of separate teams. When an equal opportunity to participate in the elementary or secondary school level athletic program of an educational institution or public service is not provided to members of a sex whose overall athletic opportunities have previously been limited, that educational institution or public service shall, where there is demonstrated interest, provide separate teams for members of the excluded sex in sports which it determines will provide members of that excluded sex with an equal opportunity to participate in its athletic program and which will attempt to accommodate their demonstrated interests.

Subd. 5. Rules. The commissioner of education, after consultation with the commissioner of human rights must promulgate rules in accordance with chapter 14 to implement this section to prevent discrimination in elementary and secondary school athletic programs operated by educational institutions. The rules promulgated by the commissioner pursuant to this section shall not require athletic competition or tournaments for teams whose membership may be restricted to members of a sex whose overall athletic opportunities have previously been limited to be scheduled in conjunction with the scheduling of athletic competition or tournaments for teams whose membership is not so restricted by this section. Any organization, association or league entered into by elementary or secondary schools or public services for the purpose of promoting sports or adopting rules and regulations for the conduct of athletic contests between members shall provide rules and regulations and conduct its activities so as to permit its members to comply fully with this section. The rules of that organization, association or league may provide separate seasons for athletic competition or tournaments in a sport for teams whose membership may be restricted to members of a sex whose overall athletic opportunities have previously been limited from athletic competition or tournaments established for teams in that same sport whose membership is not so restricted by this section, and its rules may prohibit a participating student from competing on more than one school team in a given sport during a single school year.

Subdivision 1. **School and child care facility immunization requirements.** Except as provided in subdivisions 3, 4, and 10, no person over two months old may be allowed to enroll or remain enrolled in any elementary or secondary school or child care facility in this state until the person has submitted to the administrator or other person having general control and supervision of the school or child care facility, one of the following statements:

Subd. 2. **Schedule of immunizations.** No person who has commenced a treatment schedule of immunization pursuant to subdivision 1, clause (2), may remain enrolled in any child care facility, elementary, or secondary school in this state after 18 months of enrollment unless there is submitted to the administrator, or other person having general control and supervision of the school or child care facility, a statement from a physician or a public clinic which provides immunizations that the person has completed the primary schedule of immunizations for diphtheria, tetanus, pertussis, polio, and hepatitis B. The statement must include the month and year of each additional immunization received. (d) If a notarized statement signed by the minor child's parent or guardian or by the emancipated person is submitted to the administrator or other person having general control and supervision of the school or child care facility stating that the person has not been immunized as prescribed in subdivision 1 because of the conscientiously held beliefs of the parent or guardian of the minor child or of the emancipated person, the immunizations specified in the statement shall not be required. This statement must also be forwarded to the commissioner of the Department of Health. This paragraph does not apply to a child enrolling or enrolled in a child care center or family child care program that adopts a policy under subdivision 3b.

Subd. 3a. **Disclosures required.** (a) This paragraph applies to any written information about immunization requirements for enrollment in a school or child care facility that:

(1) is provided to a person to be immunized or enrolling or enrolled in a school or child care facility, or to the person's parent or guardian if the person is under 18 years of age and not emancipated; and

(2) is provided by the Department of Health; the Department of Education; the Department of Children, Youth, and Families; an immunization provider; or a school or child care facility.

Such written information must describe the exemptions from immunizations permitted under subdivision 3, paragraphs (c) and (d). The information on exemptions from immunizations provided according to this paragraph must be in a font size at least equal to the font size of the immunization requirements, in the same font style as the immunization requirements, and on the same page of the written document as the immunization requirements.

(b) Before immunizing a person, an immunization provider must provide the person, or the person's parent or guardian if the person is under 18 years of age and not emancipated, with the following information in writing:

(1) a list of the immunizations required for enrollment in a school or child care facility;

(2) a description of the exemptions from immunizations permitted under subdivision 3, paragraphs (c) and (d);

If the statement is from a parent or guardian or emancipated person, the statement must indicate the month and year of each immunization given.

(b) In order for the statement to be acceptable for a person who is enrolling in an elementary school and who is six years of age or younger, it must indicate that the following was given: no less than one dose of vaccine each for measles, mumps, and rubella given separately or in combination; no less than four doses of vaccine for poliomyelitis, unless the third dose was given after the fourth birthday, then three doses are minimum; no less than five doses of vaccine for diphtheria, tetanus, and pertussis, unless the fourth dose was given after the fourth birthday, then four doses are minimum; and no less than three doses of vaccine for hepatitis B.

121A.201 MTSS AND COLLABORATIVE MINNESOTA PARTNERSHIPS TO ADVANCE STUDENT SUCCESS (COMPASS).

Beginning July 1, 2023, all Minnesota school districts and charter schools must be offered training and support in implementing MTSS through the Department of Education COMPASS team and the Department of Education's regional partners, the Minnesota Service Cooperatives. COMPASS is the state school improvement model providing a statewide system through which all districts and schools may receive support in the areas of literacy, math, social-emotional learning, and mental health within the MTSS framework. The MTSS framework is the state's systemic, continuous school improvement framework for ensuring positive social, emotional, behavioral, developmental, and academic outcomes for every student. MTSS provides access to layered tiers of culturally and linguistically responsive, evidence-based practices. The MTSS framework relies on the understanding and belief that every student can learn and thrive, and it engages an anti-bias and socially just approach to examining policies and practices and ensuring equitable distribution of resources and opportunity. The MTSS systemic framework requires:

- (1) a district-wide infrastructure consisting of effective leaders, collective efficacy among staff, positive school climate, linked teams, and professional learning that supports continuous improvement;
- (2) authentic engagement with families and communities to develop reciprocal relationships and build new opportunities for students together;
- (3) multilayered tiers of culturally and linguistically responsive instruction and support that allows every student the support they need to reach meaningful and rigorous learning standards. Tiers of support include core (Tier 1), supplemental (Tier 2), and intensive (Tier 3) instruction levels;
- (4) valid and reliable assessment tools and processes to assess student and system performance and inform necessary changes; and
- (5) a data-based decision-making approach in which problems are precisely defined and analyzed, solutions address root causes, and implementation is monitored to ensure success. The data-based problem-solving component of the MTSS framework consists of three major subcomponents: accessible and integrated data, decision-making process, and system performance.

