If the child's parents or guardians do not reside in this state, the cost shall be paid by the responsible governmental agency in the state from which the child came, by the parents or guardians of the child if they are financially able, or, if no other payment source is available, by the commissioner of human services.

Reimbursement by the parents or guardians shall be made to the county making any payments for services.

(b) Notwithstanding paragraph (a), the county board may require payment of the full cost of caring for children whose parents or guardians do not reside in this state.

252.275 SEMI-INDEPENDENT LIVING SERVICES FOR PERSONS WITH DEVELOPMENTAL DISABILITIES.

Subdivision 1. **Program.** The commissioner of human services shall establish a statewide program to provide support for persons with developmental disabilities to live as independently as possible in the community. An objective of the program is to reduce unnecessary use of intermediate care facilities for persons with developmental disabilities and home and community-based services. The commissioner shall reimburse county boards for semi-independent living services provided by agencies or individuals that meet the applicable standards of sections 245A.01 to 245A.16 and 252.28, and for the provision of onetime living allowances to secure and furnish a home for a person who will receive semi-independent living services under this section, if other public funds are not available for the allowance.

For the purposes of this section, "semi-independent living services" means training and assistance in managing money, preparing meals, shopping, maintaining personal appearance and hygiene, and other activities which are needed to maintain and improve an adult with developmental disability's capability to live in the community. Eligible persons:

(1) must be age 18 or older;

(2) must be unable to function independently without semi-independent living services; and

(3) must not be at risk of placement in an intermediate care facility for persons with developmental disabilities in the absence of less restrictive services.

Semi-independent living services costs and onetime living allowance costs may be paid directly by the county, or may be paid by the recipient with a voucher or cash issued by the county.

Subd. 1a. **Service requirements.** The methods, materials, and settings used to provide semi-independent living services to a person must be designed to:

(1) increase the person's independence in performing tasks and activities by teaching skills that reduce dependence on caregivers;

(2) provide training in an environment where the skill being taught is typically used;

(3) increase the person's opportunities to interact with nondisabled individuals who are not paid caregivers;

(4) increase the person's opportunities to use community resources and participate in community activities, including recreational, cultural, and educational resources, stores, restaurants, religious services, and public transportation;

(5) increase the person's opportunities to develop decision-making skills and to make informed choices in all aspects of daily living, including:

(i) selection of service providers;

(ii) goals and methods;

(iii) location and decor of residence;

(iv) roommates;

(v) daily routines;

(vi) leisure activities; and

(vii) personal possessions;

(6) provide daily schedules, routines, environments and interactions similar to those of nondisabled individuals of the same chronological age; and

(7) comply with section 245.825, subdivision 1.

Subd. 2. [Repealed, 1991 c 292 art 6 s 59]

Subd. 3. **Reimbursement.** Counties shall be reimbursed for all expenditures made pursuant to subdivision 1 at a rate of 85 percent, up to the allocation determined pursuant to subdivisions 4 and 4b. However, the commissioner shall not reimburse costs of services for any person if the costs exceed the state share of the average medical assistance costs for services provided by intermediate care facilities for a person with a developmental disability for the same fiscal year, and shall not reimburse costs of a onetime living allowance for any person if the costs exceed \$1,500 in a state fiscal year. The commissioner may make payments to each county in quarterly installments. The commissioner may certify an advance of up to 25 percent of the allocation. Subsequent payments shall be made on a reimbursement basis for reported expenditures and may be adjusted for anticipated spending patterns.

Subd. 4. **Formula.** The commissioner shall allocate funds on a calendar year basis. Beginning with the calendar year in the 1996 grant period, funds shall be allocated first in amounts equal to each county's guaranteed floor according to subdivision 4b, with any remaining available funds allocated based on each county's portion of the statewide expenditures eligible for reimbursement under this section during the 12 months ending on June 30 of the preceding calendar year.

If the legislature appropriates funds for special purposes, the commissioner may allocate the funds based on proposals submitted by the counties to the commissioner in a format prescribed by the commissioner. Nothing in this section prevents a county from using other funds to pay for additional costs of semi-independent living services.

