PUBLIC FUNDING

135A.01 FUNDING POLICY.

It is the policy of the legislature to provide stable funding for public postsecondary institutions and that the state and students share the cost of public postsecondary education. The legislature intends to provide at least 67 percent of the combined revenue from tuition, the university fee at the University of Minnesota,

and state general fund appropriations to public postsecondary institutions. It is also the policy of the legislature that the budgetary process serves to support high quality public postsecondary education.

History: 1983 c 258 s 29; 1Sp1985 c 11 s 14; 1994 c 532 art 3 s 1; 2007 c 144 art 2 s 3

135A.011 STATE HIGHER EDUCATION OBJECTIVES.

Minnesota's higher education investment is made in pursuit of the following objectives: (1) to ensure quality by providing a level of excellence that is competitive on a national and international level, through high quality teaching, scholarship, and learning in a broad range of arts and sciences, technical education, and professional fields; (2) to foster student success by enabling and encouraging students to choose institutions and programs that are best suited for their talents and abilities, and to provide an educational climate that supports students in pursuing their goals and aspirations; (3) to promote democratic values and enhance Minnesota's quality of life by developing understanding and appreciation of a free and diverse society; (4) to maintain access by providing an opportunity for all Minnesotans, regardless of personal circumstances, to participate in higher education; and (5) to enhance the economy by assisting the state in being competitive in the world market, and to prepare a highly skilled and adaptable workforce that meets Minnesota's opportunities and needs.

History: 2007 c 144 art 2 s 4

135A.012 HIGHER EDUCATION ATTAINMENT GOAL.

Subdivision 1. **Purpose.** This section sets a goal for postsecondary education and workforce training credential attainment for Minnesota residents.

Subd. 2. **Postsecondary credentials.** The number of Minnesota residents ages 25 to 44 years who hold postsecondary or industry-recognized credentials should be increased to at least 70 percent by 2025.

Subd. 3. **Rights not created.** The attainment goal in this section is not to the exclusion of any other goals and does not confer a right or create a claim for any person.

Subd. 4. **Data development and analyses.** The Office of Higher Education shall work with the state demographer's office to measure progress towards the attainment of the goal specified in subdivision 2. The United States Census Bureau data shall be used to calculate the number of individuals in the state who hold a postsecondary degree. The Office of Higher Education, demographer's office, the Department of Employment and Economic Development, and the Department of Labor and Industry shall develop a methodology to estimate the number of individuals that hold a credential awarded by a postsecondary institution or recognized by an industry authority as their highest credential using data available at the time that the analysis is completed.

Subd. 5. **Reporting.** (a) Beginning in 2016 and every year thereafter, the Office of Higher Education, in collaboration with the state demographer's office, shall, by October 15, report to the chairs and ranking minority members of the legislative committees with primary jurisdiction over higher education policy and finance on the progress towards meeting or exceeding the goal of this section.

(b) Meeting and maintaining the goal of 70 percent of Minnesota residents ages 25 to 44 years holding a postsecondary or industry-recognized credential will likely be difficult without achieving attainment rates that are comparable across all race and ethnicity groups. The Office of Higher Education shall utilize

benchmarks of 30 percent or higher and 50 percent or higher to report progress by race and ethnicity groups toward meeting the educational attainment rate goal of 70 percent.

135A.031 APPROPRIATIONS.

Subdivision 1. **Determination of appropriation.** The appropriations for the University of Minnesota and the Minnesota State Colleges and Universities are determined by considering the biennial budget documents submitted under section 135A.034, performance in advancing the objectives under section 135A.011, available resources according to the state budget forecast, the relative balance between state support for students and public postsecondary institutions, and other factors the legislature considers important in determining the level of state appropriations for public postsecondary education.

An institution may request documentation as part of the interactive process to establish accommodations for the student with a disability.

(b) The following documentation submitted by an admitted or enrolled student is sufficient documentation for the interactive process to establish reasonable accommodations for a student with a disability:

(1) documentation that the individual has had an individualized education program (IEP). The institution of higher education may request additional documentation from an individual who has had an IEP if the IEP was not in effect immediately before the date when the individual exited high school;

(2) documentation that the individual has received services or accommodations under a section 504 plan. The institution of higher education may request additional documentation from an individual who has received services or accommodations provided to the individual under a section 504 plan if the section 504 plan was not in effect immediately before the date when the individual exited high school;

(3) documentation of a plan or record of service for the individual from a private school, a local educational agency, a state educational agency, or an institution of higher education provided under a section 504 plan or in accordance with the Americans with Disabilities Act of 1990;

The reasonable accommodations and disability resources available to students are individualized and not limited to the list.

(1) before the beginning of each academic term, offer an opportunity for admitted students to self-identify as having a disability for which they may request an accommodation. The person or office responsible for arranging accommodations at the institution must initiate contact with any student who has self-identified under this clause. This does not preclude a student from requesting an accommodation for a disability at any other time;

(2) not require a student to be reevaluated for or submit documentation to prove the presence of a permanent disability if the student previously provided proof of their disability status and is not requesting any new accommodations;

(3) provide the student's accommodation letter to the student's instructors, if the student gives affirmative permission to share the information, and, if requested by the student, facilitate communication between the student and the student's instructors;

A withdrawing state shall be liable for any obligations which it may have incurred on account of its party status up to the effective date of withdrawal, except that if the withdrawing state has specifically undertaken or committed itself to any performance of an obligation extending beyond the effective date of withdrawal, it shall remain liable to the extent of such obligation.