The procedure must ensure that before the transportation of any prescription drug or medication under this subdivision, the school district shall make a reasonable attempt to return the unused prescription drug or medication to the student's parent or legal guardian. The procedure must provide that transportation of unclaimed or unused prescription drugs or medications occur at least annually, or more frequently as determined by the school district.

(b) If the unclaimed or abandoned prescription drug is not a controlled substance as defined under section 152.01, subdivision 4, or is an over-the-counter medication, the school district may designate an individual who shall be responsible for transporting the drug or medication to a designated drop-off box or collection site or may request that a law enforcement agency transport the drug or medication to a drop-off box or collection site on behalf of the school district.

The administration of an epinephrine auto-injector in accordance with this section is not the practice of medicine.

(b) Registered nurses may administer epinephrine auto-injectors in a school setting according to a condition-specific protocol as authorized under section 148.235, subdivision 8. Notwithstanding any limitation in sections 148.171 to 148.285, licensed practical nurses may administer epinephrine auto-injectors in a

school setting according to a condition-specific protocol that does not reference a specific patient and that specifies the circumstances under which the epinephrine auto-injector is to be administered, when caring for a patient whose condition falls within the protocol.

Subd. 2. **Arrangements with manufacturers.** A district or school may enter into arrangements with manufacturers of epinephrine auto-injectors to obtain epinephrine auto-injectors at fair-market, free, or reduced prices. A third party, other than a manufacturer or supplier, may pay for a school's supply of epinephrine auto-injectors.

If a district fails to develop and implement a program to prevent and reduce the risk of sexually transmitted infection and disease, the department must assist the service cooperative in the region serving that district to develop or implement the program.

Subd. 2. **Funding sources.** Districts may accept funds for sexually transmitted infection and disease prevention programs developed and implemented under this section from public and private sources including public health funds and foundations, department professional development funds, federal block grants or other federal or state grants.

Every public school, and every nonpublic school that participates in a school district chemical abuse program shall establish a chemical abuse preassessment team. The preassessment team must be composed of classroom teachers, administrators, and to the extent they exist in each school, school nurse, school counselor or psychologist, social worker, chemical abuse specialist, and other appropriate professional staff. The superintendents or their designees shall designate the team members in the public schools. Within 45 days after receiving an individual reported case, the preassessment team shall make a determination whether to provide the student and, in the case of a minor, the student's parents with information about school and community services in connection with chemical abuse. Data may be disclosed without consent in health and safety emergencies pursuant to section 13.32 and applicable federal law and regulations.

Notwithstanding section 138.163, destruction of records identifying individual students shall be governed by this section. If the preassessment team decides not to provide a student and, in the case of a minor, the student's parents with information about school or community services in connection with chemical abuse, records created or maintained by the preassessment team about the student shall be destroyed not later than six months after the determination is made. If the preassessment team decides to provide a student and, in the case of a minor, the student's parents with information about school or community services in connection with chemical abuse, records created or maintained by the preassessment team about the student shall be destroyed not later than six months after the student is no longer enrolled in the district.

The school principal or other person having general control and

supervision of the school must provide reasonable notice to a parent who has requested such notification prior to applying such pesticides. The notice may be waived for emergency applications required only by appropriate state or local health officials. The notice must include the pesticide to be applied, the time of the planned application, and the location at the school of the planned application. A school may request reimbursement for the school's reasonable costs of providing notice under this subdivision, including any costs of mailing, from individuals requesting notification under this subdivision.

The Department of Health must provide an opportunity for environmental groups, interested parents, public health organizations, and other parties to work with the department in developing the model notice.

Subd. 8. **Plan.** A school is not required to adopt an integrated pest management plan. A school board may only notify students, parents, or employees that it has adopted an integrated pest management plan if the plan is a managed pest control program designed to minimize the risk to human health and the environment and to reduce the use of chemical pesticides, and which ranks the district's response to pests in the following manner:

- (1) identifying pests which need to be controlled;
- (2) establishing tolerable limits of each identified pest;
- (3) designing future buildings and landscapes to prevent identified pests;
- (4) excluding identified pests from sites and buildings using maintenance practices;
- (5) adapting cleaning activities and best management practices to minimize the number of pests;

121A.335 LEAD IN SCHOOL DRINKING WATER.

Subdivision 1. **Model plan.** The commissioners of health and education shall jointly develop a model plan to require school districts to accurately and efficiently test for the presence of lead in water in public school buildings serving students in kindergarten through grade 12. To the extent possible, the commissioners shall base the plan on the standards established by the United States Environmental Protection Agency. The plan may be based on the technical guidance in the Department of Health's document, "Reducing Lead in Drinking Water: A Technical Guidance for Minnesota's School and Child Care Facilities." The plan must include recommendations for remediation efforts when testing reveals the presence of lead at or above five parts per billion.