Subd. 4a. [Repealed, 1995 c 207 art 3 s 23]

Subd. 4b. **Guaranteed floor.** Each county shall have a guaranteed floor equal to the lesser of clause (1) or (2):

(1) the county's original allocation for the preceding year; or

(2) 70 percent of the county's reported expenditures eligible for reimbursement during the 12 months ending on June 30 of the preceding calendar year.

Notwithstanding this subdivision, no county shall be allocated a guaranteed floor of less than \$1,000.

When the amount of funds available for allocation is less than the amount available in the previous year, each county's previous year allocation shall be reduced in proportion to the reduction in the statewide funding, to establish each county's guaranteed floor.

Subd. 4c. **Review of funds; reallocation.** After each quarter, the commissioner shall review county program expenditures. The commissioner may reallocate unexpended money at any time among those counties which have earned their full allocation.

Subd. 5. [Repealed, 2007 c 147 art 7 s 76]

Subd. 6. **Rules.** The commissioner may adopt rules in accordance with chapter 14 to govern allocation, reimbursement, and compliance.

Subd. 7. **Reports.** The commissioner shall specify requirements for reports, including quarterly fiscal and annual program reports, according to section 256.01, subdivision 2, paragraph (o).

Subd. 8. **Use of federal funds and transfer of funds to medical assistance.** (a) The commissioner shall make every reasonable effort to maximize the use of federal funds for semi-independent living services.

(b) The commissioner shall reduce the payments to be made under this section to each county from January 1, 1994, to June 30, 1996, by the amount of the state share of medical assistance reimbursement for services other than residential services provided under the home and community-based waiver program under section 256B.092 from January 1, 1994 to June 30, 1996, for clients for whom the county is financially responsible and who have been transferred by the county from the semi-independent living services program to the home and community-based waiver program. Unless otherwise specified, all reduced amounts shall be transferred to the medical assistance state account.

(c) For fiscal year 1997, the base appropriation available under this section shall be reduced by the amount of the state share of medical assistance reimbursement for services other than residential services provided under the home and community-based waiver program authorized in section 256B.092 from January 1, 1995, to December 31, 1995, for persons who have been transferred from the semi-independent living services program to the home and community-based waiver program. The base appropriation for the medical assistance state account shall be increased by the same amount.

(d) For purposes of calculating the guaranteed floor under subdivision 4b and to establish the calendar year 1996 allocations, each county's original allocation for calendar year 1995 shall be reduced by the amount transferred to the state medical assistance account under paragraph (b) during the six months ending on June 30, 1995. For purposes of calculating the guaranteed floor under subdivision 4b and to establish the calendar year 1997 allocations, each county's original allocation for calendar year 1996 shall be reduced by the amount transferred to the state medical assistance account under paragraph (b) during the six months ending on December 31, 1995.

Subd. 9. **Compliance.** If a county board or provider under contract with a county board to provide semi-independent living services does not comply with this section and the rules adopted by the commissioner of human services under this section, including the reporting requirements, the commissioner may recover, suspend, or withhold payments.

252.28 COMMISSIONER OF HUMAN SERVICES; DUTIES.

Subdivision 1. MS 2020 [Repealed, 2021 c 30 art 13 s 84]

Subd. 2. **Rules; program standards; licenses.** The commissioner of human services shall:

(1) Establish uniform rules and program standards for each type of residential and day facility or service for persons with developmental disabilities, including state hospitals under control of the executive board and serving persons with developmental disabilities, and excluding persons with developmental disabilities residing with their families.

(2) Grant licenses according to the provisions of Laws 1976, chapter 243, sections 2 to 13.

Subd. 3. **Licensing determinations.** (a) No new license shall be granted pursuant to this section when the issuance of the license would substantially contribute to an excessive concentration of community residential facilities within any town, municipality or county of the state.

(b) In determining whether a license shall be issued pursuant to this subdivision, the commissioner of human services shall specifically consider the population, size, land use plan, availability of community services and the number and size of existing public and private community residential facilities in the town, municipality or county in which a licensee seeks to operate a residence. Under no circumstances may the commissioner newly license any facility pursuant to this section except as provided in section 245A.11. The commissioner of human services shall establish uniform rules to implement the provisions of this subdivision.

(c) Licenses for community facilities and services shall be issued pursuant to section 245.821.

(d) No new license shall be granted for a residential program that provides home and community-based waived services to more than four individuals at a site, except as authorized by the commissioner for emergency situations that would result in the placement of individuals into regional treatment centers. Such licenses shall not exceed 24 months.

(e) The commissioner shall not approve a determination of need application that requests that an existing residential program license under chapter 245D be modified in a manner that would result in the issuance of two or more licenses for the same residential program at the same location.

Subd. 3a. **Licensing exception.** (a) Notwithstanding the provisions of subdivision 3, the commissioner may license service sites, each accommodating up to six residents moving from a 48-bed intermediate care facility for persons with developmental disabilities located in Dakota County that is closing under section 252.292.

(b) Notwithstanding the provisions of any other state law or administrative rule, the rate provisions of section 256I.05, subdivision 1, apply to the exception in this subdivision.

(c) If a service site is licensed for six persons according to this subdivision, the capacity of the license may remain at six persons.

Subd. 3b. **Olmsted County licensing exemption.** (a) Notwithstanding subdivision 3, the commissioner may license service sites each accommodating up to five residents moving from a 43-bed intermediate care facility for persons with developmental disabilities located in Olmsted County that is closing under section 252.292.

(b) Notwithstanding the provisions of any other state law or administrative rule, the rate provisions of section 256I.05, subdivision 1, apply to the exception in this subdivision.

(c) If a service site is licensed for five persons according to this subdivision, the capacity of the license may remain at five persons.

Subd. 4. **Rules; decertification of beds.** The commissioner shall promulgate in rule criteria for decertification of beds in intermediate care facilities for persons with developmental disabilities, and shall encourage providers in voluntary decertification efforts. The commissioner shall not recommend to the commissioner of health the involuntary decertification of an intermediate care facility for beds for persons with developmental disabilities prior to the availability of appropriate services for those residents affected by the decertification. The commissioner of health shall decertify those intermediate care beds determined to be not needed by the commissioner of human services.

252.282 ICF/DD LOCAL SYSTEM NEEDS PLANNING.

Subdivision 1. **Host county responsibility.** (a) This section does not apply to semi-independent living services and residential-based habilitation services funded as home and community-based services.

(b) In collaboration with the commissioner and ICF/DD providers, counties shall complete a local system needs planning process for each ICF/DD facility. Counties shall evaluate the preferences and needs of persons with developmental disabilities to determine resource demands through a systematic assessment and planning process by May 15, 2000, and by July 1 every two years thereafter beginning in 2001.

(c) A local system needs planning process shall be undertaken more frequently when the needs or preferences of consumers change significantly to require reformation of the resources available to persons with developmental disabilities.

(d) A local system needs plan shall be amended anytime recommendations for modifications to existing ICF/DD services are made to the host county, including recommendations for:

- (1) closure;
- (2) relocation of services;

(3) downsizing; or

(4) modification of existing services for which a change in the framework of service delivery is advocated.

Subd. 1a. **Definitions.** (a) For purposes of this section, the terms in this subdivision have the meanings given.

(b) "Local system needs planning" means the determination of need for ICF/DD services by program type, location, demographics, and size of licensed services for persons with developmental disabilities or related conditions.

(c) "Related condition" has the meaning given in section 256B.02, subdivision 11.

Subd. 2. **Consumer needs and preferences.** In conducting the local system needs planning process, the host county must use information from the individual service plans of persons for whom the county is financially responsible and of persons from other counties for whom the county has agreed to be the host county. The determination of services and supports offered within the county shall be based on the preferences and needs of consumers. The host county shall also consider the community social services plan, waiting lists, and other sources that identify unmet needs for services. A review of ICF/DD facility licensing and certification surveys, substantiated maltreatment reports, and established service standards shall be employed to assess the performance of providers and shall be considered in the county's recommendations. Continuous quality improvement goals as well as consumer satisfaction surveys may also be considered in this process.