Subd. 2. **School plans.** (a) By July 1, 2018, the board of each school district or charter school must adopt the commissioners' model plan or develop and adopt an alternative plan to accurately and efficiently test for the presence of lead in water in school buildings serving prekindergarten students and students in kindergarten through grade 12.

(b) By July 1, 2024, a school district or charter school must revise its plan to include its policies and procedures for ensuring consistent water quality throughout the district's or charter school's facilities. The plan must document the routine water management strategies and procedures used in each building or facility to maintain water quality and reduce exposure to lead. A district or charter school must base the plan on the United States Environmental Protection Agency's "Ensuring Drinking Water Quality in Schools During and After Extended Closures" fact sheet and the United States Environmental Protection Agency's "3Ts Toolkit for Reducing Lead in Drinking Water in Schools and Child Care Facilities" manual. A district or charter school's plan must be publicly available upon request.

Subd. 3. **Frequency of testing.** (a) The plan under subdivision 2 must include a testing schedule for every building serving prekindergarten through grade 12 students. The schedule must require that each building be tested at least once every five years. A school district or charter school must begin testing school buildings by July 1, 2018, and complete testing of all buildings that serve students within five years.

(b) A school district or charter school that finds lead at a specific location providing cooking or drinking water within a facility must formulate, make publicly available, and implement a plan that is consistent with established guidelines and recommendations to ensure that student exposure to lead is reduced to below five parts per billion as verified by a retest. This includes, when a school district or charter school finds the presence of lead at or above five parts per billion in any water fixture that can provide cooking or drinking water, immediately shutting off the water fixture or making it unavailable until the hazard has been remediated as verified by a retest.

(c) A school district or charter school must test for the presence of lead after completing remediation activities required under this section to confirm that the water contains lead at a level below five parts per billion.

Subd. 4. **Ten-year facilities plan.** A school district may include lead testing and remediation as a part of its ten-year facilities plan under section 123B.595.

Subd. 5. **Reporting.** (a) A school district or charter school must send parents an annual notice that includes the district's or charter school's annual testing and remediation plan, information about how to find test results, and a description of remediation efforts on the district website. The district or charter school must update the lead testing and remediation information on its website at least annually. In addition to the annual notice, the district or charter school must include in an official school handbook or official school policy guide information on how parents may find the test results and a description of remediation efforts on the district or charter school website and how often this information is updated.

(b) If a test conducted under subdivision 3, paragraph (a), reveals the presence of lead at or above five parts per billion, the school district or charter school must, within 30 days of receiving the test result, either remediate the presence of lead to below five parts per billion, verified by retest, or directly notify parents of the test result.

(c) Starting July 1, 2024, school districts and charter schools must report their test results and remediation activities to the commissioner of health in the form and manner determined by the commissioner in consultation with school districts and charter schools, by July 1 of each year. The commissioner of health must post and annually update the test results and remediation efforts on the department website by school site.

(d) A district or charter school must maintain a record of lead testing results and remediation activities for at least 15 years.

Subd. 6. **Public water systems.** (a) A district or charter school is not financially responsible for remediation of documented elevated lead levels in drinking water caused by the presence of lead infrastructure owned by a public water supply utility providing water to the school facility, such as lead service lines, meters, galvanized service lines downstream of lead, or lead connectors. The district or charter school must communicate with the public water system regarding its documented significant contribution to lead contamination in school drinking water and request from the public water system a plan for reducing the lead contamination.

(b) If the infrastructure is jointly owned by a district or charter school and a public water supply utility, the district or charter school must attempt to coordinate any needed replacements of lead service lines with the public water supply utility.

(c) A district or charter school may defer its remediation activities under this section until after the elevated lead level in the public water system's infrastructure is remediated and postremediation testing does

not detect an elevated lead level in the drinking water that passes through that infrastructure. A district or charter school may also defer its remediation activities if the public water supply exceeds the federal Safe Drinking Water Act lead action level or is in violation of the Safe Drinking Water Act Lead and Copper Rule.

Subd. 7. **Commissioner recommendations.** By January 1, 2026, and every five years thereafter, the commissioner of health must report to the legislative committees having jurisdiction over health and kindergarten through grade 12 education any recommended changes to this section. The recommendations must be based on currently available scientific evidence regarding the effects of lead in drinking water.

Subd. 4. **Exclusion.** "Exclusion" means an action taken by the school board to prevent enrollment or reenrollment of a pupil for a period that shall not extend beyond the school year.

Subd. 5. **Expulsion.** "Expulsion" means a school board action to prohibit an enrolled pupil from further attendance for up to 12 months from the date the pupil is expelled.

Subd. 6. **Parent.** "Parent" means (a) one of the pupil's parents, (b) in the case of divorce or legal separation, the parent or parents with physical custody of the pupil, including a noncustodial parent with legal custody who has provided the district with a current address and telephone number, or (c) a legally appointed guardian. In the case of a pupil with a disability under the age of 18, parent may include a district-appointed surrogate parent.

Subd. 7. **Pupil.** (a) "Pupil" means any student:

- (1) without a disability under 21 years of age; or
- (2) with a disability under 22 years old who has not received a regular high school diploma; and
- (3) who remains eligible to attend a public elementary or secondary school.

(b) A "student with a disability" or a "pupil with a disability" has the same meaning as a "child with a disability" under section 125A.02.

Subd. 8. **School.** "School" means any school defined in section 120A.05, subdivisions 9, 11, 13, and 17. "School" also means a charter school.