Subd. 3. **Recommendations.** (a) Upon completion of the local system needs planning assessment, the host county shall make recommendations by May 15, 2000, and by July 1 every two years thereafter beginning in 2001. If no change is recommended, a copy of the assessment along with corresponding documentation shall be provided to the commissioner by July 1 prior to the contract year.

(b) Recommendations for closures, relocations, and downsizings that do not include a rate increase and for modification of existing services for which a change in the framework of service delivery is necessary shall be provided to the commissioner by July 1 prior to the contract year or at least 90 days prior to the anticipated change, along with the assessment and corresponding documentation.

Subd. 4. [Repealed, 2007 c 133 art 2 s 13]

Subd. 5. **Responsibilities of commissioner.** (a) In collaboration with counties and providers, the commissioner shall ensure that services recognize the preferences and needs of persons with developmental disabilities and related conditions through a recurring systemic review and assessment of ICF/DD facilities within the state.

252.29 [Repealed, 1976 c 149 s 63]

252.291 LIMITATION ON DETERMINATION OF NEED.

Subdivision 1. **Moratorium.** Notwithstanding any law or rule to the contrary, the commissioner of human services shall deny any request for a determination of need and refuse to grant a license pursuant to section 245A.02 for any new intermediate care facility for persons with developmental disabilities or for an

increase in the licensed capacity of an existing facility except as provided in this subdivision and subdivision 2. The total number of certified intermediate care beds for persons with developmental disabilities in community facilities and state hospitals shall not exceed 7,000 beds except that, to the extent that federal authorities disapprove any applications of the commissioner for home and community-based waivers under United States Code, title 42, section 1396n, as amended through December 31, 1987, the commissioner may authorize new intermediate care beds, as necessary, to serve persons with developmental disabilities who would otherwise have been served under a proposed waiver. "Certified bed" means an intermediate care bed for persons with developmental disabilities certified by the commissioner of health for the purposes of the medical assistance program under United States Code, title 42, sections 1396 to 1396p, as amended through December 31, 1987.

Subd. 2. **Exceptions.** (a) The commissioner of human services in coordination with the commissioner of health may approve a newly constructed or newly established publicly or privately operated community intermediate care facility for six or fewer persons with developmental disabilities only when:

(1) the facility is developed in accordance with a request for proposal approved by the commissioner of human services;

(2) the facility is necessary to serve the needs of identified persons with developmental disabilities who are seriously behaviorally disordered or who are seriously physically or sensorily impaired. No more than 40 percent of the capacity specified in the proposal submitted to the commissioner must be used for persons being discharged from regional treatment centers; and

(3) the commissioner determines that the need for increased service capacity cannot be met by the use of alternative resources or the modification of existing facilities.

(b) The percentage limitation in paragraph (a), clause (2), does not apply to state-operated, community-based facilities.

Subd. 2a. **Exception for Lake Owasso project.** (a) The commissioner shall authorize and grant a license under chapter 245A to a new intermediate care facility for persons with developmental disabilities effective January 1, 2000, under the following circumstances:

(1) the new facility replaces an existing 64-bed intermediate care facility for the developmentally disabled located in Ramsey County;

(2) the new facility is located upon a parcel of land contiguous to the parcel upon which the existing 64-bed facility is located;

(3) the new facility is comprised of no more than eight twin home style buildings and an administration building;

(4) the total licensed bed capacity of the facility does not exceed 64 beds; and

(5) the existing 64-bed facility is demolished.

(b) The medical assistance payment rate for the new facility shall be the higher of the rate specified in paragraph (c) or as otherwise provided by law.

(c) The new facility shall be considered a newly established facility for rate setting purposes and shall be eligible for the investment per bed limit specified in section 256B.501, subdivision 11, paragraph (c), and the interest expense limitation specified in section 256B.501, subdivision 11, paragraph (d).

Notwithstanding section 256B.5011, the newly established facility's initial payment rate shall be set according to Minnesota Rules, part 9553.0075.

(d) During the construction of the new facility, Ramsey County shall work with residents, families, and service providers to explore all service options open to current residents of the facility.

Subd. 2b. **Nicollet County facility project.** The commissioner of health shall certify one additional bed in an intermediate care facility for persons with developmental disabilities in Nicollet County.

Subd. 3. **Duties of commissioner of human services.** The commissioner shall:

(1) establish standard admission criteria for state hospitals and county utilization targets to limit and reduce the number of intermediate care beds in state hospitals and community facilities in accordance with approved waivers under United States Code, title 42, sections 1396 to 1396p, as amended through December 31, 1987, to assure that appropriate services are provided in the least restrictive setting;

(2) define services, including respite care, that may be needed in meeting individual service plan objectives;

(3) provide technical assistance so that county boards may establish a request for proposal system for meeting individual service plan objectives through home and community-based services; alternative community services; or, if no other alternative will meet the needs of identifiable individuals for whom the county is financially responsible, a new intermediate care facility for persons with developmental disabilities;

(4) establish a client tracking and evaluation system as required under applicable federal waiver regulations, Code of Federal Regulations, title 42, sections 431, 435, 440, and 441, as amended through December 31, 1987; and

(5) develop a state plan for the delivery and funding of residential day and support services to persons with developmental disabilities in Minnesota. The biennial developmental disability plan shall include but not be limited to:

(i) county by county maximum intermediate care bed utilization quotas;

(ii) plans for the development of the number and types of services alternative to intermediate care beds;

(iii) procedures for the administration and management of the plan;

(iv) procedures for the evaluation of the implementation of the plan; and

(v) the number, type, and location of intermediate care beds targeted for decertification.

The commissioner shall modify the plan to ensure conformance with the medical assistance home and community-based services waiver.

Subd. 4. **Monitoring.** The commissioner of human services, in coordination with the commissioner of health, shall implement mechanisms to monitor and analyze the effect of the bed moratorium in the different geographic areas of the state. The commissioner of human services shall submit to the legislature annually beginning January 15, 1984, an assessment of the impact of the moratorium by geographic areas.

Subd. 5. **Rulemaking.** The commissioner of human services shall promulgate rules pursuant to chapter 14, the Administrative Procedure Act, to implement this section.

252.292 COMMUNITY SERVICES CONVERSION PROJECT.

Subdivision 1. **Commissioner's duties; report.** For the purposes of section 252.291, subdivision 3, the commissioner of human services shall ask counties to present proposals for the voluntary conversion of services provided by community intermediate care facilities for persons with developmental disabilities to services provided under home and community-based services.

The commissioner shall report to the legislature by March 1, 1988, on the status of the community services conversion project. The report must include the project's cost, the number of counties and facilities participating, the number and location of decertified community intermediate care beds, and the project's effect on residents, former residents, and employees of community intermediate care facilities for persons with developmental disabilities.

Subd. 2. **County proposals.** (a) The commissioner may approve county proposals within the limitations of this section. To be considered for approval, county proposals must contain the following information:

(1) specific plans for the development and provision of alternative services for residents moved from intermediate care facilities for persons with developmental disabilities;

(2) time lines and expected beginning dates for resident relocation and facility closure; and

(3) projected caseloads and expenditures for intermediate care facilities for persons with developmental disabilities and for home and community-based services.

(b) Counties must ensure that residents discharged from facilities participating in the project are moved to their home communities whenever possible. For the purposes of this section, "home community" means the county of financial responsibility or a county adjacent to the county of financial responsibility. The commissioner shall have the sole authority to waive this requirement based on the choice of the person or the person's legal representative, if any.

(c) County proposals must comply with the need determination procedures in sections 252.28 and 252.291, the responsibility for persons with developmental disabilities specified in section 256B.092, the requirements under United States Code, title 42, sections 1396 et seq., and section 256B.501, and the rules adopted under these laws.

(d) The commissioner shall give first priority to proposals that:

(1) respond to the emergency relocation of a facility's residents;

(2) result in the closing of a facility;

(3) demonstrate that alternative placements will be developed based on individual resident needs and applicable federal and state rules; and

(4) demonstrate savings of medical assistance expenditures. The commissioner shall give second priority to proposals that meet all of the above criteria except clause (1).