Subd. 9. **School board.** "School board" means the governing body of any school district.

Subd. 10. **Suspension.** "Suspension" means an action by the school administration, under rules promulgated by the school board, prohibiting a pupil from attending school for a period of no more than ten school days. If a suspension is longer than five days, the suspending administrator must provide the superintendent with a reason for the longer suspension. This definition does not apply to dismissal from school for one school day or less, except as provided in federal law for a student with a disability. Each suspension action may include a readmission plan. The readmission plan shall include, where appropriate, a provision for implementing alternative educational services upon readmission and may not be used to extend the current suspension. Consistent with section 125A.091, subdivision 5, the readmission plan must

not obligate a parent to provide a sympathomimetic medication for the parent's child as a condition of readmission. The school administration may not impose consecutive suspensions against the same pupil for the same course of conduct, or incident of misconduct, except where the pupil will create an immediate and substantial danger to self or to surrounding persons or property, or where the district is in the process of initiating an expulsion, in which case the school administration may extend the suspension to a total of 15 school days.

Subd. 11. **Alternative educational services.** "Alternative educational services" may include, but are not limited to, special tutoring, modified curriculum, modified instruction, other modifications or adaptations, instruction through electronic media, special education services as indicated by appropriate assessment, homebound instruction, supervised homework, or enrollment in another district or in an alternative learning center under section 123A.05 selected to allow the pupil to progress toward meeting graduation standards under section 120B.02, although in a different setting.

Subd. 12. **Nonexclusionary disciplinary policies and practices; alternatives to pupil removal and dismissal.** "Nonexclusionary disciplinary policies and practices" means policies and practices that are alternatives to dismissing a pupil from school, including but not limited to evidence-based positive behavior interventions and supports, social and emotional services, school-linked mental health services, counseling services, social work services, academic screening for Title 1 services or reading interventions, and alternative education services. Nonexclusionary disciplinary policies and practices include but are not limited to the policies and practices under sections 120B.12; 121A.575, clauses (1) and (2); 121A.031, subdivision 4, paragraph (a), clause (1); 121A.61, subdivision 3, paragraph (r); and 122A.627, clause (3).

Subd. 13. **Pupil withdrawal agreement.** "Pupil withdrawal agreement" means a verbal or written agreement between a school administrator or district administrator and a pupil's parent to withdraw a student from the school district to avoid expulsion or exclusion dismissal proceedings. The duration of the withdrawal agreement cannot be for more than a 12-month period.

History: 1974 c 572 s 3; 1998 c 397 art 9 s 26

121A.425 FULL AND EQUITABLE PARTICIPATION IN EARLY LEARNING.

Subdivision 1. **Disciplinary dismissals prohibited.** (a) A pupil enrolled in the following is not subject to dismissals under this chapter:

(1) a preschool or prekindergarten program, including an early childhood family education, school readiness, school readiness plus, voluntary prekindergarten, Head Start, or other school-based preschool or prekindergarten program; or

(2) kindergarten through grade 3.

(b) This provision does not apply to a dismissal from school for less than one school day, except as provided under chapter 125A and federal law for a student receiving special education services.

(c) Notwithstanding this subdivision, expulsions and exclusions may be used only after resources outlined in subdivision 2 have been exhausted, and only in circumstances where there is an ongoing serious safety threat to the child or others.

Subd. 2. **Nonexclusionary discipline.** For purposes of this section, nonexclusionary discipline must include at least one of the following:

(1) collaborating with the pupil's family or guardian, child mental health consultant or provider, education specialist, or other community-based support;

(2) creating a plan, written with the parent or guardian, that details the action and support needed for the pupil to fully participate in the current educational program, including a preschool or prekindergarten program; or

121A.43 EXCLUSION AND EXPULSION OF PUPILS WITH A DISABILITY.

(a) Consistent with federal law governing days of removal and section 121A.46, school personnel may suspend a child with a disability. When a child with a disability has been suspended for more than five consecutive school days or ten cumulative school days in the same school year, and that suspension does not involve a recommendation for expulsion or exclusion or other change of placement under federal law, relevant members of the child's individualized education program team, including at least one of the child's teachers, shall meet and determine the extent to which the child needs services in order to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals in the child's individualized education program. That meeting must occur as soon as possible, but no more than ten days after the sixth consecutive day of suspension or the tenth cumulative day of suspension has elapsed.

(b) A dismissal for one school day or less is a day or a partial day of suspension if the child with a disability does not receive regular or special education instruction during that dismissal period. The notice requirements under section 121A.46 do not apply to a dismissal of one day or less.

(c) A child with a disability shall be provided alternative educational services to the extent a suspension exceeds five consecutive school days.

(d) Before initiating an expulsion or exclusion under sections 121A.40 to 121A.56, the district, relevant members of the child's individualized education program team, and the child's parent shall, consistent with federal law, determine whether the child's behavior was caused by or had a direct and substantial relationship to the child's disability and whether the child's conduct was a direct result of a failure to implement the child's individualized education program. When a child with a disability who has an individualized education program is excluded or expelled under sections 121A.40 to 121A.56 for misbehavior that is not a manifestation

of the child's disability, the district shall continue to provide special education and related services during the exclusion or expulsion.

121A.44 EXPULSION FOR POSSESSION OF FIREARM.

(a) Notwithstanding the time limitation in section 121A.41, subdivision 5, a school board must expel for a period of at least one year a pupil who is determined to have brought a firearm to school except the board may modify this expulsion requirement for a pupil on a case-by-case basis. For the purposes of this section, firearm is as defined in United States Code, title 18, section 921.

(b) Notwithstanding chapter 13, a student's expulsion or withdrawal or transfer from a school after an expulsion action is initiated against the student for a weapons violation under paragraph (a) may be disclosed by the school district initiating the expulsion proceeding. Unless the information is otherwise public, the disclosure may be made only to another school district in connection with the possible admission of the student to the other district.

121A.45 GROUNDS FOR DISMISSAL.

Subdivision 1. **Provision of alternative programs.** No school shall dismiss any pupil without attempting to use nonexclusionary disciplinary policies and practices before dismissal proceedings or pupil withdrawal agreements, except where it appears that the pupil will create an immediate and substantial danger to self or to surrounding persons or property.

Subd. 2. **Grounds for dismissal.** A pupil may be dismissed on any of the following grounds:

(a) willful violation of any reasonable school board regulation. Such regulation must be clear and definite to provide notice to pupils that they must conform their conduct to its requirements;

(b) willful conduct that significantly disrupts the rights of others to an education, or the ability of school personnel to perform their duties, or school sponsored extracurricular activities; or

(c) willful conduct that endangers the pupil or other pupils, or surrounding persons, including school district employees, or property of the school.

Subd. 3. **Parent notification and meeting.** If a pupil's total days of removal from school exceeds ten cumulative days in a school year, the school district shall make reasonable attempts to convene a meeting with the pupil and the pupil's parent or guardian before subsequently removing the pupil from school and, with the permission of the parent or guardian, arrange for a mental health screening for the pupil. The district is not required to pay for the mental health screening. The purpose of this meeting is to attempt to determine the pupil's need for assessment or other services or whether the parent or guardian should have the pupil assessed or diagnosed to determine whether the pupil needs treatment for a mental health disorder.

121A.46 SUSPENSION PROCEDURES.

Subdivision 1. **Informal administrative conference before suspension.** The school administration shall not suspend a pupil from school without an informal administrative conference with the pupil. The informal administrative conference shall take place before the suspension, except where it appears that the pupil will create an immediate and substantial danger to self or to surrounding persons or property, in which case the conference shall take place as soon as practicable following the suspension.

Subd. 2. **Administrator notifies pupil of grounds for suspension.** At the informal administrative conference, a school administrator shall notify the pupil of the grounds for the suspension, provide an explanation of the evidence the authorities have, and the pupil may present the pupil's version of the facts.

Subd. 3. **Written notice of grounds for suspension.** A written notice containing the grounds for suspension, a brief statement of the facts, a description of the testimony, a readmission plan, and a copy of sections 121A.40 to 121A.56, shall be personally served upon the pupil at or before the time the suspension is to take effect, and upon the pupil's parent or guardian by mail within 48 hours of the conference. The district shall make reasonable efforts to notify the parents of the suspension by telephone as soon as possible following suspension. In the event a pupil is suspended without an informal administrative conference on the grounds that the pupil will create an immediate and substantial danger to surrounding persons or property, the written notice shall be served upon the pupil and the pupil's parent or guardian within 48 hours of the suspension. Service by mail is complete upon mailing.

Subd. 4. **Provision of alternative education services; suspension pending expulsion or exclusion hearing.** (a) Alternative education services must be provided to a pupil who is suspended for more than five consecutive school days.

(b) Notwithstanding the provisions of subdivisions 1 and 3, the pupil may be suspended pending the school board's decision in the expulsion or exclusion hearing; provided that alternative educational services are implemented to the extent that suspension exceeds five consecutive school days.

Subd. 5. **Minimum education services.** School administration must allow a suspended pupil the opportunity to complete all school work assigned during the period of the pupil's suspension and to receive full credit for satisfactorily completing the assignments. The school principal or other person having administrative control of the school building or program is encouraged to designate a district or school employee as a liaison to work with the pupil's teachers to allow the suspended pupil to (1) receive timely course materials and other information, and (2) complete daily and weekly assignments and receive teachers' feedback.

121A.47 EXCLUSION AND EXPULSION PROCEDURES.

Subdivision 1. **Requiring a hearing; pupil may waive hearing.** No exclusion or expulsion shall be imposed without a hearing, unless the right to a hearing is waived in writing by the pupil and parent or guardian. The action shall be initiated by the school board or its agent.

Subd. 2. **Written notice.** Written notice of intent to take action shall:

- (a) be served upon the pupil and the pupil's parent or guardian personally or by mail;
- (b) contain a complete statement of the facts, a list of the witnesses and a description of their testimony;

(c) state the date, time, and place of the hearing;

(e) describe the nonexclusionary disciplinary practices accorded the pupil in an attempt to avoid the expulsion proceedings; and

(f) inform the pupil and parent or guardian of the right to:

(1) have a representative of the pupil's own choosing, including legal counsel, at the hearing. The district must advise the pupil's parent or guardian that free or low-cost legal assistance may be available and that a legal assistance resource list is available from the Department of Education and is posted on their website;

(2) examine the pupil's records before the hearing;

(3) present evidence; and

(4) confront and cross-examine witnesses.

Subd. 3. **Hearing schedule.** The hearing shall be scheduled within ten days of the service of the written notice unless an extension, not to exceed five days, is requested for good cause by the school board, pupil, parent or guardian.

Subd. 4. **Convenient time and place of hearing.** The hearing shall be at a time and place reasonably convenient to pupil, parent or guardian.

Subd. 5. **Closed or open hearing.** The hearing shall be closed unless the pupil, parent or guardian requests an open hearing.