(e) The commissioner shall select proposals that best meet the criteria established in this subdivision within the appropriations made available for home and community-based services. The commissioner shall notify counties and facilities of the selections made and approved by the commissioner.

(f) For each proposal approved by the commissioner, a contract must be established between the commissioner, the county where the facility is located, and the participating facility. The contract must address the items in this subdivision and must be consistent with the requirements of this section.

Subd. 3. Home and community-based services. Home and community-based services shall be allocated to participating counties to replace intermediate care facility services for persons with developmental disabilities that are decertified through the project. One additional home and community-based services placement shall be provided for each current resident of an intermediate care facility for persons with developmental disabilities who chooses and is eligible for home and community-based services. The placement must meet applicable federal and state laws and rules. Additional home and community-based services placements will not be authorized for persons transferred to other intermediate care facilities for persons with developmental disabilities, including state hospitals, or to nursing homes licensed under chapter 144A, or for persons determined ineligible for home and community-based services.

The county must provide quarterly reports to the commissioner regarding the number of people moving out of participating facilities each month and their alternative placement. County actions that result in a denial of services, failure to act with reasonable promptness, suspension, reduction, or termination of services may be appealed by affected persons under section 256.045.

Subd. 4. Facility rates. For purposes of this section, the commissioner shall establish payment rates under section 256B.501 and Minnesota Rules, parts 9553.0010 to 9553.0080, except that, in order to facilitate an orderly transition of residents from community intermediate care facilities for persons with developmental disabilities to services provided under the home and community-based services program, the commissioner may, in a contract with the provider, modify the effect of provisions in Minnesota Rules, parts 9553.0010 to 9553.0080, as stated in clauses (1) to (9):

(1) extend the interim and settle-up rate provisions to include facilities covered by this section;

(2) extend the length of the interim period but not to exceed 12 months. The commissioner may grant a variance to exceed the 12-month interim period, as necessary, for facilities which are licensed and certified to serve more than 99 persons. In no case shall the commissioner approve an interim period which exceeds 24 months;

(3) waive the investment per bed limitations for the interim period and the settle-up rate;

(4) limit the amount of reimbursable expenses related to the acquisition of new capital assets;

(5) prohibit the acquisition of additional capital debt or refinancing of existing capital debt unless prior approval is obtained from the commissioner;

(6) establish an administrative operating cost limitation for the interim period and the settle-up rate;

(7) require the retention of financial and statistical records until the commissioner has audited the interim period and the settle-up rate;

(8) require that the interim period be audited by a certified or licensed public accounting firm; or

(9) change any other provision to which all parties to the contract agree.

252.293 EMERGENCY RELOCATIONS.

Subdivision 1. **Emergency transfers.** In emergency situations, the commissioner of human services may order the relocation of existing intermediate care facility for persons with developmental disabilities beds, transfer residents, and establish an interim payment rate under the procedures contained in Minnesota Rules, part 9553.0075, for up to two years, as necessary to ensure the replacement of the original services for the residents. The payment rate must be based on projected costs and is subject to settle up. An emergency situation exists when it appears to the commissioner of human services that the health, safety, or welfare of residents may be in jeopardy due to imminent or actual loss of use of the physical plant or damage to the physical plant making it temporarily or permanently uninhabitable. The subsequent rate for a facility providing services for the same resident following the temporary emergency situation must be based upon the costs incurred during the interim period if the residents are permanently placed in the same facility. If the residents need to be relocated for permanent placements, the temporary emergency location must close and the procedures for establishing rates for newly constructed or newly established facilities must be followed. This provision regarding emergency situations does not apply to facilities placed in receivership by the commissioner of human services under section 245A.12 or 245A.13, or facilities that have rates set under section 252.292, subdivision 4, or to relocations of residents to existing facilities.