Subd. 6. **Impartial hearer.** The hearing shall take place before:

(1) an independent hearing officer;

(2) a member of the school board;

(3) a committee of the school board; or

(4) the full school board;

as determined by the school board. The hearing shall be conducted in a fair and impartial manner.

Subd. 7. **Creating hearing record.** The school board shall record the hearing proceedings at district expense, and a party may obtain a transcript at its own expense. Testimony shall be given under oath. The hearing officer or a member of the school board shall have the power to issue subpoenas and administer oaths.

Subd. 8. **Access to pupil's records.** At a reasonable time prior to the hearing, the pupil, parent or guardian, or representative, shall be given access to all public school system records pertaining to the pupil, including any tests or reports upon which the proposed action may be based.

Subd. 9. **Pupil's right to compel testimony.** The pupil, parent or guardian, or representative, shall have the right to compel the attendance of any official employee or agent of the public school system or any public employee or any other person who may have evidence upon which the proposed action may be based, and to confront and to cross-examine any witness testifying for the public school system.

Subd. 10. **Pupil's right to present evidence and testimony.** The pupil, parent or guardian, or representative, shall have the right to present evidence and testimony, including expert psychological or educational testimony.

Subd. 11. **Pupil not compelled to testify.** The pupil cannot be compelled to testify in the dismissal proceedings.

Subd. 12. **Hearer's recommendation limited to evidence at hearing; service within two days.** The recommendation of the hearing officer or school board member or committee shall be based solely upon substantial evidence presented at the hearing and must be made to the school board and served upon the parties within two days of the end of the hearing.

Subd. 13. **Basis of school board decision; opportunity for comment.** The school board shall base its decision upon the recommendation of the hearing officer or school board member or committee and shall render its decision at a meeting held within five days after receiving the recommendation. The school board may provide the parties with the opportunity to present exceptions and comments to the hearing officer's recommendations provided that neither party presents any evidence not admitted at the hearing. The decision by the school board must be based on the record, must be in writing, and must state the controlling facts on which the decision is made in sufficient detail to apprise the parties and the commissioner of education of the basis and reason for the decision.

Subd. 14. **Admission or readmission plan.** (a) A school administrator must prepare and enforce an admission or readmission plan for any pupil who is excluded or expelled from school. The plan must include measures to improve the pupil's behavior, which may include completing a character education program, consistent with section 120B.232, subdivision 1, social and emotional learning, counseling, social work services, mental health services, referrals for special education or 504 evaluation, and evidence-based academic interventions. The plan must include reasonable attempts to obtain parental involvement in the admission or readmission process, and may indicate the consequences to the pupil of not improving the pupil's behavior.

(b) The definition of suspension under section 121A.41, subdivision 10, does not apply to a student's dismissal from school for less than one school day, except as provided under federal law for a student with a disability. Each suspension action may include a readmission plan. A readmission plan must provide, where appropriate, alternative education services, which must not be used to extend the student's current suspension period. Consistent with section 125A.091, subdivision 5, a readmission plan must not obligate a parent or guardian to provide psychotropic drugs to their student as a condition of readmission. School officials must not use the refusal of a parent or guardian to consent to the administration of psychotropic drugs to their student or to consent to a psychiatric evaluation, screening or examination of the student as a ground, by itself, to prohibit the student from attending class or participating in a school-related activity, or as a basis of a charge of child abuse, child neglect or medical or educational neglect.

All written submissions by the respondent must be submitted and served on the appellant within ten days of its actual receipt of the written submissions of the appellant. The decision of the school board must be implemented during the appeal to the commissioner.

In an appeal under this section, the commissioner may affirm the decision of the agency, may remand the decision for additional findings, or may reverse or modify the decision if the substantial rights of the petitioners have been prejudiced because the administrative findings, inferences, conclusions, or decisions are:

121A.55 POLICIES TO BE ESTABLISHED.

(a) The commissioner of education must promulgate guidelines to assist each school board. Each school board must establish uniform criteria for dismissal and adopt written policies and rules to effectuate the purposes of sections 121A.40 to 121A.56. The policies must include nonexclusionary disciplinary policies and practices consistent with section 121A.41, subdivision 12, and must emphasize preventing dismissals

through early detection of problems. The policies must be designed to address students' inappropriate behavior from recurring.

(b) The policies must recognize the continuing responsibility of the school for the education of the pupil during the dismissal period.

(c) The school is responsible for ensuring that alternative educational services, if the pupil wishes to take advantage of them, must be adequate to allow the pupil to make progress toward meeting the graduation standards adopted under section 120B.02 and help prepare the pupil for readmission in accordance with section 121A.46, subdivision 5.

(d) For expulsion and exclusion dismissals and pupil withdrawal agreements as defined in section 121A.41, subdivision 13:

(1) for a pupil who remains enrolled in the district or is awaiting enrollment in a new district, a school district's continuing responsibility includes reviewing the pupil's schoolwork and grades on a quarterly basis to ensure the pupil is on track for readmission with the pupil's peers. A school district must communicate on a regular basis with the pupil's parent or guardian to ensure that the pupil is completing the work assigned through the alternative educational services as defined in section 121A.41, subdivision 11. These services are required until the pupil enrolls in another school or returns to the same school;

(e) An area learning center under section 123A.05 may not prohibit an expelled or excluded pupil from enrolling solely because a district expelled or excluded the pupil. The board of the area learning center may use the provisions of the Pupil Fair Dismissal Act to exclude a pupil or to require an admission plan.