Subd. 2. **Approval of temporary locations.** The commissioner of human services shall notify the commissioner of health of the existence of the emergency and the decision to order the relocation of residents. This notice shall also identify the temporary location or locations selected by the commissioner of human services for the relocation of the residents. Notwithstanding the provisions of section 252.291, the commissioner of health may license and certify the temporary location or locations as an intermediate care facility for persons with developmental disabilities if the location complies with the applicable state rules and federal regulations. The facility from which the residents were relocated shall not be used to house residents until the commissioner of human services authorizes the return of residents to the facility and the commissioner of health verifies that the facility complies with the applicable state and federal regulations. If the temporary location closes under the provisions of subdivision 1, the license and certification of the temporary location is voided. The voiding of the license and certification shall not be considered as a suspension, revocation, or nonrenewal of the license or as an involuntary decertification of the facility.

252.294 CRITERIA FOR DOWNSIZING OF FACILITIES.

The commissioner of human services shall develop a process to evaluate and rank proposals for the voluntary downsizing or closure of intermediate care facilities for persons with developmental disabilities using the following guidelines:

- (1) the extent to which the option matches overall policy direction of the department;
- (2) the extent to which the option demonstrates respect for individual needs and allows implementation of individual choice;
- (3) the extent to which the option addresses safety, privacy, and other programmatic issues;
- (4) the extent to which the option appropriately redesigns the overall community capacity; and

(5) the cost of each option.

The process shall, to the extent feasible, be modeled on the nursing home moratorium exception process, including procedures for administrative evaluation and approval of projects within the limit of appropriations made available by the legislature.

The new facilities must be accessible to persons with disabilities and must be located on a different site or sites in Hennepin County. The payment rate at this facility is \$274.50.

252.30 AUTHORIZATION TO MAKE GRANTS FOR COMMUNITY RESIDENTIAL FACILITIES.

The commissioner of human services may make grants to nonprofit organizations, municipalities or local units of government to provide up to 25 percent of the cost of constructing, purchasing or remodeling small community residential facilities for persons with developmental disabilities allowing such persons to live in a homelike atmosphere near their families. Operating capital grants may also be made for up to three months of reimbursable operating costs after the facility begins processing applications for admission and prior to reimbursement for services. Repayment of the operating grants shall be made to the commissioner of human services at the end of the provider's first fiscal year, or at the conclusion of the interim rate period, whichever occurs first. No aid under this section shall be granted to a facility providing for more than 16 residents in a living unit and with more than two living units. Prior to any disbursement of funds the commissioner shall review the plans and location of any proposed facility to determine whether such a facility is needed. The commissioner shall promulgate such rules for the making of grants and for the administration of this section as the commissioner deems proper. The remaining portion of the cost of constructing, purchasing, remodeling facilities, or of operating capital shall be borne by nonstate sources including federal grants, local government funds, funds from charitable sources, gifts and mortgages.

252.31 [Repealed, 2014 c 286 art 7 s 14]

252.32 FAMILY SUPPORT PROGRAM.

Subdivision 1. **Program established.** In accordance with state policy that all children are entitled to live in families that offer safe, nurturing, permanent relationships, and that public services be directed toward preventing the unnecessary separation of children from their families, and because many families who have children with disabilities have special needs and expenses that other families do not have, the commissioner of human services shall establish a program to assist families who have dependent children with disabilities living in their home. The program shall make support grants available to the families.

Subd. 1a. **Support grants.** (a) Provision of support grants must be limited to families who require support and whose dependents are under the age of 25 and who have been certified as persons with disabilities under section 256B.055, subdivision 12, paragraphs (a), (b), (c), (d), and (e). Families who are receiving: home and community-based waived services for persons with disabilities authorized under section 256B.092 or 256B.49; personal care assistance under section 256B.0652; or a consumer support grant under section 256.476 are not eligible for support grants.

New grant allocations, beginning July 1, 2019, are intended to support families with dependents age 14 through 24 to support transition-related activities.

Families whose annual adjusted gross income is \$60,000 or more are not eligible for support grants except in cases where extreme hardship is demonstrated. Beginning in state fiscal year 1994, the commissioner shall adjust the income ceiling annually to reflect the projected change in the average value in the United States Department of Labor Bureau of Labor Statistics Consumer Price Index (all urban) for that year.

(b) Support grants may be made available as monthly subsidy grants and lump-sum grants.

(c) Support grants may be issued in the form of cash, voucher, and direct county payment to a vendor.