(f) Each school district shall develop a policy and report it to the commissioner on the appropriate use of peace officers and crisis teams to remove students who have an individualized education program from school grounds.

121A.61 DISCIPLINE AND REMOVAL OF STUDENTS FROM CLASS.

Subdivision 1. **Required policy.** Each school board must adopt a written districtwide school discipline policy which includes written rules of conduct for students, minimum consequences for violations of the rules, and grounds and procedures for removal of a student from class. The policy must contain the discipline complaint procedure that any member of the school community may use to file a complaint regarding the application of discipline policies and seek corrective action. The policy must be developed in consultation with administrators, teachers, employees, pupils, parents, community members, law enforcement agencies, county attorney offices, social service agencies, and such other individuals or organizations as the board determines appropriate. A school site council may adopt additional provisions to the policy subject to the approval of the school board.

Subd. 2. **Grounds for removal from class.** The policy must establish the various grounds for which a student may be removed from a class in the district for a period of time under the procedures specified in the policy. The policy must include a procedure for notifying and meeting with a student's parent or guardian to discuss the problem that is causing the student to be removed from class after the student has been removed from class more than ten times in one school year. The grounds in the policy must include at least the following provisions as well as other grounds determined appropriate by the board:

(a) willful conduct that significantly disrupts the rights of others to an education, including conduct that interferes with a teacher's ability to teach or communicate effectively with students in a class or with the ability of other students to learn;

(b) willful conduct that endangers surrounding persons, including school district employees, the student or other students, or the property of the school; and

(c) willful violation of any rule of conduct specified in the discipline policy adopted by the board.

Subd. 3. **Policy components.** The policy must include at least the following components:

(a) rules governing student conduct and procedures for informing students of the rules;

(b) the grounds for removal of a student from a class;

(c) the authority of the classroom teacher to remove students from the classroom pursuant to procedures and rules established in the district's policy;

(d) the procedures for removal of a student from a class by a teacher, school administrator, or other school district employee;

(e) the period of time for which a student may be removed from a class, which may not exceed five class periods for a violation of a rule of conduct;

(f) provisions relating to the responsibility for and custody of a student removed from a class;

(g) the procedures for return of a student to the specified class from which the student has been removed;

(h) the procedures for notifying a student and the student's parents or guardian of violations of the rules of conduct and of resulting disciplinary actions;

(i) any procedures determined appropriate for encouraging early involvement of parents or guardians in attempts to improve a student's behavior;

(j) any procedures determined appropriate for encouraging early detection of behavioral problems;

(k) any procedures determined appropriate for referring a student in need of special education services to those services;

(l) any procedures determined appropriate for ensuring victims of bullying who respond with behavior not allowed under the school's behavior policies have access to a remedial response, consistent with section 121A.031;

(m) the procedures for consideration of whether there is a need for a further assessment or of whether there is a need for a review of the adequacy of a current individualized education program of a student with a disability who is removed from class;

(n) procedures for detecting and addressing chemical abuse problems of a student while on the school premises;

(o) the minimum consequences for violations of the code of conduct;

(r) an agreement regarding procedures to coordinate crisis services to the extent funds are available with the county board responsible for implementing sections 245.487 to 245.4889 for students with a serious

emotional disturbance or other students who have an individualized education program whose behavior may be addressed by crisis intervention;

(s) a provision that states a student must be removed from class immediately if the student engages in assault or violent behavior. For purposes of this paragraph, "assault" has the meaning given it in section 609.02, subdivision 10. The removal shall be for a period of time deemed appropriate by the principal, in consultation with the teacher;

(t) a prohibition on the use of exclusionary practices for early learners as defined in section 121A.425; and

(u) a prohibition on the use of exclusionary practices to address attendance and truancy issues.

Subd. 4. Discipline complaint procedure. The discipline policy must contain procedures for students, parents and other guardians, and school staff to file a complaint and seek corrective action when the requirements of sections 121A.40 to 121A.61, including the implementation of the local behavior and discipline policies, are not being implemented appropriately or are being discriminately applied. Each district and school policy implemented under this section must, at a minimum:

(1) provide procedures for communicating this policy including the ability for a parent to appeal a decision under section 121A.49 that contains explicit instructions for filing the complaint;

(2) provide an opportunity for involved parties to submit additional information related to the complaint;

(3) provide a procedure to begin to investigate complaints within three school days of receipt, and identify personnel who will manage the investigation and any resulting record and are responsible for keeping and regulating access to any record;

(4) provide procedures for issuing a written determination to the complainant that addresses each allegation and contains findings and conclusions;

(5) if the investigation finds the requirements of sections 121A.40 to 121A.61, including any local policies that were not implemented appropriately, contain procedures that require a corrective action plan to correct a student's record and provide relevant staff with training, coaching, or other accountability practices to ensure appropriate compliance with policies in the future; and

(6) prohibit reprisals or retaliation against any person who asserts, alleges, or reports a complaint, and provide procedures for applying appropriate consequences for a person who engages in reprisal or retaliation.

Subd. 5. School supports. (a) A school board is strongly encouraged to adopt a policy that promotes the understanding in school staff that when a student is unable to meet adult expectations it is often because the student lacks the skills to respond to a situation appropriately. A school district must support school staff in using tiered interventions that teach students skills and prioritize relationships between students and teachers.

(b) A school board is strongly encouraged to adopt a policy that discourages teachers and staff from reacting to unwanted student behavior with approaches that take away the student's opportunity to build skills for responding more appropriately.

121A.611 RECESS AND OTHER BREAKS.

(c) A school district or charter school must not use recess detention unless:

(1) a student causes or is likely to cause serious physical harm to other students or staff;

(2) the student's parent or guardian specifically consents to the use of recess detention; or

(3) for students receiving special education services, the student's individualized education program team has determined that withholding recess is appropriate based on the individualized needs of the student.

(d) A school district or charter school must not withhold recess from a student based on incomplete schoolwork.

(e) A school district or charter school must require school staff to make a reasonable attempt to notify a parent or guardian within 24 hours of using recess detention.

(f) A school district or charter school must compile information on each recess detention at the end of each school year, including the student's age, grade, gender, race or ethnicity, and special education status. This information must be available to the public upon request. A school district or charter school is encouraged to use the data in professional development promoting the use of nonexclusionary discipline.

(b) A school must provide a minimum of eight hours of paid orientation or professional development annually to all paraprofessionals, Title I aides, and other instructional support staff.

(c) Six of the eight hours must be completed before the first instructional day of the school year or within 30 days of hire.

(d) The orientation or professional development must be relevant to the employee's occupation and may include collaboration time with classroom teachers and planning for the school year.

(e) For paraprofessionals who provide direct support to students, at least 50 percent of the professional development or orientation must be dedicated to meeting the requirements of this section. Professional development for paraprofessionals may also address the requirements of section 120B.363, subdivision 3.

(e) In addition to the amounts under paragraph (d), for fiscal year 2026 only, the commissioner must pay each school an additional amount equal to 33.33 percent of the amount in paragraph (d). The school must use these funds either for paraprofessional test preparation and exam fees under subdivision 1, paragraph (g), or additional training under subdivision 1, paragraph (b).

Subdivision 1. **Policy.** It is the policy of the state of Minnesota that:

"School lockers are the property of the school district. At no time does the school district relinquish its exclusive control of lockers provided for the convenience of students. Inspection of the interior of lockers may be conducted by school authorities for any reason at any time, without notice, without student consent, and without a search warrant. The personal possessions of students within a school locker may be searched only when school authorities have a reasonable suspicion that the search will uncover evidence of a violation of law or school rules. As soon as practicable after the search of a student's personal possessions, the school authorities must provide notice of the search to students whose lockers were searched unless disclosure would impede an ongoing investigation by police or school officials."

Subd. 2. **Dissemination.** The locker policy must be disseminated to parents and students in the way that other policies of general application to students are disseminated. A copy of the policy must be provided to a student the first time that the student is given the use of a locker.

- (2) the student's parent or guardian.

(c) If a student is removed from school as part of the disposition order, the superintendent of the student's school district or chief administrative officer of the student's school must maintain the copy of the order in a secure file and shall notify the principal when the student is returned to school. If the student is returned to a different school district or school, the student's probation officer must send a copy of the disposition order to the superintendent of the new school district or the chief administrative officer of the new school.

(d) The disposition order must be included if the student's permanent education record is released to another school district or educational entity to which the student is transferring under section 120A.22, subdivision 7.

(e) Notwithstanding section 138.17, a disposition order received under section 260B.171, subdivision 3, paragraph (a), must be destroyed when the student graduates from school or at the end of the school year in which the student reaches age 23, whichever is earlier. A disposition order received under section 260B.171, subdivision 3, paragraph (b), must be destroyed when the student is discharged from probation.

The principal must place the notice in the student's educational record. The principal must immediately notify any teacher, counselor, or administrator directly supervising the student who the principal believes needs the data to work with the student in an appropriate manner, to avoid being needlessly vulnerable, or to protect other persons from needless vulnerability. The principal may also notify other district employees, substitutes, or volunteers who are in direct contact with the student if the principal determines these individuals need the data to work with the juvenile in an appropriate manner, to avoid being needlessly vulnerable, or to protect other persons from needless vulnerability. When provided in the peace officer notice, the notice from the principal must identify the student and describe the alleged offense.

(b) Data received under this subdivision are private data on individuals under section 13.32 and are received for the limited purpose of serving the student's educational needs and protecting students or staff. The teacher, counselor, staff member, administrator, substitute, or volunteer must not further disseminate the data, except to communicate with the student or the student's parent or guardian as needed to serve the student, protect students or staff, or as otherwise required by law.

(c) The principal must include the notice in the student's educational record as required by section 120A.22, subdivision 7.

(d) If the county attorney determines not to proceed with a petition alleging any offense in section 260B.171, subdivision 3, paragraph (a), clauses (1) to (3), or directs the student into a diversion or mediation program, the county attorney must notify the superintendent of the student's school district who must immediately transmit the notice to the principal of the school the student attends, or to the principal of the school that the student attends if there is no superintendent. The notice must contain the name of the student and a summary of the resolution of the case. Notwithstanding section 138.17, the principal must delete the peace officer's report and notice from the student's educational record and destroy the data and make reasonable efforts to notify any teacher, counselor, staff member, administrator, substitute, or volunteer who received data from the peace officer notice.

(e) If the juvenile court makes a decision on a petition that alleges any offense in section 260B.171, subdivision 3, paragraph (a), clauses (1) to (3), and the decision affects a student and is not a disposition order, the court must notify the superintendent of the student's school district who must immediately transmit

the notice to the principal of the school the student attends, or to the principal of the school that the student attends if there is no superintendent, of the decision. Notwithstanding section 138.17, the principal must delete the peace officer's report and notice from the student's educational record and destroy the data and make reasonable efforts to notify any teacher, counselor, staff member, administrator, substitute, or volunteer who received data from the peace officer notice.