(d) Applications for the support grant shall be made by the legal guardian to the county social service agency. The application shall specify the needs of the families, the form of the grant requested by the families, and the items and services to be reimbursed.

Subd. 2. [Repealed, 1Sp2003 c 14 art 3 s 60]

Subd. 3. **Amount of support grant; use.** (a) Support grant amounts shall be determined by the county social service agency. Services and items purchased with a support grant must:

(1) be over and above the normal costs of caring for the dependent if the dependent did not have a disability;

(2) be directly attributable to the dependent's disabling condition; and

(3) enable the family to delay or prevent the out-of-home placement of the dependent.

(b) The design and delivery of services and items purchased under this section must be provided in the least restrictive environment possible, consistent with the needs identified in the individual service plan.

(c) Items and services purchased with support grants must be those for which there are no other public or private funds available to the family. Fees assessed to parents for health or human services that are funded by federal, state, or county dollars are not reimbursable through this program.

(d) In approving or denying applications, the county shall consider the following factors:

- (1) the extent and areas of the functional limitations of a child with a disability;
- (2) the degree of need in the home environment for additional support; and
- (3) the potential effectiveness of the grant to maintain and support the person in the family environment.

(e) The maximum monthly grant amount shall be \$250 per eligible dependent, or \$3,000 per eligible dependent per state fiscal year, within the limits of available funds and as adjusted by any legislatively authorized cost of living adjustment. The county social service agency may consider the dependent's Supplemental Security Income in determining the amount of the support grant.

(f) Any adjustments to their monthly grant amount must be based on the needs of the family and funding availability.

Subd. 3a. Reports and allocations. (a) The commissioner shall specify requirements for quarterly fiscal and annual program reports according to section 256.01, subdivision 2, paragraph (o). Program reports shall include data which will enable the commissioner to evaluate program effectiveness and to audit compliance. The commissioner shall reimburse county costs on a quarterly basis.

(b) The commissioner shall allocate state funds made available under this section to county social service agencies on a calendar year basis. The commissioner shall allocate to each county first in amounts equal to each county's guaranteed floor as described in clause (1), and second, any remaining funds will be allocated to county agencies to support children in their family homes.

(1) Each county's guaranteed floor shall be calculated as follows:

(i) 95 percent of the county's allocation received in the preceding calendar year;

(ii) when the amount of funds available for allocation is less than the amount available in the preceding year, each county's previous year allocation shall be reduced in proportion to the reduction in statewide funding, for the purpose of establishing the guaranteed floor.

(2) The commissioner shall regularly review the use of family support fund allocations by county. The commissioner may reallocate unexpended or unencumbered money at any time to those counties that have a demonstrated need for additional funding.

(c) County allocations under this section will be adjusted for transfers that occur according to section 256.476 or when the county of financial responsibility changes according to chapter 256G for eligible recipients.

Subd. 3b. Federal funds. The commissioner and the counties shall make every reasonable effort to maximize the use of federal funds for family supports.

Subd. 3c. County board responsibilities. County boards receiving funds under this section shall:

(1) submit a plan to the department for the management of the family support grant program. The plan must include the projected number of families the county will serve and policies and procedures for:

(i) identifying potential families for the program;

(ii) grant distribution;

(iii) waiting list procedures; and

(iv) prioritization of families to receive grants;

- (2) determine the eligibility of all persons proposed for program participation;
- (3) approve a plan for items and services to be reimbursed and inform families of the county's approval decision;
- (4) issue support grants directly to, or on behalf of, eligible families;
- (5) inform recipients of their right to appeal under subdivision 3e;
- (6) submit quarterly financial reports under subdivision 3b and indicate the annual grant level for each family, the families denied grants, and the families eligible but waiting for funding; and
- (7) coordinate services with other programs offered by the county.

Subd. 3d. **Appeals.** The denial, suspension, or termination of services under this program may be appealed by a recipient or application under section 256.045, subdivision 3.

Subd. 4. [Repealed, 1997 c 203 art 7 s 29]

Subd. 5. **Compliance.** If a county board or grantee does not comply with this section, the commissioner may recover, suspend, or withhold payments.
